THROUGH a remarkable system of profit-sharing investment certificates, which are practically demand notes, six great industrial enterprises in St. Louis working cooperatively have increased their business over 1,000 per cent, and their resources from a few thousand to hundreds of thousands of dollars in two years. The investors in these certificates received during the past year alone (with a total of 68 per cent in profits on their investment). Under this plan the investor can withdraw his part or all of his investment at any time he wishes, the same as though deposited in a savings bank, and takes absolutely no risk. During 1901 three of these enterprises were a total loss to their owners of expense. Now all of them are developed to the point of large profits, and one of them is the largest of its sort in the world. A few issue of these certificates which promises to be even more attractive and than the last are now being made in order to develop a new enterprise. These certificats can be had in amounts of $100 or more. Write for full particulars and bank references. G 69, Republic.

TO Speculbitrts: To those who want to save: to those who want to invest. Drop me a postal with your name and address and I will show you how to make 100 per cent in two years without risk. P. O. box 257, Madison Square, New York City.
