THE
JOHN NICKERSON JR
ORGANIZATION

Foresighted Directors—

are rightfully concerned about the distribution of their company's securities. They know that careful attention to this point may greatly facilitate future expansion.

The nation-wide distribution of securities accomplished by this organization adds stability to values and helps to create a broad and elastic market for future issues.

COTTON CLOSES OFF AFTER EARLY GAINS

Professionals Take Profits at Finish—Sentiment Is Generally Bullish.

The cotton market moved in a rather uncertain manner yesterday. It displayed a fairly firm undertone in the first hour and advanced about 20 to 25 points, but later in the session reacted for a net loss of 15 to 30 points, closing 8 to 14 points below Saturday's final quotations. The steadiness of Liverpool combined with the increased spot business abroad and bullish private reports from goods centers and the South promoted bullish sentiment at the outset and lifted the list 9 to 15 points. Weather developments weer ignored.

In early dealings Liverpool demand, trade buying and scattered covering by nervous shorts offset the volume of Southern hedge selling that came into the market. Later, however, the added weight of increased professional profit taking proved too much for the market and it gave way for a moderate loss. At the time of the local call the English market was a few points better than expected. Sales of the actual on the other side were 10,000 bales, with Manchester reporting fair business in yarns and cloths.

Although there were a number of operators looking for a sharp reaction, due to technical causes, sentiment as a whole was bullish. The spot holder in the South showed no weakness and the cotton goods market was generally firm, with its price trend upward.

The local spot market was quoted 5 points net lower at 22.45 cents for middling. The New Orleans market was unchanged at 21.75 cents. Its sales were 2,527 bales.

STANDARD OIL SEEKS TO BAR COMPETITOR

Wants Protection for Its Petroleum Tanks.

The Standard Oil Company of New York, through John Woodward, former Supreme Court Justice, applied yesterday to Justice James O'Malley to make permanent an injunction which it had obtained to prevent the Utilities Oil Corporation of Brooklyn from delivering petroleum products to garages that have contracts with the Standard Oil of New York and use "Socony" tanks.

Judge Woodward argued that the use of portable tanks and pumps bearing the "Socony" mark was an imposition on the public.

Stanley C. Fowler, for the Brooklyn company, said the injunction was intended to establish a monopoly. He disclaimed misrepresentation by his clients.

Justice O'Malley gave the attorneys one week to file briefs. On application of Mr. Fowler the bond for the Standard Oil Company was increased from $250 to $5,000.

BOARD GRANTS 8 HOUR DAY TO YARD MASTERS

Amounts to 25 Per Cent. Pay Raise; 2,000 Benefit.

Special Dispatch to THE NEW YORK HERALD.

CHICAGO, Oct. 16.—The United States Railroad Labor Board to-day granted an eight hour day, with overtime, to 2,000 yardmasters on twenty-six class one railroads. This is equivalent to 25 per cent. increase in pay. The board established a precedent in promulgating rules and working conditions for the yardmasters, who now are classified as subordinate officials subject to the board's jurisdiction under the transportation act.

Excluded from the ruling were the Delaware, Lackawanna and Western, the Pennsylvania System and the Illinois Central.

The roads affected are the New York Central Lines east and west; Baltimore and Ohio, Baltimore and Ohio Chicago Terminal, Chesapeake and Ohio, Jacksonville Terminal, Kansas City Southern, Kansas City, Oklahoma and Gulf, Missouri Pacific, Richmond, Fredericksburg and Potomac, San Antonio and Aransas Pass, Bessemer and Lake Erie, Boston and Maine, Carolina, Clinchfield and Ohio, Central Vermont, Denver Union Terminal, Fort Worth and Denver City, Gulf Coast Lines, Seaboard Air Line, Texas and Pacific, Trans-Mississippi Terminal, the Wabash and the Western Maryland.

MAMMOTH GETS OIL WELL.

"Brings In" Unit With Initial Flow of 1,000 Barrels.

The Mammoth Oil Company announced yesterday that it had brought in a new well with an initial flow of 1,000 barrels an hour on the Teapot Dome naval reserves, in Wyoming. The company recently brought in a well flowing at the rate of 20,000 barrels a day.

At the time of the offering of the Mammoth Oil stock last week the company had started drilling operations in nine wells, and the one announced yesterday was the first to be brought in since that time.

TRY FOUR AS BOMB PLOTTERS.

NEW BRUNSWICK, N. J., Oct. 16.—Peter Weiner, Max Stanko, Nathan Betig and Max Weisman, accused of conspiracy in connection with the alleged attempt of a Perth Amboy milk firm to obtain a monopoly, were placed on trial here to-day before Judge Peter F. Daly. They are alleged to have conspired to bomb the milk wagon of an independent dealer.

CONDUIT AND CABLE PROXIES.

