Medical.

A SIGNIFICANT FACT.—A distinguished statesman, on being asked what are the principal productions of New-England, replied: New-England MAKES MEN. The force of his reply consisted in the fact that New-Englanders have a world-wide reputation as a race of hardy, athletic men and women, strong and vigorous in body and mind. What the man SHALL BE mainly depends on the care and treatment of the child. Nearly every New-England mother provides MRS. WINSLOW'S SOOTHING SYRUP for her BABA—there is no section of country on earth where it has been SO LONG AND SO UNIVERSALLY USED.

THE QUESTION ANSWERED.

As the question is frequently asked, "WHO IS MRS. WINSLOW?" we will simply say that she a lady who, for upward of thirty years, has untiringly devoted her time and talents as a Female Physician and Nurse, principally among children. She has especially studied the constitution and wants of this numerous class, so generally overlooked or carelessly treated by the Faculty in too many instances; and, as a result of this effort and practical knowledge, obtained in a lifetime spent as a nurse and physician, she has compounded a SOOTHING SYRUP for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, MRS. WINSLOW is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is this the case in this city. Vast quantities of the SOOTHING SYRUP are DAILY sold and used here. We think MRS. WINSLOW has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of MRS. WINSLOW'S SOOTHING SYRUP. Try it, mothers—TRY IT NOW.—[Ladies' Visitor, New-York City.

A DOWN-TOWN MERCHANT,

Having passed several sleepless nights, disturbed by the agonies and cries of a suffering child, and becoming convinced that MRS. WINSLOW'S SOOTHING SYRUP was just the article needed, procured a supply for the child. On reaching home and acquainting his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homeopathy. That night the child passed in suffering, and the parents without sleep. Returning home the day following, the father found the baby still worse, and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties, and left the father with the child. During her absence he administered a portion of the SOOTHING SYRUP to the baby, and said nothing. That night all hands slept well, and the little fellow awoke in the morning bright and happy. The mother was delighted with the sudden and wonderful change, and although at first offended with the deception practiced upon her, has continued to use the SYRUP, and suffering, crying babies and restless nights have disappeared. A single trial of the SYRUP never yet failed to relieve the baby and overcome the prejudices of the mother.

MOTHERS! MOTHERS!! MOTHERS!!!

An old nurse for children. Don't fail to procure MRS. WINSLOW'S SOOTHING SYRUP for children teething. It has no equal on earth. No mother who has ever tried MRS. WINSLOW'S SYRUP for children will ever consent to let her child pass through the distressing and critical period of teething without the aid of this invaluable preparation. If life and health can be estimated by dollars and cents, it is worth its weight in gold. Millions of bottles are sold every year in the United States. It is an old and well-tried remedy.

THIS IS THE SEASON OF THE YEAR

When children teething are almost certain to be afflicted with dysentery and diarrhea. MRS. WINSLOW'S SOOTHING SYRUP is a NEVER-FAILING REMEDY for these diseases, and will give immediate relief from all pain and distress incident to the process of teething. Every mother should provide it for her children.

Druggists everywhere now keep MRS. WINSLOW'S SOOTHING SYRUP for children teething. No medicine in the United States sells like it. It is a standard medicine, and its FAME IS WORLD-WIDE. Physicians order and use it wherever its magical effects have been witnessed.

Millions of bottles of MRS. WINSLOW'S SOOTHING SYRUP are sold every year in the United States.

WEDNESDAY, July 17—P. M.

