WEDNESDAY, April 30—P. M.

The sluggishness which characterized the Stock market last week has been changed within the last few days for great activity, and the movement culminated to-day in one of the most rampant and active markets we have ever had. The eagerness to buy created a scene of confusion in which it was almost impossible to transact business. The amount of dealings has seldom been exceeded, and the session continued until 1½ o'clock. The buyers were well distributed, and the demand includes nearly every stock and bond in the list, and in nearly every description an advance was established. The shorts were thoroughly alarmed, and bought large amounts to cover maturing contracts, in some cases, however, putting out new contracts, at long options. The flood of speculations appears to have set in again, and that the public are taking a large interest in the movement is evident from the increased orders among the commission houses. The impulse of the present activity is mainly the successes of the Union arms at New-Orleans, which gave the start to Government securities. To this has been added the glut of money, which daily increases, and fancy shares as well as everything paying interest, has caught the infection. In many cases, however, quotations are still considerably below the points touched some time since, when the basis of an upward movement was not nearly as sound as the present. The war, of course, is by no means ended, but we have taken a long stride toward it by obtaining possession of New-Orleans, and commanding the Mississippi River. At the Second Board, the tone of the market continued very buoyant, with a large amount of transactions. In the excitement of the session, a considerable portion of the dealings were not registered. In most cases higher quotations were established, but toward the close some considerable parcels of stock came on the market, and the highest points were not in all cases sustained. The registered sales of Governments are over $400,000, in addition to large private transactions. The sixes of 1881 sold at 98. The fives of 1874 at 90. The 7.30 ₱ cents at 102½, and the Indebtedness Certificates at 99, showing an advance in all descriptions. The improvement in sixes of 1881 within a week is about 4 ₱ cent. State stocks are active and better. In Railroad bonds there has been a very large movement during the day, privately and at the Board, and all first-class 7 ₱ cent bonds are rapidly approaching par. Central was among the firmest stocks, and certificates were scarce. It sold at 85½, and afterward 2,000 shares were taken in one line at 85½; this was bid at the close. Pacific Mail was also very buoyant and touched 111 bid. Panama was 126. All the Western shares were strong, but the interest was mainly centered upon Illinois Central and Toledo. The former sold at 61½, and the latter, large transactions at 43½@44, closing at 43½. The contest between the bulls and bears is very sharp in this stock. At the Third Board the market was less active and closed at: U. S. 6s, Registered, '81, 97½@98; U. S. 6s, Coupon, '81, 98; Treasury 7.30 Notes, 102½@102¾; American Gold, 102¼; Tennessee 6s, 57½@57¾; Missouri 6s, 51; Pacific Mail Steamship Company, 111@111¼; New-York Central, 85@85¼; Erie Railway, 37½@37¾; Erie Railway Preferred, 62½@62¾; Hudson River Railroad, 36¼; Harlem Railroad, 13@13¼; Milwaukee and Prairie du Chien Railroad, 27; Harlem Railroad, Preferred, 32@33; Reading Railroad, 46; Michigan Central Railroad, 56@56¼; Michigan Southern Railroad, Guaranteed, 47½@48; Panama Railroad, 125½; Illinois Central Railroad, 61@61½; Galena and Chicago Railroad, 67½, Cleveland and Toledo Railroad, 43½@43¾; Chicago and Rock Island Railroad, 56½@56¾; Cleveland and Pittsburgh Railroad, 18@19; Chicago, Burlington, and Quincy Railroad, 63.

The market is better for Sterling, and there is more than usual doing for Wednesday. Leading drawers ask 112½@112¾, and good commercial signatures bring 112 ₱ cent. Francs are 5.07½@502½.

Freights are firmer for Grain, but unchanged for most kinds of other merchandise. The offerings are rather large. To Liverpool the engagements are: 12,000 bush. Corn at 7d., in bulk; 12,000 do. Wheat at 7½d.; 3,000 bbls. Flour at 2s. 3d.; 1,000 pkgs. Bacon and Lard at 22s. 6d.; and per steamer, 1,000 pkgs. Cheese at 55s., and 400 do. Bacon at 40s. To London: 3,200 bbls. Flour at 2s. 3d.; 100 bxs. Bacon and 100 casks Shoulders at 22s. 6d. To Glasgow: 50 tons Oil and 10 tuns Wine defoots at 25s.; 700 Oars at 5d. In charters we only hear of a Norwegian bark to Cork for orders, or a port in the United Kingdom, with Grain, at 8s. ₱ quarter, to be loaded during May.

The business of the Sub-Treasury was: Receipts, $6,384,412 98—for Customs, $122,351 05; Payments, $6,382,193 03; Balance, $12,609,038 19.

The aggregate transactions, it will be seen, are very large.

The earnings of the Panama Railroad for March, 1862, were $120,882 48. This shows a gain in last year of about $11,000.

The following are the earnings of the Michigan Central Railroad Company for the third week of April:

Third week, 1862	$40,351 45
Third week, 1861	40,528 03
Decrease	$176 61

The 7.30 ₱ cent Treasury Notes have been sold largely in the street over the brokers' counters at 102½@102¾. The Indebtedness Certificates have touched 99½@99¾. The capacity of the public to absorb these objects of investment appears to be unbounded.

Gold moves slowly upward and has sold to-day at 102¼@102¾. The Canada, from Boston, took $50,000 only.

The deposits on temporary loan with Mr. Cisco today reached $1,242,000. The banks will rush in notes as fast as possible this week, as after Saturday only 4 ₱ cent will be allowed. This was stated this morning in our Washington dispatch, and Mr. Cisco gave notice of the fact through the Clearing House. The entire amount authorized by Congress to be borrowed in this way—fifty millions—will be filled up during the week. The amount already deposited at New-York, Philadelphia, and Boston is $43,000,000, of which about $35,000,000 are at this point. It might be well not to check this disposition to lend the Government surplus moneys at a low rate of interest. Congress might very properly leave the amount to the discretion of Mr. Chase. In case of a sudden demand for a return of these deposits he has still some thirty millions of 7.30 Treasury notes and five hundred millions of stock which he can sell to meet the call.

The Central American Transit Company has made another call on its shares.

The coal transported over the Delaware, Lackawanna and Western Railroad for the last week, was:

	Week. Tons Cwt.	Year. Tons Cwt.
Shipped North	5,929 09	76,561 19
Shipped South	18,428 19	224,567 17
Total	24,358 07	301,128 07

For corresponding time last year:

	Week. Tons Cwt.	Year. Tons Cwt.
Shipped North	4,068 17	65,113 10
Shipped South	18,618 05	213,028 15
Total	22,687 02	283,143 05
Increase		18,007 00

Mr. Minot C. Morgan has retired from the firm of Winslow, Lanier & Co., by limitation of copartnership. The business will be continued at No. 52 Wall street by the remaining partners. Mr. Morgan has taken an office at No. 1 Hanover street for the transaction of business as a Stock, Note Broker, &c.

Money is very abundant to-day on call at 5 ₱ cent, and large transactions have been made at 4 ₱ cent.

The business of the Clearing-House was $19,229,163.

The community of specie, practically established by the Banks under their Clearing-House arrangements, no longer exists, and the Certificates based upon deposits of Government Securities have been withdrawn. Each Bank is now again an independent power, and not a part of a concrete whole made up of the Banks of three cities.

By our telegram from Washington we learn that the Secretary of the Treasury is now prepared to pay all indebtedness of date prior to the 1st of February in cash; of the month of February, 40 per centum in cash; and of subsequent date, 30 per centum in cash.

The Brooklyn White Lead Company offer $2,000 reward for the bonds and securities stolen from their safe. See advertisement in Wednesday's TRIBUNE.

The second mortgage bonds of the Toledo and Wabash Railroad sold yesterday at 56, an advance of 6 ₱ cent since Saturday. The earnings of this road for 1861 were $1,162,600; for 1860, $927,700; for 1859, $735,080. The increase for the two years was equal to $427,520. The accruing interest on the bonds of the Company is $463,000. The prospects of the Company for the present year are reported to be excellent, and no doubt is expressed of its ability, for the future, to meet all claims upon it for interest.

The Flour market is firmer and 5@10c. better, with more activity. Wheat is firm, but the small supply checks business. Corn is a little firmer, with a moderate demand. The Pork market is firmer for Mess, but not very active.

At auction to-day there was a large special and attractive peremptory sale of British dry goods of the importation of Messrs. Geo. H. Stuart & Co. The attendance was very large, and all desirable goods brought as much as could be realized at private sale. Taylor's six-cord spool cotton excited much interest and brought 21½@20c. per dozen; also 796 lots of Paris silk filet mitts of the importation of Mr. J. Leclanc, cotton hosiery and handsome embroideries. Desirable descriptions of mitts sold well, but some of the lines less desirable were partly passed; also 740 lots of ribbons, millinery goods and dress trimmings. Desirable descriptions of ribbon brought full prices and were freely duplicated.

LONDON, Thursday, April 17.

There was scarcely any demand for discount at the Bank yesterday, and in the stock exchange short loans were offered at 1 ₱ cent.

The amount of gold taken to the Bank yesterday was £40,000, making a total of £331,000 since the last return. All the gold that now arrives is sent into the Bank, as there is not in the market a single buyer for exportation.

The next series of London Colonial Wool sales will commence on the 3d of May. The arrivals to present date are 62,369 bales.

The report is still prevalent of an intended Russian loan, but from the best-informed quarters nothing definite has yet transpired respecting it.

The Times (city article) says:

Consols remain steady at the quotations which they reached on the report of the Russian loan. English railways steady, considering the decline in traffic. Thus far, the effect of the general falling off appears partially counterbalanced by the near approach of the opening of the great exhibition.

The Daily News (city article) says:

The effect of the continued influx of gold, and the ease of the money market, are counteracted by the creation of new securities, and more particularly by the threatened introduction of large foreign schemes.

Markets—CAREFULLY REPORTED FOR THE N. Y. TRIBUNE.

WEDNESDAY, April 30, 1862.

ASHES are steady and in moderate request; sales of 60 bbls. at $5 87½ for Pots and Pearls.
