WORMS! WORMS! STARTLING FACTS.—Hundreds of Children and adults are lost yearly with worms, when some other cause has been supposed to be the true one.

It is admitted by all doctors that scarce a man, woman or child exists but are sooner or later troubled with worms, and in hundreds of cases, sad to relate, a *supposed* fever, scarlatina, cold, or some other ailing carries off the flowers of the human family—while in truth they die of Worms! and these could have been eradicated in a day, by the use of a bottle of KOLMSTOCK'S VERMIFUGE, at the cost of a quarter of a dollar.

☞ *Caution.*—Never buy this article unless it has "Dr. Kolmstock's Vermifuge" handsomely engraved on the outside label, and the fac-simile of Comstock & Co.

SPOONER'S HYGEIAN OR

LIFE MEDICINES:

The Best and Cheapest Family Medicines in use.

THESE MEDICINES are the result of a life of study and experience. The Proprietor warrants them to effect a cure when taken according to directions. They comprise the Hygeian or Health Pill; the Hygeian Tonic, or Health Bitters—to restore the debilitated or broken down constitution; and the Uterine Pill, to cure those painful difficulties and diseases peculiar to women.

For all disorders of the stomach and bowels—bilious complaints—diseases of children—fevers—nervous and sick headache—general debility, &c., the *Health Pill is a perfectly certain and admirably pleasant remedy.*

The *Hygeian Tonic* works like a miracle to strengthen the feeble and revive the sickly.

Of the *Uterine Pill*, Dr. Carter of New York has well said—"This remarkable medicine works silently, but *'tis saving hundreds of valuable females from an untimely grave.*"

The virtue of these Medicines have been established by the most ample experience. THEY WILL STAND BY THEIR OWN merit. A SINGLE TRIAL HAS EVER GAINED THEM A LASTING REPUTATION!

"*Dr. Spooner's Hygeian or Health Medicines*, have established for him an enduring fame. We have been told by disinterested medical men that these medicines, being taken as severally prescribed, have never been known to fail in effecting a cure. It has ever given us pleasure to record the triumph of education and of talent, but at this crisis—the age of quackery—we are doubly pleased to find, at least one distinguished medical man taking a stand against this species of imposition."—*N. Y. Star.*

Many Certificates of the highest authority have already been published—some from the most eminent medical men in New York, among whom are Drs. Hosack, Macneven, Frances, Post, Stevens, Beck, Torrey, &c.

See "*The Hygeist*" and "*Extra Hygeist*" furnished gratis, at the Proprietor's office, No. 2, Astor House, N. Y., and by all his Agents. These papers contain information exceedingly interesting to the sick and to invalids, together with twenty-five useful recipes, and a mass of facts and certificates that must convince every reasonable mind that the Hygeian Medicines are invaluable.

TO ALL THE WORLD WHO USE LEATHER IN ANY FORM.

OIL OF TANNIN,

OR, LEATHER RESTORER. A NEW CHEMICAL DISCOVERY.

MOST people know, that *skins* and *hides* are converted into *leather* by the use of Tannin extracted from certain barks, &c. When the force and strength of the Tannin is worn out, leather becomes *dead, hard, dry, brittle, cracked, covered with a crust, &c. THIS ALL KNOW.* To restore then *life, softness, moistness, strength, smoothness*, and remove all crust, fly, or blister—*restore the tannin.* This substance the leather never can receive the second time; but the whole virtues of it are in this article, the OIL OF TANNIN—which penetrates the stiffest and hardest leather, if it has been twenty years in use; and if it tears easily with the fingers, it imparts at once a strength that is utterly incredible until seen. It becomes like new leather, in all respects, with a delightful softness and polish, and makes all leather completely and perfectly impervious to water—and particularly boots, shoes, carriage tops, hose, trunks, harness, and in fact all things made of leather, giving a splendid polish, even higher than new leather has, and at least doubling its wear and durability, in whatever manner the leather is used. These are facts.

Those who will may wear old shoes, grease with corn ride with old carriage tops, have old harness and throw them away half used, look filthy themselves and all about them, expend double what is necessary for articles of leather to their heart's content, for what we care, if their prejudices are so strong they will not try a new discovery. We have no favors to ask of them, they are the greatest sufferers, and we *beg* for nobody's custom or patronage. Now, gentlemen, please yourselves.

Fever and Ague.

THIS disagreeable and very prevalent nervous affection proceeds alone from the state of the nervous system, affecting the stomach. It is sometimes effectually cured by a sudden shock or other operation upon the mind; but no dependence can be placed upon any remedy, except a powerful tonic action upon the stomach.

DR. MOFFAT'S PHŒNIX BITTERS AND LIFE PILLS have *been happily used for the cure* of FEVER AND AGUE, with invariable success.

DR. MOFFAT has lately received from the West where the disease prevails to a considerable extent, indubitable proofs that his medicines are in high estimation there, as a speedy and effectual cure of it. He has unquestionable city reference as to its high efficacy, in this disagreeable affection, which will be given on application at his office, 375 Broadway, New York.

Who Wants Better Evidence?

I WOULD refer the reading public to the numerous voluntary letters published in the Good Samaritan relative to the happy and beneficial effects of the administration of

DR. MOFFAT'S LIFE PILLS AND PHŒNIX BITTERS.

Those who have perused the letters above referred to will observe, that in almost every case they attest the fact, that no inconvenience of any sort attends the taking of these medicines, in ordinary cases, but that the patient, without feeling their operation, is universally left in a stronger and better state of health than was experienced previous to being afflicted with disease; and in all cases of acute suffering, great relief is obtained in a few hours, and a cure is generally effected in two or three days.

In cases of FEVER of every description, and all bilious affections, it is unnecessary for me to say ought, as I believe the LIFE MEDICINES are now universally admitted to be the most speedy and effectual cure extant in all diseases of that class.

The LIFE MEDICINES are also a most excellent relief in affections of the Liver and Bowels, as has been proved in hundreds of cases where patients have come forward and requested that their experience in taking them might be published for the benefit of others. In their operation in such cases, they restore the tone of the Stomach, strengthen the digestive organs, and invigorate the general functions of the whole body, and thus become to both sexes (for they are perfectly adapted to each) an invaluable means of preventing disease and restoring health.

In *affections of the head*, whether accompanied with *pain* and *giddiness* or marked by the grievous calamity of impaired mental energy; *in palpitation of the heart, flatulence, loss of appetite* and *strength*, and the multiplied symptoms of disordered digestion, the LIFE MEDICINES will be found to possess the most salutary efficacy.

Constitutions relaxed, weak, or decayed, in men or women, are under the immediate influence of the LIFE MEDICINES. Old *coughs, asthmas*, and *consumptive habits* are soon relieved and speedily cured. *Poverty of blood*, and emaciated limbs will ere long meet the happiest change; the chill watery fluid will become rich and balsamic, and the limbs be covered with flesh—firm and healthy.

Nervous disorders of every kind, and from what ever cause arising, fly before the effects of the LIFE MEDICINES, and all that train of sinkings, anxieties, and tremours which so dreadfully affect the weak, the sedentary, and the delicate, will in a short time be succeeded by cheerfulness, and every presage of health.

For weakness, deficiency of natural strength, and relaxation of the vessels, by too frequent indulgence of the passions, this medicine is a safe, certain, and invaluable remedy.

Those who have long resided in hot climates, and are languid and relaxed in their whole system, may take THE LIFE MEDICINES with the happiest effects; and persons removing to the Southern States or West Indies, cannot store a more important article of health and life.

Dr. Moffat's Life Medicines.

THE proprietor of these matchless specifics, while he has cause to feel the most unqualified satisfaction in relation to the unparalleled popularity and general use they have obtained, feels constrained by considerations as disinterested as they are sincere, to continue to press them upon the consideration and trial of the public, till no invalid, and no family in the whole compass of the Union, shall be without a knowledge of them and their inestimable virtues. The certificates which he has heretofore published in almost countless numbers, and in reference to every possible variety of disease, fully establish his medicines, beyond even the possibility of doubt, as the most generally useful, and the most unfailingly efficient, of all the medicines, of whatever description, ever yet presented to the world; and he feels that he is but doing his duty to his fellow-citizens in urging them to test for themselves the benefits to be derived from his LIFE PILLS and PHŒNIX BITTERS. His office is at No. 375 Broadway.

Absolute Cure-All.

