### WEDNESDAY, July 8—P. M.

The Stock market was depressed this morning in the street, and was hammered with energy by the bears. At the morning session, however, there was a better feeling, and a general recovery in Shares of 1@2 ⅌ cent, but quotations were still below those of yesterday. The bears appeared to have the impression that the successes at Gettysburg and the capture of Vicksburg should have a depressing effect upon the Share market, and sold freely, some bulls following their lead. There was considerable excitement during the session, and the commission houses appeared to have a fair amount of orders to buy, but not sufficient to prevent a general decline. Pacific Mail was among the strongest stocks, selling at 181¼@181¾, about the price of yesterday. Hudson River attracted a good deal of attention, and after selling at 171 fell off to 168, with the usual wide differences for sellers' option, which are about 1 ⅌ cent ⅌ day. The scarcity of cash stock still continues, and deliveries are made with great difficulty. The net earnings of this Company for eight months ending 31st May exceed $1,100,000, after the payment of interest, which is 25 ⅌ cent on the capital stock. Estimating the increase of the remaining four months at $200,000, (June is already known—$50,000), and the net earnings will exceed $1,400,000, or 32 ⅌ cent. The working expenses have been decreased this year from 54 to 46 ⅌ cent. These earnings, if they are any precedent for the future, more than justify the present market quotation. In the Western shares the tendency generally was downward. Governments were quiet at about previous quotations. At the Second Board the market was not active, and quotations were irregular, but as a whole rather firmer. Hudson recovered to 175, which is 9 ⅌ cent above the lowest point of the day. Michigan Southern, New-York Central and Harlem were better, but Illinois Central was lower. Governments were dull at morning rates. At the 4-o'clock call the transactions were not large, but the tone was strong, and in some cases the quotations were higher. The latest figures were: U. S. 6s, '81, Coup., 105@105¼; American Gold, 130¼@130¾; Tennessee State 6s, 63@64; Missouri State 6s, 70¾@71; Cumberland Coal, 20½@21; Pacific Mail Steamship Company, 182@182¼; New-York Central Railroad, 116¾@117; Erie Railway, 92¾@93; Erie Railway, Preferred, 101¼@101½; Hudson River Railroad, 175@176; Harlem Railroad, 96¾@97; Harlem Preferred, 94; Reading Railroad, 102½@103; Michigan Central Railroad, 108@108¼; Michigan Southern and Northern Indiana Railroad, 77¼@77½; Michigan Southern and Northern Indiana Railroad, Guaranteed, 114@114½; Illinois Central Railroad, 105@105¼; Cleveland and Pittsburgh Railroad, 83@83¼; Galena and Chicago Railroad, 90½@90¾; Cleveland and Toledo Railroad, 107@108; Chicago and Rock Island Railroad, 93@93; Milwaukee and Prairie Du Chien, 51½@52; Pittsburgh, Fort Wayne and Chicago, 65@65; Alton and Terre Haute, 40½@41; Chicago and Alton, 64@64.

Freights are very dull, and rates are rather easier. To Liverpool, the engagements are 80,000 bush. Corn at 6¾@6¼d., in bulk and bags, mostly at the latter rate; 20,000 do. do., in bags, to fill up for neutral vessel, at 7d.; 24,000 bush. Wheat at 7d., in bags ⅌ American flag, and 18,000 do. do. ⅌ Great Eastern, at 8d. To London, 3,500 bush. Corn, in bags, at 7½d. To Glasgow, 50 tcs. Lard, ⅌ neutral flag, at 35s. The charters are a foreign bark, with 20,000 bush. Grain, to Cork and a market, at 7s. 9d.

The business of the Sub-Treasury was: Receipts, $2,398,278 30—for Custom-House, $150,000; Payments, $2,227,229 46; Balance, $24,606,832 14.

