Proposals.

PROPOSALS for PADDLE-WHEEL STEAM MACHINERY for the UNITED STATES NAVY.—The Navy Department will, until the 20th day of July, receive sealed proposals for the construction of steam machinery for paddle-wheel steamers.

Each steamer will have one inclined engine of not less than 350 cubic feet displacement of piston per stroke; the length of the stroke to be about 8 feet 9 inches. The frame to be of yellow pine, strongly kneed, bolted and braced.

There will be a Sewell's surface condenser, in which the condensing surface will be composed of drawn brass tubes five-eighths inch outside diameter, tube plates and followers of brass; total area of condensing surface 2,200 square feet; capacity of air pump (considered as single-acting) 25 cubic feet; inlet and outlet pipes to pumps to have a net area of not less than two thirds of the pump's piston; receiving and delivery valves of pumps to have a net area of opening of not less than one and a half times the area of the pumps' piston; valve seats of brass; valves of gum.

The cylinder is to have brass balance poppet valves of 17 and 18 inches diameter; valve seats of brass. Steam valve to be arranged with Stevens's cut off. The whole valve gear to be finished and arranged for working hooked on back as well as slipped.

The crosshead to be of wrought iron and finished. The cranks to be of wrought iron, turned and pinned. The shaft to be of wrought iron, turned. The out-board journal to be 3 feet in length.

All cylinder covers, valve-chest, and pump bonnets, with their bolts and nuts, and disks and connecting rods, to be finished.

A plunger feed pump and bilge pump, of brass, to be provided of six cubic feet capacity; valves of gum, and to have a net opening of twice the capacity of the pump.

The pumps are to be worked by wrought iron arms, turned and placed, and secured upon a turned wrought iron shaft, which is to be worked from the main cross head by finished links and wrought iron levers, turned and placed.

The paddle-wheel is to be over-hung, to be of wrought iron, and 26 feet 8 inches in extreme diameter. Paddles to be twenty-four in number, 8 feet 9 inches long and 15 inches wide.

There are to be two Martin boilers placed opposite each other, with the fire-room between. Length of boiler, 16 feet; width, 10 feet 6 inches; height, about 9 feet 8 inches; to contain five furnaces each; the furnaces to be three feet wide; length of grate, 6 feet 6 inches; total grate surface, 130 square feet; total heating surface, not less than 3,000 square feet. Shells, with the exception of the bottom, to be of 5-16 inch plates; bottoms, furnaces, and uptakes, of three-eighths inch plate; to be double-riveted and braced for a hydrostatic test pressure of 60 pounds per square inch.

Each boiler is to have a No. 42 Dimpfel blower blowing into the back of the ash-pits.

All the details, finish, quality of materials, and workmanship to be first class, proportioned for a working boiler pressure of 40 pounds per square inch, and conformable to the specifications previously printed by the Department for paddle-wheel steam machinery. There will also be furnished the tools, duplicate pieces, instruments, &c., required by those specifications.

The proposals will state the names of the bidders in full, and of their sureties, the given sum, covering all costs and claims against the Government whatever, on account of the machinery, for which they propose to furnish it in the vessel, complete and ready for working, differential trial, to be within two months of erecting it in the same port and of transporting two cases of erecting it in another port, and the time from delivery and erecting it in another port, necessary to couple it in the contract in which they will engage to couple it in the vessel ready for steaming, provided the vessel is ready to receive it twenty-one days earlier if the vessel is at the same port, and one month earlier if at another port; if not ready, twenty-one days or one month according to the case, will be allowed for completion from date of readiness.

The contract will embrace the usual conditions, and payments will be made in the usual manner as the work progresses.

The proposals are to be addressed, "*Proposals for Paddle-wheel Steam Machinery*" to distinguish them from other business letters.

The Department reserves the right to reject any or all of the proposals made under this advertisement, if it is in opinion the public interest requires.

No proposals will be considered except from proprietors of marine-engine building establishments.

ORDNANCE OFFICE, WAR DEPARTMENT, WASHINGTON, July 19, 1862.

PROPOSALS will be received by this Department until 5 p. m. on the 9th of August, 1862, for the delivery at the following Arsenals, of INFANTRY ACCOUTERMENTS, as herein specified:

These Accoutrements are to be made in strict conformity with the regulation patterns, samples of which can be examined at any of the above-named arsenals, and are to be subject to inspection at the Arsenals where delivered, before being received for the Government; none to be accepted or paid for but such as are approved on inspection. The belts to be of prepared leather, and all the sizes to be the best ascertained. The shoulder belt will be included in the set.

