TUESDAY, Nov. 10—P. M.

Gold opened lower, and was quoted during the morning at 145¼@145¾, closing at 145⅛@145⅞. Stocks were generally lower, and in many cases large sacrifices were made upon the low quotations of last night. At the Stock Exchange Government Securities were lower. The 5-20s were quoted at 99⅛@99¾, carrying ten days' interest. Currency certificates fell to 98½@99. Free State bonds were steady, but the turn of the market is favored the buyer. Bank shares and Gas stocks unchanged. Border State Stocks lower. Tennessees 6s, 69@70; Missouri 6s, 64½@65; California 7s, 100@102; Canton Co., 32½@32¾; Delaware and Hudson, 170@170¼; Pennsylvania Coal, 164@165; Cumberland Coal, 37½@37¾; Pacific Mail, 222@223; Quicksilver Mining Company, 62½@63; Central American Transit Company, 30½@32½; New-York Central, 131½@131¾—a fall of 2¼ ⅌ cent; Erie Railway, 103½@103¾—a fall of 2¼ ⅌ cent, but showing an advance over the street rate, where 101½ was accepted; Erie Railway Preferred, 100½@100¾; Hudson River, 126½@126¾, a fall of 2½ ⅌ cent; Harlem, 88½@89, a fall of 3½ ⅌ cent; Reading, 120½@120¾; Michigan Central, 120½@120¾, a fall of 2½ ⅌ cent; Michigan Southern, 79½@79¾, a fall of 1 ⅌ cent; do. Guaranteed, 139@140; Panama, 126@127; Illinois Central Scrip, 116@116¼; Cleveland and Pittsburgh, 101½@101¾. After the session of the Stock Exchange there was an improvement in prices. At the Second Board Coupons of 1881 fell to 103. Treasury Notes were lower, and the October 7.30s were freely offered at 106; the August issue at 106½. Currency Certificates 98½@99½; Canton Co., 32@32½; Cumberland Coal, 37½@37¾; Quicksilver Mining Co., 62; Pacific Mail, 222@223; New-York Central, 131½@131¾; Erie Railway, 103½@103¾; do. Preferred, 100½@101; Hudson River, 126¼, Harlem, 89@89¼; Reading, 121½@121¾; Michigan Central, 121½@121¾; do. Southern, 81½@81¾; do. Guaranteed, 140; Illinois Central, 117½@117¾; Cleveland and Pittsburgh, 103@103½; Galena and Chicago, 106½@106¾; Cleveland and Toledo, 115; Rock Island, 103@103¼—the market closing feverish and large differences bid for buyer's option. The closing prices were: Gold, 145, sales; New-York Central, 130 bid; Erie Railway, 100¾ bid; Harlem, 88 bid, Michigan Southern, 79 bid; Illinois Central, 116 bid, Cleveland and Pittsburgh, 99½ bid; Chicago and Rock Island, 102½ bid.

Freights continue very dull, and rates are merely nominal. To Liverpool the engagements are ⅌ neutral packet 21,000 bush. Wheat at 4d. 1½d. in bulk and bags, mainly at the inside rate; 2,000 bbls. Flour at 1s. 2d.@1s. 4½d., chiefly at 1s. 3d.; 100 bales of Hops at ½d.; 1,100 tcs. Lard at 18s.; 50 hhds. Tallow at 15s.; 1,100 pks. Butter and Cheese at 30s.; 50 tcs. Beef at 3s. To London, ⅌ neutral packet, 50 bales Hops at ½d.; 1,000 boxes Cheese at 22s. 6d., and 500 firkins Butter on private terms. To Glasgow 425 tcs. Lard ⅌ neutral packet on private terms. To Bremen, 25 bbls. Ashes at 12s. 6d.; 25 hhds. Tobacco at 20s., and a quantity of Staves at $40 for heavy pipe. The Charters are an Austrian ship with a full cargo of Tobacco to Leghorn at 37s. 6d., and a Norwegian bark of 400 tons to Malaga and back on private terms. The carrying rates are as follows: To Liverpool, ⅌ foreign flag, Flour, 1s. 3d.; Wheat, 4@4½d.; Corn, 4d.; Heavy Goods, 14@15s. To London, ⅌ American flag, Flour, 1s. 6d.; Wheat, 5d.; Heavy Goods, 15s.@17s. 6d.; ⅌ foreign flag, Flour, 1s. 9d.@2s.; Heavy Goods, 17s. 6d.

The demand for Money to-day showed no abatement, and high rates were paid readily. To carry stock a short time large differences were paid, and the market had, throughout the day, an unsettled appearance. The banks are supposed to carry about twenty-four millions of legal tender notes. As they hold nearly as many temporary loan certificates as will pay the balance of the Treasury loan, future calls need not necessarily make money any dearer or difficult to get. The sales of 5-20s. have probably received a check, and are only $200,000 to-day. Under a seven per cent market at call, money will be kept out of this mode of investment. The stimulus given to conversions at the close of October has seriously disturbed the money market, without helping the Treasury Department much. Instead of getting legal tenders, the Department has exchanged its call-loans for 5-20 bonds. So far as the banks are concerned, it has been to their loss, as their customers have taken the deposits, upon which the Government paid the banks interest, and have put it into 5-20s, thus getting interest upon their own money. There are no indications of a surplus of money immediately. The legal tenders, of which the banks are now so covetous, and which they attract to their banks by a contraction of their loans, are not so plenty or in such ill-repute as many suppose. On the other hand they are the best currency in the United States. In this city last week they could not be bought at ¼ ⅌ cent premium. In New-Orleans, at the last advices, exchange on New York was sold at 10 ⅌ cent discount on legal tenders. The fact seems clear that throughout the loyal States these notes are hoarded, and it is certain that large sums are held in the Rebel States, as the most desirable property next to gold. The $530,000,000 of legal tenders have been absorbed to such an extent that of "lawful money of the United States" there is not enough to float the loans, and so carry on the Government, and one of two things must be done. The funded debt must be sold for the ordinary money of the people. Mixed bank notes or new legal tenders must be used in paying the expenses of the Government. It is argued in some quarters that for the future the Treasury cannot be readily supplied by selling bonds, and that, as in the past, use must be made of currency. This is an unpleasant state of things, but it has been produced by the popularity of the legal tender money which, instead of passing and repassing to the Treasury in exchange for bonds, has gone into large and small hoards and is a dead loss to the financial operations of the Government.

The Supreme Court of this State, in full bench, have decided that holders of spurious certificates of New-York and New-Haven Railroad Stock are entitled to damage. Each holder will probably be required to prove his particular damage, as there are large differences in the degree of damage.

The following is a statement of coal transported on the Delaware and Hudson Canal:

A question having arisen as to the qualifications necessary to enable stockholders to vote at the election for directors, and to render stockholders eligible as directors, we produce the law upon the subject:

"In the election of directors, each stockholder shall be entitled to one vote, personally or by proxy, on every share held by him thirty days previous to any such election, to be exercised by a director whose name shall be on the books of the corporation as such stockholder, and qualified to vote for directors at the election at which he shall be chosen."

A meeting of the stockholders of the New-York and Harlem Railroad Company is to be held at noon on the 1st of December next to decide on the proposition of the Directors to increase its capital stock to eight million dollars—the amount to which it is limited by the act of incorporation, and the laws amendatory thereto. In case the stockholders vote in favor of this proposition, the new stock to be issued will be $2,120,950.

Sinnton Draper announces a very large sale of stocks to-morrow, on account of the estate of Joseph D. Beers and others. It will include more than 2,000 shares of bank and about 700 shares of gas companies' stock. The sale will take place at the Exchange rooms, No. 111 Broadway.

The coinage at the U. S. Mint at Philadelphia for the month of October was as follows:

RECAPITULATION.

	No. of Pieces.	Value.
Gold Coinage	15,140	$316,261 00
Silver	40,006	20,004 50
Copper	2,000,000	4,000 00
Total	2,055,002	$337,275 50

The Nashville Press says that owing to an increased demand, and but little offering for sale, the quotations for Tennessee money have materially advanced in the last few days. Especially has this been the case with the notes of the State Bank. Brokers are paying freely 60 cents for the State Bank, and 68 (and in some instances) 70 cents, for the notes of the Union and Planters' Banks.

The Pacific Mail Steamship Company have declared a dividend of 5 ⅌ cent out of the earnings of the Company for the last three months.

The Harlem Railroad earned in October:

1863	$139,128 68	1862	$107,095 76
Increase	$32,032 92		

The Chicago and North-Western Railway earned in October:

The total exports of produce and merchandise (exclusive of specie) for the past week were $3,339,068.

Markets—CAREFULLY REPORTED FOR THE N. Y. TRIBUNE TUESDAY, Nov. 10, 1863.

ASHES are quite scarce, and the market is firm but quiet at $5 37 for Pots and $5 75 for Pearls.

COTTON—The demand to-day has been moderate, embracing about 600 bales. Prices show no material change, and we quote at 82c. for Middlings.

COFFEE—Since our last report the business in Rio has been better, holders finding it impossible to obtain the extreme rates demanded, having more feel now evident. We note sales here comprising of 2,700 bags, ex Libertie, on private terms, and to-day 1,700 bags, ex Fanny, also reported on private terms. By we understand on the 6th inst., and 500 bags, in bond, at 24½c. Other trade are fairly active, and we note sales of 750 bags of Maracaibo at 26c., and 300 do. in bond, on private terms. Messrs. Wm. Scott & Son taste the stock in the country 50,187 bags, including 12,000 in Baltimore and 10,000 here.

COPPER—Rather dull has been in very active demand, and the market is quite firm; sales of 1,000,000 lb. Baltimore, delivered in the city of that name, at 35c., and 500,000 do. here at 34½c. for Baltimore and Georgetown, and 34½@35c. for Lake superior.

DRUGS, &c.—The market is not very active; we note sales of 2,000 bags Cutch at 8½@9c.; 25 tons Soda Ash, to arrive, at $70 ⅌ 2,000 lb.; 20 tons Sal Soda, on private terms, and small lots Bicarbonate Soda at 4½c., and Caustic Soda at 8c.

FLOUR AND MEAL.—The market for Western and State Flour is fairly supplied and is more active, but at a decline of 10@15c. ⅌ bbl. on the lower grades. Trade brands are also lower and very irregular. The demand is mainly for the home and Eastern trade. The sales are 10,400 bbls. at $5 40@$5 70 for Superfine State; $6 00@$6 20 for Extra State; $6 25@$6 50 for Fancy State; $6 30@$7 20 for the low grades of Western Extra; $7 20@$7 30 for Shipping Ohio; $7 35@$9 25 for Trade and Family brands, and $7 35@$11 50 for St. Louis Extra. Canadian Flour is more active, but is easier in price; sales of 1,150 bbls. at $6 10@$6 25 for the low grades of Extra, and $6 30@$8 50 for Trade and Family Extras. Southern Flour arrives sparingly, and is firm and in fair demand; sales of 1,000 bbls. at $7 15@$7 40 for common to good superfine Extra Country and Baltimore, and $7 85@$10 50 for Trade and Family brands. Rye Flour is in light supply and is firm and in limited request; sales of 100 bbls. at $5 65@$6 00, the latter rate for Extra. Corn Meal is scarce and firmer at $6, being offered for March's Caloric. Buckwheat Flour is inactive at $3 62½@$3 75 ⅌ 100 lb.

GRAIN—The Wheat market lacks animation, and though the supply is not abundant, prices are 2@3c. lower, and are depressed at the close in sympathy with Gold and Exchange, and the greater stringency in the money market, which gives buyers a decided advantage. The demand is in part for investment, but chiefly for export. The sales are 146,000 bush., and consist of 25,400 bush. Chicago Spring at $1 32@$1 36; 43,300 do. Milwaukee Club at $1 34@$1 36; 36,800 do. Amber do. at $1 36@$1 38; 15,200 do. Red Western at $1 36@$1 43; 14,900 do. Amber do. at $1 50@$1 54, and 7,000 do. old Red State at $1 47½ afloat. Barley Malt is quiet but scarce and firm at $1 55@$1 65. Barley is in fair demand and is quite firm; sales of 11,400 bush. (which tally with the receipts) at $1 40 for State, and $1 50 for Prime Western heavy. Oats are more plenty, and the market, therefore, opened quiet and closed lower; sales of Canadian at 82@83½c.; Western at 83½@84c., and State at 84@84½c. Rye is scarce and held firmly at $1 22@$1 25. Corn continues to come in slowly, but the absence of an export demand, the great stringency in the money market, and the heaviness in Gold and Exchange, have combined to exert an unfavorable influence and cause a reaction in prices. The stock is unusually small, however, being computed at 1,000,000 bush. still the pressure on the money market checks speculation, and has a depressing effect although it is not improbable but prices will attain higher range this Winter unless some unforeseen event may transpire that would cheapen Wheat so much as to restrict the consumption of Corn very materially at home and abroad; sales of 82,000 bush. at $1 07@$1 08 for Western mixed, in store, and $1 08 for do., afloat.

HAY—The market is firm for shipping, and is fairly active; sales of 1,200 bales at $1 15@$1 20 ⅌ 100 lb.

IRON—Scotch Pig continues in active request, though the demand is less pronounced, owing to the light stock offering and the extreme prices prevalent, being 40 ⅌ cent higher than in ordinary seasons, making all allowances for the high rates of exchange and duties; sales of 600 tons at $32@$32 25, ex ship, and $35 from yard, for best brands. Other descriptions, both of Foreign and American, are in very light stock, and the market is firm at full previous rates.

MOLASSES—Prices run in a quite firm, though the business is not very heavy; sales of 40 hhds. Cuba at 64@65c., and 40 bbls. New Orleans at 60c.

OILS—City Linseed is selling slowly from crushers' hands at $1 10@$1 15 ⅌ gallon, cash, and even at these prices they would not be anxious to sell any large parcels, yet small lots are jobbing at $1 20 for the purpose of bearing the Oil and Seed markets. If there was any good object in view, we know the very far from contemplating the extravagant prices now prevalent, not only for Oil but for seeds, but we know the design is for gain, and that would hereafter be followed by unpleasant consequences unless reckless speculation is checked, and goods bought and sold deliverable at sight on their real value. It would do no good to sell Linseed now at $1 35@$1 40, and the transfer can the price up 25 ⅌ cent and check the demand they completely. Can no lesson be learned from the experience of the past two years? Crude Fish Oils are quiet but firm; sales of Sperm, Whale at $1 40, and 200 do. Spermaceti at $1 85. Petroleum is unsettled and depressed at 60c. for Crude, and 42c. for Refined, in bond, but holders ask 5c. advance on these rates. It would probably be far better for all concerned to reduce the price immediately to a point sufficiently low to create an active export, home, and speculative demand, rather than permit stocks to accumulate here, that sooner or later will produce the same consequences. The price of this article is neither too high nor too low now, but the trade and the community at large know there is an enormous stock here (no matter what figures are published), the entire stock cannot be determined with accuracy, especially on account of the depression prevalent, and consequently they hold back for rates which would not rule this season, were it not for the course pursued by the trade and others the past five months. Other descriptions generally are in light supply, and sell slowly at full previous rates.

OIL CAKE is firmer and in fair request; sales of 50 tons Western (at Amesbury, Mass.) at $2 75, delivered along side ship. We quote City in bbls. at $57 50 ⅌ ton of 2,000 lb.; do. in bags at $47@$48, and Country do. at $50@$45.

PROVISIONS—The Pork market is steady and fairly active, although an attempt was made to depress it (by parties who have maturing contracts), in sympathy with the decline in gold, but it proved abortive, for the very reason that those who have been large operators lately, and purchased freely to advantage on the strength of the large requirements of the Government, have, by the course of events, gained an advantage over those who sold "short," and now demand their "pound of flesh." But the "slaves," in many instances, have not the "pound of flesh" to deliver, and can only therefore give its equivalent in money. Hence small parcels were disposed of at prices below the market for large lots in order the more easily to settle contracts to advantage, but shaking a "red flag" in the face of the "bulls" to-day was an amusement to bleeding the "bears" for their trouble. The settling of contracts and the non-fulfilment of the delivery of large parcels have made it incumbent on the part of those who contributed to "scare the market" to obtain it, but without effect, and hence an extension of some days had to be granted. But we notice with credit to the sellers that they view the privilege of throwing up those contracts and pay a large difference over $14 ⅌ bbl. on Mess Pork. This is an honorable exception to what very often occurs among the trade, and which we notice with pleasure. For forward delivery a good demand still prevails, and prices are well sustained, but for parcels on the spot only a moderate inquiry is noticed at prices, however, are without essential change and the market closes firm, especially for round lots, at $18 for New Mess, though early in the day small parcels were disposed of at our inside figures; the sales foot up 4,000 bbls. at $18 25@$18 50 for Old Mess, $17 75@$17 87½ for New do., $11 75@$12 25 for New Prime—the latter rate for Jersey—and $13 ½@$13 25 for Seed and Meaty Mess. In cured in the sense no Pork bbls. New Mess for January delivery, seller's option, at $16 25, and 500 bbls. City Prime Mess do. and sold in steady sales of 200 bbls. at $12@$13 25 for Thin Mess, and $14 50@$14 50 for Extra do. Tierce Beef is very firm, and the market is moderately active; sales of 50 tcs. Irish Mess (brands) at $20 50. Beef Hams are in good request, and firm; sales of 50 bbls. at $18 for Western Cut Meats are in active demand, but is scarce and wanted; we note sales of 100 boxes Lumber and Cut Middles at 8½c., and 50 boxes Short Ribbed do. for delivery all December, at 8½c. Lard is in fair demand, but prices are hardly so firm, owing to the heaviness in Exchange; sales of 1,700 bbls. at 1¼@1½c. choice at 11½@11¾c. ⅌ lb. for January delivery at 11c. The market for Butter and Cheese is rather very dull, especially for the latter, but we learn of some large parcels going for export from first hands. This is a very singular movement, when taken in connection with enormous shipments recently to England, and will probably result in depressing the markets on the other side of the ocean materially. But much will depend on the future course of Sterling Exchange. Our stocks of cheese are quite large, but of Western very small, and the lots left are very ordinary. Prices are, however, merely nominal, and we note sales of 50 tcs. Western at 12½c., and 50 do. Ohio at 12½c. Butter is quiet, but firm, and we note sales of 100 tcs. Ohio at 22c., and 100 do. Western at 22c. Other Dairy Products are fairly active, and we note sales of 200 bbls. Western Pickled Pigs' Feet at $4 50, and 200 bbls. Western Factory Cheese at 10@10½c., and good to prime State dairies, at 11@12c.

RICE—No sales are reported to-day; prices remain nominally unchanged.

SUGARS—The demand for Raw continues good, and with light stock holders remain very firm in their views; sales of 600 hhds., including Cuba at 11½@12½c.; New-Orleans 12@12½c.; 60 hhds. Martinique at 11½c., the very finest; 30 hhds. English Island at 11½@11¾c.; 100 Cayenne St. Domingo at 11½c., and 1,000 boxes Havana on private terms. For Refining is quoted at 11@12c. Refined Sugars are firm, with the demand fair.

SEEDS—The market for Clover Seed is quiet at 10@10½c. for old; some lots of new have arrived, and a few hundred have been taken for shipping samples at our extreme rates. The accounts from England and Germany state that the crops there will be a full average, and in the south of France the crop will be large, so that the demand for export is likely to be light. Some Exchange transfers to Rotterdam. Canada Timothy has been in request, and at lower rates, to sympathize with Gold and Exchange, but the advance cause it to be the lowest on the market for American. Prime Seed, as it is the best thing in the market for export, it is very evident that the supply of Timothy in this country and on the way is inadequate to the demand, while one of the best houses in the importing business is frank enough to admit that Exchange is usually a safe investment, and that it will go up more decidedly on the 1st of January than it will go down, and that it is impossible for us to sell it at the prices ruling here. We have seen the time when it was a very high Dollar, yet justice to all concerned compelled us to assign reasons for the rise and fall of commodities. If Seed was scarce and firm at $2 75@$3 00 two or three weeks since, what is the cause of this wide-spread decline? It would be difficult, we think, to repeat a similar sale deliverable at his year's option in four months, at any of the prevailing quotations.

TOBACCO—Market quiet; sales of 121 hhds. Kentucky at [illegible]; 50 tubes Havana, at [illegible]; 60 cases Seed leaf, 10c. [illegible] Connecticut Seed leaf, 10@12c., and 50 bales Havana on private terms.

TALLOW—The market is less active and lower, closing heavy, in sympathy with Gold and Exchange, but a fair inquiry is noticeable at the concession; sales of 107,000 lb at 10@10½c. for Western and 10½c. for City.

WHISKY is in fair demand, and the market is firmer; the sales and arrivals about fully; sales of 479 bbls. at 32@33c. for State and Western.
