WEDNESDAY, May 14—P. M.

The reaction of yesterday in the Stock market continued at the opening of business this morning, and there was considerable pressure to sell Stocks, not only from real holders, but from the bears also. As the call proceeded, however, new buyers appeared, and the tone of the market became very strong. The reaction was evidently exhausted, and it was discovered that Stocks were by no means plenty. There was a general recovery of ¼@¾ ₱ cent, and the Board closed with a buoyant feeling. After the session, prices were again better. The intervention panic had entirely subsided, it being considered that even if Napoleon had entertained any such idea, the President's proclamation opening the Southern ports would obviate the necessity of action. At the Second Board there was a still further rally, with an active demand for shares. Cash stock of several descriptions was quite scarce, and many deliveries were not made to-day. The most active stock was Erie Common, which sold at 39¼, and was afterward 39¾ bid; the Preferred shares sold at 66¼, and at the close were 66¾ bid; Central advanced to 89¼, and was not after offered below 89¼; Toledo was very strong, selling at 46¾, against 46¼ yesterday; Hudson River improved to 43, an advance of ¼ per cent; Rock Island was in demand, 64¾ against 64¼ in the morning; Illinois Central improved to 62¼, an advance of ½ per cent. The taking of New-Orleans and the opening of the Mississippi River will soon restore to this road the business which the rebellion has cut it off from. The South needs food and all kinds of Northern products. As soon as the river is open, trade must draw a very large business to this road. After the regular session there was a strong feeling, with but few stocks offering. The quotations, in most cases, showed an advance on the morning Board. Government securities recovered 1 ₱ cent of the recent decline. The Sixes of 1881 were 105 bid, against 104 in the morning, and Treasury Notes were 105¼. In railroad bonds there was considerable movement during the day, and at advancing prices. At the Second Board, Toledo 2d Mortgage sold at 58; Illinois Central at 92½; Harlem 2d Mortgage at par, and Chicago and North-Western Assented at 41½, &c. The closing quotations were: United States 6s, 1881, 104¾@105; United States 6s, 1881, Coupons, 105@105¼; Tennessee State 6s, long loan, 59½@59¾ Missouri State 6s, 52¼@52½; Pacific Mail Steamship, 113¾@114; New-York Central Railroad, 89½@89¾; Erie Railway, 39¾@39¾; Erie Railway, Preferred, 66¾@67; Hudson River Railroad, 42¾@43; Harlem Railroad, 14¼@14½; Harlem Railroad, Preferred, 35¾@36½; Reading Railroad, 48¾@48¾; Michigan Central Railroad, 69¾@69¾; Michigan Southern and Northern Indiana Railroad, 25@25¼; Michigan Southern and Northern Indiana Railroad, Guaranteed, 50¾@51; Panama Railroad, 128¾@129¾; Illinois Central Railroad scrip, 62¾@62¾; Galena and Chicago Union Railroad, 71¼@72; Cleveland and Toledo Railroad, 46¾@46¾; Chicago and Rock Island Railroad, 64¾@65.

In foreign bills there is but little doing. The nominal rate for Sterling is 113¾@114. France, 5.00@4.99½.

Freights are firm, and fairly active. To Liverpool, the engagements are 214,000 bush Corn at 8½@9d., in bulk and bags; 37,000 do. Wheat at 9d., in bulk and bags; 3,000 bbls. Flour at 3s.; 300 bbls. Lard at 30s.; 750 boxes Bacon at 30s.; 50 hhds. Tallow at 27s. 6d.; To London: 20,000 bush. Wheat at 10d., in ship's bags; 1,500 bbls. Flour at 3s. 3d.; 13 hhds. Tobacco at 35s. To Glasgow: 36,000 bush. Wheat at 10@10½d., in bulk and bags. To Havre: 13,000 bush. Wheat at or about 18c. To Hamburg: 100 bbls. Petroleum Oil at 7s. The charters are a Hamburg vessel with 3,000 bags Coffee to Falmouth for orders at 37s. 6d.; a Prussian ship with 28,000 bush. Grain to Cork for orders at 8s. 6d. ₱ qr.; a bark on the same voyage with Grain at 10½d., and a bark to Liverpool with Petroleum Oil at about 6s. 6d.