The late victorious news from the Army of the Potomac and from the West has increased the confidence of capitalists, so that some who were a few days ago refusing to lend on Western Railroad shares, are now free lenders on the stocks of several of the best managed roads. The money market thus continues very easy at 6@7 ⅌ cent, with prospect of farther improvement in favor of borrowers.

The Gold market was excited again to-day, and fluctuated considerably. It opened early in the morning at 130¼, but gradually rose to 131¾. The sales at the First Board were nearly $200,000 at 131¼@131¾, closing at 131¼@131½. From this price it fell to 130, and rallied again, and closed this evening at 130¼@130¾. The outside sales were quite large.

Foreign Exchange was dull at 144@145.

The Hecla, from this port this morning, takes out $98,500 in specie, and the Canada, from Boston, $14,000.

The fall in gold and exchange is felt throughout all the various ramifications of trade, and almost everywhere dullness with lower prices is the prevailing feature. Breadstuffs were materially affected to-day, and sales could only be made by offering large concessions. Flour fell off 10@20c. ⅌ bbl. Wheat 3@5c., and Corn 3c. ⅌ bushel. Cotton has declined about 8c. ⅌ lb. The great speculative article of Petroleum has become very difficult to sell. The boot and shoe trade is depressed and there was a further falling off at to-days auction sales.

The deposits at the Sub-Treasurer's office to-day for conversions into 5.20s amounted to $863,100, $478,100 of which were direct, and $385,000 through agents.

The New World Fire Insurance Company has declared a dividend of 4 ⅌ cent, free from Government tax, payable on the 13th inst. The Knickerbocker Fire Insurance Company, a semi-annual dividend of 6 ⅌ cent, payable on the 15th inst. The quantity of flour, wheat, corn and barley left at tide-water, during the fourth week in June, in the years 1862 and 1863, was as follows:

| | Flour. bbls. | Wheat. bush. | Corn. bush. | Barley. bush. |

The aggregate quantity of the same articles left at tide-water from the commencement of navigation to the 30th of June, inclusive, during the years 1862 and 1863, was as follows:

| | Flour, bbls. | Wheat, bush. | Corn, bush. | Barley, bush. |

By reducing the Wheat to Flour, the quantity of the latter left at tide-water this year, compared with the corresponding period of last year, shows a deficiency equal to 367,340 bbls. flour.

The following comparative table shows the quantity of some of the principal articles of produce left at tide-water, from the commencement of navigation, to and including the 30th of June, in the years indicated:

### Markets—CAREFULLY REPORTED FOR THE N. Y. TRIBUNE.

WEDNESDAY, July 8, 1863.

ASHES—The market is quiet, and prices are entirely nominal.

BEESWAX is in fair request, and prices are sustained; sales of 2,000 lb Western at 26c. cash.

COTTON—The market has not yet recovered from the shock received yesterday upon the receipt of the news from Vicksburg, and the business has been very limited, embracing not more than 100 bales. Prices are still nominal, though holders report having sold at prices ranging from 57@60c. for Middlings.

COFFEE—The demand is still very moderate, and prices for most kinds are heavy; we have only to note sales of 125 bags Rio at 29½c., less 2 ⅌ cent, and 100 bags Maracaibo at 31½c.

COPPER—Refined Indigo is in light supply, and is quiet, but firm, at 32@33c., although a sale of 600,000 lb Baltimore was made to a Government contractor, in the city of said name, at 31c. cash. Other kinds are steady. An invoice of 10,000 lb old Copper and Brass has been sold at 21c. and 21c. cash respectively.

COAL—The demand for Foreign is good, and the supply is light; prices tend upward; we hear of sales of 500 tons Liverpool Gas Cannel, and 2,000 tons Liverpool and Newcastle Gas, to arrive, on private terms; 1,200 tons Pelsley Cross Gas Cannel at $9. 250 tons Welsh Steam at $10 25. Domestic is in demand, and not very plenty; prices are unsettled; we hear of sales at $10@$11 ⅌ ton, from yard.

CANDLES are in moderate demand, and prices are well maintained; sales of 5,000 boxes Adamantine City brands at 19c. 4 mos., but job lots of prime and full heavy weight command 22@23½c. Sperm are steady at 39@40c., and Patent at 48@50c. Paraffine are selling slowly at 35c. for No. 1, and 30c. for No. 2, cash.

CORDAGE sells slowly at 15½@16½c. for Manilla as to size, 6 mos.

DYEWOODS, influenced by the rapid decline in exchange, are rather dull and prices nominal; sales 124 tons St. Domingo Logwood at $19, cash, and 250 tons Campeachy do. on private terms. The stock on hand on the 1st inst. was as follows: 615 tons St. Domingo Logwood; 700 do. Jamaica do.; 673 do. Honduras do.; 430 do. Campeachy do.; 51 do. Savanilla Fustic; 505 do. Lima Wood and 25 do. Sapan do.

FLOUR AND MEAL—The market for Western and State Flour is unsettled. The demand is less active, and prices have declined 10 to 20 cents ⅌ bbl, the further heaviness in Gold and Exchange causes the depression. The sales are 6,300 bbls. at $4 25@$4 70 for Superfine State and Western; $5 40@$5 70 for Extra State; $5 75@$5 90 for Fancy do.; $5 25@$5 75 for the low grades of extra Western; $5 80@$6 for Shipping Ohio; $6 10@$7 90 for Trade brands, and $5 90@$6 25 for St. Louis Canadian. Flour is very quiet, and prices are heavy and 10c. lower; sales of 300 bbls. at $5 45@$5 70 for the low grades of Extra, and $5 80@$7 50 for trade brands do. Southern Flour is lite, easier, and the market is less active; sales of 640 bbls. at $6 10@$6 50 for mixed to good Superfine Baltimore &c., and $7@$9 for trade brands do. Rye Flour is quiet; sales of 150 bbls. at $3 40@$5 25. Corn Meal is heavy and lower; sales of 200 bbls. at $4 for Jersey, and $4 25 for Marsh's Calorie and Atlantic Mills.

FISH—Dry Cod are in better supply, and not quite so firm; sales 1,500 qtls. at $5 25@$5 50 for small and medium good Western Bank, and $6 12½@$6 25 for St. George's Bank. Mackerel have been in good demand, and are quite firm, the supply not large; sales of 1,000 bbls. new large No. 3 Massachusetts at $8 50@$9; 500 do. old medium No. 3 do. at $6 25@$6 50; 500 do. large No. 2 Halifax, here and to arrive, at $10 50; medium No. 3 old Massachusetts have been in good request at $5 25@$5 50; No. 1 Bay are in limited demand at $12@$12 25. Smoked Herring are in good supply, and the market is dull yet firm, as all of those recently received have been stored for higher prices, and no good merchantable Herring can be quoted at anything below 32c. for No. 1 and 30c. for Scaled. There are a good many small and unmerchantable ones on the market, however, and these are being sold partly by interested parties at prices which are no guide whatsoever to the real value of the goods; sales of some 5,000 boxes of unmerchantable and inferior have been made at 25c. for Scaled and 26c. for No. 1, but job lots from store command 40 and 35c. respectively. Other kinds are inactive, and sales confined to 100 bbls. Scale Fish, part to arrive, at $3 50.

FRUIT—The market for foreign dried has been very quiet the past week. Only small sales of Raisins were made to the trade at $4 25@$4 50 for Bunch, and $4 62½@$4 70 for Layers. Prices remain about the same. Other kinds of foreign dried have been in very limited demand, and we have only to note small sales of Currants at 14c. for old, and 14½c. for new, and Turkish Prunes at 13c. In foreign green we note sales of Baracoa Bananas at 75@87½c., and East Island Pineapples at $10. Dried Apples have been in good demand, and high prices were paid; sales were made for export at 7@7½c., though holders generally at the close demand more money. Sales at auction of 1,065 boxes Messina Oranges at $2 75@$4 80, and 2,000 do. Lemons at $2 85@$2 75, cash.