Deliveries must be made in lots of no less than 1,000 sets per week, for all contracts of 10,000 or under; and not less than 2,000 sets per week on all contracts for over 10,000, counting from the date of the contract. Failure to deliver at a specified time will subject the contractor to a forfeiture of the amount to be delivered at that time. The Accoutrements must be boxed in the customary manner; the boxes to be charged at cost, to be determined by the inspector.

Bidders will state, explicitly, the time, amount, and place of each delivery.

Each party obtaining a contract will be required to enter into bonds, with proper sureties, for its faithful fulfillment.

The Department reserves to itself the right to reject any bid.

Proposals will be addressed to "Gen. J. W. Ripley, Chief of Ordnance, Washington, D. C.," and will be endorsed, "Proposals for Infantry Accoutrements."

JAMES W. RIPLEY, Brig.-Gen., Chief of Ordnance.

THURSDAY, July 24—P. M.

There was a further improvement in the tone of the Stock market this morning, and prices were better for all of the prominent securities. In Governments especially there was a decidedly more cheerful feeling, and the commission houses had quite an increase of orders. Coupons of 1881 advanced to 98¼, and in the afternoon were still better. 7.30s were also firmer, but not quite so active. The most important feature of the day was the marked decline in Gold, which from 119¼ at the close of yesterday settled down to 117, and was offered freely at this price at the close of the day. It is stated that one of our large banks sold a considerable amount, and some of the speculators have no doubt been realizing profits. The advance has evidently been too rapid to be sustained. The movements in shares are somewhat feverish and irregular, although tending generally toward improvement. The efforts have been among the largest buyers, and the bears have apparently closed operations for the decline on this turn of the market. The disposition on the part of the bulls seems to be to buy cautiously and to realize profits from day to-day, and on both sides there is a timid policy evident. The experience of the last six weeks has had its effect in rendering the bulls less confident, and in keeping the bears equally distrustful of their ability to solve the great problem presented by the War. At the Second Board, there was a further advance in Governments and in some of the Railway shares, but there was not a large business, except in gold, which was copiously supplied, at 117. Late in the day, the tone of the market was slightly firmer. The closing prices were: for U. S. 6s, '81, 98¼@98¾; U. S. 6s, '81, Coupon, 98¼@98¾; 7-30 Treasury Notes, 102¼@102¾; American Gold, 117@117¼; Tennessee 6s, 49¾@50; Missouri 6s, 46¼@47; Pacific Mail Steamship Company, 107¾@108; New-York Central Railroad, 92¼@92¾; Erie Railway, 33¼@34; Erie Railway, Preferred, 62½; Hudson River Railroad, 43½; Harlem Railroad, 14¼@14½; Harlem Railroad, Preferred, 35@35½; Reading Railroad, 55½; Michigan Central Railroad, 56¼@56¾; Michigan Southern and Northern Indiana Railroad, 22¼@22½; do., guaranteed, 55¼@55½; Panama R. R., 131@132; Illinois Central Railroad, 56¼@56½; Cleveland and Pittsburg Railroad, 81¼@81½; Galena and Chicago Railroad, 68½@68¾; Cleveland and Toledo Railroad, 47¼@47½; Chicago and Rock Island Railroad, 63¼@63½.

In foreign bills the market has been much disturbed by the reaction in gold, and quotations have declined about 2 ₱ cent. Bankers are moderately firm when asked to draw, but the same bills in second hands can be bought at 129@129½, with fair signatures at 128@128½. The parties who have been buying on speculation have sold out in some cases at a loss. France are 4.35@4.33½.

Freights are dull, and rates are much lower, closing heavily. To Liverpool the engagements are: 60,000 bush. Wheat, at 12d.@12½d., in bulk and bags, mostly at the inside rate; 32,000 do. Corn, at 10½d.@11½d., in bulk and bags, mainly at 11½d.@11¾d.; 7,000 bbls. Flour, at 3s. 4½d.@3s. 6d., chiefly at the latter rate; 500 boxes Cheese, at 42s. 6d.; 75 tons Whale Oil, at 40s. To London: 41,000 bush. Wheat, at 12½d.@13½d., in bulk and bags; 2,500 bbls. Flour, at 3s. 9d. To Havre: 13,000 bush. Wheat, at 29c., in bags. To Antwerp: 7,000 bush. Wheat, at 15d., in bags. In charters we hear of only a brig, with 12,000 bush. Wheat, to Cardiff, at 13d.

