Central America.

The second invasion of Salvador by the President of Guatemala, it appears, proved as unsuccessful as the first. Scarcely had he crossed the frontier when he was notified that a revolution had broken out against him in his own State, and that he had been deposed, and a new President placed in his stead.

This compelled him to abandon his project and hurry home, when, by prompt measures, he succeeded in quelling the revolution and arresting the ring-leaders.

It is probable this may put an end to the war between Guatemala and Salvador, especially as the people of the former State are very much opposed to it.

The Jerez revolution in Nicaragua is not making favorable progress, his army having been badly defeated at Leon, losing most of his ammunition and two guns. It is, however, by no means improbable that he may finally succeed in deposing Martinez, as the spirit of the people of Nicaragua appears to be always in favor of the revolutionary party. James Thomas, the accomplice of Jerez in seizing the transit steamers, has been arrested and imprisoned.

Regarding the transit, it is doubtful whether the passengers will be allowed to cross the territory. No one appears to know anything about it.

The Congress of Costa Rica had been convened for the 1st of May. The new President, Sr. Jesus Jimenez, will take his seat on the 8th inst. Dr. Montenegre retires from office, taking with him the good will of the people, and Sr. Jimenez is looked upon as a man well fitted to manage the Executive.

The Coffee crop has finally turned out larger than anticipated by 10,000 quintals. There is but a small quantity unshipped, which is held at $16.

South America.

CHILI.—The news from Chili by the last mail related chiefly to the difficulty between the Chili and British Governments, and the steps threatened to be taken by the British Admiral to enforce a claim of $50,000, made by an individual of the name of Whitehead. We have now to announce that England has been saved from proceeding to any extremities, and that this difficulty has been closed by Whitehead having withdrawn his claim on the Chili Government. The present Ministry is not giving public satisfaction—their apathy is complained of—they seem hardly to sympathize with the advanced policy which, hitherto carried out, has placed Chili as the foremost of South American Republics.

The state of the markets has, during the last fortnight, been about the same as in the previous. There is confidence in the money market, and business goes on steadily. The Valparaiso Bank announces its rates of interest at 4 per cent on deposits at call, up to 6 per cent for deposits for six months, fixed; 4 per cent on accounts current. Exchange 44¼ a 45d. per dollar.

PERU.—The death of the lamented San Roman seems to have united the whole people of Peru in one sentiment, viz: that of respect for the high principles by which he sought to be guided in his government, desire for the consolidation of peace and principles of progress in the country, and a hearty support of the new ministry, whose declared policy it is to carry out the noble aims of the late President. Congress has passed a bill for endowing his family with a sum of one hundred thousand dollars.

It is a remarkable instance of the probity of the late General that he died poor.

The Ministerial circulars now before the public are of a highly satisfactory character, and augur well. The statement of the Minister of Finance calculates upon a sum of fifteen millions of dollars to the credit of the Exchequer to the end of 1863, to meet the expenditure for the eight months till then.

Exchange on London continues at 39d. per dollar.

Horrors of the Knoxville Jail.

COLUMBUS, O., May 12, 1863.

A lieutenant of the 44th Ohio, a recently exchanged prisoner, is here. He was released from Knoxville (Tenn.) jail some ten days ago. He reports that there is still a strong, out-spoken Union sentiment at Knoxville. The jail there is filled with loyal citizens of Tennessee, who are treated with all possible harshness and cruelty, and are kept in a most loathsome manner. The jail is so crowded that the prisoners are compelled to take turns in sleeping.

There are in it six cages about ten feet square, in each of which there are confined from five to seven prisoners—generally those who are the strongest friends of the old Union. In addition to these the Rebels have in jail three Union officers in chains. They are Capt. Harris of the 3d Tennessee Cavalry, Capt. Deacon of the 2d Tennessee Infantry, and Lieut. Rodgers of the 1st Tennessee Cavalry. Capt. Harris was once sentenced to death, but his father paid $75,000 to have his sentence commuted to imprisonment for life.

The Rebels are endeavoring to make out that the other two officers are spies, though there is not the least foundation for any such charge. It is only hatred to the men, and a desire to put them out of the way. The Union ladies of Knoxville do all they are allowed to do for the relief of the sufferings of the prisoners. The guard of the jail is composed almost entirely of boys, the men having been sent to the field.

Murder Trial.

NEW-HAVEN, Saturday, May 16, 1863.

The trial of George N. Cook for the murder of Thomas F. McCaffey, which has occupied the time of the Superior Court for the past four days, resulted this morning in a disagreement of the Jury.