FEATHERS are dull and lower. We quote Western prime at 56c. cash.

FLAX is in moderate request at prices ranging from 13@20c. on domestic.

GRAIN—The Wheat market is well supplied, and is most decidedly lower, dull, and quite irregular; the decline is 5@⅌ bush fully, but in some instances, a concession of 7@8c. has been submitted to, in view of the great decline in Gold and exchange, and the surrender of Vicksburg to the Union forces, beside the success of the Union army everywhere, gives assurance of an early surrender of the Confederate forces, the return of the revolted States to the Union, and a general depreciation in prices of Grain, Breadstuffs, and various other commodities; the sales are 14,000 bushels good Milwaukee Club, at $1 31; 20,000 do. Amber Western, at $1 40@$1 42, and 1,000 do. choice Amber State, at $1 47. Barley and Barley Malt are dull, and prices nominal. Oats are more plenty, and are in fair demand at rather easier rates; sales of Canadian, at 71@73½c.; Western, at 74@75½c., and State, at 76@78½c. Rye is quiet yet steady, at $1 02 for Jersey, and $1 04@$1 05 for State. Corn is 3@4c. ⅌ bushel lower, but is quite active at the decline; sales of 210,000 bushels at 62@66c. for Eastern Mixed; 66@67c. for Shipping and 68@72c. for Western Yellow.

GUNNY CLOTH is devoid of activity, and is nominally held at 19c. for standard goods. The stock in Boston on the 1st inst. included 42,500 bales, against 37,600 do. at the corresponding date last year.

GUNNY BAGS are dull and nominal at 19c.; the stock in Boston on the 1st inst. comprised 11,269 bales, against 1,950 do. at the same period last year.

HIDES—The market for dry Hides the past week has been moderately active, the demand being from the trade and out-of-town buyers; prices in the early part of the week were very firm; in fact, the business was materially restricted by the extreme rates demanded by holders, many of whom refused to sell unless at an improvement of 1@1½c. over the prices current of last week; at the close there was no disposition on the part of buyers or sellers to operate in the present state of the money market; the glorious news from Vicksburg, and the very favorable news from Pennsylvania, completely unsettled the market. In wet salted Hides the business has been limited—the supply being light; prices were firm at the opening, but at the close this description sympathized with others. The total stock of all kinds on hand is estimated at 369,000, again at 276,000 same time last year.

HEMP continues languid, and prices nominally unchanged, with the exception of Manilla, which has advanced to 16@c.; and sales are reported at higher rates in Boston, under the apprehension that some cargoes on the way may be destroyed by the English-Confederate-piratical-war vessels; the supply here, however, has been augmented by the arrival of two ships with 9,300 bales.

HOPS continue in moderate request at 16@22c. for ordinary to choice selection, mainly at 17@20c. for good to prime quality.

HONEY—Very little has been done the past week. We quote Cuba at $1 05, duty paid, and 43@46c. in bond.

HAY—The market is firm, and the demand fair for shipping; sales of 1,600 bales at 80@85c.

LEATHER—Hemlock and Oak Sole has been in moderate demand; prices have ruled steady throughout the week, and at the close are firm under light receipts; we quote middle weights at 28@29c.; light weights, 27@28c., and heavy weights at 29@30c. Slaughtered Upper in rough is in moderate supply and firm. French and American Calfskins are in moderate demand, and prices are unchanged.

MOLASSES—There has been a better inquiry to-day, but prices favor the buyer; sales of 495 hhds. and 34 tcs. Cuba Muscovado at 40c. Other sales have been made, but the particulars are kept secret.

OIL CAKE—The market is quiet; prices are lower, and are nominal.

