DUBUQUE AND SIOUX CITY RAILROAD FIRST MORTGAGE SEVEN PER CENT BONDS.—We offer for sale $300,000 of the First Mortgage (Second Division) Bonds of this Company. The Bonds have 30 years to run, and bear 7 per cent interest, payable semi-annually in New-York. They are part of an issue of $600,000, which are secured by a mortgage on 44 miles of road running from Cedar Falls to Iowa Falls, now under contract and to be completed this Fall.

The Dubuque and Sioux City Railroad has been completed and in successful operation from Dubuque to Cedar Falls, a distance of about 100 miles, for several years. The debt on this 100 miles is represented by $300,000 First Mortgage Bonds, $2,000,000 of Preferred Stock, and about $1,000,000 of Common Stock. The Bonds now offered for sale are issued by and with the consent of three-fourths in interest of the Preferred Stockholders, as required by the articles of incorporation. The total annual interest on all the Bonds of the Company is therefore but $67,200, guaranteed by the earnings of 144 miles of road. The contract for building the extension of 44 miles was made on most favorable terms, and the materials and equipments secured before the late great advance in prices.

The Company has a valuable land grant of 3,840 acres per mile.

$300,000 of the Bonds have been subscribed for by Stockholders of the Company, and the balance are now offered to the public on favorable terms.

For further particulars, apply to

Stocks have been irregular, but close firm and in demand. Government securities are among the strongest upon the list, and are higher. The announcement that no immediate sale of 6s of 1881 will be made has brought in buyers of existing 6s at better rates. There is quite a large number of city bank officers who disparage the Government loans, because they do not offer a sufficiently high rate of interest. Twelve and fifteen per cent in currency would seem large enough to satisfy the most avaricious. Whenever the Treasury desires to place the balance of the 1881 loan, it can be done through the National banks, which have thus far served the Department faithfully, and with a promptness worthy of imitation. Railway shares are in demand, and the circle of buyers is enlarging, under the continued gain in earnings and the certainty of full dividends at the close of the year. The Hudson River earnings for July show a gain of $83,400. Its rates for freight have been advanced, and connecting lines have been notified that old contracts must be terminated or business refused.

In Freights the engagements to Liverpool are 14,000 bushels Wheat at 8d. in ship's bags, 500 tcs. Lard at 20s.; per neutral, 75 hhds. Tallow at 25s.; and per steamer, 2,000 bbls. Flour at 2s. 9d., 1,000 boxes Cheese at 50s., and 50 boxes Bacon at 25s. To London: 11,000 bushels Wheat at 8d. in bulk, 2,000 bbls. Flour at 2s. 9d., 1,500 boxes Cheese on p. t., and per steamer 500 boxes Cheese at 50s. To Glasgow: 10 tcs. Tallow at 25s.

Money is abundant at 7 per cent, and brokers make up their accounts with great ease. The new tax on loans is quite burdensome upon call loans, which enter so largely into the business of the Stock Exchange, and borrowers are careful not to make engagements beyond their actual wants. A case is named where a bank has made itself party to an arrangement by which the Government is cheated out of the taxes on call loans. They open a credit with brokers, who secure it by stock collaterals and draw against the credit at no greater cost than a five-cent stamp upon $100,000 thus obtained
