CITY ITEMS.

STREET CLEANING.

The people of Gotham complain
That Hackley they never can find,
Their cleaner of streets is the rain,
And their principal sweeper the wind.

They pay enough thousands a year
To keep all New-York clean and neat,
And the joke is really too dear
When they can't find a passable street.

A Libyan desert to-day,
Swept by the Sirocco's warm wing,
Chokes every one walking Broadway,
Where the dirt is indeed "a big thing."

One's made a "free-roller" who meets
Cart, or engine that runs to the fire;
Oh, dear! the Mississippi of streets
Should be called the long river of mire.

At crossings, policemen should stand,
Always watching for ladies so fair,
Not to lead them by touching the hand,
But to bear them aloft in the air.

When it rains, move all coaches away,
Make each Alderman paddle his boat,
Or offer his back, on Broadway,
To carry the folks who can't vote.

Were our wise city fathers to drain,
As they do the exchequer, the sewer,
We'd never have cause to complain
Of an evil the people must cure.

And if the contractor would sweep
Our paves as he does the receipts
Of our taxes, how clean he would keep
Our neglected, impassible streets.

BROOKLYN ACADEMY OF MUSIC.—The operas selected for illustration at this house to-night are those in which Lorini and Cordier have won deserved laurels, and we hope that Manager Grau will be greeted with a full house. He has not been as successful in his former efforts in Brooklyn as he had a right to expect—the audiences almost always being so small in numbers as to leave a balance on the wrong side. The opera of Ernani (Lorini as Elvira) will be given entire; and the first act of La Traviata (Cordier as Violetta). See the advertisement.

Dr. Colton proposes to give his next exhibition of the nitrous oxide gas at the Cooper Institute to-morrow evening, in connection with the full band of the 7th Regiment.

LATEST FROM LILIPUT.—Miss Lavinia Warren has taken a splendid suite of apartments at the Metropolitan Hotel, to which she removes on Saturday evening next. She and her little bridegroom hold their reception at the hotel immediately after their marriage on Tuesday next. The reception, like the wedding ceremonies, is confined strictly to those who hold cards of invitation.

FUNERAL OF THE REV. MR. QUINN.—The funeral services of the Rev. Robert A. Quin, who was shot by the monomaniac Engle, will take place at 2 p. m. to-day, at Sailors' Snug Harbor, Staten Island, of which institution he was long the honored chaplain.

CENTRAL PARK MATTERS.—The following are given as the correct amounts received and disbursed by the Commissioners of the Central Park since the commencement of the work:

Cost of land	$3,778,751 37
Construction and improvement of the Park	3,583,674 67
Total cost to the city Jan. 1, 1863	$7,362,426 04

The enhancement in value of the real estate (and its consequent corresponding increased taxable yield to the treasury) in the three wards outlying the Park has been so great as to pay the interest on the whole cost of the Park to the 1st of January last.

A few days ago Mayor Opdyke received a letter from Robert H. Pruyn, Minister to Japan, announcing the present of two golden pheasants for the Central Park. Minister Pruyn, in his letter, says:

"I indulge the hope that these birds will survive the voyage. They have been selected with care, and are exceedingly tame, having been in a cage more than a year. They will not, therefore, be tender, and will have a fair chance of life.

"Though this country is a perfect garden and full of beauty, I remember with pride and pleasure your beautiful Park, which will forevermore be one of the greatest ornaments, as well as blessings, to New-York."

Henry J. Stebbins, President of the Board of Commissioners, in acknowledgment of the favor, has addressed a letter to the Mayor, in which he expressed the hope that Minister Pruyn's interest in this matter may be emulated by our representatives in other countries.

