Money is irregular, but must be quoted easy. The Banks hold about $60,000,000 of two-year notes, but prefer to hold them as a 6 per cent loan. One bank gave Mr. Cisco $1,250,000 to-day, and his temporary loan account comes up to $1,500,000. To brokers the rate is 6 per cent, and in some cases 7. Stocks closed in demand at the rates, and there is little said about a tight money market by operators, who are offered large facilities at low interest. The sales of 10-40s by the First National Bank are $151,200 to-day. The Persia to-day takes out $502,194 in specie.

The Columbian (Marine) Insurance Company have increased their capital stock to $2,000,000.

By its annual report the New-Jersey Railroad Company show the following results: The report for the year ending December 31, 1863, shows increased receipts over those of the year 1862, of $175,513 37, and an increase in the expenses of $132,723 31; the total receipts being $1,286,600 12, and the total expenses, $591,685 74. The cost per mile run for 1862 was 89 58-100ths cents, while for 1863 it was 104 18-100ths cents. This large increase is owing to the advance in wages, and in the cost of all the materials used on the road, especially in the articles of fuel and iron; and the still increasing prices of materials and rates of wages render it certain that the cost of operating the road will be further increased. For Directors for the ensuing year: Dudley S. Gregory, Henry R. Remsen, Hamilton Fish, Ferdinand Suydam, Abraham O. Zabriskie, Alfred L. Dennis, Geo. R. Chatwood, Martin A. Howell, Nehemiah Perry.
