Worms! Worms!! Worms!!!

TO remove these troublesome and dangerous inhabitants from the stomach and bowels, which so often impair the health and destroy the lives of children, use Dr. Joyce's Tonic Vermifuge a certain and safe preparation for the removal of the various kinds of Worms. Dispepsia, Sour Stomach, want of appetite, infantile fever and ague, and debility of the stomach and bowels and organs of digestion. To be had at No. 20 South 3d street, Philadelphia, price, 50 cents. Sold also by H. T. White & co. Rutland, Vt., also by D. H. Meacham, Wallingford, Vt.

[No. 3 ewch

The Cause of Bilious Complaints and a Mode of Cure.

A well regulated and proportionate quantity of bile upon the stomach is always requisite for the promotion of sound health—it stimulates digestion, and keeps the intestinal canal free from all obstructions. On the inferior surface of the liver is a peculiar bladder, in which the bile is first preserved, being formed by the liver from the blood. Thence it passes into the stomach and intestines, and regulates the digestion. Thus we see when there is a deficiency of bile, the body is constantly costive. On the other hand an overabundance of bile causes frequent nausea in the stomach, and often promotes very severe attacks of disease, which sometimes ends in death.

Fevers are always preceded by symptoms of a disordered stomach; as are also scrofulous disorders and all sympathetic functional organic or febrile diseases. From the same cause, the natural and healthy action of the heart and the whole vascular system is impaired and reduced below its natural standard, as exhibited in palpitations, languid pulse, torpor of the limbs, syncope, and even death itself, in consequence of an overabundance of a peculiar offensive substance to the digestive organs.

The approach to bilious diseases is at all times attended by decided symptoms of an existing diseased state of the stomach and bowels, i. e. with those signs which are known to point out their contents to be of a morbid irritating nature; but whenever the alimentary canal happens to be loaded with irritating matter, some derangement of the healthy operation, either of the general system or of some particular organ of the body is the certain result; and when this state happens to be united with any other symptoms of disease, its effects are always thereby much aggravated. The progress of chyloic obstruction is often so rapid as scarcely to admit of time for the application of such aid as is to be offered by art yet, in general, the premonitory symptoms of gastric load a perceptible for a day or two previous to the feverish paroxysm, a period, when the most efficacious assistance may be given, by unloading the stomach and alimentary canal of its irritating contents, and thus reducing the susceptibility of disease.

Moffat's Life Medicines should always be taken in the early stages of bilious complaints; and if persevered in strictly according to the directions, will positively effect a cure.

The mineral medicines often prescribed in these diseases, although they may effect a temporary cure, at the same time create an unhealthy state of the blood, and consequently tend to promote a return of the very disease which they are employed to cure.—It is then by the use of purgatives, exclusively formed of vegetable compounds, which, possessing within themselves no deleterous agencies, which decomposition, combination or alteration can develope or bring into action, and therefore capable of producing no effect, save that which is desired—that a safe remedy is found.

The Life Pills and Phœnix Bitters have proved to be the most happy in their effects in cases of bilious diseases of any purely vegetable preparation ever offered to the public. If the stomach is foul they cleanse it by exciting it to throw of its contents; if not they pass to the duodenum without exciting vomiting or nausea in the stomach; stimulating the neighboring viscera, as the liver and pancras, so as to produce a more copious flow of their secretions into the intestines; stimulating the exhalent capillaries, terminating in the inner coat, which an increased flow of the useless particles of the body, foreign matters, or retained secretions, are completely discharged.

Fever and Ague.

To my friends in the West, and particularly those who have used the Life Medicines in treatment of Fever and Ague.

It is but a very short time since these medicines have been introduced into the fever and ague districts and the proprietor flatters himself that during that period, wherever they have been used according to the directions, they have done more towards eliminating the disease, than all other remedies or prescriptions combined. It is a common excuse among "regular practitioners" when specifics are introduced, that they cannot cure disease which people are in the habit of considering incurable. Medical experience is continually doing away a part of the list of the incurable diseases, and Mr. Moffat has the happiness of confidently announcing that fever and ague is now to be added to the number of complaints which modern skill has conquered.

In Fever and Ague the Life Medicines not only give quicker relief than any other remedy, but if persevered in, effect a permanent cure, so that if the patient is only ordinarily careful, and resorts directly to his medicine upon the first symptom of tendency to a new attack, it may always be warded off. To escape one chill would be of infinitely more consequence to the sufferer than the remedy—to remove the disease permanently would confer a benefit upon him which cannot be estimated by any earthly standard. That these medicines will effect what is here claimed for them, the proprietor has the testimony of all acquainted with them and their application and use in the fever and ague; and his object in now addressing his friends at the West is to request them that they will spare no pains in communicating their experience and disseminating this highly interesting information, now that the season for fever and ague has arrived.

Moffat's Life Pills and Phenix Bitters.

The universal estimation in which the celebrated Life Pills and Phenix Bitters are held, is satisfactorily demonstrated by the increasing demand for them in every state and section of the Union, and by the voluntary testimonials to their remarkable efficacy which are everywhere offered. It is not less from a deeply gratifying confidence that they are the means of extensive and inestimable good among his afflicted fellow creatures, than from interested considerations that the proprietor of these pre-eminently successful medicines is desirous of keeping them constantly before the public eye. The sale of every additional box and bottle is a guarantee that some persons will be relieved from a greater or less degree of suffering, and be improved in general health; for in no case of suffering from disease can they be taken in vain.—The proprietor has never known or been informed of an instance in which they have failed of doing good. In the most obstinate cases of chronic disease, such as chronic dyspepsia, torpid liver, rheumatism, asthma, nervous and bilious headache, costiveness piles general debility, scrofulous swellings, and ulcers, scurvy, salt rheum, and all other chronic affections of the organs and membranes, they effect cures with a rapidity and permanency which few persons would theoretically believe, but to which thousands have testified from happy experience. In colds and coughs which if neglected superinduce the most fatal diseases of the lungs, and indeed the viscera in general, these medicines if taken for three or four days never fail. Taken at night, they so promote the insensible perspiration, and so relieve the system of febrile action and feculent obstructions, as to produce a most delightful sense of convalescence in the morning; and though the usual symptoms of a cold should partially return during the day, the repetition of a suitable dose at the next hour of bed-time, will almost invariably effect permanent relief without further aid. Their effect upon fevers of a more acute and violent kind is not less sure and speedy if taken in proportionable quantity; and persons retiring to bed with inflammatory symptoms of the most alarming kind, will awake with the gratifying consciousness that the fierce enemy has been overthrown and can easily be subdued. In the same way, visceral turgescence that long established and visceral inflammations however critical will yield—The former to small the latter to large doses of the Life Pills; and so also hysterical affections, hypocondriasm, nervousness, and very many other varieties of the Neurotical class of diseases, yield to the efficacy of the Phenix Bitters. Full directions for the use of these medicines and showing their distinctive applicability to different complaints accompany them; and they can be obtained wholesale and retail at 375, Broadway, where numerous certificates of their unparalleled success are always open for inspection.

For additional particulars of the above medicines, see Moffat's "Good Samaritan," a copy of which accompanies the medicines; a copy can also be obtained of the different agents who have the medicines for sale.

Prepared and sold by Wm. B. MOFFAT, 375 Broadway, New York. A liberal deduction made to those who purchase to sell again. For sale by

The Resurrection or Persian Pills.

Superior to the Hygean, Brandreth's

Evans' Tomato, the Matchless (priced) Sanative, or any other Pills or Compound before the public, as certified to by Physicians and others. Let none condemn them until they try them and then we are certain they will not.

It is now a settled point with all who have used the Vegetable PERSIAN PILLS that they are pre-eminently the best and most efficacious FAMILY MEDICINE that has yet been used in America. If Every family could become acquainted with their *Sovereign power over disease*, they would keep them and be prepared with a sure REMEDY to apply on the first appearance of disease, and then how much distress would be avoided and money saved, as well the lives of thousands who are hurried out of time by neglecting disease in its first stages, or by not being in possession of a remedy which they can place dependence upon.