The business of the Sub-Treasury was: Receipts, $1,807,277 71—for Customs, $109,000; Payments, $2,025,023 41; Balance, $9,506,189 48.

The earnings of the six months, ending 31st May, on the Norwich and Worcester Railroad, show a very satisfactory result. The figures are as follows:

Passengers	$473 454
Freights	6,324 16
Miscellaneous	7,073 65
Total	$487,853 97
Expenses	$268,369 96
Interest	19,363 64— $299,653 60
Net earnings—21 10 per cent	$187,425 37
Rent funded	521,100 00
Debt floating	31,716 06
Debt for steamboat stock	200,000 00
Total	$760,016 05
Assets	54,955 94
Total	$761,060 12
Steamboat stock	200,000 00
Total	$561,060 12

The steamboat stock pays 10 per cent dividend. The earnings of June following the above six months show an increase of $12,000.

The receipts of the Morris Canal for the week, compared with 1861, has been:

Total to July 12, 1861	$105,536 76
Week ending July 20, 1861	7,669 32
	$113,206 08
Total to July 12, 1862	$160,241 90
Total ending July 19, 1862	1,865 87— 162,107 77
Decrease in 1862	$11,120 49

The interest of the street to-day was concentrated on Gold and Exchange. Of the former about a million was sold at the Board, the market in the afternoon touching 117 against 119¼ yesterday. The supply from all quarters was very large, and the speculators appear disposed to throw their lots overboard. It is also understood that a leading city bank sold half a million to-day. A considerable amount was bought for Canada. The business in the street, outside the Board, was also very large. Silver is 112@114.

Demand Notes (Custom-House) sympathized with gold, and fell off to 7 per cent premium. It is estimated that there are twenty to twenty-five millions of these Notes concentrated in this city, speculatively and otherwise. Indebtedness Certificates are 98@98¼, and steady. The 7.30 per cent Treasury Notes sell at 102 for indorsed, and 102¼@102½ for uninorsed.

In money there is no change to note. The exchanges at the Clearing-House this morning were $28,905,252 12.

The Brooklyn Bank has declared a semi-annual dividend of 4 per cent, payable on the 25th inst. The Cleveland and Toledo coupons due Aug. 1 will be paid at the Corn Exchange Bank.

Deposits were made at the Sub Treasury yesterday, at 4 per cent interest, to the amount of $320,000.

The steamer from Aspinwall brings $878,834 in gold.

The statements of the banks of the three principal cities of the Union for the last week compare with the previous one, and the corresponding time of 1861, as follows:

	Loans.	Deposits.	Specie.	Circul'n.
N. Y., July 19	$149,877,213	$129,403,977	$31,956,069	$5,155,501
Boston, July 21	49,930,066	26,809,242	7,960,730	6,840,334
Phil., July 21	23,026,966	24,402,817	5,613,724	5,402,583
Total	$217,834,245	$180,616,036	$45,521,113	$21,401,238
Last week	216,750,850	177,406,413	45,656,354	21,163,962
Last year	196,201,300	128,430,162	60,742,254	17,227,137

The statement of the Boston Banks for the last week compares with the previous week, and with the corresponding week of 1861, as follows:

	July 14, 1862.	July 21, 1862.	July 22, 1861.
Loans	$53,834,559	$53,930,163	$60,252,942
Specie	7,970,965	7,960,730	6,667,051
Deposits	26,603,330	26,809,242	13,241,111
Circulation	7,021,284	6,840,334	6,735,625

The statement of the present week as compared with the preceding shows an increase of $304,248 in the items of loans and discounts, $2,515 in specie, $123,362 in deposits, and a decrease of $206,910 in circulation.

Messrs. Smith & Hall have issued the annexed circular in regard to the shinplasters:

The undersigned respectfully inform the public that, after the 1st of August, motives of commercial expediency as well as of official duty will compel prompt prosecutions for any issue of paper commonly called "Shinplasters"—should such an issue exist, after the recent act of Congress shall have afforded a uniform substitute for "small change."

The collection of the State penalties or the Federal fines can be rigidly enforced by due process of arrest.

E. DELAFIELD SMITH, United States District-Attorney.
A. OAKEY HALL, District-Attorney City and County New-York.

July 22, 1862.