A SOCIETY TO AID THE FREEDMEN.—A number of gentlemen residing in New-York and Brooklyn, met by invitation at the residence of the Rev. James N. Gloucester, during last week and the week previous, to consider the condition and needs of American Freedmen. The convocations resulted in the formation of an association, to be known as "The American Freedmen's Friend Society," the object of which will be to aid the freedmen, by furnishing them with clothing, medicines and medical attendance, and by sending among them instructors in morals, political economy and pure religion. A Bureau is to be opened in this city immediately, where donations of goods or money will be received, and agents will be duly appointed to collect funds and further the objects of the society. At the last meeting the following officers were elected:

The Rev. James N. Gloucester, President; the Rev. Geo. W. Le Vere, the Rev. E. J. Adams, the Rev. Charles B. Ray, Mr. Jeremiah Powers and Mr. Geo. T. Downing, Vice-Presidents; John Peterson, Recording Secretary; Professor Chas. L. Reason, Corresponding Secretary; Dr. James McCune Smith, Treasurer. Board of Directors: Peter W. Ray, M.D.; Peter Guignon, Wm. J. Wilson, the Rev. Charles H. Thompson and John J. Zuille.

NEW TELEGRAPH ENTERPRISE.—The Independent Telegraph Company having completed the extension of their line to Philadelphia, have laid across the North River a substantial cable, which is said to be the largest ever manufactured in the United States. It is composed of four conductors of No. 14 copper wire, each having three coatings of gutta-percha 5-16 inch in diameter. Each strand is wound with fine jute well tarred. The four conductors thus prepared are then laid up like a rope with lateral strands of hemp between each, and the whole wound with double tarred manilla yarn and well tarred. Over this are placed twenty-six No. 9 galvanized iron wires, which are bound around with galvanized wire of the same number, thus forming a complete shield for the core. The weight is estimated at about seven tons, and the distance one mile. The cable was made by the Bishop Gutta Percha Company of New-York, and was laid by Col. Speed, President of the line, and the foreman of the above-mentioned works. In a few days the line will be in working condition to Philadelphia.

A CORPORATION JOB.—It is currently reported that Fernando Wood's marble building in Nassau street is to be arranged for corporation offices, and that on the 1st of May next Corporation Counsel Develin, Public Administrator Bradford, Corporation Attorney Fowler, and other public officers of the city and county, will remove thereto. Without regard to the owner of the property, we should think it would be much better to locate these offices in some fire-proof building, where, in the event of a fire, no damage would accrue to the city or private individuals by the destruction of the records and public documents. The building in question is not fire-proof, nor can it be made so without reconstructing it.

APPROACH OF LENT.—Septuagesima Sunday, the observance of which was instituted for the purpose of withdrawing the minds of Christians from the festivities of Christmas, and humbly qualifying them for the fasting and humiliation enjoined during Lent, was duly commemorated in the Episcopal and Roman Catholic churches of this city on Sunday. Ash Wednesday falls this year on the 18th of February, the following Sabbath being the first Sunday in Lent. Monday, 2d of February, the Feast of the Purification of the Virgin Mary, and commemorating the presentation of Christ in the Temple at Jerusalem was observed with great ceremony in the various Catholic churches.

Brigadier-General Ullman has established his headquarters at No. 300 Broadway.

RECOVERY OF STOLEN BONDS.—On Saturday, Detective McCord arrested Joe Watson, an English burglar, under the following circumstances. Some time ago the office of a broker named White, in Boston was broken open, and $8,000 worth of State bonds stolen. On Saturday a Wall street broker received $2,000 worth of the bonds, having bought them from the burglar named. Two thousand dollars worth were obtained from one of the Boston banks, and $2,000 worth from an Albany bank. The remaining $2,000 worth are in $1,000 bonds of the city of Boston. How the banks obtained these bonds has not been stated.

CITY MORTALITY.—The number of deaths in this City during the past week was 423, a decrease of 47 from the number the previous week. The deaths from acute disease were 211; from chronic disease, 179; from external causes, &c., 33. Of these 47 died in the public institutions.

