THE ALEXANDRA CASE.

The Scotia arrived here at an early hour on Friday morning. A telegraphic summary of her news has already been published. The foreign files received by her are three days later.

The steamship Scotia brings the news by the Hibernian, which left Liverpool at 2½ o'clock in the afternoon and arrived at Portland yesterday morning.

The steamships City of Cork and Etna reached Liverpool on the night of the 18th inst.

The steamship City of New-York arrived at Southampton at noon on the 18th inst.

Great Britain.

In the Alexandra case Sir Hugh Cairns continued on two days his argument in opposition to a new trial. He was followed by Mr. Kinglake, on the same side. The case is still progressing.

The London Times says it is doubtful whether the decision of the Exchequer in the Alexandra case will be given before the end of the term, and the decision whatever it may be, will not set the question at rest. An appeal will still lie both to the Court of the Exchequer Chamber and to the House of Lords, and supposing a new trial to be at last granted, the battle which occupied four days last June will have to be fought over again. All this time the legal character, not only of the Alexandra, but of the rams in the Mersey, must remain unsettled, and no similar contracts can safely be executed by any shipbuilders.

The Times adds: "It is at least some comfort to reflect that the Alexandra case will deserve to be the landmark of jurisprudence though the foreign Enlistment act should be amended, and that the embargo laid in the meantime upon vessels of warlike build can injure none but those who have shown perfect indifference at the risk of embroiling England in war."

An influential meeting was held in Liverpool to protest against the proceedings of Marine Courts of Inquiry in general, and in the case of Capt. Stone of the Africa in particular.

Capt. Judkins was one of the speakers, and found fault with the British Government for not allowing the New-York merchants to place a steam-whistle on Cape Race. The accident to the Africa, he said, would not have happened if such a whistle had been in use.

Captain Ballintine pointed out that steamers only went near Cape Race for the benefit of the public, and if he was to be punished for sometimes going too near he would not go near there any longer.

The meeting pledged itself to make every effort to secure the return of Captain Stone's certificate.

In the Divorce Court, on the 20th, the Judge pronounced a decree nisi for a dissolution of the marriage between Sir John Crampton (ex-British Minister at Washington) and Miss Balfe, on the ground that the marriage had not been consummated, owing to the impotency of the husband.

France.

There is nothing new as to the European Congress.

La France asserts that several acceptances have been received, but no refusal as yet.

It is denied that Russia had replied that she would join the Congress, but not until after the pacification of Poland.

The editors of all the Paris journals have been summoned to the Ministry of the Interior and cautioned to be careful in their remarks on legislative proceedings, as the Government would rigorously enforce the law.

One thousand men were to sail from Cherbourg for Mexico on the 23d of November.

A bill had been submitted to the Council of State asking supplementary credits for 91,000,000 francs. The credits are stated to be required to meet the expenses of the Mexican expedition.

It is noticed that since the Emperor's speech the *Moniteur* publishes on the Polish insurrection only the news given in the Russian papers. Before the speech it used to give the Polish versions also.

The Paris papers had been invited to be milder in their Polish articles.

The Paris *Patrie* publishes the petition of the Franco-Polish Committee to the French Senate asking for the recognition of the Poles as belligerents.

PARIS, Nov. 19.—According to advices received here, Spain, Portugal, Italy, Sweden, Denmark, Switzerland, and the Court of Rome accept the proposition for a Congress made to them by the Emperor Napoleon.

The four Kings of Hanover, Saxony, Bavaria, and Wurtemburg also acceded to the proposition, confining themselves to reserving their definite reply until after the decision of the two great German Courts.

A favorable reply is expected from Prussia and Turkey.

THE MEXICAN QUESTION.

The London Times in its City Article says: Mercantile advices show that the difficulties of the French intervention had been greatly increased, owing to the fatal error committed by the Emperor Napoleon in giving license to the ecclesiastical and reactionary party the moment his army had succeeded in occupying the capital, while the name of France also suffered an incalculable loss of prestige from the honors conferred upon such persons as Miramon and Marquez. At one time the consequences of this course seemed to be most threatening, as respects the impulse to resistance. The arrival of Gen. Bazaine seems to have been regarded as opening up a better prospect.

A Madrid telegram states that the Spanish Government supports the candidature of the Archduke Maximilian to the Mexican throne.

Denmark and Germany.

The claim of Prince Frederick of Augustenburg to the Dukedom of Schleswig-Holstein attracts much attention.

He has issued a proclamation to the people of those Duchies, declaring his assumption of the government, and pronouncing further Danish rule as usurpation. He does not call the people to repel force by force, but appeals to the German Federation to protect him in his rights.

It is asserted that the Grand Duke of Weimar and Duke of Saxe-Meiningen have recognized the Prince's claim.

The official Prussian journal says that the question has not assumed an international character.

It is asserted that Prussia is making active warlike preparations, in view of possible hostilities with Denmark.

Russia.

The London Times prominently directs attention to the vigorous warlike preparations of Russia, and details what these preparations are. Great preparations are being made about Cronstadt, under the superintendence of Todleben. Channels are being blocked and intercepted by infernal machines, and extensive earthworks are being raised. A submarine vessel of colossal dimensions is in the course of preparation with great secrecy, and enormous exertions are being made in the manufacture of guns, ammunition, armor-plates, &c., and two years' supply of coal has been provided for the fleet. Sixteen thousand men are said to occupy the country from the Crimea to Gelicia under Gen. Lodera.

A Word to Clergymen.

The high character, scholastic attainments, erudition and social qualifications of American Clergymen are in strong contrast with the narrow prejudices and limited resources which have marked the history of other nations, and of earlier periods of the world. Coming directly in contact with the theories of the most enlightened minds, as well as the customs of common life, they are better calculated to judge of popular opinion, and current ideas than any other class of men. Their influence is unbounded. Their opportunities for directing practical reforms and progressive developements impose many obligations. In acknowledgment of the many complimentary indorsements and favors which Dr. DRAKE has received from Clergymen in behalf of his PLANTATION BITTERS, he has directed his Agents, Messrs. BARNES & Co., No. 267 Broadway, N. Y., to present a bottle *gratis* to every Clergyman who may personally call during the remainder of this year, 1863.

Quite to his surprise, he has ascertained that many persons sharing in a natural prejudice against supposed nostrums, have classed this with other useless articles, and are yet entirely ignorant of its pure character and wonderful effects.

Dr. DRAKE seeks no confidence not founded upon evidences of skill and fair open dealing; relying upon the intelligence of the people he makes a medicine of the celebrated Calisaya Bark, Dandelion, Cascarilla Bark, Chamomile Flowers, Lavender Flowers, Anise, Clove Buds, Orange Peel, Carraway, Cinnamon, Snake Root, &c., &c., preserved in pure St. Croix Rum—and tells them so. Physicians have to indorse him.

With this recipe before the community, and evidences of effects meeting them on all sides, the success of Dr. DRAKE stands founded upon the rock of truth. Every Parish—almost every family has some case of suffering, which the PLANTATION BITTERS will alleviate and cure. Their effects in case of lassitude, emetation, loss of appetite, constipation, sour stomach, fœtid breath, pain after eating, headache, dyspepsia, liver complaint, general debility, &c., are most remarkable. For aged persons and delicate females they are worth their price in gold.

Let every Clergyman improve this opportunity, and armed with a bottle of PLANTATION BITTERS, dispense healing without money and without price.
