MR. BARNUM AS A NATURALIST.—Mr. Barnum appeared on the stage of the Museum yesterday in a new character. He said that five years ago he saw in the Crystal Palace at Sydenham, swimming about in a tank, some specimens of the Lepidosiren-Annectans, a fish that looks like an eel with earth-worm appendages for fins, and which swims for 3 months in the year in the small rivers in Africa, spending the other 9 months dried up in the mud. He had been endeavoring ever since to get some of these benighted Africans, but had succeeded only last Friday, when a dozen balls of baked mud, containing these Rip Van Winkles reached the Museum. He was then out of the city. He had promised himself the pleasure of unfolding these sleeping beauties on 12 successive days before 12 large and enthusiastic audiences, but such had been the innocence of his assistants that when he reached the city, all but one of the earthy coverings had been removed, 8 of the fishes found to be dead, and 3 were swimming in an aquarium. Fortunately one ball remained. He had telegraphed to Prof. Agassiz to be present at the opening of this natural mummy, but had learned that he was not in Cambridge. He would, therefore, read from the Museum of Animated Nature, a description of this wonderful fish, which he proceeded to do, after which a carpenter with a saw carefully cut the ball so that it could be opened and the fish removed, the impression on the sand being preserved. In a few moments the fish began to move, and in half an hour was disporting in the aquarium with his fellows. A large number of editors and clergymen witnessed the resurrection.

JOHN CLANCY.—The death of John Clancy, the noted journalist and politician of this city, occurred yesterday morning at 4 o'clock, at his residence, No. 21 East Nineteenth street, of inflammation of the brain. He returned last week from Lake Mahopac, suffering from the effects of a sun-stroke, which utterly prostrated him, and was the ultimate cause of his death. Mr. Clancy was born in the Sixth Ward on the 4th of March, 1829, of Irish parentage. What education he received while young was obtained through his own energy and perseverance. At the age of twenty-one, or thereabout, he removed to Savannah, Georgia, and became engaged in mercantile business, occasionally corresponding with the New-York papers. He returned from the South after a few months' residence, and commenced studying law, under Peter B. Sweeney. This occupation not suiting his taste he relinquished it, and when *The New-York Leader* was commenced attached himself to that paper as a writer, the first editorial in the first issue, May 27, being from his pen. About six years ago he became the sole proprietor. In 1854 and 1855 he held a seat in the Board of Councilmen from the XIth District. He was elected from the Sixth Ward to the Board of Aldermen, over which he presided, for 1856 and 1857, and again in 1858. He occupied the position of County Clerk in 1859 and the two following years, with honor and credit. His first entrance into the political arena was under the regime of Tammany Hall, and he has been a prominent and active member of that organization ever since. When the Peace party of the Tammany Society was exerting its utmost effort to carry Tammany over to their side, the most strenuous and active opponent they had was Mr. Clancy, who, after repeated endeavors, brought the Society over to the War Democracy. Mr. Clancy was beloved by a large circle of friends, and his numerous mourners obtained the respect of his enemies. He leaves three relatives—a brother and two sisters, the probable heirs to his property, estimated at $50,000.

LAW INTELLIGENCE.

UNITED STATES CIRCUIT COURT—JULY 1.—Before Judge SHIPMAN.

TRIAL FOR MURDER ON THE HIGH SEAS.

United States agt. William H. Clearing.

The District-Attorney moved on the trial of the accused, who was indicted on two bills by the Grand Jury, for murder in one bill, the party alleged to have been killed, being called Victor and the other bill charging that the name of the murdered man was unknown.

The case was opened to the Jury by Assistant District-Attorney Andrews, who stated that the murder took place on board the American ship Emily Farnum, of which the accused was second mate, on her voyage from Newport, Wales, to the port of New-York, the party alleged to have been murdered who was a Frenchman, being one of the watch of the deceased; that the watch went aloft to reef the maintopsail, and the deceased was ordered by the accused to go to windward, and instead of doing so went to leeward, whereupon the accused struck him on the head and face and kicked him several times, causing him to fall to the deck, injuring him so severely that he died in an hour afterward. The evidence showed that the deceased met with his death by accident, and the Jury, by instruction of the Court, rendered a verdict of not guilty.

George M. Curtis and Robert N. Wait for the defense of the accused.

SUPREME COURT—CHAMBERS—JULY 1.—Before Justice LEONARD.

APPLICATION FOR THE REMOVAL OF A TRUSTEE.

In the matter of the application of Mortimer Livingston and Henry N. Livingston for the removal of Daniel C. Birdsall, Trustee, &c., of William Winter.

It was claimed by the applicants that the Trustee, who was made such by a deed of trust executed on the 23d of December, 1853, by Wm. Winter, was insolvent and irresponsible, and had permitted judgments to a large amount to be recovered against the estate, and that by his administration of the estate the rights of the applicants, who are interested in the trust estate, are very much injured. Affidavits were read in support of the application, and in opposition thereto. Judge Leonard, however, denied the motion for the appointment of a receiver, with $10 costs, to abide the event.

DECISION.

William Minton agt. Lizzie Minton.—Motion granted.

SURROGATE'S COURT—JULY 1.—Before Surrogate TUCKER.

WILLS PROVED—WILL OF COMMODORE PORTER.

The will of the late Commodore Porter, U. S. N., has been admitted to probate by the Surrogate. It contains no provisions of public interest.

The wills of the following persons have also been admitted to probate:

John F. Lawrence, Isaac Westheim, Elizabeth Montgomery, Mary Dunne, Thomas G. Morrison, Bernard McCollum, Jos. Kebl, Benj. A. Mumford, Richard Rayner, and Charles Feltner.

COURT OF COMMON PLEAS.—SPECIAL TERM—JULY 1.—Before Judge CARDOZO.

Moody Cummings agt. Samuel Mills.—Motion to set aside default granted, and case restored to General Term calendar. Plaintiff to pay costs and disbursements of the term.

FRIDAY, July 1—P. M.

Gold was much excited this morning, by the resignation of the Secretary of the Treasury, which was made the signal for a new rush for Gold, which in small lots sold at 280, and in large parcels at 270@275. As soon as it was announced that Mr. Fessenden had succeeded to the Treasury Department the market broke and the price fell upon small sales to 255. At 3 o'clock, on announcing that the Gold bill was repealed in the Senate, it was offered as low as 225 with no bidders. Mr. Cisco sold Sterling Exchange to-day at a uniform rate of 275. Stocks early in the day were pressed to sales for cash and low quotations made. At the Stock Exchange the same state of things was noticed, and so continued until the announcement of the appointment of a new Minister of Finance. Government Stocks at once rallied, followed by an improvement in the general speculative list. At the advance the market was firm. At the Second Board on the call the street quotations were maintained, but in the street the market was from 1@2 per cent lower throughout the list, and the market closed weak at quotations. New-York Central, 133½; Erie, 114½; Reading, 137; Michigan Southern, 92½; Illinois Central, 130½; Cleveland and Pittsburgh, 112; Ohio and Mississippi Certificates, 50½; Cumberland, 67½; Quicksilver, 75.

Freights are fairly active and firm; the engagements to Liverpool are 47,000 bush. Wheat at 8½d. in bulk and ships' bags, and per steamer, 96,000 bush. Wheat at 4@4½d.; 100 hhds. Tallow, 35s., and per steamer, 2,000 bxs. Cheese, at 50s. To London: 700 hhds. Tallow at 27s. 6d.; 1,000 bbls. Flour at 1s. 3d., and per steamer 10 tuns Hides at 40s. To Glasgow: 80 hhds. Tallow at 27s. 6d., and 2,600 bxs. Cheese at 40s. To Antwerp: 33 hhds. Tallow at 35s., and 200 bbls. Petroleum at 27s. 6d. To Bristol: 26,000 bush. Wheat on private terms. To Marseilles: 500 pkgs. Lard at 55f. The charters are: a British vessel with 600 tuns Sugar at 90s.; an Italian brig, 12,000 bush. Wheat at 3s. 1½d., and a neutral vessel to Stockholm with Kentucky Tobacco at 37s. 6d., and seed leaf in cases at 40s. ⅌ ton of 40 cubic feet.

Money has been very active throughout the day, and on stocks very high rates have been paid. The payments of Gold by the recurrence of the National Holiday, are made in many cases, and include those of the 1st, 2d, 3d and 4th of July, causing a demand for capital of unusual magnitude. The rapid fluctuations in gold and produce make lenders cautious, and securities are examined with unusual care. Capitalists are not willing to make large engagements until the financial policy of the new Secretary of the Treasury is developed. If he returns to the old policy of the Government and depends upon loans, money must inevitably continue dear. Government stocks take precedence of all other securities with capitalists. The moment the Government credit is squarely put upon the market and money bought at current value, speculation will go to the wall, and the money of the country be devoted to the service of the Treasury, to an extent hitherto unknown.

The appointment of the Hon. Wm. Pitt Fessenden to the Treasury department gives great satisfaction in financial circles, and parties of the widest difference politically unite in approving the nomination. He is a thorough business man, of ample fortune, and a reputation for integrity never questioned by his strongest political opponents. His accession to the Treasury department closes the contest which has been carried on between the State banks, the national system and the Government, and at an early day the entire banking and financial resources of the country will be found acting in harmony with the Treasury department. All his antecedents pledge him to a conservative policy, and the public will be greatly disappointed if he does not at once take active steps toward restoring the currency to a sounder position.

From perfectly trustworthy authority we learn that crops in Illinois, Iowa and Minnesota will be generally good; Southern Wisconsin, fair; Northern Wisconsin, bad.

GOVERNMENT AGENCY AND DESIGNATED DEPOSITORY OF THE UNITED STATES.

THE NINTH NATIONAL BANK OF THE CITY OF NEW-YORK, No. 363 BROADWAY, NEW-YORK, July 2, 1864.

JOSEPH U. OTTIS, President. H. M. HUMPHREY, Cashier.

The Secretary of the Treasury directs this Bank to take bids for the remainder of the LOAN OF 1861. This is a six per cent Gold interest-bearing loan, and is very desirable.

Bids should be handed in at once. Nothing less than 104 will be entertained.

The 6th of July will decide the question, as the bids will that day be opened.

Family Markets.

THE COST OF LIVING IN NEW-YORK.

FRIDAY, July 1—P. M.

We give below quotations of some of the leading articles of food, sold in small quantities for ordinary family consumption. Our range includes fair to *good* articles, omitting cheap, stale meats and vegetables, and not embracing the high prices paid by some of the first-class restaurants and saloons for extra fine productions. An unusually large number of changes have occurred during the week, mostly within the past two days, owing to the great fluctuation in the gold market. Sugar has advanced from 3@5c. ⅌ lb. and Butter nearly as much. Meats, on the contrary, have declined with the hot weather, oversupply of live stock, and abundance of most vegetables. Fish are plenty and generally cheaper. Strawberries are nearly out of market, and Raspberries are taking their place. Whortleberries have made their appearance, also New-Jersey Tomatoes. Cherries are scarce and vary greatly in quality and price. Poultry is in little demand at the present high prices.
