The business of the Sub-Treasury was: Receipts, $2,161,102 62—for Customs, 197,000; 6 ℔ Cent Bonds, 1881, $31,000; Payments, $1,742,466 05; Balance, $19,068,176 11.

Money contines active at 7 ℔ cent on call, and in many cases higher rates are paid. The Government will soon be in the market as a borrower, and will be given the precedence by banks and other financial corporations throughout the country. The resources of the Treasury are first the $33,000,000 of bonds of 1881, and second, the $400,000,000 authorized by the Loan act of the recent session. The banks of New-York State, and National included, are united in their disposition to render assistance to Mr. Fessenden, such as will make his duties comparatively easy. If he should now indicate a desire to sell the balance of the loan of 1881, it could be placed at once with the banks at a handsome premium, and be paid for without violently disturbing the money market, or calling into use any new currency. Under the act of August 5, 1861, Congress gave the Treasury power to loan money borrowed of banks on deposit, to be paid out upon drafts, as in the case of the Sub-Treasury, or the present National banks. If the Secretary of the Treasury chooses to bring to his aid the old banking system of the country, he will enlist a cordial support which the Department has been without for a long time, to its great disadvantage. The Government must be for a long time a borrower, and can find no more powerful allies at this moment than the State banks, which can, with little trouble, divert to the Treasury large sums now employed in speculations, dangerous to those engaged in them, and of serious injury to the Government. There are few cases where Government obligations cannot be filled by a credit upon the State banks, which still control the money of the Nation. All the Secretary has to do is to act under the law of Aug. 5, 1861, which enables him to make a National bank of every institution having the disposition to loan the Government money. The National banks cannot be made the efficient aids the Treasury needs, for a variety of reasons, which need not be stated. It is enough to say that they are a small minority of the banking interest, and in an unfriendly attitude toward the old banks. All bank people fully understand this, and realize the fact that while the two systems are in collision the Government loses most valuable services in its hour of need. What the Government wants is to borrow money, and that is the best and most patriotic system of banks which brings the most to the Treasury. No obstacle should be put in the way of any bank desiring to lend; but on the other hand, every inducement should be given them to make them the allies of the Treasury.

Gold opened at 248, and rose to 260. The public sale of gold has brought the buying and selling rates nearer together, but does not reduce the premium, as was argued by the most clamorous friends of repeal.

Stocks opened firm and in good demand. Government Stocks were all strong, and for Certificates 96½ was bid, without sellers. After the Board adjourned, under a continued demand for money, lower prices were made upon nearly the whole list. North-Western Shares were higher, advancing 2 ℔ cent. Railroad Bonds are held firmly, and are offered in trifling lots. Bank Shares are strong and offered sparingly.

ASHES have advanced, and the market closes firm at 13c. for Pots, and 15c. for Pearls.

BEESWAX is in limited demand but firm at 66c., cash.

COTTON—But little has been done in Ingot, but the market is firm. Small sales of Lake at 54c., and Baltimore at 50c., cash. New Sheeting commands 60c., and Yellow metal at 44c., 6 mos.

COTTON—The demand continues good, chiefly from spinners, and the market is excited and higher; the supply, both present and prospective, is small, and the little here is sparingly offered; sales to-day of between 1,500 and 1,600 bales on a basis of ▪1 55@▪1 60 for Middlings, and holders now ask still higher rates.

COFFEE—No sales of importance are reported to-day, though we understand that one or two transactions have been consummated, the particulars of which are kept secret; we have only to note 50 bags St. Domingo at 40c.; prices are nominal, and cannot be depended upon during the present unsettled state of gold and exchange.

Foreign is in active request, and has improved; the bulk of that to hand this week was previously sold. The large advance in domestic at the last public sale of Scranton has given quite an impulse to the local Scranton trade.

