WEDNESDAY, Aug. 26—2 P. M.

The Stock market was lower to-day. Each step in the advance of the market is met by outsiders who desire to realize, and for a short time after each advance, the offerings from those holders temporarily depress the market. There does not seem, however, to be any real abatement of the speculative disposition which has been manifested for several weeks, and it will probably be only a day or two before the market is up again. The strongest influence to depress the Stock market permanently would be a tight money market. Our Money market at present is very easy, and so long as we have a paper money currency and a large amount of it, the Money market is not likely to be stringent, and will not probably be so until long after the close of the war. The movements in New-York Central, Erie, Harlem, Illinois Central, and Cleveland and Pittsburgh, were large, but at a decline. Harlem declined 5, Michigan Southern, 1; Illinois Central, ½; Pittsburgh, ¾; Toledo, 3; Rock Island, 1½; Fort Wayne, 3; Canton, 1; Chicago and North-Western, 1½; New-York Central, ¼. Governments were moderately active and firm. At the Second Board, the downward tendency continued, and there was a strong disposition among outside holders to realize. Erie declined ½; Harlem, 1; New-York Central, ¼; Reading, 1. At the 4 p. m. Public Board, the market was still lower, and closed heavy at the following: Cumberland 20½; Canton, 52½; Rocks, 2½@2¾; American Gold, 123¼@123½; Pacific Mail Steamship Co., 2½@2¾; N. Y. Central R. R., 132½@133¼; Erie Railway, 11½@11¾; Erie Railway Preferred, 30½@30¾; Hudson River Railroad, 145@146; Harlem Railroad, 16½@17; Reading Railroad, 122½@122¾; Michigan Central Railroad, 132¼@132½; Michigan Southern and Northern Indiana Railroad, 100½@100¾; Michigan Southern and Northern Indiana, Guaranteed, 133½@133¾; Illinois Central Railroad, 134¼@134½; Cleveland and Pittsburgh, 103½@104; Galena and Chicago Railroad, 112½@112¾; Cleveland and Toledo Railroad, 119½@119¾; Chicago and Rock Island Railroad, 113¼@114; Milwaukee and Prairie du Chien, 79½@80; Pittsburgh, Fort Wayne and Chicago, 91½@92; Terre Haute and Alton, 63½; Terre Haute and Alton Preferred, 85½@86½; Chicago and North-Western, 35½@36; Chicago and Alton, 82½.

Sterling exchange opened at 135, but advanced as gold grew firmer, until 135¼ was paid, and the market closed at 156. France are 4.17½@4.15. The movements are light.

Freights continue very dull and rates are depressed. To Liverpool the engagements are per steamer: 1,000 boxes Cheese at 50s.; per steamer Great Eastern, 21,000 bushels Wheat at 7½d., and 9,000 bbls. Flour at 2s. To London: 13,500 bushels Wheat at 6½d. in bulk, and 4,400 bbls. Flour at 2s. 1½d.

The business of the Sub-Treasury was: Receipts, $2,543,262 27; for Customs, $247,000; Payments, $2,324,152 85; Balance, $25,272,408 67.

The earnings of the Toledo and Wabash Railroad for the third week in August were:

	1862.	1863.
Passengers	$1,661 45	$2,560 60
Freight	32,403 05	23,726 01
Total	$37,094 50	$22,728 01

The earnings of the Galena and Chicago Railroad from Jan. 1, to August 22, were:

1862	$1,146,766 00	1863	$1,031,521 68
Increase			$115,184 32

The Galena and Chicago Railway (one of the best Roads of the West) is now doing a large and increasing business. In 1862, Northern Illinois had a poor crop, while this year with a good crop the Galena will show a handsome gain through the year. The Galena Company pays $94,000 to its sinking fund every year, and is rapidly becoming one of the best and most independent railways in the country.

The Money market was decidedly active to-day. The general rate is 6 ⅌ cent, but the range is from 5@7, with more at 5 than at 7.

Gold is a little firmer. The market opened at $1 22½. Sales at the Board were $50,000 at $1 22½@$1 22¾. After the Board it sold at $1 23, and closes at $1 23½@$1 23¾. The China to-day took out $209,241 in specie. The North Star brings $229,854 from California.

The subscriptions to the 5-20 bonds to-day are $457,900, and the deposits on temporary loan $580,300. The orders are now more numerous and smaller in amount, showing that these very lucrative securities are mostly resorted to as a means of investment by a large class of persons of small incomes, who wish to place their savings where they will at once be safe and draw a high rate of interest.

The cotton goods market is weak. Outside holders are underselling regular agents.

The auction sales of foreign dry-goods are passing off very well. Lupin's low priced bombazines sold well at auction to-day, and a few duplicates were taken. The lowest price was 99c. Saxony dress goods sold well. Veil bareges sold rather low. The carpet sale to-day realized lower prices.

Markets—CAREFULLY REPORTED FOR THE N. Y. TRIBUNE.
WEDNESDAY, Aug. 26, 1863.

ASHES—The market is quiet for Pots at $7, and for Pearls at $9.

BEESWAX is in moderate request, at 43c. cash for Western.

CANDLES—Adamantine have been in moderate demand at 19@22c. for good to prime city brands, closing quietly, however. Stearic are steady at 26@27c. Sperm have declined to 35@37c., and Patent Candles to 45c.

COFFEE—Refined Ingot is in fair demand, and with a decreasing stock prices are maintained with increased firmness. Sales 425,000 lb Baltimore and Lake Superior at 30½c. for the former, and 31@31½c. cash for the latter. New Sheathing is steady at 42c., and Yellow Metal at 27c., 6 months.

CORDAGE—Manilla is firmer, and is now quoted at 15½@16½c., 6 months, for large and small sizes.

COTTON—The business is still very limited, and we have only to note a sale of 200 bales, in lots, at 60c. for Middling. Prices at the close are entirely nominal.

COFFEE—There is a good inquiry for Rio to-day, and prices are well sustained.

COAL—The demand for Foreign continues good, and the supply is inadequate to the wants of the trade, and prices tend upward, as the consumption has increased materially, it being regarded as cheaper than Domestic. The local trade in Domestic is moderate, and the receipts are large, in excess of last year; sales from yard, at $7 50@$8 50; and by the cargo, at auction, at $5 50@$7 15. The sales of Foreign include 240 tons Scotch Steam, at about $6 50, 120 do. Sydney, at $7; 240 tons Newcastle cargo, taking ex ship, at $7 75, cash; 400 do. Ex L. L. Baker, Gas Cannel, and 500 Putney, on private terms, but at higher prices. The Delaware, Lackawanna, and Western Railroad Company held another of their series of public sales of coal at noon to-day, at Gilpen's Exchange Reading Rooms, through Simeon Draper, esq., the well known auctioneer. The quantity offered comprised about 25,000 tons Scranton Coal, and the entire offering was bought at slightly enhanced rates for all descriptions, except Chestnut, which sold at a decline. The following are the particulars:

100 tons Egg Coal	$6 95	100 tons Chestnut at	$5 10

FLOUR AND MEAL—The market for Western and State Flour is less active, and is lower, but new and fresh ground are steady, though not very active, the arrivals of fresh ground are limited. The sales are 11,400 bbls. at $4@$4 10 for Superfine State and Western; $4 20@$5 for fresh ground State; $5 15@$5 40 for Fancy State; $4 25@$4 75 for the low grades of Western Extra (old); $5 10@$5 35 for shipping Ohio; $5 40@$7 10 for trade and family extras; $5 20@$7 50 for old St. Louis Extras. Canadian Flour is easier, and very quiet; sales of 250 bbls. at $4 20@$4 85 for the low grades for Extra, and $5@$7 for trade and family Extras from old Wheat. Southern Flour is again easier. The low grades are very unsaleable. Sales of 600 bbls. at $4 30@$5 25 for Common Country and Baltimore Extras, and $5 30@$7 50 for trade brands. Rye Flour is steady and in fair demand; sales of 275 bbls. at $4 50@$5 25. Corn Meal is a shade firmer; sales of 600 bbls. at $3 30 for Jersey, and $4 20 for Atlantic Mills.

FISH—Dry Cod are scarce and quite firm at $5 37½@$5 12½ for small and large Western and St. George's Bank, but handsome George's sell as high as $5 75@$5 87½ in small lots from store. French Cod have been in good request at $5@$5 25 in bond. Mackerel are less active, but with a reduced stock prices are firm, with moderate sales at $3 50@$3 75 for No. 2 Massachusetts, and $4 50@$4 62½ for No. 3 do. No. 1 small Massachusetts are held firmly at $11 25@$11 50, and No. 1 large do. at $17 50@$18. Smoked Herring are scarce and are quite firm, with moderate sales of No. 1 at 50c., and scaled at 45c. The greater portion of those which were placed upon the market the past six weeks, were of inferior quality, and have been selling at low and very irregular rates, as the goods have become deteriorated by the exceedingly warm weather, but at no time in two months could desirable qualities be bought short of our current rates. Mackerel Herring are more plenty, and some 20,000 boxes are offering at 25c. and 12½c. scaled, which are held firmly at 25c. Other descriptions are quiet, and prices unchanged.

FRUIT—The demand for Foreign Dried has been less active. Raisins have met with another rolling off. We quote Bunch at $4 and Layers at $4 25. Other kinds of Foreign Dried fruit are only been in moderate demand, but prices rule steady at 12½c. for new Currants, 22@23c. for Leghorns Citron, 21@22c. for Lemon-peel, 22@23c. for Orange-peel, 16@17c. for Leghorns Almonds, 17@18c. for Florence do., 16@17c. for Fancy Soft-shelled do., and 20@22c. for Shelled Almonds. In Foreign Green there has been a fair business done at about former prices, sales of 60 bags Brazil Nuts at $7 50@$7 60, 1,600 bags Messina Lemonsat $10, ex ship, 30,000 Palermo Pineapples, including Cut Leaf, at $4@$7, and 100 boxes Malaga Figs on private terms. Domestic Dried is in moderate demand, and without material alteration in prices; sales of 70,000 lb State Apples at 6@6½c. Domestic Dried are in good supply, but prices are firm. Apples are worth $2@$2 25 ⅌ bbl. Peaches have been in good supply throughout the week, and as the demand is brisk, prices are maintained. We note sales of 10,000 baskets at $1 50@$2 for Delaware and Jersey.

FEATHERS are steady and in limited request at 50c. cash, for prime Western.

GRAIN—The inquiry for Wheat is fair, but with unfavorable news from Europe, and a marked decline in Exchange, prices are 1@2c. lower, and at the close the market is unsettled. The demand is chiefly for export. The sales are 37,000 bushels at 70c.@$1 for Chicago Spring; 82c.@$1 for do. Milwaukee Club, $1 10@$1 17 for Amber do., $1 20 for Red State Spring; $1 21 for do. Winter, and $1 24@$1 26 for Amber Michigan. Rye is quiet and prices are nominal at 90@92c. Barley is nominal. We notice the first sample of new Canada East, consigned to Messrs. Gordon, Bruce, & McAlpin, the quality good, much better than last year. Malt is quiet, and prices nominal. Oats are active and better sales of Canadian at 42@43c.; Western at 40@41c., and State at 41½@42c. Corn is freely offered, and is 1@1½c. lower, closing heavy; sales of 72,000 bush. at 72½@73c. for Eastern Mixed, 70@70c. for Shipping do., and 70c. for Western Yellow.

HOPS are in moderate request, and with a reduced stock there are less cheap lots offering; sales of 100 bales for to-good quality at 12@13c.; choice are worth 20@22c. The advices from Otsego and Schoharie Counties continue unfavorable, the excessive warm weather has occasioned the leaves that were more or less blasted by heavy rains and insects to fall off, but from other districts of this State the accounts are more favorable. In any event, however, the crop will undoubtedly be a short one, and therefore we would call the particular attention of our readers to the annexed circular, just issued by Messrs. Dutcher & Elderby, to hop growers:

"The season of hop picking having arrived, we beg leave to offer a few suggestions for your consideration. As our growth of hops exceeds the consumption in this country, we must depend on Europe for a market for our surplus; and it is all important that they should be so picked, cured, and baled as to be acceptable to foreign purchasers. Our Mr. Elderby is now in Europe, carefully watching the progress of the crop, and will remain abroad until the close of the harvest. His presence there enables us to advise our friends of the prospects of the foreign crop, and also to acquaint them with the complaints made by English and German brewers in regard to American Hops. The complaints refer to the bad picking of our Hops, and the bad flavor resulting from such picking and imperfect curing. An analysis has recently been published in the *Hop Growers' Journal*, demonstrating that intrinsically the American Hop is the most valuable; it is therefore to the interest of every grower to take pains so to prepare his Hops that there shall be no ground for complaint. The estimates of the English crop place it at not more than 150,000 bales, leaving a deficiency of 50,000 to 70,000 bales. Germany, at the last advices, was likely to grow a surplus, although in Bavaria, upon which great dependence is generally placed, not over two-thirds a crop is expected. It is apparent, therefore, that upon the quality of our Hops will turn the important question whether the English deficiency shall be supplied from this country or from Germany. If American Hops are properly picked and cured, they will be preferred. We advise, therefore, that not over 200 pounds shall be put in a bale, and that the bagging should be the best you can procure, clean, true, and tare your hops in the best possible manner, and you will secure a liberal remuneration for your labor this season, and establish a reputation abroad that will reward you. Rusty and 'Whipped' Hops should be picked, and baled by themselves."

MONEY—The business is very limited, but prices generally are without decided change; sales of 60 tons, and 122 bbls. Cuba for export on private terms. We quote Cuba at 90@92½c., duty paid.

HAY—The demand is fair for old, and the supply moderate; sales of 300 bales at $1. Straw is selling freely at 95c.@$1 ⅌ 100 lb, and is more plenty. Rye Straw is in demand at 50@60c. ⅌ 100 lb.

MOLASSES—Prices are very firm, but the business is only to a moderate extent. Sales of 70 bbls. New-Orleans at 39@50c.

OILS—Petroleum continues in active speculative demand and prices favor the seller. Sales of 1,250 bbls. Refined in bond for September delivery, at 65c. seller's option; 1,000 do. do. for October at 66c.; 2,500 do. do. on the spot for immediate delivery for export, at 66c.; 2,100 do. do., free on the spot, at 70@73c., and 2,200 do. Crude at 46c. Other descriptions are in limited request, but prices are without essential change. Sales of 150 bbls. Inferior Grade Sperm at New-Bedford, at $1 42; 650 cases olive quarts and pints part, at $4 50 for quarts; 8,000 gallons Winter Lard at 90@92c.; 10,000 do. No. 2 do. at 73@80c.; 6,000 do. Summer do. at 80@85c.; 4,000 do. Spring do., at 87@88½c.; 3,500 do. city distilled Red at 62c., and 4,000 do. rectified do. at 70c. City Linseed sells slowly at $1@$1 05; Camphene sells slowly at $3@65; Fluid at $1 25, and Etherial at $1 05 cash.

OIL CAKE—The demand is light; the market is heavy; sales of Western Thin at $33, and lots at $41@$43 ⅌ ton, cash.

OIL MEAL—The supply is moderate, and the market is firm; sales of 850 bags State at $2 20 ⅌ 100 lb.

PROVISIONS—There is a better demand for Pork to-day, and the market is slightly firmer, under very light arrivals; sales of 1,100 bbls. at $17 75 for old Mess; $13 87½ for new do., and $16 62½@$16 75 for Prime. Beef is steady and in moderate demand; sales of 180 bbls. at $10 50@$13 25 for Plain Mess, and $14@$15 for Extra do. Tierce Beef, Beef Hams, and Bacon are scarce and devoid of activity, and prices are therefore entirely nominal. Cut Meats are without essential change; the stock is light, and prices are firm. Lard is less active and is heavy and lower, in sympathy with the decline in Exchange; sales of 600 bbls. at 9½@10c. Butter is firm and in fair request, at 19@24c. for fair to choice State, and 16@22c. for Ohio, the latter rate for choice Western Reserve. Cheese is steady and in moderate demand at 10@12c. for State, and Ohio at 9@10c.

RICE is only in limited demand, but prices are steady at 7@7¾c. for Rangoon, and 7½@7¾c. for Patna.

SUGAR—Raw Sugars are fairly active, and the market is firm at 9½@10½c. for Fair to Good Refining. Sales of 1,200 hhds. at 10½@11c. for Cuba, and 10½@12½c. for Porto Rico, and 219 boxes Havana at 9½c. Refined Sugars are in good demand, and firm.

STEARIN—The demand is good, and the market is firm; sales of 100,000 lb at 9½@10½c. ⅌ lb, cash.

SEEDS—The inquiry for Clover Seed is fair at 8½@8¾c. The new crop promises to be a large one. Timothy Seed is in fair demand at $2 12½@$2 50. Rough Flax Seed is dull at $2 30.

TEA—During the past week the market has been moderately active, and prices have advanced. Sales of 600 half chests Souchongs, in English order, in bond, on private terms.

TALLOW—The market is dull and lower, notwithstanding the favorable news from Europe and light receipts; prices are lower, owing to the decline in exchange; sales of 81,000 lb at 9½c. for Western, and 9½@10c. for City and Eastern.

WHISKY—The market is steady, but more active; sales of 550 bbls. at 45½c. for State and 46c. for Western.

OPENING-DAY OF THE MARKET.

MONDAY, Aug. 24.—The market opened on Monday morning with about 1,300 head of fresh cattle on sale, and it was estimated not far from 300 head of stale stock. This it was estimated not far from 300 head of stale stock. This was so far below the number here last week, that brokers advanced the price of first class bullocks to ½ ⅌ lb above the rates of last Monday, and medium and inferior sorts from ½ to ½c. higher, and as the day wore they held so firmly that better prices of weight were obtained, and the sales of the early portion of the day passed off very freely and then the heat became so oppressive that trade moved very slow, but without any material decline, and as the day began to cool a little towards dark the trade began to move again and nearly all the yards were cleared, and some of the drovers started for home in time to arrive at their good luck.

The bulk of the stock on sale to-day is composed of half fat steers and oxen, and a considerable portion of most decided scalywags, which do not sell to satisfy owners.

The supply of really first class bullocks is not large enough for the demand, and therefore the holders have been able to get the full ⅌ lb net, and some rather good were sold at 11½c. ⅌ lb, which is certainly a very high price for this time of year, particularly after such a heavy supply last week, and so warmly this week. It will not be safe to depend upon the same rates next week.

CLOSE OF THE MARKET.

Tuesday, Aug. 25.—Fortunately for drovers, there was a change from the furnace heat of yesterday to a pleasant temperature to-day. Has the close of the market would have been a hard one for the remnants of droves left over and fresh be arrived this morning. After the first run of trade yesterday morning, it grew very slack, and from noon off o'clock very little was done; yet those having cattle to sell did not appear inclined to reduce prices, and some of them closed their yards, and ordered their stock fed to await a more favorable time this morning. Others availed themselves of "sunset buyers," and sold out at a slight reduction upon morning rates. Those who held over at have fresh lots expect to be well satisfied, as the market closes favorably—enough more so than it would if forced to a close yesterday—though at a slight decline; yet all the stock will be sold before night at our quotations.

Transportation upon all the lines is now working favorably, notwithstanding the large number of cattle and sheep arriving from the West, particularly at Albany, from which Boston, Providence, and other towns are now drawing very largely. From Albany to New-York the Hudson River Road and Harlem afford excellent accommodations to Drovers. The boats this season have not carried as much stock as usual. It appears to the Erie Road are well satisfied with that route, except the Weehawken Ferry, which is entirely inadequate to the work, and has caused a deal of grumbling. We are glad to state that the proprietors have been assured of improvement. Shippers by the Erie have been threatened to withdraw, and therefore the Ferry-Company are trying to make a little larger. If there is another failure we shall advise drovers to look to some other route. The New-Jersey Central, which has been notorious for being "behind time," has of late given better satisfaction. The West needs all the routes to be in good working order this Fall.

BROKERS' SALE OF BULLOCKS.

We give reports of the following lots, which embrace all grades to confirm the figures in our table of quotations, showing that, beside the advance in price, the estimation of weights is much more favorable to drovers this week than last:

A. M. Allerton sold one of the best Western droves here, the head of Allerton & Bailey's Iowa Steers, at 8½c. to C. W. Cooper, who estimates them at 1¼ cwt., and is retailing them at 10@11c. net. The home weight was 16 cwt.

A. M. Allerton & Henry Hurd sold an extra good drove of 56 Kentucky Durhams, which they estimated would average 1,400 lb upon 7½c. ⅌ lb, the owner estimating the average at 1¼ cwt. This drove was bought by John Simmons of Jas. B. Richardson, and some of them are extra good, and sold at 11c. ⅌ lb.

Harris & Coddington sold 50 of Payne & Harris's good Illinois steers, partly at Bergen, at 9@11c. ⅌ lb, estimated average 1 cwt.

Gilbert & Tuffey sold, partly at Bergen, the following lots: 79 for Brunder, good, fair Indiana Steers, average 1¼ cwt., at 9½c. ⅌ lb; 56 for Wm. Foss, from Illinois, a poor lot of Cows, Heifers, and Steers, that would not average over ¾ cwt., at 4½@5c. ⅌ lb, and not average 700; 92 on their own account, ordinary Indiana stock, average 1¼ cwt., at 9½c. ⅌ lb.

Shneider & Eliner bought of Eastman, at Albany, 69 of the Dalby cattle, estimated to average 1 cwt., which sold at 9½@9¾c. ⅌ lb; 96 good, fair Illinois Steers, sold for Heath & Watrous, will average 1¼c. ⅌ lb upon ¾ cwt.

S. D. Haring sold the following lots here and at Bergen: 79 Illinois steers for Driggs & Mann, av. ¾ cwt., at 9@9½c. ⅌ lb; 67 for Driggs, fair average Illinois steers, at 9c. ⅌ lb upon ¾ cwt.; 19 for John Beers, common Ohio steers, av. 6 cwt., at 4½c. ⅌ lb.

Pickering, Dudley & Colwell, sold the following lots, here and at Bergen, of State stock: 17 for McMasters at 7c. ⅌ lb; 20 for Snow at 7c.; 20 for Brink at 7c.; 38 for Wilcox at ¾c.; 20 for Risley & Thompson at 8@8½c. ⅌ lb, and 20 Illinois steers for Dowling at 9c. ⅌ lb, and 17 Ohio milch cows for Lewis at $25 to $40.

Isaac Budlong sold 30 Michigan cattle for his brother at $34 each, estimatin them at 6 cwt. each; 36 for Roberts & Allen, light Indiana Steers, at 8½c. ⅌ lb, averaging 1¼c. upon ¾ cwt.

Touching the accusation of McCurdy & Rose of Davenport, Iowa, that we made a false report of a drove sold for them by Fielding, Aug. 11, we fail to see wherein he was false to them, or we false in reporting. The drove averaged nearly 900 each, which cost more as that they were not sold "for less than their value." We do not intend to cover up "rascally tricks," nor will we knowingly permit drovers to be cheated by brokers, nor brokers falsely accused by drovers, because they do not get as much in a hard market as they did in a good one. These reports have always been and always shall be impartial.

Martin & Valentine, 84 of Robert Shields's fair Indiana Steers, will sell to average 9c. ⅌ lb, upon 7 cwt.

Mead & Bloomer, 100 good fair Illinois Steers, sold for W. H. Burchard, at 9@10c. ⅌ lb, upon 6½ cwt., are estimated by owner at 6¾ cwt.

Shepard & Vail, sold on
