WEDNESDAY, April 6—P. M.

Gold has been excited all day, and closes at a large advance. The Government rate was placed at 166¾ against 168¾ in the street. At noon the price in open market was 169@169¾, and during the afternoon as high as 171¾ was paid, the rate at 3½ p. m. closing 170¾. Stocks on the street were steady. At the Stock Exchange, Government Bonds were strong; Registered 6s, '81, 113¾@113¾; 5-20s, registered, 111¾@111¾; 7.30s, April, 111¾@111¾; August, 113. State Bonds were steady; Tennessee 6s, 61¾@61¾; Georgia 6s, 55@60; North Carolina 6s, 58@58¾; Missouri 6s, 73¾@73. Quicksilver declined 4 ⅌ cent, closing at 80¾@80¾. Delaware and Hudson Canal Company advanced 10 per cent, closing at 249@249¾; Pennsylvania Coal, 228@229; Cumberland Coal lower—85@85¾; Central Coal, 89@89¾; American Coal, 111. Pacific Mail, 239@239; Central American Transit, 55@55¾; New-York Central, 144¾@144¾; Erie, 125¾@125¾; Erie Preferred, 113¾@113¾. Harlem is up to 152. Ohio and Mississippi Certificates were lower, selling at 65@65¾. Canton Company, 72@73. The advance by this Company within a few weeks upon leases renewed is full 150 ⅌ cent, with a corresponding advance upon the price of land. The expectation that Baltimore will be an absolutely free city has turned fresh attention to the property. Coal Stocks are in demand, especially for Anthracite Companies. Delaware and Hudson rose 10 ⅌ cent. Wyoming Valley shares were in request, privately, upon reports of a favorable arrangement as to new coal lands and transportation, which make it secure of full dividends. Reading was in large demand at higher rates, selling at 164. Quicksilver Mining Co. fell to 75, a fall of 11 ⅌ cent for the day. All of the New-York roads are firm, and Harlem rampant, selling at 163 at noon, and closing at 156 at the Second Board. Fort Wayne was active, as usual, and sold as high as 153. Little doubt is felt as to the cordial assent of the bondholders to the request of the shareholders in regard to new stock. Michigan Southern common was lower, but the remainder of the Western list was firm and in demand at full rates. Stock houses report money active, but this fact had no effect in checking speculation. Operators proceed upon the theory that the absence of military success means more Treasury Notes and higher prices for everything. The closing prices were: New-York Central, 144¾; Erie, 125¾; Erie Preferred, 112¾; Harlem, 156¾; Reading, 164¾; Michigan Central, 152¾; Michigan Southern, 116; Michigan Southern Guaranteed, 158¾; Illinois Central, 151¾; Cleveland and Pittsburgh, 128¾; Galena, 132; Toledo, 155; Rock Island, 129¾; Pittsburgh and Fort Wayne, 152¾; Terre Haute Preferred, 101; Toledo and Wabash, 70. Gold, 170¾.

Mining Stocks are in demand, and the new shares in great request. The demand for stock in the New-York Gold Mining Co. of Colorado, at the office of Stebbins & Bloodgood, this morning, exceeded anything recorded of speculation in Wall street. At 10¼ o'clock there was a mass meeting of merchants, retired and active, bankers, brokers, and speculators, who subscribed in a few minutes for 140,000 shares, or 40,000 in excess of the advertisement. The stock will be equitably allotted, and late applicants will not get over 70 ⅌ cent of their subscription. At 3 p. m. 7 was bid for the stock sold at 5 in the morning. The subscriptions to the Picacho Silver Co. reached 28,000 shares this morning. Passaic Copper is wanted at 3½; Copake, 17½; Wyoming Valley Coal, 104; Quartz Hill, 31; Mariposa, 41½; Briggs Gold, 127; Gregory, 30½; Canada Copper, 9; Central of Colorado, 16¾; and Maryland Copper, 2¾. The San Antonio Silver Mining Company of Arizona advertises its prospectus this morning. Its capital is 60,000 shares; nominal par, $50 each; 40,000 only to be subscribed for; issued for the purchase of mining claims and property in Arizona. Trustees: Samuel F. Butterworth, President of the Quicksilver Mining Company; Anthony W. Morse of Morse & Co.; Charles Lamson of Charles H. Marshall & Co.; Frederick C. Gebhard of Schuchardt & Gebhard; Matt. Ellis of Boston; Jay Cady of Schenectady. Treasurer, Charles Lamson; Bankers, Messrs. Schuchardt & Gebhardt; Attorneys, Messrs. Foster & Thomson. The projectors of this Company are well known to financial people in New-York. Books of subscription for the purchase of shares of this Company, at $25 a share, are open at the office of Morse & Co.; $5 payable at the time of subscription, and the balance on May 2, 1864.

We notice sales of A1 ship Norway, 2,050 tuns, built at New-York in 1857, and A1 new bark Calypso, 600 tuns, built at Newburyport, on terms we did not learn.

The business at the Sub-Treasury was: Receipts, $600,829 72; Customs, $298,000; Payments, $987,107 18; Balance, $37,764,119 36; 10-40s, $50,350.

Money on call is quoted at 7 ⅌ cent for new business, with many old shares running at 6 ⅌ cent. A good deal of noise is made by some parties about the low rate paid by the Treasury on the 10-40s, and the opinion expressed that the rate must be put up to 6 ⅌ cent, and the 10-40s be suppressed. There is no foundation for such an opinion, so far as the movements of the Treasury are concerned. When the public will not take the gold bearing bonds at 5 ⅌ cent the Department will pay as at present, in two-year 5 ⅌ cent notes, payable, principal and interest, two years hence. This policy is inflating, and the idea of more 6 ⅌ cent gold bearing bonds must be abandoned. The sales of 10-40s by the First National to-day were $226,800.

The called meeting of stockholders of the Fourth National Bank attracts much attention. The best opinion seems to be that a thorough change must be made in its direction, or the bank closed. The latter would be a disgrace to the city, and will not be carried into effect easily, as there are parties ready to "assume the responsibility," and make it like the rest of the National systems—an eminent success. Should it be wound up, it would not be an argument against the system. It would be the result of a want of harmony and practical banking education among its managers. The stock is worth to-day 104 if closed up. With the right men it would soon command 120.