ERRATA—The engagement of Cotton to Liverpool noticed in our last, was misprinted, and should have read 3-16d. Also, the brig of 277, from an Eastern port to the south side of Cuba and back, was engaged at 41c. for Sugar, and $3 for Molasses, and not at the rates which our types made it.

The business of the Sub-Treasury was: Receipts, $2,038,900 21—for Customs, $203,000. Payments, $2,100,186 67. Balance, $17,663,105 78.

The Cleveland and Pittsburgh Railroad earned in April:

April, 1862	$100,694 79
April, 1861	99,510 65
Increase	$1,184 14

At an election held yesterday, William S. Thorne, esq., was unanimously re-elected President of the National Fire Insurance Company of this city.

The Champion, from Aspinwall, brings $234,000 in gold.

The market for gold has been quiet to-day, with a wide difference between cash and seller's options. The short line is kept out with difficulty, but gold can be borrowed for delivery at a very low rate of interest.

The deposits of demand notes with Mr. Cisco for conversion into six per cent stock, have been moderate to-day, and the aggregate since the commencement is not much over half a million. Some of the 50s and 100s, coupon blanks, go forward to-morrow. A portion of the registered bonds have already been forwarded. Mr. Cisco will probably soon issue a circular, giving directions in regard to the process of conversion.

Under the ten days notice that the Treasury was ready to pay off the 5 ₱ cent certificates of deposit which were payable in what are called Custom-House notes, Mr. Cisco has redeemed a small amount. In most cases, however, the deposit has been continued without change of the rate of interest, as the privilege has been accorded to depositors to withdraw the Custom-House notes and substitute the present legal tender issue. This very liberal course upon the part of the Treasury enables the depositor to sell his Custom-House notes at the current premium, while he still continues his deposit at 5 ₱ cent interest, which is 1 ₱ cent above the street rate on Government securities.

The ease in money continues to increase, and a larger proportion of demand loans is being made at 3@4 ₱ cent. The immense accumulation of deposits in our banks—nearly, to-day, $120,000,000—forces competing lenders to accept low rates, while the large daily disbursements of Government currency continually increases the supply. The inflation which it was predicted was to follow the free issue of Government paper, in law equal to gold, has begun, and must go on while these issues continue. The bank deposits show an increase of over five millions since Saturday last.

The Loan Committee of the Clearing-House has been dissolved, having no further duties to perform, and the daily statements of the condition of the banks will be hereafter discontinued.

The Sub-Treasurer received from Washington to-day $500,000 in demand notes—5s, 10s, and 20s.

The manufacture of the white oxide of zinc has been successfully prosecuted for the past ten years. It is preferable to white lead as a pigment, and is fast taking the place of it among the dealers and painters. It is lighter and more durable than the carbonate of lead; free from all poisonous substances, and is decidedly more economical to the consumer. Tanquerell, the distinguished French chemist, says that no person should occupy a room painted with white lead till after the expiration of six weeks, so that the paint may be thoroughly dry. Since the establishment of zinc works at Newark for the reduction of the Franklinite and red oxide of zinc no new white lead works have been put up in this country. The French Government do not permit white lead paint to be used in their public works, owing primarily to the effect produced on the workmen, and secondly to the inferiority of the carbonate of lead as a pigment to the white of zinc. The Franklinite paint now being introduced by the Franklinite Steel Company for the purpose of painting iron ships is one of the best articles ever brought before the public for all kinds of iron work, tin roofs barns, and outhouses. It has been for months on the paddle-wheels of Atlantic steamers without the least appearance of rust or oxidation. It is said to create a galvanic action on the iron, and, therefore, prevent the grass from attaching itself to the bottom. This is one of the difficulties with iron steamers retarding their sailing some knots an hour. It is also valuable for the bottom of wooden ships as it destroys the worm, and is very lasting. The analyses, as made by Prof. Charles F. Jackson of Boston, shows it to be composed of three oxides, viz., iron, zinc and manganese. The iron gives great body—the zinc produces galvanic action, and the manganese is the best dryer now known.

The amount of coal transported over the Delaware, Lackawanna and Western Railroad for the week ending Saturday, May 10, was:

	Week. Tons. Cwt.	Year. Tons. Cwt.
Shipped North	7,291 03	99,423 09
Shipped South	18,281 05	260,077 14
Total	25,572 08	351,561 03

For corresponding time last year:

	Week. Tons. Cwt.	Year. Tons. Cwt.
Shipped North	5,656 03	72,352 01
Shipped South	20,355 16	257,581 19
Total	26,012 01	332,934 00
Increase	18,427 03	

The receipts on the Grand Trunk Railway, for the week ending May 3, were:

1861	$66,885 99
1862	70,526 31
Increase	$3,643 32

The sale of the Land Grant and of the La Crosse and Milwaukee Railroad has been adjourned to the 28th July. This has been done for the purpose of allowing commissioners to apportion the earnings of the road and perfect their titles to the lands.

An auction sale of Ribbons went off very well to-day, and the Catalogue was largely duplicated. Two other sales of embroideries, white goods, dress goods, and silks, were largely attended, and good prices were obtained.

There was a good demand for 7.30 ₱ cent Treasury Notes to-day at the close, but few could be bought at 105. The 1-year Certificates were in demand at par.

The San Francisco Shipping List, by the Champion, has the following remarks upon the Money market.

Our latest regular market advices from the Atlantic cities are to the 21st ultimo, and though meager, contain some items of interest. The obstacles to communication have been such that we could have hardly expected a very full report upon financial matters of recent date. That which has reached us, however, is sufficient to show a gradual improvement at the East, as was to have been expected from the continued success which has attended the Union arms.

In our own market there is a fair demand for money; it may even be said to be quite active in certain quarters, and we hear of high rates paid for short accommodations; but from the legitimate trade there is, we think no pressing requirement. The market is, if anything, rather less stringent just now than it has been, though it is not easy to tell how it may rule on steamer day. Negotiations in bank are reported to us at 1½@2 ₱ cent outside 2 ₱ cent and upward.

Speculators have of late been suffering considerable losses, and the backward close of the Spring trade leaves them, quite unexpectedly, with burdensome stocks, and pecuniary necessities of some magnitude. Receipts from the interior, through public channels, have fallen off a little since last steamer, which may be accounted for in part by the arrival of country dealers who have brought their funds with them. But complaints are still made of the remissness of country debtors, and our merchants have a large amount on standing, from which they have, thus far, been able to realize but little.

The market has experienced some relief within a few days, from the disbursements of the Quartermaster's Department. Authority to draw for $500,000 has been received from Washington, which is being applied to the liquidation of claims in the order of date. It will about cancel all prior to 1st January. As much more is needed immediately for subsequent dues, and the necessary expenses bearing on the outfit and movement of troops destined for the protection of the mail route and for other expeditions. In the settlement of these claims the proper officer gives his single check upon the Sub-Treasurer in New-York for the amount due to each party. These checks are selling in the market at 2@3 ₱ cent discount, not being regarded with favor by dealers, partly from the fact that they are not drawn in duplicate.

The arrivals of bullion from the mining districts since our last report have been about $200,000, and will doubtless reach $1,000,000 before the departure of the steamer. We learn from an authentic source that the receipts from Wassoe during the first quarter of the year were nearly $750,000 instead of $400,000, as stated by us on the 5th inst. At that time we could only obtain general estimates, but have since been permitted to examine the figures in detail. The presence of a large amount of Quartermaster's drafts has affected the Bullion market unfavorably; sales of gold bars have been made within a few days past at 90@91, but we learn that, to-day, holders get no offers above 90. Silver may be quoted to-day, holders get no offers above 90. Silver may be quoted at 1@2 per cent discount. Domestic Exchange.

Exchanges on the Atlantic cities have not varied materially, but are still held at 2 ₱ cent premium and 4 ₱ cent premium, according to payment in currency or coin. The rates are not firm; in fact, we are cognizant of parties who will draw for large sums at 1 ₱ cent, payable in currency, having the opportunity to cover with commercial bills, which rate at par. Bankers' sterling remains at 8d. We hear of the sale of bills drawn upon China credits for the purchase of steamers, payable in Mexican dollars, at 2 ₱ cent premium.

In Mexican Dollars we have no change to note. The market is here.

The export of Treasure since the 16th of April has been as follows:

For St. Louis:	
To New-York	$615,445 64
To England	209,000 00
To Panama	5,000 00—$829,455 64
Previously this year	9,300,085 64
Total since Jan. 1, 1862	$10,129,541 09
Corresponding period 1861	11,825,053 77
Falling off this year	$1,695,547 68

Markets—CAREFULLY REPORTED FOR THE N. Y. TRIBUNE. WEDNESDAY, May 14, 1862.

ASHES—Pots are steady and in fair demand at ₱5 62½. Pearls continue scarce and nominal.

BEE WAX is in limited demand; sales of 3,000 lb at 32@33c. cash.

COTTON—The proclamation of the President raising the blockade of three important ports, and the prospect that others will soon be added to the list, has caused a slight depression in the market, and at the close prices are ¼ lower; sales of about 500 bales on basis of 27½@27½c for Middling Uplands, and do. New-Orleans and Texas. Latest advices from Nashville report that since the opening of trade (March 11), the shipments of Cotton reach nearly 4,000 bales, bringing into the country $260,000 in United States currency. It is also estimated if nothing interferes to obstruct trade, that the total shipments for the season will realize to the State $1,800,000. The quantity burned by the Rebels was valued at about $800,000. The Cotton burnings were very large in Giles County. The ruling price was 26c. in gold or United States Treasury Notes, though some lots were bringing 21c., and others as low as 18c., according to quality.

COFFEE—There has been an active inquiry for Rio, and the market closes very strong, and fully ¼c. higher; sales are reported of 8,000 bags at 21c., and 200 bags at 22c. An auction sale of Santos will take place to-morrow at McCullough's Salesroom. There is a moderate inquiry for other descriptions at steady prices; sales of 200 bags Maracaibo at 21½c., and 100 do St. Domingo at 19c., the latter cash. We quote:

Rio	19 @ 21	Bombay	— @ —
Maracaibo	20 @ 22½	Laguayra	21 @ 21½
Java	25 @ 26	Costa Rica	— @ —
Jamaica	20 @ 21	St. Domingo	18½@19½

COCOA—The demand is moderate; sales of 25 bags St. Domingo, at 9½c., cash, in bond, for export.

COAL—The demand is fair for Foreign; the supply large, and the market without change. Sales of 600 tons New-Pelton at ₱5 70; 200 tons Ince Hall at ₱7; 200 tons Scotch Steam at ₱5 50; 300 do do at ₱5 12; 200 tons Peasly Crop Gas Cannel at ₱6 50; 90 tons Scotch Gas Parrett, at ₱5 60; 410 tons North Pelton at ₱5—all cash. Domestic is firm and in brisk demand at ₱3 40@₱4 ₱ ton.

CANDLES continue devoid of activity, and previous prices are merely nominal, the small sales making being no guide to the market.

COPPER—Refined Ingot is dull and heavy; sales of 100,000 lb Lake, to arrive, at 24½c.; 70,000 do do. on the spot at 24½c., and 4,000 do. Baltimore, &c., at 24½c., cash. Other kinds are quiet; sales of 5,000 lb Old Sheathing at 21c., cash.

DYE WOODS are dull and heavy; sales of 75 tons St. Domingo Logwood at ₱19 50@₱21, cash; 15 do. Lima Wood at ₱45, less 2 ₱ cent, and 50 do. Sapan Wood on private terms.
