Small samples in labeled boxes to accompany the proposals, when practicable. Separate proposals will be required for each article, in which reference must be made to their proper samples. Certificates of inspection will be required for all the meats, certifying, on the part of the seller, their present quality and condition. The meats will also be examined and passed upon by Robert P. Getty, Inspector on the part of the United States. The seller's name, with date of purchase, required on each package. Boxes to be strapped with light green hickory straps. All the articles will be carefully inspected before their delivery, and carefully compared with the retained samples. Bidders may propose for the whole or any part of each article. The stores are to be delivered, free of all charge to the United States, at convenient and ordinary points of delivery in the cities of New-York or Brooklyn. Such portion of the articles, except meat, as may be required to be delivered at the public storehouse, No. 6 State-st., shall be so delivered without cost to the United States. Persons not having the precise variety of stores above described, but having articles of similar kinds, are at liberty to send in proposals, which will receive attention according to price and adaptation to the wants of the service.
Each bid must contain a copy of the printed advertisement to which it refers, and must also have the signatures of two responsible sureties, guaranteeing the fulfillment of the obligations of the bidder, in case any part of his proposal shall be accepted. Proposals must be indorsed, "Proposals for Subsistence Stores No. 1," and must be sent, with the samples, to the office, No. 4 State-st. A. B. EATON, Major and Com. Sub. U. S. A.

TREASURY DEPARTMENT, WASHINGTON, Sept. 3, 1861.
PROPOSALS FOR REVENUE VESSELS.—The Department will receive proposals, accompanied by models, plans, and specifications until 12 o'clock, MONDAY, 30th September, 1861, for the complete construction and equipment of two Steam Screw Revenue Vessels of 75 tuns each, and of three Steam Screw Revenue Vessels of 500 tuns each, United States measurement.
Proposals will only be considered from successful steamship builders actually engaged in that business and the name of the marine steam-engine establishment at which the steam machinery is to be made must be stated, and will have due weight.
The load draft of water of the vessels of 750 tuns must not exceed ten (10) feet, and they will be armed with one rifled pivot gun of 8,000 lbs. weight, two 32-pounder guns of 42 cwt., and one heavy navy 24-pounder howitzer on the top gallant forecastle. The complement for each vessel to be 120 persons, carrying provisions for sixty days, and 2,800 gallons of water in tanks; to be furnished with a condenser for distilling potable water.
The vessels to be schooner-rigged, with flying gaff topsails, square sail, and yard to set flying.
The load draft of water of the vessels of 500 tuns must not exceed 8½ feet, and they will be armed each with one rifled pivot gun of 8,000 lbs. weight, two 32-pounders of 42 cwt., and one light navy 24-pounder howitzer on the top gallant forecastle.
The complement for each vessel will be 95 persons, carrying provisions for sixty days, and 2,000 gallons of water in tanks, and to be furnished with a condenser for distilling potable water.
The vessel to be schooner-rigged, with flying gaff topsails, square sail, and yard to set flying.
The proposal must be for the hull, spars, rigging, sails, and canvas work, mast coats, windlass, hammocks and bags, boats, anchors and cables, tanks, casks, binnacles, bells, furniture for cabins and mess rooms, cooking apparatus and utensils complete, repair machinery, spare work, coal-bunkers filled with Buck Mountain coal, with all the equipments and outfits of every kind, and in all respects ready to receive her officers, men, provisions, and armament, and at once proceed to sea.
The armaments, provisions, nautical instruments, and charts only will be provided by the Government.
It is desirable to have the highest attainable speed, which must be stated in the offer, together with the length of time it can be maintained, and the quantity of coal that can be carried in the bunkers for that speed, which should not be less than for ten days of twenty-four hours each.
The specifications must describe fully the material to be used; the manner and size of fastening; the detail of the size, finish, and arrangement of the machinery and of the various equipments and outfits included in the proposal.
The plans must be working drawings, from which the vessel and machinery can be built, showing the allotment of space for accommodations, steam-room, magazines, shell-rooms, disposition of coal and convenient stowage must be provided.
It is to be understood that in the contract a guarantee will be inserted of the fulfillment of the conditions of draft of water, speed, fuel, satisfactory working of the machinery, and other points required, with a forfeiture in case of failure.
The bidders must state the least time from the signing of the contract or acceptance of the proposal within which they will agree to complete the vessels ready for sea, and deliver them at any ports they may name. The total amount for which they will engage to do all that is required in the foregoing advertisement and to be embraced in their specifications and plans, and the bids must be accompanied by the guarantee required by law, that if awarded, they will execute the contract.
Payments will be made at four different intervals as the work progresses, retaining one-fifth (1-5) of the whole amount for ninety (90) days after the delivery of the vessel, to repair any defects that may be discovered within that time on trial at sea.
The Department reserves the right to accept the proposals made in conformity with the conditions prescribed, which it may consider most to the interests of the Government, and to combine the greatest number of advantages, and to reject any or all of them at its option.
A competent person will be appointed by the Department to superintend the construction and equipment of each of the vessels.
The specifications, plans, and models of parties not obtaining contracts may be withdrawn by them. S. P. CHASE,
Sept. 19—3tw13tSept. Secretary of the Treasury.