10,000 TRIALS, and all successful, prove DALLEY'S MAGICAL PAIN EXTRACTOR inestimable. It not only cures quicker, but gives no additional pain, nor leaves a scar. Fire is positively rendered harmless. ($10 has been offered six months to any person returning an empty box, and saying that all agony on anointing is not extracted in a few minutes, yet, not one from thousands of trials since has claimed the honor.) Parents anxious to guard against general injuries and save money, time, leisure and life, and prevent their offspring from being disfigured by burns, or even small-pox pustules, (it possessing the enviable power to replace the cellulary organs destroyed,) can do so by obtaining this inestimable salve.—Many deeply burnt cases in the city can be seen, and one entire face burnt over and wounded three distinct times in the same spot while healing, yet in no case can be traced the least cicatrice or mark! For all kinds of hurts, its rapid soothing effects, are alike important; even sore eyes, ALL INFLAMMATIONS and BROKEN BREASTS would be unknown. The toilet and nursery, for clearing the skin of pimples, removing chafe, &c., will find it indispensable. Once using only will forever establish it the sovereign HEAL-ALL quality. After this notice, heads of families allowing torture for months, and ultimately distorted features, can never wipe away reproach, justly uttered by a disabled child, for neglecting to triumph over fire.

WHIG ADDRESS.

[CONCLUDED.]

RELIEF.

The majority of our recent Legislature seem to have come into council, wedded to the most contradictory schemes of policy. Never has the State witnessed such a variety of Relief Bills; and those which commanded the greatest share of their patronage, provided a deluge of irredeemable paper money, based either upon the credit of the State, and therefore unconstitutional, being "bills of credit," or based upon some fund, already the foundation of paper emission. It was, indeed a singular spectacle to behold the Democracy waging a war of extermination upon the soundest Banks in the Union, and at the same time, advocating paper issues without a dollar of gold and silver, with which to redeem them; to hear the party on one day denouncing Bank suspensions and proposing to augment the heavy penalties, already by the charter inflicted for the offence; and yet, see them, on the next, struggling to flood the State with a paper, which was to begin its circulation in a state of suspension; to continue its existence, in a state of dishonor; and, according to every lesson of experience, to end in utter depreciation. But financial quackery was the order of the day, with the party; and the exhibition of a series of the most wretched attempts to make money out of *nothing*, constitute the only evidence of any exertion to alleviate the suffering of a deluded and afflicted people. Instead of encouraging the Banks to increase their circulation, with as much liberality, and to extend as much indulgence, as practicable, the whole conduct of the party was just such as had the opposite tendency. In the midst of severe trials, which had destroyed many, and crippled more of the Banks of the country, ours stood firm and sound, and never lost the public confidence for a moment. During the whole time, the investments of the State, in these institutions, amounting to more than a million, were safely kept, and profitably managed.* The capital was safe to a dollar, and the currency perfectly sound. But the fluctuating condition of the Banks of our sister States, even after the crisis had passed, necessarily drove ours to observe unusually strict limitations on the amount of their circulation. Such was their situation when the Legislature of 1842 met. The members of that body could not be ignorant that, in many parts of the State, the crops had wholly failed; in some bread had not been made; in all, prices were extremely low, and heavy indebtedness, general. Yet, in the face of all these facts, they took the surest steps to diminish the quantity of money, and to destroy credit and indulgence, the only hopes of a suffering people. The adjournment of that body has been followed by the most liberal course on the part of the Banks: And all candid men have agreed, that its adjournment was the most instantaneous and valuable relief which it could bestow on the country. And a very general regret is felt and expressed, that it did not bestow that blessing at an earlier day.

TREASURER'S ELECTION AND BOND.

Among the subjects of deep interest to the people which came up for action, was the election of a Treasurer and the taking of a sufficient bond as provided by law, for the faithful discharge of his duties.—A most competent and excellent officer was set aside, solely on political grounds, and the place given to the former incumbent of the Mint at Charlotte. As both gentlemen have heretofore been employed in official stations, and the official conduct of each has been subjected to scrutiny, we freely submit to the candid judgment of the people, whether by this act of proscription the interests of the public have been in the least promoted.

But waiving all considerations of the propriety of the selection, we proceed to the Bond. It is known to you, that the Treasurer's bond must be "approved by the Governor and Speakers of the two Houses." When it was first presented to these functionaries, they *all* rejected it.—The signature of another gentleman was then procured, and the Speakers approved it; but the Governor still rejected it. In this predicament the matter stood for some time; the Whigs taking side with the Governor, and the Democrats with the two Speakers—the Whigs declaring that the bond was insufficient and invalid; the Democrats averring that the bond was good, and having been approved by the Speakers, was approved according to law. The Whigs protested that they would not consent to receive the bond, but would give further time, as the officer had been only elected, to execute a proper bond. In this the Whigs prevailed. Upon further investigation of the facts attending the execution of the bond, it was discovered that after its first rejection, and before its retender, a name had been inserted in the body of the bond—And also that, after it was brought to Raleigh, the seal had been affixed, in Raleigh, to the name of a Hertford County signer, upon mere *verbal* authority.