THE RESURRECTION OR PERSIAN PILLS. The name of these pills originated from the circumstance of the medicine being only found in the cemeteries of Persia. This vegetable production being of a peculiar kind led to experiments as to its medical qualities and virtues. In half a century it became an established medicine for the diseases of that country. The extract of this singular production was introduced into some parts of Europe in the year 1738, and used by many celebrated physicians in curing diseases, where all other medicines had been used in vain. Early in the year 1792 the extract was combined with a certain vegetable medicine imported from Dura Boca, in the East Indies, and formed into pills. The admirable effects of this compound upon the human system led physicians and families into its general use. Their long established character, their universal and healing virtues, the detergent and cleansing qualities of their specifical action upon the glandular part of the system, are such as will sustain their reputation and general use in the American Republic.

To E. Chase & Co.

Genl. Sirs;—This is to inform you that we have used your Persian vegetable Pills for a year past, in our practice, and are well pleased with their operation Believing them to fulfil their advertisement in answering as a substitute where calomel is indicated, we can recommend them to the public.

Drs BROWN M'KENZIE & HALSTEAD,
Rochester, 1837.

TO MOTHERS.

Messrs. E. Chase & Co.—Gents.—Hearing much said about the extraordinary used the Resurrection or Persian Pills upon those about to become Mothers, we were induced to make a trial of them. My wife was then the mother of 5 children, and had suffered the most tedious and excruciating pains during and after her confinement of each. She had tried every means and taken much medicine, but found little or no relief. She commenced taking the Persian Pills about three months before confinement (her health being very poor about this length of time previous,) and soon after was enabled by their use to attend to the cares of a mother to her family until her confinement. At the time she commenced taking the Persian Pills, and for several weeks previous, she was afflicted with a hard, dry cough, and frequent, severe cramps, which the use of the pills entirely removed before using half a box. It is with great confidence, that we advise all those about to become mothers, to make use of the Persian Pills. All who have taken them in our neighborhood have got along in the same easy manner, and are about the house in a few days. There does not appear to be half the danger of other difficulties setting in after confinement where these Pills are taken. We unitedly say let none neglect taking them for they are in the reach of the poor, as well as the rich. We are truly thankful that there is a remedy which females can easily procure which bids to lessen the world of suffering, which many of them have to bear, and perhaps save the lives of thousands which otherwise would be lost.

Rochester, May, 14th 1838; corner of Caledonia square, Edinburgh street. For further particulars see subscribers

S. R. BER
A. O'ROBERTS.

Vergennes, Vt. July 10th 1837.

Gents.—I wish you to send a quantity of your Persian Pills to this place, for I am sure they would meet with a ready sale. My brother-in-law, while passing through your place, heard so much said in their behalf, that he was induced to purchase 4 boxes, and I may safely say that they have done more for myself and half-sister than $400 which I had paid to Doctors, and for other various prescriptions and medicines. I have used 28 boxes of Brandreth's Pills, which gave me some partial relief. But your pills went right ahead like a man of war. What passed off looked like ink. My disease has been named differently by every physician; but, my idea is, that it was a general vitiation of the fluids, which produced some symptoms of almost every disease. It would be too tedious for me to give you a history of all my difficulties. I was weak, dull, stupid and reduced to a skeleton. All hopes of my being restored had been given over, except by my brother in law. I took 2 boxes of your pills, and am able to perform my duties in the counting room. My sister was consumptive—her liver was much affected and her feet and legs swelled—a harsh cough constantly troubled her. One box of your Pills entirely relieved her from all those symptoms.—I am about to remove to Burlington, and would wish an agency, &c, S. R. LUTHIjeer.

JEW DAVID'S OR HEBREW PLASTER

The peculiarities of this Chemical Compound are owing to its extraordinary effects upon the animal fibre or nerves, ligaments and muscles, its virtues being carried by them to the immediate seat of disease or pain and weakness.

However good any internal remedy may be, this as an external application, will prove a powerful auxiliary, in removing the disease and facilitating the cure in cases of local inflamation. Scrofulous affections, King's Evil, Gout inflammatory, and Chronic Rheumatism, and in all places where seated pain exists.

It has likewise been very beneficial in case of weakness, such as weakness and pain in the stomach, weak limbs, lameness, affections of the spine, female weakness, &c. No female subject to pain or weakness in the back or side, should be without it. Married ladies in delicate situations, find great relief from constantly wearing this plaster.