There was an entire change in the tone of the stock market to-day, and the depressed feeling of yesterday was succeeded by great buoyancy, with a greater than usual amount of transactions. The decline yesterday was the result of sales to realize profits, but new buyers came in to-day and turned the current of speculation again upward. The bears did not offer any important resistance, and the feeling of the street appears to be almost unanimous that the movement for some time to come will be upward. The forward movement of the army under Gen. McDowell, and the successes of Gens. Patterson and McClellan, have had a very favorable influence, as indicating active measures upon the part of the Government to suppress rebellion, and its ability to do so. This feeling is spreading through all classes of the community, but its effects are most immediately apparent in the stock market. Several large blocks of stocks, bought at lower prices, especially of Galena and Rock Island, have been thrown on the market within a few days, but have only temporarily checked the advance. Between the Boards the market was active, and higher; Central selling at 78¾, Galena 65¼, Toledo 31¼, Erie 27¾, Hudson River 37, &c. At the 2d Board there was a very active and excited market, partly the result of favorable rumors from the seat of war, and an advance in nearly every description was established. The transactions were unusually large for a second session. The advance on morning Board prices was 3 ⅌ cent in Rock Island, 1¼ in Toledo, 1¼ in Galena, 1¼ in Illinois Central, 1¼ in New-York Central, 1¼ in Quincy, 2 in Erie, 1¼ in Hudson River, 1 in Harlem, ¾ in Michigan Central, 1¼ in Michigan Southern, &c. The Border State Stocks were active, and advanced generally 1@1¼ ⅌ cent. In Government Securities the business was moderate at about previous quotations. Considerable supplies have been put on the market, within a few days, by original takers, and the market has absorbed them for investment without yielding. At the closing, prices were easier, as follows: Tennessee State 6s, 44¼@44½; Missouri State 6s, 44@44½; Cumberland Coal Co., 5@6; Pacific Mail Steamship Co., 75¼@75½; New-York Central Railroad, 78¾@79; Erie Railroad, 28¼@28½; Hudson River Railroad, 37¼@37½; Harlem Railroad, 12¼@12; Harlem Railroad, Preferred, 27¼@28; Reading Railroad, 39@39¼; Michigan Central Railroad, 45¼@45½; Michigan Southern and Northern Indiana Railroad, 15@15; Michigan Southern and Northern Indiana, Guaranteed, 32¼@32½; Panama Railroad, 110½@111; Illinois Central Railroad, 69@69; Galena and Chicago Railroad, 66¼@66½; Chicago and Rock Island Railroad, 44@44½; Chicago, Burlington and Quincy Railroad, 62¼@63¼; Illinois Central, 92@92.

The business in foreign bills for this steamer has been light, but rates are unchanged. Sterling is 104¼@107. France, 5 38¼@5 27½. The supply of outside bills was limited, with a light demand. Some Southern Bank Sterling drawn against cotton sold at 106.

Freights—To Liverpool the engagements include 50 hhds. Tobacco at 30s.; 22,000 bush. Wheat at 9½@9¾d., and 2,800 bbls. Flour at 2s. 6d.@2s. 7½d. To London, 33,000 bush. Wheat, in ship's bags, at 10@11d., the latter rate taken early in the day; 1,400 bbls. Flour at 3s. 7½d., in a foreign vessel; 3,000 bbls. Flour, in American vessel, at 3s., and 200 hhds. Tobacco at 45s. To Havre, 12,000 bush. Wheat at 18c., in shipper's bags of foreign vessel of 310 tons to Bristol, with wheat in bulk, at 11½d., and Oil Cake at 35s. Two British schooners of 170 tons each to a Windward Island, at 75c. ⅌ bbl. A British schooner of 114 tons to the south side of Cuba and back, and an American brig of 250 tons out to the West Indies, both on private terms.

The business of the Sub-Treasury was: Receipts, $204,083 42—for Customs, $31,000; Payments, $337,199 26; Balance, $6,722,777 14.

The business of the Clearing-House to-day was $14,383,000. Treasury Notes are rather scarce, and the two-year 6 ⅌ cents are selling at 99¾@99¾ ⅌ cent. The Corn Exchange Bank has declared a dividend of 3½ ⅌ cent, payable August 1. The interest on the first mortgage bonds of the Hudson River Railroad Company will be paid August 1, at the Treasurer's office. The Money market continues without change. Paper of "gilt-edged" character continues in very moderate supply, and goes freely in the discount houses at 5@7 ⅌ cent. Occasional transactions of very favorite signatures are made at still lower figures. Demand loans are 4@6 ⅌ cent, with an oversupply of capital.

Mr. August Belmont left in the Persia to-day, probably for the purpose of feeling the pulses of foreign capitalists in regard to the loan authorized by Congress to be negotiated abroad. The times are not propitious for such a negotiation, as the proceeds must be remitted in gold, but the rate of interest may be a temptation.

The Medina Tribune states that it is doubtful whether the depositors of the Medina Bank will receive more than 25 cents on the dollar.

The Montreal Gazette says that the resignation of the local directors of the Grand Trunk Railway has been accepted, and that two commissioners are on their way to manage the road and to look after the interests of the company.

The Cincinnati Commercial says:

Business in general seems to have assumed a rather more cheerful aspect during the week, and a greater degree of confidence is manifested, in the hope that the prostration of trade has reached and passed its lowest level. There was a falling off in the demand for money on Saturday, as compared with Thursday and Friday. Otherwise there was no change. Rates on good 60 day paper remain at 10@12 ⅌ cent. Call loans are made on acceptable security at 6@8 ⅌ cent. Money is plenty. The question of putting Kentucky currency at par is beginning to be agitated.

At Chicago *The Tribune* says:

Nothing has occurred during the day to vary the dull routine which seems to have taken possession of the financial affairs of the city. The opening of the Auditor's office on Monday has revived activity in uncurrent Illinois money, the quotations for which will be found in our advertising columns. It will be noticed that owing to competition among purchasers, and the improvement in the price of stocks, the rates of purchase are considerably better. The "stuff" is still poor enough, however, and the sooner it is all converted into money the better. There will be ample use for all we can command, as soon as the new crop is ready for market.

At Philadelphia Money continues to be very easy, with rates unchanged. The absence of any general demand for accommodations leaves the business of discounting almost entirely in the hands of the banks; most of the transactions on the street are on collateral at various rates from 6 to 9 ⅌ cent.

The contractors of the Troy and Greenfield railroad have suspended work upon it, including operations on the Hoosac tunnel. *The Hartford Times* thus explains the reason:

The reason of the stoppage is said to be the action of Mr. Whitwell, the new State Engineer, lately appointed by Gov. Andrew. Mr. Whitwell, it seems is a Boston man, who has decided upon demanding a better order of work on the road than any that has yet been done, and his terms involve so great an additional cost that the contractors have resolved to suspend entirely rather than stand the extra expense. The Legislature last year voted a certain sum for every 1,000 feet completed of the tunnel through the mountain, and also granted $650,000 for the completion of the road from Greenfield through Shelbourne Falls and Charlemont to the mouth of the tunnel, a distance of 25 miles. This sum was to be advanced in proportion as the work of excavation progressed, under the direction of the State Engineer. Of this sum, $450,000 have been already paid out, and the road from Greenfield to the tunnel is nearly finished.

The Ontonagon (Lake Superior) *Miner* states that the representatives of the French company have been making investigations among the mines of the Ontonagon district in relation to the establishment of smelting work, and that the result of their investigations will undoubtedly be the early erection of such works. The fuel used will be wood. In June, the Isle Royale Mine, turned out 65 tons of copper, the Franklin 80, the Pewabic 85, the Quincy 140, and the Huron, Hancock, and Portage 22 tons, making an aggregate of 396 for the month.

The Boston Post says:

The financial and commercial world feels better, and although many bright and shining lights have been put out during the "Year of Treason," yet it is manifest that the community has quite enough of means, pluck and enterprise to go ahead rapidly in the way of buying and selling. Property has shrunk, because, for the time, it paid little or nothing—individual fortunes have disappeared, because the assets could not be collected, but the community stood firm and very rich, and it now holds a sufficient number of members able and willing to make money out of the general rise that is as sure to come as is the sun to shine.

The Milwaukee Sentinel of Monday says:

There was a much better feeling in the money market on Saturday than at the close of the previous week. Exchange was 3 to 5 ⅌ cent lower, currency was circulating freely, and business of all kinds was much more active. Confidence in our currency is evidently returning rapidly, and all that is now needed to put our commerce again into the full tide of operation is the official confirmation of what the banks have been doing toward making their securities good with the State. That we shall probably have in the course of a few days. On Saturday exchanges was sold pretty freely by some of the banks and on the street at 10@12 ⅌ cent premium, and for larger amounts the latter rate could not readily be realized. On 'Change, Eastern currency and gold were sold in amounts to suit purchasers at 12 ⅌ cent premium for current Wisconsin money. We learn from undoubted authority that large amounts of gold which were bought under the panic excitement at 11@15 ⅌ cent premium, have been sent back here for sale, the parties expecting to get what it cost them.
