
IN QUART BOTTLES,

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD OR HABIT OF THE SYSTEM, viz:

Scrofula or King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Blotches, Boils, Chronic Sore Throat, Ulcers or Tetter, Scald Head, Enlargement and Pain in the Joints and Limbs, Mercurial Diseases, Syphilitic Affections, Scirrhus or Cancer, and Diseases arising from an Improper Use of Mercury, Acidity or Dyspepsia, Expposure or Imprudence in Life; also Chronic Constitutional Disorders.

In this preparation are strongly concentrated all the Medicinal properties of SARSAPARILLA, combined with the most efficacious aids, the most sanitary productions, the most potent samples of the vegetable kingdom; and it has been so long tested, not only by patients themselves but also by Physicians, that it has received the unqualified recommendations and the approbation of the public; and has established on its own merits a reputation for VALUE and EFFICACY far superior to the various compounds bearing the name of Sarsaparilla. Diseases have been cured, such as are not in the records of time past; and what it has already done for the thousands who have used it, is capable of doing for the millions still suffering and struggling with disease. It purifies, cleanses, and strengthens the fountain springs of life, and enlivens new vigor throughout the whole animal frame.

The disease for which this article is recommended are those to which it is known from personal experience to be adapted; and those apparently remote beyond the sphere of its action have yielded to its influence. The catalogue of complaints might be greatly extended to which the Sarsaparilla is adapted, but experience proves its value, and each succeeding day is adding new trophies to its fame.

ANOTHER CURE OF SCROFULA

The following striking and, as will be seen, permanent cure of an inveterate case of Scrofula, commends itself to all similarly afflicted!

SOUTHBURY, CONN., Dec. 1, 1848.

Messrs. SANDS: Gentlemen—Sympathy for the afflicted induces me to inform you of the remarkable cure effected by your Sarsaparilla in the case of my wife. She was severely afflicted with the scrofula or different parts of the body; the glands of the neck were greatly enlarged and her limbs much swollen. After suffering over a year and finding no relief from the remedies used, the physicians advised her to go home to die. Her friends concluded she should be cured, which was done, and without a permanent benefit. In this situation we were induced to use SANDS' SARSAPARILLA. The first bottle produced a decided and salutary effect, relieving her more than any prescription she had ever taken, and before she had taken half a dozen bottles she was in comfortable and delight of her friends, the head by health quite restored. It is now over a year since the cure was effected, and her health continues, showing the disease to be eradicated. These are plain facts, and thank God many others can testify to the same facts, and thank God many others can testify to the same facts, and thank God many others can testify to the same