The quantity of flour, wheat, corn and barley left at tide-water, during the third week in July, in the years 1861 and 1862, was as follows:

	Flour. bbls.	Wheat. bush.	Corn. bush.	Barley. bush.
1861	50,563	905,536	457,454	7,442
1862	65,162	913,235	810,730	3,300
Increase	15,599	Dec.. 5,057	Inc.. 363,276	Inc.. 4,242

The aggregate quantity of the same articles left at tide-water from the commencement of navigation to the 22d July, inclusive, during the years 1861 and 1862, was as follows:

	Flour, bbls.	Wheat, bush.	Corn, bush.	Barley, bush.
1861	300,716	10,646,546	5,736,174	147,212
1862	271,196	10,567,374	6,495,851	373,191
Inc.	29,520	Dec.. 81,172	Inc.. 759,677	Inc. 225,979

By reducing the wheat to flour, the quantity of the latter left at tide-water this year, compared with the corresponding period last year, shows an increase of 213,736 bbls. flour.

The following comparative table shows the quantity of some of the principal articles of produce left at tide-water from the commencement of navigation to and including the 22d of July in the years indicated:

	1860.	1861.	1862.
Canal opened	April 25.	May 1.	May 1.
Flour, bbls	2,[illegible]231	300,716	625,706

The San Francisco Shipping List says:

Our Money market maintains the same position of ease and abundance which we have had occasion to note in previous reports. With bankers and dealers the rate is 1½@2 ₱ cent ₱ month upon prime short paper or collaterals. The average rate will not probably exceed 1½ ₱ cent. Investments of a more permanent character rule at 1½@2 ₱ cent ₱ annum. Remittances from the interior and mining districts, including the northern coast, during the past week, have reached the unusually large sum of $1,250,000, of which $150,000 was in coin, and the remainder in dust and bullion. Of the latter a very considerable portion has gone to Mint. The arrival of over $4,000,000 of treasure per month with an export of less than $2,000,000, indicates an accumulation of such magnitude that we may reasonably expect a continuance of ease and prosperity in financial matters for some time to come.

Notwithstanding the large receipts of the week, gold bars are said to be in small supply. An active demand for China has prevailed for some days past, exchange rates at 90@92½ until yesterday, when Eastern advices began to operate. To-day we hear of no sales at less than 90c. free par, and some have been made to Chinamen at 91c. Receipts of gold from the Sierra Nevada have been liberal since our last report. It is proper to state, however, that much more than the usual proportion, as compared with receipts from other localities, was in coin. Silver bullion may be quoted at 1@1 ₱ cent discount.

Exchange on the Atlantic cities is entirely unsettled. Were the causes known here which have occasioned the rapid appreciation of gold at the East, so that their continuance might be judged of, it would be easy to fix a rate for bills; but under the uncertainties of the moment bankers are at a loss. If we were to name a rate—none has been fixed. Some offer to draw at 1 ₱ cent discount for currency, others at 2 ₱ cent. Commercial bills, we are informed, have been passed at the lower figure. U. S. Legal-Tender Notes are declined by the brokers at better than 7@8 ₱ cent discount. The 7.3 Treasury Notes are worth about 2 ₱ cent discount. No change in Sterling or other foreign bills.

The market is still quiet here of Mexican dollars. We cannot see our last quotations at 72@8 ₱ cent premium, but they are, of course, entirely nominal.

The imports of Treasure since our last review have been as follows:

June 20—Per steamer Sonora	$1,291 00
June 21—Per Sierra Nevada	33,121 73
June 23—Per St. Louis	900 00
Total	$34,312 73

Exports during the same period have been:

June 21—Per Golden Age—To New-York	$123,962 44
To England	200,148 77
To Panama	15,000 00
June 27—Per Storm Cloud, Kanagawa, Japan	2,000 00
Previously this year	$16,173,044 50
Total since January 1, 1862	$16,520,605 71
Corresponding period of 1861	18,503,175 23
Falling off this year	$1,983,569 52

The N. O. National Advocate (Jacob Barker's paper) thus notices exchange matters in that city:

There is some little inquiry for Northern funds. We quote sight at New-York at 1@1½ ₱ cent premium; United States Treasury demand notes are current with silver, say 15@20, and other issues from 5, 10, to 15 ₱ cent premium. Gold 23@25, and Silver 15@20. There is some little inquiry for Sterling at 105, drawers are few and far between. France range from 4.40 to 4.40, with very little offering. In fact, the foreign exchange market is without thermometer and barometer, or even a telegraph to influence its movements.

The same paper has the following in relation to the progress that the Hon. Re
