WEDNESDAY, Jan. 21—P. M.

Speculation in the Stock market continues rampant, and the excitement, especially at the 4 o'clock call this afternoon has never been exceeded in the street within our recollection. Operators rushed in to buy anything, without apparently any regard to price. The transactions of the day are enormous, the registered lists showing scarcely two-thirds of the actual transactions. The excitement at the Boards is so great that the registering clerks cannot take down nearly all the transactions. An immense amount of realizing takes place every day, but the market absorbs the stock without a check to the upward surge. New buyers appear in ample numbers to take everything offered, and the market steadily advances. The offices of the commission brokers are crowded with the speculative public, and we have absolutely heard expressions of disgust at the ease with which Money is made from day to day. Some of the most fortunate operators have an absolute surfeit of success. The most active Stocks at the morning Board were the Harlem and Michigan Southern issues. The former with large transactions advanced 3 to 4 ⅊ cent and the latter sold very largely of Common stock at 1 ⅊ cent advance. The Erie issues were also very buoyant and active. All the Western Shares were strong with large sales. The movement in Fort Wayne was larger than of late, and the quotation advanced to 72. Alton and Terre Haute was yesterday neglected. The market for Governments was weak, but railroad bonds were in large demand at advancing prices. At the Second Board the movement was very active, lots of 1,000 shares stock being sold with the same facility as 100 share lots are usually sold and the market advancing under great excitement. Southern Michigan touched 66 against 63 in the morning. Harlem old sold at 48 and the Preferred 87, a further advance of 2½ ⅊ cent on the former, and 2 ⅊ cent on the latter. Fort Wayne was again very buoyant, and advanced to 75, against 71 yesterday. Terre Haute was in demand and sold at 67½, an advance of 2½ ⅊ cent on the morning. At the 4 o'clock call the excitement was intense, with a further advance and very large transactions in nearly the whole list. Harlem sold up to 88½ for Preferred, and 49 for common. Michigan Southern Old sold at 67 to the extent of 2,000 shares, Pittsburgh went to 74, and Fort Wayne to 76 bid. Erie Preferred touched 107, and the common 83½, with very large transactions. New-York Central was 120½ bid. Of Galena, 2,500 shares sold at 97. Rock Island, 96½, &c. Norwich closed at 83 bid for 1,000 shares, equal to 85½, dividend on, &c. At 5½ o'clock, the market was without a sign of weakness, at the following quotations: United States 6s, 1881, Registered, 94½; United States 6s, 1881, Coupon, 95½; United States 5s, 1874 Coupon, 83½; United States Treasury Notes, 7 3.10, 101½@102; United States 1-year Certificates, 6s, 99½@99½; Demand Notes (old issue), 145½@145½; Tennessee State 6s, 61½@62½; Missouri State 6s, 66½@66½; American Gold, 147½@148; Pacific Mail Steamship Company, 107½@108½; New-York Central Railroad, 120½@120½; Erie Railway, 83½@83½; Erie Railway Preferred, 107½@107; Hudson River Railroad, 36½@36½; Harlem Railroad, 48½@48½; Harlem Railroad Preferred, 88½@88½; Reading Railroad, 92; Michigan Central Railroad, 98@98½; Michigan Southern and Northern Indiana Railroad, 66½@66½; Michigan Southern and Northern Indiana Railroad Guaranteed, 105½@105½; Panama Railroad, 184½@185; Illinois Central Railroad, 96@96½; Cleveland and Pittsburgh Railroad, 74½@74½; Galena and Chicago Railroad, 96½@97; Cleveland and Toledo Railroad, 94½@95; Chicago and Rock Island Railroad, 96½@96½; Chicago, Burlington and Quincy Railroad, 108@110; Milwaukee and Prairie Du Chien Railroad, 48½@48½; Fort Wayne Railroad, 76@76½; Canton Company, 29½@30; Norwich and Worcester Railroad, 83@84.

Sterling Exchange is without activity, and rather heavy at 161½@163½.

Freights are dull, and rates are rather easier to Liverpool for Grain by American flag, but otherwise unchanged. The Board of Underwriters have reduced the rates 3@2 ⅊ cent on American vessels. To Liverpool, the engagements are 4,400 bush. Wheat at 7 ⅊ 7½d. in bags; 1,500 bbls. Flour at 2s., and per neutral flag, 7,000 bush. Corn at 8d. in bags; 10,000 do. Wheat at 8½d. in bags, and 400 tuns Bacon at 30s. To London, per neutral vessel, 4,000 bbls. Flour at 3s. 3d., and 200 tcs. Beef at 5s. 6d. In Charters, we only learn of a British vessel of 130 tuns from the south side of Cuba with Molasses at $3 50 on deck, and $3 under deck.

The business of the Sub-Treasury was: Receipts, $528,691 07—for Customs, $78,000; Payments, $671,442 58; Balance, $11,725,679 01.

The money market is very active under the immense volume of stock business, but the supply is sufficient for all wants at 5@7 ⅊ cent, mostly at 6 ⅊ cent.

The Galena and Chicago Railroad Company gives notice that the time for extending its first mortgage bonds is limited to the first of April next. The Peter Cooper Fire Insurance Company has declared a dividend of 5 ⅊ cent, free of Government tax, payable February 2. The Home Insurance Company of New-York has declared a semi-annual dividend of 5 ⅊ cent, payable on demand. The Marine Bank has declared a semi-annual dividend of 4 ⅊ cent, payable February 2. The coupon on the Preferred Sinking Fund bonds, Appleton Extension and Green Bay Extension bonds will be paid at the office, No. 12 Wall street, February 2.

We understand that the dividend meeting of the Erie Directors takes place to-morrow.

Gold has not been very active to-day, and the market did not sustain the highest price of the day. After selling at 148¼ the latest quotation was 147¾. Demand Notes and Custom-House Notes were firm in the morning at 145¾, but later in the day were weak and sold at 145¼.

Breadstuffs are higher and selling freely for export. Provisions are unchanged.

The Boston Post thus notices Lake Superior copper mining matters:

Copper stock has been lively; the price of ingot advanced to 34c., which with the mines of large production insures large dividends. The Quincy has declared a dividend of $4, and has a surplus of $100,000; the stock has been in demand at 66@67. Minnesota jumped on Friday 75 on advance of $5 ⅊ share. Pewabic has been firm at 48; Franklin 48; Isle Royale has been very active and has advanced to 21½; it is said that a "clique" are buying here, and large quantities are being bought on New-York account. Low priced shares are firm, speculatively, and the market has an upward tendency. The Union, with the present price of copper, is making money rapidly.

Markets—CAREFULLY REPORTED FOR THE N. Y. TRIBUNE.
WEDNESDAY, Jan. 21, 1863.

ASHES—The market is quiet at $6 3½@$6 50 for Pots. Pearls are dull and nominal at $7 62½@$7 75.

BEESWAX is firm and in fair request at 41½c., cash, for Western.

COTTON—The inquiry is very fair, but hardly so active as yesterday, owing in part to the storm. Prices remain very firm at 72½@73c. for Middlings. The late active inquiry has been a very legitimate one, being mainly from manufacturers, who have been stocking themselves in view of the prospective light receipts and much higher rates, it being generally anticipated that Cotton must go to $1 ⅊ lb before the 1st of July, unless some decided change should occur in our national difficulties. The present stock on hand is quite moderate. The sales for the past week embrace about 6,500 bales.

COFFEE—The market for all kinds remains very quiet but we still find great firmness on the part of holders, and prices if anything are stronger than one week ago; no sales of importance have come to light to-day. We quote:
