Correspondence of The N. Y. Tribune.

BARNEGAT, OCEAN COUNTY, N. J., Thursday morning, March 31, 1864.

Three vessels on Long Beach can be plainly discerned from the mainland this morning, having been driven ashore during the storm last night—a bark and a brig opposite Mannahanklin, and a schooner near Barnegat Inlet. Considerable anxiety is felt to know whether any lives are lost, as owing to late storms but few men are on the beach, hardly enough to man one life-boat. Experienced surfmen have left for the wrecks to see if help is needed. The vessels are about six miles or so apart, and the keepers of the station-houses alone cannot do much until help reaches them from the mainland, which will be by noon. LIGHTHOUSE.

A later dispatch says that the brig George, of and for New-Haven, from St. Croix, is ashore nine miles south of the inlet, high up on the beach, and resembles Light. The dispatch also says that the brig Hunter, from Sagua for New-York, with a cargo of sugar and molasses is ashore two miles south of Great Swamp; she has bilged and is full of water. The vessel and cargo will, no doubt, be a total loss.

The steamer Hudson reports: March 28, 70 miles E. of Cape Henry, fell in with schr. Jno. Loesburn, of and from Portland for Philadelphia, with loss of bowsprit jibs and boat, mainmast sprung, bulwarks gone, and part of deck and washed overboard during the N. E. gale of the 22d. She being in a sinking condition took her in tow and left her at the Delaware Breakwater, after towing her 100 miles.

Bark Sailor Prince reports: March 27, lat. 37 45, lon. 70 17, experienced a terrific gale from N. E., during which split sails and the 2d officer had his arm broken. On the 29th took a heavy gale from E. N. E.

The ship Augustus, while lying to in a heavy gale from W., had decks swept, lost boats, sails, jibboom, stove starboard bow, sprung bowsprit and main and mizzenmasts, the ship leaking badly.

There have been quite a number of Patents obtained within a short time, all of them using my first principle, and many of them infringing on my different Patents, which I shall be obliged to protect, if other conflicting machines are put in operation.
Any person wishing further information can obtain a circular, with engravings of my different inventions, cost of drying, its utility, &c., &c. Address the Subscriber, P. O. Box No. 5,047, New-York City, inclosing stamp.
