MONDAY, Feb. 2—P. M.

The Stock Market this morning was less active and excited than of late, and the tendency of prices was downward, under the intimation from Washington that the Senate would probably strike out the legal-tender clause from the Finance bill. There was rather more disposition shown to put out sellers' options, but there was no special pressure of stock on the market. The market was most heavy for the strictly fancy securities, but there was a general indisposition to operate until the settled purpose of the Senate is known. The operators generally are confident that the Secretary must in the end resort to a further issue of paper money, if for no other purpose than to make a market for his bond issue; but, in the meantime, we shall probably have a hesitating Stock market. At the Second Board the market was again lower, but without any appearance of panic. The sales appeared to be made by parties who were realizing profits. At the 4 o'clock call there was a steadier market, and prices generally were ¼ to ¾ ₱ cent better than at the Second Board. Governments have been heavy under the impression given by the Washington advices that we are to have a large amount of bonds thrown on the market. Railroad Bonds were quiet, and generally lower. The latest quotations were firm, as follows: United States 6s, 1881, Coupon, 93½@94; United States 5s, 74, Coupon, 87@87½; United States Treasury Notes, 7.3-10, 101½@102; United States 6s, 1-year Certificates, 94½@94¾; United States Demand Notes, 153¼@153½; Tennessee State 6s, 62@63; Missouri State 6s, 61@61½; American Gold, 136¾@136¾; Pacific Mail Steamship Co., 166½@167; New-York Central Railroad, 117¼@117½; Erie Railway, 71¾@71¾; Erie Railway Preferred, 100¼@100½; Hudson River Railroad, 92½@92¾; Harlem Railroad, 32½@32¾; Harlem Railroad Preferred, 64@64½; Michigan Central Railroad, 95¾@96; Michigan Southern and Northern Indiana Railroad, 56½@56¾; Michigan Southern and Northern Indiana Railroad, Guaranteed, 103¼@104; Illinois Central Railroad, 90¼@90¾; Cleveland and Pittsburgh Railroad, 67@67½; Galena and Chicago Railroad, 90¾@90¾; Cleveland and Toledo Railroad, 86½@87; Chicago and Rock Island Railroad, 89@89½; Chicago, Burlington and Quincy Railroad, 105@110; Milwaukee and Prairie Du Chien Railroad, 36@37; Fort Wayne, 63½@63¾.

In foreign bills the business is limited, and the market lower under the decline in gold. Sterling is 174@176.

Freights are dull, but rates are unchanged. To Liverpool, the engagements are 78,000 bush. Corn at 6d., in bulk; 1,250 bbls. Flour at 1s. 10½d.@2s.—chiefly at the inside rate; 600 pkgs. Bacon and Lard at 20s.; and, per neutral flag, 200 boxes Bacon at 25s.; 100 tcs. Lard at 25s.; 200 bbls. Pork at 3s. 9d.; 50 hhds. Tallow at 25s.; and, per steamer, 1,200 bags Cloverseed at 60s.; 1,000 bales Hops at ¼d.; 400 boxes Bacon at 50s., and 2,000 pkgs. Butter at 60s. To London—1,000 bbls. Flour at 2s. 7½d.; and, per neutral vessel, 150 boxes Bacon at 52s. 6d.

The business of the Sub-Treasury was: Receipts, $2,383,165 15—for Customs, $195,000; Payments, $1,880,454 36; Balance, $7,706,609 43.

The Michigan Southern Road reports its business for the year ending Dec. 1, 1862, as follows:

EARNINGS.	
Receipts from freight	$1,060,997 54
From passengers	796,378 46
From all other sources on operating account	92,157 27
Total	$2,549,455 21
EXPENSES.	
Expenditure for repairs of road	$229,678 56
Repairs of engine and cars	203,350 00
Other operating expenses	671,649 34
Expenditures for construction	14,594 21—$1,216,272 19
Net earnings	$1,333,173 02
Bonded debt	662,564 41
At 7 ₱ cent is	424,116 16—$1,086,680 57
Floating debt	$236,492 45
Apparent balance Dec. 1, 1862	

According to the above statement, this road earned 8 ₱ cent on the Preferred Stock, after $424,116 in payment of floating debt, and $539,038 in repairs of road and equipage. If the road had been out of debt at the opening of the year, as it is now, the net earnings would have paid the Preferred Stock dividend of 10 ₱ cent, and left 6 ₱ cent for the Common shares.

The Gold speculation received a check to-day, and large parcels came on the market for realization. The reported action of the Senate upon the Finance bill alarmed some operators, who hastened to get out of the precious metal. After selling at 157 in the street, it was 157¼@158¼ at the Board, but sold later in the day at 156¾, against 158¼ on Saturday. Custom-House Notes were also lower, selling at 154¼, down to 153¾.

The Oriental Bank has declared a semi-annual dividend of 3 ₱ cent, payable on the 10th inst. The Ocean Bank a dividend of 3½ ₱ cent, free of all Government tax, payable on the 10th inst. The Beekman Fire Insurance Company have declared a semi-annual dividend of 4 ₱ cent, payable on demand. The Irving Fire Insurance Company a semi-annual dividend of 5 ₱ cent, payable on demand, free of all Government tax. The Brooklyn City Railroad Company has declared a dividend of 4 ₱ cent, without tax, payable on demand.

The Erie Preferred Stock dividend is payable on the 17th inst. The books close to-day and reopen on the 17th February. We hear that the earnings for this month are larger than ever before known.

The Hudson River and Central earnings are also enormously large.

