THE CALEDONIAN

The Famine in Kansas.

WANTED—20,000 GRAIN SACKS.

The fact cannot longer escape the attention of the humane in the States, that an extraordinary condition of things prevails throughout a large portion of the Territory of Kansas, where there is at present "a famine in the land." The thrilling descriptions that have reached us in the reports of the county and township meetings and committees in Kansas, who have investigated the wants and conditions of the people, show a present and prospective destitution equal too if not surpassing that of the famine in Ireland. Then there was only a failure of the potato crop. *In Kansas all crops have failed.* The people have exhausted their means in obtaining homes in the new Territory. Thousands are now in want, and, unless specifily relieved, must suffer. Winter is approaching, and the settlers see their families without food.

The farmers of the Western States are making liberal donations of grain. We have several thousand bushels along the railroads in Illinois, Iowa and Wisconsin. The railroads have agreed to transport it at less than half their usual rates. Our means for the purchase of sacks and payment of freights are exhausted. Will not our Eastern friends send us means to transport bread to the starving? We ask those who have materials for sacks, and those who manufacture sacks for meal and grain, to send us immediately what they can, directed to W. F. M Arny, No. 204 Lake street, Chicago, and marked on the package, "For Relief of Kansas." And those who have money to give are requested to send it to Amos Lawrence, Dr. S. G. Howe, or the Hon. S. E. Sewell, Boston, Mass; to R. M. Bishop, Mayor of Cincinnati, Ohio; Calvin Fletcher, Esq. banker, Indianapolis, Ind.; Dr. John Evans, No. 55 Clark street, Chicago, Ill., or to S. C. Pomeroy, Atchison, Kansas. Clothing and other goods for relief, except grain sacks, should be forwarded to Gen. Pomeroy, Atchison. As all produce and breadstuffs will be transhipped at the Mississippi and Missouri Rivers, it must be sacked, and they must be furnished in most cases. Let us then have money or sacks as soon as possible, so that our suffering people may be relieved, and the liberality of the West be made effective by the donations of the East.

Washington Irving Nearly Killed by an Indian for Making Love to his Squaw.

The following is an extract from some recollections of Washington Irving in the Home Journal:

"I was very nearly killed by an Indian, once," said Irving one evening. "When I was a young man I was travelling in Canada with a friend. There were more Indians there then than there are white men now.—One raw, chilly day, we were rowing in a canoe on the St. Lawrence with an Indian for a guide. As we neared the spot where Ogdensburg now stands, he invited us to his wigwam to get something to eat. Securing the canoe to the shore, we followed him a short distance to his hut, where we found his squaw busily cooking venison. Our guide motioned us to a seat by the fire, and then proceeded to drink a large quantity of whisky. My friend watched him closely, but I talked to his wife, who at first gave me short answers, glancing at her lord and master, to see if he listened, which he seemed not to do; then she talked more freely. The squaw was very ugly, having the overburdened look that you see among Indian women; so, from half pity, as she took the large haunch from the fire, I rose to assist her. At the same moment her jealous husband raised a large club, striking me on the head a blow that made me fall insensible at his feet. As he was about to repeat the blow, my friend caught me in his arms, and rushing from the wigwam, deposited me in the canoe and was taking me rapidly down the stream before our half drunken pursuer reached the shore. I soon recovered my senses, but I never was polite to a squaw again."

Many years ago Irving wrote a book similar to his "Sketch Book," suggested by a sojourn in the Southern states. "The trunk containing the manuscript," he said, "was stolen on my way home," and we therefore mourn a loss none can ever supply.

THE ONLY PREPARATION THAT HAS *STOOD THE TEST OF YEARS* *And grows more and more popular every day.*

And testimonials, new, and almost without number, might be given from ladies and gentlemen in all grades of society whose united testimony none could resist, that Prof. Wood's Hair Restorative will restore the bald and gray, and preserve the hair of the youth to old age, in all its youthful beauty.

Battle Creek, Mich., Dec. 21, 1858.

PROF WOOD: Thee will please accept a line to inform thee that the hair on my head all fell off over twenty years ago, leaving me a complicated chronic disease, attended with an eruption on the head. A continual course of suffering throughout life having reduced me to a state of dependence. I have not been able to obtain stuff for caps, neither have I been able to do them up, in consequence of which my head has suffered extremely from cold. This induced me to pay Briggs & Hodge almost the last cent I had on earth for a two-dollar bottle of thy Hair Restorative about the first of August last. I have faithfully followed the directions and the bald spot is now covered with hair thick as a black thread short. It is also coming out all over my head. Feeling confident that another large bottle would restore it entirely and permanently, I feel anxious to persevere in its use, and being destitute of means to purchase any more, I would ask of thee a favor, which I think thee will not be willing to send me an order on thy agents for a bottle, and receive to thyself the scripture declaration—"the reward is to those that are kind to the widow and the fatherless."

Thy friend, SUSANNAH KIRBY.

Ligonier, Noble Co., Indiana, Feb. 5th, 1859.

Prof. O. J Wood: Dear Sir:—In the latter part of the year 1852, while attending the State and National Law School of the state of New-York, my hair, from a cause unknown to me, commenced falling off very rapidly, so that in the short space of six months, the whole upper part of my scalp was almost entirely bereft of its covering, and much of the remaining portion upon the side and back part of my head shortly after became gray, so that you will not be surprised when I tell you that upon my return to the state of Indiana, my more casual acquaintance were not so much at a loss to discover the cause of the change in my appearance, as my more intimate acquaintances were to recognize me at all.

I at once made application to the most skillful physicians in the country, but receiving no assurance from them that my hair could again be restored, I was forced to become reconciled to my fate, until, fortunately, in the latter part of the year 1857, your restorative was recommended to me by a druggist, as being the most reliable Hair Restorative in use. I tried one bottle, and found to my great satisfaction that it was producing the desired effect. Since that time I have used seven dollars' worth of your restorative, and as a result have a rich coat of very soft black hair, which no money can buy.

As a mark of my gratitude for your labor and skill in the production of so wonderful an article, I have recommended its use to many of my friends and acquaintances, who, I am happy to inform you, are using it with like effect.

Very respectfully, yours, A. M. LATTA, Attorney and Counsellor at Law.

Depot, 444 Broadway, and sold by all dealers throughout the world.

The restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar a bottle; the medium holds at least 50 per cent more than the small, retails for two dollars a bottle; the large holds a quart, 40 per cent. more in proportion and retails for $3 a bottle.

"USE THE BEST!"

MRS. WILSON'S HAIR REGENERATOR.

The Regenerator is put up in two sizes, and retails for 50 cents for pint bottles, and $1 for quart bottles. The quart bottles are much the cheapest.

Who wants a Good Head of Hair? Use Mrs. Wilson's Hair Regenerator and Hair Dressing.

Please read a few certificates from the following reliable and well known people.

MESSRS. HENRY P. WILSON & CO.—My wife is now using your Regenerator for the hair, and pronounces it far superior to anything she ever used for the hair. It is easily applied, does not soil in the least—has no disagreeable odor, increases the growth of hair, prevents it falling off, and often cures the headache. I forward you this certificate unsolicited, because I think an article that will do what your Hair Regenerator will, should be widely known. I think it is the best article for the hair now in use. *Respectfully, &c.,*

REV. JACOB STEVENS, Newburyport, Ms.

"I like the Hair Regenerator and Dressing very much." REV. GEO. W. WOODING, Hartford, Ct.

"I unhesitatingly pronounce it an invaluable article from the effect on my own head."

S. A. HILL, wife of Rev. Henry Hill, Manchester, N. H.

"It rendered my hair soft and glossy." MISOF FARRAR, Saratoga Springs, N. Y.

"I feel confident that it operates NOT *as a dye, but to restore the roots to their natural healthy state."* REV. E. M. KELLOG, Nashua, N. H.

"I most cheerfully recommend it to all persons." REV. C. RUSSELL, Littleton, N. H. November 1.

MESSRS. HENRY P. WILSON & CO.: I have no hesitancy in saying, in my opinion, Mrs. Wilson's Hair Regenerator and Hair Dressing are the best hair preparations now in use. I shall continue to use them with pleasure.

REV. H. H. HARTWELL, Lawrence, Mass. November.

MESSRS. HENRY P. WILSON & CO.: I have used your Hair Regenerator and Hair Dressing, and have received great benefit from them. I deem the articles worthy of high commendation, and cheerfully recommend them to all who want to restore gray hair to its original color, or to any who are troubled with dandruff, or a disagreeable itching of the head, or humors, or to those whose hair is falling from the head.

REV. G. W. H CLARK, Great Falls, N. H.

MESSRS. HENRY P. WILSON & CO.: I deem Mrs. Wilson's Hair Regenerator and Hair Dressing the standard articles of all hair preparations. I have, in many instances, known them to restore the hair where it had fallen off, remove dandruff, restore the hair to its original color, cure entirely the most painful headaches—and in some instances most serious humors Personally, I have been a sharer in several of these benefits.

REV. HENRY HILL, Manchester, N. H.

MRS. WILSON'S COCOA-NUT OIL HAIR DRESSING.

Mrs. Wilson's Hair Dressing is put up in large bottles, and retails for 37 cts. per bottle, and for dressing the hair of any person, young or old, there is not its equal in the world. It will make the hair everything you wish it to be, and moreover, it has a perfume that is infinitely superior to any of the fashionable extracts, either foreign or American, which alone should entitle it to a place on every lady's toilet table.

Use the Regenerator before retiring at night, and in the morning apply a little of the Dressing, and your hair will be even more lifelike in color and beauty.

Use nothing on your hair but these preparations, and use these according to directions, and we warrant you a good healthy head of hair.

Manufactured and sold at wholesale by Henry P. Wilson & Co., Manchester, N. H., to whom all letters should be addressed.

UNIVERSAL COUGH REMEDY!

HUNNEWELL'S JUSTLY CELEBRATED

TULU ANODYNE

The natural and sure remedy for all

NERVOUS COMPLAINTS

From Neuralgia through all cases where Opium was ever used to that of Delirium Tremens, and the common chief cause of disease

LOSS OF SLEEP.

The Great Central Active Principle of the Tulu Anodyne is a true development of the Original Natural Opiate. In all cases wherever opium has been used and its baneful effects witnessed, no remark of ours can adequately compare the difference, and no decision is equal to a trial. The Anodyne contains not a particle of opium, and the most delicate constitution can use it with safety, and the perfectly natural state it keeps and leaves the patient should recommend it to physicians who have long sought the true development, and to patients who want natural results.

The basis of the Universal Cough Remedy is that freedom from all components which by the great error in compounding, produce complete mortis, instead of real cures. We place no restraint on its use every hour in the day, and ask all patients to make it the natural enemy to all coughs, throat or lung complaints by a perfect freedom of application. For inflammatory sore throat it is a perfect remedy, and for Whooping Cough checks all the spasms and allows the cough to have its run in a quiet way.

With the spirit that we court all investigation, and readiness to answer all inquiries, may we in return ask all to be cautious to purchase only of those they can rely upon. "Prices within the reach of all."

The Only Positively

FIRE PROOF SAFES

—IN THE WORLD ARE THE—

MARLAND PATENT.

CERTIFICATE OF APPROVAL IN COMPARISON WITH OTHER SAFES.

GRAFTON, December 3d, 1858.

Messrs Sherwin & Burgess, Agents for Marland's Patent Fire Proof Safe:

GENTLEMEN:—I have examined the Marland Patent Safe in your store, and so far as I am able to judge of its Fire Proof qualities I believe the principles upon which it is built, the most reliable in resisting heat, of any Fire Proof Safe that has come under my observation, and particularly recommend it to the attention of our Probate Districts, that are now supplying themselves, for the preservation of their records.

BENJ. W. DEAN, Secretary of State.

BRATTLEBORO, December 3d, 1858.

This may certify that we have examined the Marland Patent Fire Proof Safe, exhibited to us by Mr. Anson Hardy and that in our opinion Marland's Safe would be a desirable one to purchase for the use of probate courts.

R. TYLER, A. STODDARD, } Judges of Probate

MIDDLEBURY, April 27th, 1859.

The Legislature of Vermont at its last session, passed a law making it the duty of the county judges to procure Fire Proof Safes, in which to deposit Probate Records. In discharge of that duty we have spent some time in examining a number of safes. We have come to the conclusion that the Marland Safe, manufactured by M. B. Bigelow & Anson Hardy, Boston, Mass., is superior to any other we have examined, for its fire proof qualities. We have bought a safe of that description for the New Haven probate district, and are well satisfied with the workmanship, apparent strength, durability.