WEDNESDAY, Sept. 18—P. M.

The Stock market this morning was decidedly better, and a general advance in the share list was established with more activity. The absence of ill news has an encouraging effect upon the bulls, while any attempt to buy results in an advance of prices by reason of the moderate supplies of cash stock on the market. The bears did not offer their options quite so freely, and the commission houses had a large amount of orders for buyers' options. Between the Boards a purchase of $50,000 was made for foreign account at 90. At the Second Board the market was fairly active and generally firm. Pacific Mail was the most active, selling up to 82¾ against 81 yesterday. Rock Island improved ¼ ⅌ cent, and Central was steady. In State bonds the dealings were to fair extent, and prices generally marked higher. Government bonds were also ¼@¼ ⅌ cent higher, with good demand. The Sixes, 1881, sold at 90, and a large amount, $70,000, of the 5's, 1874, sold at 80. The Six ⅌ cent Treasury Notes were in demand at 98¼, with very few offering. At the close the market was strong at the following prices: United States 6s, 1881, registered, 90@90¼; United States 5s, 1874, coupon, 80@80¼; Tennessee State 6s, 42¼@43¼; Virginia State 6s, 51¼@53; Missouri State 6s, 43@43¼; Delaware and Hudson Canal Company, 83@83¼; Pennsylvania Coal Company, 76@77; Cumberland Coal Company, Preferred, 4@5; Pacific Mail Steamship Company, 82¼@83; New-York Central Railroad, 72¾@72¼; Erie Railroad, 25¼@26; Hudson River Railroad, 33¼@34; Harlem Railroad, 10¼@10¼; Harlem Railroad, Preferred, 25@26; Reading Railroad, 35@35¼; Michigan Central Railroad, 42@42¼; Michigan Southern and Northern Indiana Railroad, 13¼@13¼; Michigan Southern and Northern Indiana Guaranteed, 30¼@30¾; Panama Railroad Company, 108¼@109; Illinois Central Railroad Scrip, 65¼@65¼; Galena and Chicago Railroad, 69¼@69¾; Cleveland and Toledo Railroad, 29¼@29¾; Chicago and Rock Island Railroad, 43¼@43¾; Chicago, Burlington and Quincy Railroad, 61@62; Illinois Central Bonds, 7s, 92@93.

The Foreign Bill market is inactive but steady. Leading drawers are asking at 109@109¼. The supply of commercial bills continues light, and the demand is not active.

Freights are rather firmer, with more offerings. To Liverpool, the engagements include 30,000 bush. Corn, in ship's bags, at 10½d.; 500 hhds. Tobacco at 37s. 6d.; 30,000 bush. Wheat at 10½d. in bulk, and 10¾d.@11d. in ship's bags; 100 bbls. Flour at 2s. 9d.; 30 tuns Oil at 35s.; 100 pkgs. Butter at 40s. To London, 20,000 bush. Wheat at 13d.@13½d., in bulk and ship's bags; 2,400 bbls. Flour at 3s. 4½d.@3s. 6d.; 200 pkgs. Lard at 40s.; 350 hhds. Tobacco 50s.; 30 tuns Oil at 37s. 6d.; 100 pkgs. Lard at 40s.; 5 tuns of heavy goods at 37s. 6d. To Bristol, 4,000 bush. Wheat, in bulk, at 12½d. To Havre, 30,000 bush. Wheat at 23d. in shippers bags, and 2,500 bbls. Flour at 75c.; also, a vessel was chartered with Wheat, in shippers bags, at 24c. and Flour at 80c.

The business of the Sub-Treasury was: Receipts, $459,446 30—for Customs $6,000; Treasury Notes, $145,000; Payments, $1,389,985 83; Balance, $14,265,752 47.

The receipts of the Galena Road for the second week of September are unexpectedly favorable, the decrease being small, although comparing with a large week last year. It is understood that the Directors have agreed to declare a dividend of 5 ⅌ cent about the 1st of October, as they have the money on hand, and the maturing bonds of February, 1862, are provided for. This road earned, the second week of September:

Second week, 1861	$51,437
Second week, 1860	56,309
Decrease	$4,872

The Michigan Central Railroad earned, the first week of September:

First week, 1861	$44,758 57
First week, 1860	59,172 18
Decrease	$14,413 61

The Rock Island Road earned in the same period:

1861	$35,757
1860	33,191
Decrease	$2,566

The subscription to the National Loan is more favorable to-day notwithstanding the unpleasant weather. It reached $445,000, and is made up mostly of small sums. Mr. Wm. B. Astor, it is understood, has taken $50,000. The establishment of agencies all over the country will hereafter cut down materially the applications at our Sub-Treasury. The Panama Road intends to make still further investments in this Loan, and we hear of the intention in a certain quarter to invest largely in this and other National Loans. We are not at liberty to give the name of the individual at present, but if we could the public would receive the announcement with the greatest satisfaction.