FLOUR AND MEAL—The market opened active, and prices of Western and State Flour advanced 5@25c. ℔ bbl., but with increased offerings the improvement was lost toward the close. The business for the delivery was large, comprising 12,000 bbls. at ▪11 50@▪11 70 for Extra State deliverable the last half of July, and first half of August; ▪11 75@▪12 for do. in August, and ▪12 for choice Shipping Ohio for all August. PROVISIONS—At the opening of 'Change the market for Pork was quite active and firm, and holders realized an advance of fully 50@75c. ℔ bbl. over yesterday's quotations, but ere the close the inquiry was only moderate, yet no quotable variation in prices. TOBACCO—The market for Kentucky has been fairly active since our last, the inquiry being mostly from exporters, and prices are very firm at an advance of 2@4c. ℔ ℔ on Common grades, and 5@10c. on Choice. The demand has been largely for the better styles of both Light and Heavy Leaf. The main causes of the excitement in this market is the advance in Exchange, the almost certainty of a short crop next season, and difficulty experienced in getting the stock now on hand to this market. We revise our quotations as follows: Light Leaf at 10@12c. for Lugs, 13@16c. for Common Leaf, 20@22c. for Medium, 30@35c. for Good, 36@37c. for Fine, and 40@45c. for Selections; Heavy Western and Clarksville at 15@16c. for Common, 24@26c. for Medium, 29@30c. for Good, 32@35c. for Fine, and 40@45c. for Selections, and Lugs 20@22c.; Seed Leaf is steady; Manufactured is quiet at former rates.

N. Y. Wholesale Prices of Country Produce.

FOR THE WEEK ENDING WEDNESDAY, July 6, 1864.

[Expressly for THE N. Y. TRIBUNE by our own Reporter.]

The following are the current rates of articles in good condition, as sold by commission houses at wholesale. Shippers receive 5 to 10 ℔ cent less, deducted for commissions, beside freight and other charges.

BEANS AND PEAS—DRY.

The tendency of the market is downward, there being no orders from Government, and a light demand for consumption. Sales since. We quote:

Beans, yes, and medium sprinc ℔ bush	$2 45@$2 55
Beans, marrow, prime, ℔ bush	2 70@ 2 75
Beans, inferior	1 50@ 2 25
Peas, Marrowfat, ℔ bush	2 60@ 2 50
Peas, common	1 10@ 1 60

BUTTER.

The shipping trade continues active, especially for California; shippers paying 47@48c. Private telegraphs say butter is dull in San Francisco at 30c. ℔ lb., which will not afford a large profit even with the present price of gold. Orange County, in pails, was selling at 44@45c. from the boats this morning.

Orange County, choice pails ℔ lb	44 @45
State Firkins and Tubs, fair to good	35 @40
State firkins, choice, for shipping	43 @45
Western Reserve, good to choice	31 @39
Western common	23 @29
State Tubs, Welsh, good to choice	36 @40

CHEESE.

Sales are quick at higher figures for good lots. Small quantities of factory make have been sold at 22c. We quote:

State, factory, good to choice ℔ lb	19 @21
State, fair to good	15 @17
State, dairies, good ℔ lb	18 @19
Ohio, prime	18 @20
Skim milk Cheese	12 @15

EGGS.

As conjectured last week, the high prices reported led to larger shipments, and we quote a decline of more than two cents per dozen, with a further downward tendency. It is questionable whether a large lot of prime eggs could now be sold for more than 27c., though a few barrels were sold early this morning at 30c., and afterward at 28c. We quote:

New-Jersey and Pennsylvania choice ℔ doz.	27 @28
State, good	26 @27½
Western ℔ doz., good order	26 @27
Western, common ℔ doz., to count	25 @26
Egg Oats ℔ bush., good	75 @80

FRUITS, DRIED.

Very little is doing in dried fruit, now that green or fresh fruits are in fair supply. We quote:

Apples, choice ℔ lb	10 @10½
Apples, common ℔ lb	9½@10
Blackberries ℔ lb	14 @15
Cherries, pitted ℔ lb	25 @27
Peaches, peeled, choice ℔ lb	25 @29