OIL MEAL—The market is less active, and with fair arrivals prices are lower; sales of 17 tuns at $2 15@$2 17½ ⅌ 100 lb.

PROVISIONS—The Pork market is less active, and is heavy, although there was apparently more firmness manifested at the close; sales of 1,800 bbls. at $11 50@$11 75 for old Mess; $13 37½@$13 37½ for new do.; $10 50@$10 62½ for sour and musty Mess; and $11 25@$11 50 for new Prime. Beef is steady and in moderate demand; sales of 200 bbls. at $9 50@$12 25 for plain Mess, and $12 50@$14 for extra Mess. Tierce Beef and Beef Hams are both inactive, and prices are nominally unchanged. Cut Meats are dull and heavy; sales of 100 pkgs. at 4½@4¾c. for Shoulders, 7½@8c. for Hams, and 50 pkgs. Western Hams, in canvas, at 10c. Bacon continues languid, and prices are merely nominal. Lard is inactive, and is again lower; sales of 500 bbls. at 9½@10c. Butter is in fair request at steady rates. Cheese is firm and in moderate demand at 11½@12½c. for good to choice State; 9@10c. for fair to good do.; 10½@11½c. for good to choice Ohio; and 11@13c. for English Dairy do.

RICE—Nothing worth noticing has transpired to-day; the market is very weak, and large lots could probably be bought at a decline of ¼@½c. ⅌ lb.

SUGARS—Raw Sugars are still quiet, but holders do not appear disposed to yield to any extent, and prices remain about the same. Fair refinery may be quoted at 10½c. The sales to-day embrace only 259 hhds., including claimed New Orleans at 12½c. and Cuba Sugar at 10½c.; refined are quoted at 14¾@15c. for Hards.

SKINS—The demand for Goat has been fair, and the market very firm; the stock of prime heavy has become much reduced, but that of light is larger. We quote at 60@62½c. ⅌ lb. for Tampico; 60c. for Vera Cruz; 47½@50c. for Buenos Ayres; 50c. for Payta; 50@52½c. for Curacoa; 42½@45c. for Cape and 65@70c. for Madras, all cash. Deer Skins have been in brisk demand, the supply is light, but the high prices asked materially checks transactions. We quote 60@65c. for Honduras; 70@75c. for San Juan; 50c. for Bolivar; 60@65c. for Sisal; 75@80c. for Vera Cruz; 70@75c. for Chagres; 50@55c. for Porto Cabello and Barcelona, and 60@65c., cash for Para. At the close the market for both Goat and Deer is very quiet and prices are nominal.

SEEDS—The market is very dull for Cloverseed; sales of small lots at 8@9½c., the stock is be never light. Timothy Seed is quiet but firm at $2 20@$2 25 ⅌ bush. Rough Flaxseed is inactive at $2 40@$2 50 ⅌ bush. of 56 lb.

SHOT are steady, and in limited request at 12c. for Drop, and 12½c. for Buck, cash.

TOBACCO—The business the past week has been only to a moderate extent, though prices are without quotable variation. At the close the market was very dull under the rapid decline in gold and exchange. Sales have been made in the early part of the week at 12@21c. for Kentucky, and 20@30c. for Seedleaf.

TEA—There has been only a moderate business doing since our last, and we have only to note small sales of Greens on private terms. The favorable news from the army, and the rapid decline in gold and exchange, completely unsettled the market at the close, and prices were to a stand-still. We append a few quotations, but they must be considered nominal: Hyson, 50c. @$1 50; Young Hyson, 65c. @$1 35; Hyson Skin and Twankay, 30@35c.; Gunpowder and Imperial, 65c. @$1 50, and Oolong, 65c. @$1 15.

TALLOW—The market is easier, and closes quiet, the depression in exchange checks the demand for export; sales of 70,000 lb at 9½@10½c. for Western and 10c. for City. Rough Fat is quiet at 7½c., cash.

WOOL—The market is in a peculiar condition
