From the Knickerbocker for June.

MY EARLY LOVE.

BY ALFRED TENNYSON.

Oh that it were possible,
After long years of pain,
To find the arms of my true love
Around me once again!
When I was wont to meet her
In the silent woody places
Of the land that gave us birth,
We stood trenched in long embraces,
Mixed with kisses sweeter, sweeter
Than any thing on earth!

A shadow flirts before me,
Not thou, but like to thee;
Oh, CHRIST! that it were possible,
For one short hour, to see
The souls we love, that they might tell us
What and where they be!
It leads me forth at evening,
And lightly winds and steals
In a cold white robe before me,
When all my spirit reels
At the shouts, the leagues of light,
The roaring of the wheels!

Half the night I waste in sighs,
Half in dreams I sorrow after
The hand, the lip, the eyes,
The winsome laughter;
And I hear the pleasant ditty
That I heard her chaunt of old;
But I wake—my dream is fled
Without knowledge, without pity,
In the shuddering gray behold,
By the curtains of my bed,
That dreadful phantom cold
Pass, thou death-like type of pain!
Pass, and cease to move about;
'Tis the blot upon the brain,
That will show itself without.

Now I rise; the eave drops fall,
And the yellow vapors choke
The great city sounding wide;
Day comes; a dull red ball
O'er the misty river tide.
Through the hubbub of the market
I steal a wasted frame;
It crosseth there, it crosseth there,
Through all that crewd confused and loud,
That shadow still the same;
And on my heavy eyelids
My anguish hangs like shame.
Alas! for her that met me,
That heard me softly call,
Came glimmering through the laurels
At the quiet evening fall,
In the garden, by the terrace
Of the old manorial hall

The broad light glares and beats,
And the sunk eye flits and fleets,
And will not let me be;
I loathe the squares and streets,
And the faces that one meets—
Hearts with no love for me;
Only I long to creep
To some still cavern deep,
And weep, and weep, and weep
My whole soul out to thee!

GREAT ENGLISH REMEDY

FOR

COUGHS, COLDS, ASTHMA, AND CONSUMPTION.

THE Great and only remedy for Colds, Coughs, Asthma, and Consumption, is the Hungarian Balsam of Life, discovered by the celebrated Dr Buchan of London, England, and introduced into the United States under the immediate superintendence of the inventor.

The extraordinary success of this medicine, in the cure of Pulmonary diseases, warrants the American Agent in soliciting for treatment the WORST POSSIBLE CASES that can be found in the community—cases that seek relief in vain from any of the common remedies of the day, and have been given up by the most distinguished Physicians, as confirmed and incurable. The Hugarian Balsam has cured and will cure the most desperate of cases. It is no quack nostrum, but a standard English medicine of known and established efficacy.

Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, not only to counteract the consumptive tendencies of the climate, but to be used as a preventive medicine in all cases of colds, coughs, spitting of Blood, Pain in the side and chest, Irritation and soreness of the Lungs, Bronchitis, Difficulty of Breathing, Hectic Fever, Night Sweats, Emaciation and General Debility, Asthma, Influenza, Hooping cough, and Croup.

☞Sold, in large bottles, at $1 per bottle, with full directions for the restoration of Health.

Pamphlets, containing a mass of English and American certificates, and other evidence, showing the unequalled merrits of this Great English Remedy, may be obtained of the Agents gratuitously.

DAVID F. BRADLEY, sole Agent for the United States 119 Court street, Boston.

FARM FOR SALE.

A PLEASANTLY located and well watered FARM containing 525 acres, on Quechee River, in Hartford Vt., five miles below the Village of Woodstock, is now offered for sale, the whole, or divided into small farms to suit purchasers, with pleasant building spots and convenient woodlands. This is one of the best farms in the country, having thereon, three good dwelling houses, one a large delightfully situated two story house with convenient outhouses, and water from a never failing spring conveyed in lead pipes to the house and barns,—the meadows upon the river are large and of an excellent quality, an orchard with some choice fruit, a brick yard and clay of superior quality, from which the country around are supplied with first rate brick,—an extensive growth of valuable timber, and one of the best sugar lots in the State

Water power can be had to almost any extent with a trifling expense, either from the brook running through the Farm, or from the river. A first rate farm of 300 acres could be taken from the centre, and leave the remainder for another valuable farm, or it might be divided into very small sections, each well accommodated with wood and water, and pleasantly situated on a good road where the stage frequently passes. It will be sold very cheap the first opportunity and possession given immediately.