BULL'S HEAD, Monday, Feb. 2.—The Beef Cattle market opened this morning with only a little over 3,100 bullocks on sale, and if no more had been expected, prices would certainly have advanced upon current rates of last week. As it was, the first class cattle being scarce, sold a little better than last Monday; medium class the same, and lower grades not quite as well. The market was not as steady as it was a week ago, owing to the report that there were over fifty car loads somewhere this side of Buffalo, liable to be precipitated upon the market to-morrow, less what might be taken by Eastern buyers when trains arrive at Albany to-day. The kept back some large buyers, and had a tendency to make some timid holders bring sales at something less than would have been wanted by the small number now on sale. The weather to-day is clear and mild, more like April than February. The ground unfrozen, partly covered with snow, but no sleighing, and is not such weather as encourages butchers to buy largely in advance of immediate wants. The wholesale butchers do not appear at all anxious to buy at the prices of to-day. Several of them have received supplies direct from Albany, and others will wait for the trains expected to-night. Retail butchers are also buying light as they are very unwilling to pay the advance rates until it become certain that there is to be a permanent advance, so that they can increase their rates upon the stall. Then they will pay 10c. @ 15 as freely as 8c. The Sheep market is tightly supplied and very high—full 7½c. a pound live weight for the best, and 7c. for others. The receipts of Swine for a day or two have been very large, which will probably reduce prices.

PHYSIOLOGY, PHRENOLOGY, PHYSIOGNOMY—At 7 o'clock to-night, a class composed of Ladies and Gentlemen will be formed at No. 308 Broadway, to receive practical instruction in these subjects. Those who may wish to join should call this evening.

[Advertisement.]

LADIES AND GENLEMEN who would be instructed and entertained, may join a class in PRACTICAL PHRENOLOGY, now being formed at No. 308 Broadway, where they may learn "how to read character," on scientific principles. Terms moderate. Inquire as above.

We are indebted to the Purser of the steamship Columbia, Mr. Edward Henderson, for special favors.

Plaintiff brought suit against defendant (who is a tailor, and for whom plaintiff's daughter worked), for the recovery of the value of his daughter's services to him, which services were alleged to have been lost to plaintiff by reason of her seduction by defendant. The plaintiff alleged that defendant, in the absence of his wife, and when the daughter went to take in work, took advantage of her, but that from shame she said nothing of it, until compelled to do so by the consequences. Defendant alleged that the charge was false; that he had had nothing to do with the girl, that somebody else was responsible, and that this was a conspiracy against him. Ambrose L. Osborne agt. Joseph S. Reynolds.—Judgment reversed as to $74, and affirmed as to balance.

COURT OF GENERAL SESSIONS—FEB. 2.—Before Recorder HOFFMAN.

The February term of this Court commenced today. The following gentlemen were impanneled as a Grand Jury: Daniel H. Tompkins, foreman; Joseph Applegate, James S. Aspinwall, Elijah T. Brown, Duncan F. Curry, Edward Carter, Gustavus W. Faber, Geo. W. Farnham, Edward H. Fletcher, Henry G. Griffin, Harrison D. Hunt, Jacob D. Y. Hersey, Maurice Hilyer, Thomas F. Jeremiah, Samuel C. Madden, George D. Phelps, Peter M. Suydam, Thomas S. Young.

The Recorder briefly charged the Grand Jury upon the topics usually receiving their attention. He made special reference to the law of this State in reference to usury. He said it might seem supererogatory to call attention to that law in a commercial city like ours, but so long as it was the law, it was his duty to notice it, and it would remain on the statutes so long as the popular sentiment of the interior of the State remained in opposition to the usages of the city. It would be their duty, however, to find indictments in cases in violation of the law.

He also made emphatic reference to the policy shops which infested our city, and which were daily sapping the moral and social positions of hundreds of our youth. These "shops of ruin" were exerting an influence which ought to be reached if it could. He did not know whether they could be disturbed, but if they could it would be their duty to present them.

Frank Burnett pleaded guilty to petit larceny, and was remanded for sentence.

Daniel McCarthy pleaded guilty to burglary in the third degree, in breaking into the office of John A. Burton, No. 206 Pearl street, and attempting to steal $15 worth of Revenue Stamps. Sentenced to State Prison for 2 years and 3 months.

Mary Birmingham pleaded guilty to petit larceny, and was remanded for sentence. Court adjourned.