The Stockholders' Protective Committee of National Conduit and Cable Company, headed by Charles R. Meston, reports a satisfactory response to the appeal for proxies in reply to the letter sent to shareholders following the committee's information on September 4. Proxies have been received to date from more than 600 shareholders representing more than 50,000 shares.

ZINC SALES INCREASE.

Zinc stocks on hand aggregate 18,806 tons, compared with 81,135 tons a year ago. Sales of the metal in September totaled 35,134 tons, against 19,781 tons in the same month of 1921. Production increased to 33,134 tons, compared with 14,367 tons in September of the preceding year. Deliveries for the first nine months of 1922 were at the annual rate of 400,000 tons per annum, compared with deliveries of 220,064 tons in 1921.

BUSINESS: Exchange Buffet Corporation was organized under the laws of New York in July, 1913, and succeeded to a business begun originally in 1885. The first restaurant was successful from its beginning, but it was not until 1902, when the present management assumed control, that a broad policy of expansion was adopted. By 1913, when the present corporation was formed, the number of restaurants had increased to twenty. From the beginning the special object of the enterprise has been catering to business men, and its success is best indicated by the fact that its business has grown steadily until now thirty-five restaurants and forty-two cigar stands are being operated at business centers in New York, Brooklyn and Newark. The Corporation is now the third largest retail distributor of cigars and cigarettes in the metropolitan district.

CAPITALIZATION: The original capitalization of the Corporation consisted of 62,500 shares of no par value, of which, on April 13, 1922, 57,166 shares were outstanding. All these shares had been issued either for cash or property or in conversion of bonds. On April 11, 1922, stockholders voted to increase the authorized number of shares to 250,000 and approved the distribution of 171,498 of the additional shares as a 300% stock dividend.

The Corporation recently sold 14,997 additional shares of stock to provide funds for the redemption of all its outstanding 8% Serial Notes and to furnish additional working capital to be used in financing proposed extensions.

GROWTH: The progress which has been made in operations since organization will be seen from the following comparison for the years ending April 30th:

	1914	1922
Number of Restaurants	22	35
Number of Cigar Stands	23	42
Net Earnings	$283,834	$815,753
Surplus	136,581	319,682
Total Assets	3,656,525	4,913,300

This development has been financed almost entirely from earnings and sales of stock.

DIVIDENDS: Quarterly dividends have been paid regularly on its shares without interruption from organization to date. Distributions in the fiscal years ending April 30th have been at the following rates:

1914	1915	1916	1917	1918	1919	1920	1921	1922
$4	$4	$5	$5	$5	$6	$7	$8	$8*

* In 1922, the Corporation paid the equivalent of $8 a share on its original capitalization. It distributed three quarterly dividends at the regular rate of $2 a share and, after payment of the 300% stock dividend in April, 1922, one of 50 cents a share on the increased number of shares.

The Exchange Buffet has paid dividends regularly since it became an incorporated business in 1902 and has never reduced its annual dividend rate. In the nine years of its existence the present Corporation has doubled its initial dividend rate and has paid cash dividends aggregating $2,795,411. A regular dividend of 50 cents a share, the 39th consecutive quarterly distribution since organization, is payable October 31st to stockholders of record October 21st.

EARNINGS: The Exchange Buffet has never had an unprofitable restaurant. Beginning with net earnings of $19,000 in 1902, its business has shown a steady and consistent growth from year to year. The Net Earnings of the present Corporation have increased from $283,834 in 1914 to $836,416 in 1921, with only one slight reduction, in 1922, the result of unfavorable general business conditions.

Operations for the years ending April 30th compare as follows:

	Net Earnings	Depreciation, Taxes, etc.	Balance for Dividends	Dividends Paid
1914	$283,834	$29,891	$253,943	$200,500
1915	294,534	39,995	254,539	201,700
1916	348,030	43,267	304,763	253,562
1917	459,118	49,902	409,216	254,925
1918	477,127	76,914	400,213	307,551
1919	483,136	216,421	266,715	309,262
1920	785,628	330,883	454,745	370,807
1921	836,416	351,141	485,275	444,520
1922	815,753	277,495	538,258	453,584

MANAGEMENT: The Corporation is under the same management which assumed control in 1902 and which has continually and successfully operated the business during the twenty years since that time.

EXTENSIONS: It is the policy of the Corporation to add to its chain of restaurants and cigar stands as favourable opportunity offers. The following leases have recently been closed:

In the Bowling Green Building, 11 Broadway. The restaurant to be established there will be one of the three largest operated by the Corporation. In view of its unusually favourable location, the management believes it will develop into one of its most profitable branches. It is expected to be in operation by the first of January, 1923.

In the Hudson Terminal Building, 30 Church Street, agreements have been made whereby the Corporation acquires additional facilities in connection with its Concourse restaurant and at the same time secures an extension of the lease covering both this and its Dey Street restaurant until 1944.

POSITION: The Corporation has no bonds, notes, preferred stock or bank loans and its cash on hand is alone in excess of its current obligations.