The exchanges at the Clearing-House were the largest ever made there in a single day—$64,826,830 71.

Some timid parties are hoarding City and State Bank Notes, and they have been sold to-day as high as 2 per cent prem., payable in greenbacks. Being partly secured by New-York Stocks in addition to the responsibility of the banks they are considered by some persons as safer than Government promises.

Massachusetts Sixes are selling at Boston at 135@136.

The money market is active and the weaker class of stock houses find more difficulty in obtaining loans. The lending houses find abundant means at 5@6 ₱ cent, while other parties pay 7 ₱ cent freely with large margins. The banks are not lending freely.

According to the estimates of Commissioner Boutwell, the internal revenue will fall short one hundred and fifty millions for the current year, which proves that the framers of our present Tax bill made their calculations upon an erroneous basis. In the original bill many articles of traffic and branches of trade were inordinately taxed, as is abundantly proved by the flood of petitions for reductions which are daily filed at the Department at Washington. These remonstrances will be heeded, and in many cases a favorable response will be given. The question now is, how this deficiency is to be made up. The every-day necessaries of life are already taxed so high as to render the ordinary wages of the laboring classes entirely inadequate to the support of their families. In all large cities the different trades have demanded, and in most cases received, an increased amount for their labor. Such being the fact, the luxuries of life must be made to bear the extra tax, and to that source the Government must look for the means to replete the Treasury. At the last session of Congress Mr. Secretary Chase recommended and urged a levy of $1 per gallon on spirits, and $1 per pound on tobacco, but the bill did not pass. We think Mr. Chase was correct in his views, and are glad to see the subject again brought forward at the present session. We can see no good reason why the bill should not pass by a unanimous vote. The above named tax upon those two articles of almost universal luxury will be from 50 to 100 ₱ cent less than they are taxed in any country of the Old World. Leaf Tobacco should also be looked after. Last Winter it was proposed to lay a tax of three cents ₱ lb.; why not raise it to ten? There is no good reason why the Border States should not bear their proportion of the enormous burden which the war has brought upon the North. France for instance has assumed the monopoly of all the tobacco consumed within her limits, and from that source gathers an immense revenue; while from the duties on her brandies and wines a stupendous income is realized. We urge upon Mr. Stevens of the Committee of Ways and Means to press this matter at the present session, confident that it will prove a sure and wise measure, certain to replete the Government coffers. Let Spirits and Tobacco be largely taxed. We feel assured the country will ratify the act. Tax these articles, purely of luxury, and if the tax should reduce the consumption, one good end at least will have been attained.

The Australasian brings advices from England to Jan. 17. *The London Economist* says:

At the meeting of the Bank Directors yesterday, it was decided to advance the rate of discount to 4 ₱ cent. The situation of the Bank of France, since the return published last week, would appear to have become still less satisfactory, as news was received here early in the morning of Thursday, that a rise to 5 ₱ cent had been adopted by that establishment. The withdrawals of bullion from the Bank have been considerable this week, and large amounts have been sent to France.

It is this feature which has exercised such influence on the state of our markets, since the requirements of the Bank of France have at all times led to a great drain on our own resources. The increasing number of banks and other new schemes daily introduced to the market is also regarded as likely to occasion a demand for capital, which, without some check, would speedily become serious. Hence, under all the circumstances, the measures taken by the Bank have met with general approval.

The rates of discount are subjoined, but a few transactions have been done under the quotations given for short periods:

30 to 60 days	3½@— ₱ cent.
3 months	4 @— ₱ cent.
4 months	4½@— ₱ cent.
6 months—Bank bills	4½@— ₱ cent.
6 months—Trade bills	5½@— ₱ cent.

In the Stock Exchange, money on Government securities remains exceptionally cheap, owing to the scarcity of stock for immediate delivery—2@2½ ₱ cent.

The fixed and current rates of discount in the chief Continental cities are subjoined. In Hamburg the quotation is again lower, and in Brussels the rate has been reduced to 3 ₱ cent. In Paris, the bank rate was raised to 5 ₱ cent on Thursday:

	Bank Rate. Per cent.	Open Market. Per cent.
Paris	5	5
Vienna	5	5½
Berlin	4	5½
Frankfort	3	3
Amsterdam	4	4
Turin	5	5
Brussels	3	3
Hamburg	—	2¾@3
St. Petersburg	6	5

Thirty-five thousand pounds of bullion have been withdrawn for export to Vera-Cruz.

Consols close dull at 92¼@¾ for money, and 92¾@93 for the account. New 5 ₱ cents and reduced 1 ₱ cent.

Baring's circular quotes United States 5s at 61¾; Boston City 4½s, 81; Canada 5s 96@97; Virginia sterling 5s @51. E. F. Satterthwaite remarks:

The market in London for American securities has close our last remained very steady. To-day, however, on receipt of prices from New-York to the 3d inst., there had been an active inquiry for Erie shares, which touched 46¾, but close about ½ per cent we see. Illinois Central advanced to 93½ during the week, but have not further improved; they close sellers at that figure. The demand for Virginia bonds—both dollars and sterling—continues. United States five per cent (1874) are more offered, at a decline of ¼ to 2 per cent. In railroad bonds only a very limited business has been done. Atlantic and Great Western have been more pressed for sale, and quotations show a decline of 1 per cent.

On the 17th there were sales of Erie Railway at 45@46 per cent, and Illinois Central at 49@50½ discount.

The Bank Statement of the week shows no very important changes. The loans show a small increase although the general impression was that some contraction had taken place.

The following is a comparative statement of the condition of the banks of New-York City:
