Market News

[Republican A. P. Leased Wire]

NEW YORK, Aug. 19—Trading on the stock exchange today retained most of its recent irregular and professional aspects. Investment shares were fairly steady, but speculative issues again lacked support.

Apart from the money market, in which perceptible relaxation was observed, developments affecting quoted values were unchanged. Sales amounted to 425,000 shares.

For the first time since the early days of the month, call loans on the exchange opened and renewed into the coming week at 5½ per cent. In the open market funds were available at 5 per cent. Bank acceptances also eased and commercial paper was in better request.

Dealings in foreign exchange were perfunctory and again influenced by London, where German interests were reported as heavy purchasers of American bills. French, Belgian and Dutch rates moved favorably to this market. More German gold for account of reparation was received and deposited to the credit of Great Britain and Belgium.

High grade railway bonds were firm to strong, but convertibles eased on a lighter inquiry. Domestic industrials were not materially affected by the heavy tone of related stocks. Liberty bonds reacted on another sharp decline in the 3½s, but most foreign war flotations were inclined to harden. Total sales, par value, $8,175,000.

According to board room gossip no small part of the further liquidation emanated from abroad, notably London.

Selling continued to center around equipment, steel, motor and shipping shares at gross recessions of one to three points. Specialities of the food, tobacco, leather and paper varieties fell back to the same degree and a few miscellaneous issues sustained greater losses.

BRADSTREET'S REPORT

NEW YORK, Aug. 19—Bradstreet's tomorrow will say: The moderate gain noted last week in wholesale and jobbing trade in wearing apparel lines for fall has been fully sustained, and there seemed to be a further accentuation of the optimistic feeling. In some lines, notably silk goods, shoes, canned goods, raw wool and iron and steel, the movement has progressed beyond the point of mere feeling and has found expression in larger sales at higher prices, notably in this respect being pig iron and scrap material and canned and dried foods. In no case has the expansion assumed big proportions, and there is no evidence of any reduction in the caution with which purchases are being made. In fact the phrase "immediate needs" is more frequently met with than any other words descriptive of the volume of buying. However, the advance of the season, the rather better tone of crop advices, the fear of the absolute knowledge of small stocks held in distributors hands, and the loosening up of credit consequent upon the less tense condition of the money market, all make for a rather more confident tone in purchasing. Bank clearings, $5,809,905,000.

CHICAGO BOARD

CHICAGO, Aug. 19—Wheat prices showed more steadiness today than has been the rule of late. Export buying was noted at ¼c better than paid heretofore and general trade appeared to be somewhat broader. Country offerings were light. Opening quotations, which varied from unchanged figures to ½c higher, with September $1.16¾ to $1.17 and December $1.17½ to $1.18, were followed by a moderate setback and then by a rally to about yesterday's finish.

Corn lacked support. After opening ¼c off to ¼c higher, including September at 52 to 52½, the market underwent a general sag.

Oats developed a little firmness owing to receipts being smaller. Prices started ¼ to ⅜@⅝c lower, but then scored slight gains.

Absence of buying weakened provisions despite an upturn in the value of hogs.

COMMERCIAL BULLETIN

BOSTON, Aug. 19.—The Commercial Bulletin tomorrow will say:

"The demand for wool has been less pronounced during the past week, but there is still a healthy volume of business being done and prices are readily maintained on the basis of last week's quotations. The outlook in the goods market is encouraging.

"Slight improvement is noted in the foreign markets, with prices somewhat higher on the best types of the finer wools in Australia. English top makers have advanced quotations slightly in sympathy.