The Banks will pay in to-morrow another 10 ⅌ cent on the loan taken by them, making 66 ⅌ cent in all paid up. They received $700,000 today from the Sub-Treasury for notes sold by the Government. These payments of the Banks do not reduce the specie reserve as that was anticipated, the actual amount in bank being greater then it was before the last $3,500,000 was paid in. Of that payment of $558,000 was made in overdue 6 ⅌ cent Treasury Notes. Some of the banks have now fallen below 25 ⅌ cent of specie to net deposits, and the Loan Committee will to-morrow commence the issue of loan certificates to be used in payments of balances at the Clearing-House. They will be based upon Treasury Notes.

Money is working easier again and several parties were offering to lend at 5 ⅌ cent on first-class securities. The current rate, however, is 6 ⅌ cent. Very leading paper is 6@7 ⅌ cent.

Only $2,000 of demand Treasury Notes came in for redemption to-day, and large amounts of small denominations could have been paid out. The public would absord a large amount if they could be had.

A letter from Albany, dated last evening, says:

"The subscription books for the $7.30 loan were opened at the Albany Exchange Bank at 10 o'clock this morning, and up to 2 o'clock about $50,000 were subscribed, in sums of from $50 to $5,000. Our community will do all in their power to aid the financial arm of the Government. There have been some $200,000 to $250,000 remitted from our city before opening the agency here, to the office of the Assistant Treasurer in New-York, on account of the loan."

A dispatch, published in THE TRIBUNE yesterday, announces the suspension of specie payment by the New-Orleans banks. This event has been looked for for some time past, not as a financial necessity, but under an arbitrary order from the Government. These banks hold some $14,000,000 in specie, and have always been the strongest of the Southern banks. This placer has undoubtedly been too attractive for the Confederate authorities, and they have undoubtedly ordered this step as the first toward an exchange of their gold for Confederate Treasury notes.

A private letter from the Treasury Department at Washington gives a glimpse at its present activity:

"Nearly half the clerical force of the Department are engaged on the new ⅌5, ⅌10, and ⅌20 notes. It was past midnight when we left last night, and the result of our labors was a pile of notes ready for circulation to the amount of ⅌900,000."

The Binghamton Daily Republican says:

"We learn that our citizens are nobly responding to the appeal of the Secretary of the Treasury in behalf of the patriotic loan, and that already from ⅌15,000 to ⅌20,000 have been forwarded through the Broome County and Susquehanna Valley banks, for the 7 3-10 ⅌ cent certificates."

The following is a summary of the condition of the banks of the three principal cities, as shown by their last weekly statements:

	Loans.	Deposits.	Specie.	Circul'n.
N. York, Sept. 16.	$136,565,624	$108,780,376	$31,229,412	$8,702,620

COAL—The demand for domestic is good, and the market is very firm; the arrivals are liberal, but the stock is not large; sales from yard at ⅌4@⅌5 for small and large size. Foreign continues dull; a cargo of Liverpool Steam sold at ⅌4, cash.
FLOUR AND MEAL—The inquiry for Western Canal Flour is less active, owing to the storm, and the extreme rates demanded. Most English orders are moderate below the current rates, and the business is restricted. The better grades are in good demand for the trade at full previous prices. The sales are 10,400 bbls. at ⅌4 70@⅌4 80 for superfine State and Western; ⅌4 65@⅌4 69 for rejected State; ⅌5 10@⅌5 25 for extra State, the latter an extreme; ⅌5 30@⅌5 35 for fancy do.; ⅌5 10@⅌5 35 for the low grades of Western extra; ⅌5 40@⅌5 50 for shipping brands of round-hoop extra Ohio, and ⅌5 50@⅌6 10 for trade brands do. Canadian Flour is steady; the inquiry is moderate, chiefly for good brands. Sales of 200 bbls. at ⅌5 10@⅌5 50 for extras. Southern Flour is in good request, but prices are irregular; the supply of medium brands is liberal; sales of 2,150 bbls. at ⅌5 25@⅌5 75 for mixed to good Superfine Baltimore, &c., and ⅌5 80@⅌7 for extras. Rye Flour is steady; the demand is fair; sales of 250 bbls. at ⅌3 25@⅌3 50. Corn Meal is quiet; sales of 200 bbls. at ⅌2 90 for Jersey and ⅌3 10 for Brandywine. We quote:
