It is stated that the Farmer's Loan and Trust Company will soon resume an active Banking business. Mr. Rolston, Assistant Cashier of the Fourth National Bank, has resigned, to become Vice-President of the Trust Company.

Mr. Whitewright, esq., has been elected a Director of the Fourth National Bank, to fill a vacancy.

The First National received subscriptions to the Ten-forties amounting to $286,000, to-day. The Ten-fortybonds are now ready for delivery at the Sub-Treasury and at the First National Bank. The latter institution has secured $300,000 this morning, and announces its readiness to supply purchasers with these securities on demand, so as to save the delay of subscribing.

The New-York, Providence and Boston Railroad Company have declared a quarterly dividend of 3 per cent, payable on demand, free of Government tax.

The following petition was forwarded to Washington. Its object is to obtain for banks of the several States facilities for organizing under the National Banking law similar to those contemplated for the Bank of Commerce by Mr. Hooper's amendment, which passed on Saturday by 49 to 44:

To the Honorable the House of Representatives in Congress Assembled:

The undersigned officers of banks in the City of New-York respectfully represent to your honorable body that they have seen the bill entitled "A Bill to Provide a National Currency Secured by a Pledge of United States Stocks, and to Provide for the Circulation and Redemption Thereof," presented by the Committee of Ways and Means on the 14th inst.

And they respectfully petition your honorable body that the privileges and immunities secured by Section 63 to a single State institution may be extended to every other State institution which may avail itself of the bill.

Respectfully submitted. Signed by forty-seven banks.

James A. Williams, with E. C. Broadhead, was elected a member of the Stock Exchange this morning.

The trustees of the mortgage on the Milwaukee and Prairie du Chien Railway advertise that they have drawn by lot $30,000 of the mortgage bonds, which they are prepared to pay off at par and interest with the money received from the Sinking Fund. This reduces the bonded debt of the concern from $2,410,000 on 1st of January to $1,984,500 at present. The operation of the Sinking Fund is reducing the funded debt so fast that it may be safely assumed that the bondholders will, next August and next February, very generally avail themselves of the privilege of converting their bonds into preferred stock, in order to obviate the risk of having them paid off at par by the trustees. And the chances are that next February the entire bonded debt will be extinguished, and the net income of the road left available for dividends on stock.