No puffing or great spread of certificates is intended. Those who wish to satisfy themselves of the efficacy of this plaster can obtain a sufficient quantity to spread 6 or 5 for 50 cts! a sum not half sufficient, to pay for the insertion of a single certificate into any of our most common prints a single time. This trifling price per box, is placed upon it in order that it may be within the means of every afflicted person of the community, that all, whether rich or poor may obtain the treasure of health, which results from it.

Price per box, 50 cts. Directions accompanying each box.

Remedy for Thrush, Canker, and Nursing Sore Mouth.

Thousands, both old and young but especially mothers and infants, are every year consigned to the tomb by the above stubborn diseases. The misunderstanding and ignorance of most practicing physicians in regard to this disease, and the consequent uncertainty of cure from their prescriptions, is a subject of common remark among all those who have suffered from the disease, or who have witnessed the sufferings of others.

Many are the cures we have witnessed performed by these medicines, in the worst stages of Thrush-Canker and Nursing Sore Mouth, even where the patient had been given over by a number of the most talented physicians.

We present this compound thus confidently because we know *it is only to be tested, to be appreciated*.

Price $1 50 per package $12 per dozen.

JO ATHAN POLLEY.

Polly's Landing, Fort Ann, N. Y. March 1840.
11—3m.

By the British Queen

WHICH arrived at New York Nov. 23, were received an interesting letter from *Mr J. Morrison* written at the British College of Health, London where the medicine of which we speak below is made. *Mr Morrison* thinks that the reason that many in this country are so long in being cured of old seated diseases, is 'that they do not take large doses enough,' and who is a better judge, than he who has for years made and administered the medicine and observed its effects? We believe this reason the true one. In cases of typhus fever, bilious affections cholera morbus consumption, rheumatism, particularly

INFLAMATORY RHEUMATISM,
Dropsy, Small Pox, The Doulourreaux,
FEVERS OF ALL KINDS,

and in many other diseases, in their worst stages there should be doses, of 10, 15, 20, 30, and even more Pills administered at a dose. It is done with great success all over Europe, and there is where the medicine is most successful. We conversed with a gentleman in this town in August last, it was Mr John Morrison son of Mr. James Morrison, the Hygeist, who spent a day or two, here, while on his travels through the States; he informed us that he was once prostrated by a fever, we think he said typhus fever, (the name matters not) and was pronounced by friends and physicians 'near his end' past recovery.' His Father disrobed the physicians and said, 'I think I can save him' and commenced with (30) No. 2 Pills, these did not have the desired effect, and he gave him 60 No. 2 Pills and continued these doses for several days, until he was out of danger. Virulent diseases require large doses. Large doses in season, will prevent a long sickness.

Mr. L. Cur is, known by all in this town and vicinity was laid up with inflamatory rheumatism and to be lifted into and out of bed, his limbs were swolen very large and his pains were very acute, he had been trying various things without relief by the persuasion of mrs. C. Johnson, against his wishes, he sent to us for a $1 package of Morrisons medicines and by them was cured. We had this information from mr. Curtis himself, he is here and can be enquired of concerning it.—mrs. Johnson, known to most of the inhabitants of Burlington, was laid up with the same disease, and could get no relief, she sent to us for a package of Morrison's medicine, and says when I had taken the fifth dose, the swellings and the pains began to leave me, and those only who have had this disease, can realize the happiness of

ABSENT PAIN.

Morrison's Pills cured mrs Johnson.

Applications for agencies or medicine, (post paid,) promptly answered.

Valuable Information.

THE Indian Vegetable Pills are a certain cure for disease in its every variety of form, because they thoroughly cleanse the stomach and bowels, induce a proper discharge by the lungs, skin and, kidney, and stimulate the blood to purify itself. In other words, they open all the natural drains, and leave Nature, (the grand physician) free to drive disease from the body. The above outlets, or drains, are the common sewers of the body, through which all morbid and corrupt humors (the cause of disease) are carried off; and so long as they are kept open, and discharge freely their allotted portions of impurity, the body will continue in health; but, when, from eating improper food, breathing impure air, sudden transitions from heat to cold, over exhaustion, or any other cause, the bowels become costive, the pores of the skin become closed, or the kidneys fail to perform their functions properly, the impurities which should be drained from the body by these outlets, will be retained, and continue to accumulate until the body becomes literally loaded with disease.

If the channels of our mighty rivers should become blocked up, would not the accumulated waters find new outlets, or the country become inundated? Just so with the human body; if the natural drains become closed, the stagnant and corrupt humours will find vent in the various forms of disease, such as fever, small Pox measles, heumatism; gout, apoplexy, &c., or death will end our sufferings. Therefore, when sickness at the stomach, pains in the back and side, quick pulse, burning skin, or any other unpleasant symptoms indicate that one or more of the natural drains are not discharging freely, and that the constitution is about to commence a struggle for the restoration of health, no time should be lost in administering a few doses of the Indian Purgative (Indian Vegetable Pills.) By so doing, all the functions of the body will be restored to order, and the foul humors, the cause of every inflamation or pain we suffer, will be removed in so easy and natural a manner that the body will be restored as if by a charm.

The above pills may be taken at ALL times, and under all circumstances, with perfect safety.

They suit ALL COMPLAINTS, and all ages, and are as natural to the human constitution as food; consequently, they can never injure, even the most delicate. Like our food, they are digestible; therefore they enter into the circulation and impart an energy to the blood; which enables it to flow with freedom quite to the extremities and consequently to keep the pores of the skin open. They are true and perfect purifiers of the blood; because they drain all corrupt humours from that life giving fluid. They impart strength and vigor to the whole system, and their effects are always beneficial; because they only remove those humours which are opposed to health. They aid and improve digestion, and sound sleep follows their use; because they cleanse the stomach and bowels of those slimy humours which not only irritate and excite the nervous system, but paralyze and weaken the digestive organs. In short, they possess all the good qualities that can be claimed for any medicine; and what is very remarkable, it is utterly impossible to use them without benefit.

More than 12 thousand persons can be referred to who have been cured of complaints apparently of the most dangerous character, solely by the use of the Indian Vegetable Pills.

Office, and General Depot for the sale of the above pills in the New England States, 198 Tremont Street, near Court street, Boston, where they can be had at wholesale and retail.

Agents have been appointed for the sale of the Pills in most of the towns in New England.

All letters relative to the Pills must be addressed thus; 'N. E. Office N. A. College of Health, 198 Tremont street, Boston, Mass.'

NOTICE.

THIS may certify that my wife Edna Hill absconded from my bed and board about the 17th of Jan., without any just cause or complaint—taking with her my 3 children, named Lydia, Adeline, and Mary Hill—and gone to parts unknown. This is to forbid all persons harbouring or trusting her or either of the children on my account as I shall pay no debts of their contracting whatever. JOHN HILL 3d

Salisbury, March 12, 1840. 11—13

Diseases of the Lungs,

evidently the most popular remedy ever known in America.

Vegetable Pulmonary Balsam.

IS the most valuable remedy now in use for Coughs Colds, Asthma or Phthisic, Whooping Cough, and Pulmonary Affections of every kind. Its sale is steadily increasing, and the proprietors are constantly receiving the most favorable accounts of its effects.—The following new certificates are offered for publication.

An interesting Case.

Extract of a letter from Mr S. C. Clay, Kingston, Ulster Co. N. Y. to the proprietors.

Years of the 9th inst was duly received. A remarkable cure was effected by the Vegetable Pulmonary Balsam, in the winter and spring of 1835. The person, Mr. Moody, has been sick a long time with the consumption. His physicians had given him up. He was reduced so low as to be unable to help himself, and was raising a large quantity of blood when he commenced using the Balsam, which effected a complete cure, and he is now as healthy and hale as ever he was. Mr Moody has removed from this town he has but promised to furnish me a more detailed account of his case, which I will forward you.

S. C. CLAY.

Kingston, N. Y. June 25, 1838.

Extract of a letter from Dr. Jacob Myers.

"The Vegetable Pulmonary Balsam has been sold in this county for two years, and the medicine has gained an uncommon celebrity; for it has scarcely failed in one instance of having the desired effect.—I am by no means in favor of the many nostrums, most of which are impositions upon to credulous public, but that which I know by experience to be effectual, I cannot help but give my approbation thereto. A counterfeit preparation has been offered here by a traveling agent from Comstock, N. Y. and there is also another article vended here that is strongly suspected to be spurious.

JACOB MYERS M. D

Mifflintown, Juniata co. Penn May 3, 1838."

From Mr. Samuel Morrill, to the proprietors of the Vegetable Pulmonary Balsam

I am satisfied that the Vegetable Pulmonary Balsam is a valuable medicine. It has been used in this place with complete success in an obstinate complaint of the lungs, attended with a severe cough, loss of voice and the raising of much food, which had previously resisted many approved prescriptions. After using the balsam one week, the patient's voice returned and he was enabled to speak audibly. This case occurred some time since, and the man is now engaged not only in active, but in laborious business.

Respectfully yours, &c.

S. MORRILL, M. D.

Concord, N. H. Jan 30, 1832

It is now more than six years since I was brought very low by an affection of the lungs, and my complaint was decleared to be incurable by a council of three physicians. I was then restored to as good health as I had enjoyed for many years by using the vegetable Pulmonary Balsam. Since my recovery, I have recommended the Balsam in a great many cases o lung complaints, and so far as I can learn, its use has been invariably followed by much benefit, and in many instances it has "effected cures which were wholly unexpected." SAM'L. EVERETT.

Boston, March 2, 1837.

COUNTERFEITS!—Beware of imposition.—Each genuine bottle is enclosed in a blue wrapper, on which is a yellow label signed Sampson Reed.—☞None others can be genuine.

The great celebrity of the Genuine Vegetable Pulmonary Balsam has been the cause of at empts to introduce spurious articles which by partially assuming the name of the genuine, are calculated to mislead and deceive the public. Among these mixtures are the 'American Pulmonary Balsam' Vegetable Pulmonary Balsam Syrup,' 'Pulmonary Balsam,' and others Purchasers should inquire for the true article by its whole name the Vegetable Pulmonary Balsam and see that it has the marks and signature of the genuine. Each bottle and seal is stamped [Vegetable Pulmonary Balsam.] Price 50 cents.

Latest cheat!—T. & H. Keyes, Newbury, Vt. are interested in preparing a spurious imitation, called "Carter's Compound Pulmonary Balsam;" and they are endeavoring to obtain agents for the sale of their mixture, on the ground that "it is done up in good style—☞Similar to Sampson Reed's Balsam."

*6tf ☞ Again we say, look out for counterfeits.

West India Goods and Dry Groceries of the best quality. Arrangements have been made to keep a large quantity of Lamp, Sperm and other Oils, of superior quality, which will be sold by the Barrel or Gallon.

The above Goods are fresh from market; great pains have been taken in selecting, and they will be sold remarkably cheap for ready cash or good credit.

Castleton, Nov. 8, 1839. min,48tf.

NOTICE.

ALL Debts due the subscriber on the first day of Oct. 1839, must be paid previous to the 1st day of April 1840, (hope this notice will be attended to.) JAMES BARRETT, Jr.

Rutland, Feb. 27, 1840.

Cheap Goods.

BURT & MASON, have been receiving some addition to their stock which makes it very full for the season. They have a very splendid assortment of light French printed Cambrics; English and American prints; Challis, Mousselain de Laines; *splendid patterns*; black, blue black and colored Silks for dresses and hats; fine Sarsnett Cambrics; corded Cambrics and Muslins; Bishop Lawns; Linen Cambrics; muslins; Lace good of various kinds; Gloves and Hosiery; Needle worked and Tambour Capes and Collars; dress handkfs, &c. Also Florence, Dunstable, English Straw and Palm Leaf

Bonnets,

A splendid assortment of bleached Sheetings and Shirtings; Irish Linens; fine and common brown sheetings and shirtings; Tickings; a large supply of skein and spool thread; fine flannels, &c.

A full stock of first quality groceries; Crockery and Glass Ware; Hard Ware; Drugs, Dyes, &c. In fine nearly everything called for at a country store. They offer every article they have for sale at the *very lowest prices*. They had like to have *said for cash*; but no, that is quite out of the question. They will take good credit or any kind of produce, and wait until General Harrison comes in President on the 4th of March next. At that time we shall see Van Burenism, specie humbugs, and leg treasurers pass into the "*receptacle of things lost upon earth*," and the people, after having been relieved of such a burthen of mock democracy, once more marching forward in improvements, amassing wealth and acquiring knowledge, happy and prosperous beyond anything ever before witnessed in this land of liberty. 10—12

TO COUNTRY MERCHANTS.

Silk & Straw Goods for Cash.

THE subscriber calls the attention of Country Merchants to his extensive assortment of

Silk and Straw Goods,

which has been selected from fresh importations and manufactures with the greatest care, and which he offers for CASH at the lowest market price, among which will be found every style and quality of

Silks, Ribbons, Velvets, Embroideries, Laces, Lace Veils, Shawls and Fancy Handkerchiefs.

—A complete assortment of—

Leghorn, Tuscan, Florence Braid, and Straw Hats.

With a great variety of

Millenary and Fancy Goods.

To all of which he respectfully solicits the attention of merchants visiting New York, believing that the prices at which they are offered will satisfy them that they cannot purchase to better advantage in the market.

STATE OF VERMONT, } TO all whom it
Rutland County, ss. } may concern.

THE subscribers having been appointed by the Hon. Supreme Court holden at Rutland within and for the county of Rutland, on the first Tuesday succeeding the fourth Tuesday in January A. D. 1840, commissioners to make partition to set off according to the statute, a certain tract or parcel of land lying and being in Pawlet and Danby, containing, by estimation, about 200 acres more or less, it being all the farm upon which one Daniel Hulett, senior, lived, before his decease, except what he had conveyed to his daughter Janet Wilcox, and being all the land owned by said Daniel Hulett, senior, lying in Pawlet and Danby, which said tract or parcel of land is owned by Pan Hulett, Joshua Hulett, Doreliett. Tobias Hulett, Marshall Hulett, Martha Hulett, Sally Hulett, and Lovina Crosby, of Pawlett, and Ethan Roberts and Harriet his wife, of Dorsett, and Apollos Hastings and Nancy his wife, of Chicago, in the State of Illinois, as tenants in common.

We therefore hereby give notice that we will attend upon the said tract or parcel of land, for the purpose of making partition thereof and to set off and divide the shares of the several persons interested therein, on the 24th day of April, A. D. 1840, at 9 o'clock fore noon.

Dated at Pawlett, March 13th, 1840.

FLOUR

Herds Grass and Clover seed for sale by S. D. WINSLOW.

Pittsford, March 25, 1840.

IMPORTANT TO THE LADIES.—Just received and for sale by H. T. White & Co. Rutland, a few boxes Reynolds & Parmely's celebrated Female Health Restorative. It is adapted particularly for the diseases peculiar to the female constitutions. A good medicine of this kind has long been wanted, as many of the diseases have baffled the skill of the most eminent physicians, and all the remedies heretofore in use have proved ineffectual in thousands of cases. This medicine invariably removes obstructions &c. And as a mother's relief, it is not equalled by any other medicine. It is not a cathartic, but a tonic, strengthening and restoring the system to a healthy action. It is recommended by many of the most eminent physicians in the United States. Doct J. Morrison, from Colerain, Mass. who has practised medicine some 20 years at Oneida, N. Y. says in relation to it "That is the best medicine now in use. * * * * * * I have tried it in the worst cases of female complaint with admirable success, and I ask for the good of suffering females that physicians would introduce it in their practice, and have confidence to believe they would find happy results, as I have found the pills to answer fully their recommendation." Doct. R. R. Dox Syracuse, N. Y. tells a similar story, and many others. For further information you are referred to the persons whose names are annexed to our show-bills, and also to pamphlets left with the agents for gratuitous distribution.—Price 50 cents dollars per box, containing nearly one hundred Pills. Prepared and sold wholesale and retail by Reynolds & Parmely, Pittsford, Monroe Co. N. Y., sold also by D. H. Meacham, M. D. Wallingford, Jackson & Ketcham, Brandon, Moses Adams, Middlebury, F. Hunington, Vergennes, Doct. Peck, Burlington, A. R. Van Ness & Co. Shoreham, D. Andrews, Manchester, Merrill & Co. Spargal, Bennington, Willson & Tyler, Bennington, and by H. T. White & Co., at the Rutland Bookstore.