TERMS—Part of the money in advance or within one year, and the remainder at annual interest on unlimited time. JAMES UDALL.

TO THE PUBLIC.

CALVIN P. NEWTON, successor to J. Newton, Informs his numerous friends in Norwich and vicinity, that he has returned to Woodstock, where he will soon have on hand a constant supply of medicines of his own manufacture.

The complaints heretofore made of Adulteration in these excellent articles, formerly prepared by himself, may now cease—If those interested will buy at the right place.

The above medicines are sold at Dr S. J. Allen's. 426 tf.

WANTED!

TOW CLOTH, Butter and Cheese, in exchange for GOODS, by GEO. R. CHAPMAN, & Co.

May 22, 1845.

THE CONSTITUTION,

THE "vis vitæ" of our wonderful bodies, constantly require an alternative, or regenerating influence, to create and retain a healthy existence. Air, light, and some other elements are brought to this requisition, and for a time prove sufficient to the requirements of the system. But when from imprudence and a violation of the laws of the animal economy, morbid humors arise, acrid and vitiatu or juices are collected, the system requires assistance from some other source, or it sinks in disease, decay, and death. How wonderful and salutary at this period, are the effects of an appropriate alternative medicine, taken in season? Thousands have been saved from death, and millions from sufferings indescribable, and again restored to health, by the timely use o PHELP'S TOMATO PILLS, which are so efficacious and potent, in cleansing the stomach and bowels, purifying the blood, and renovating the glandular system by altering the secretions of the liver, and other glands, and carrying off the morbid juices and humors:—that at the South they have acquired the name of "Fever bane," because they invariably prevent or break up bilious, remittent, yellow, intermittent and lung fevers.

Five years extensive use, have proven them the best and only sure and safe remedy for all the humorous chronic diseases, where the system requires something that will operate on the Blood, Liver, and various systems of vessels, giving them a healthy action, at the same time expel the morbid and poisonous juices and humors, which it separates from them.

In this class of diseases, are Rheumatism, Dispepsia, Dropsy, Liver Complaints, Bilious Stomach, Scrofula, Gravel, Worms, Tumors, and eruptions of the skin of various kinds, permanent weakness about the loins and limbs, King's Evil, constitutional or hereditary feebleness of the whole or part of the system, &c.

Thousands of cases of the above diseases have been cured by the Tomato Pills, and thousands of deaths would have been prevented had these Pills been used, instead of some irresponsible, baneful quack pill, a remedy, of which the country is flooded. There is no mystery or charlatanaism about this universal remedy.

They are prepared of valuable vegetable remedies, which are known to be both safe and effectual, and are used very extensively by Physicians in their private practice, because, as hundreds have said, they are the most pleasant, effectual and safe medicine we have ever used.

The above Pills are for sale by agents in all country towns. Agents are cautioned not to buy of peddlers—"One word to the wise is sufficient."

G. R. Phelps, M. D. Proprietor, Hartford, Conn., without whose Signature none are Genuine.

For sale by S. J. Allen, Woodstock; Hayden & Hutchinson, do.; Otis Chamberlin, Pomfret; Justin C. Brooks, Hartford; Harris & Morrill, Strafford; P. Dwight & Co., Vershire; Theodore Cook, Corinth; Baxter B. Newton, Norwich, Lewis Merritt, Hartland; J. W. Hubbard, Windsor. 231-6mcp.

FROM 2 TO 8 TIMES CHEAPER THAN BEFORE, OR NOTHING IF THE USER IS NOT DELIGHTED WITH IT.

AN article that every family must consider indispensible when they know its power and value, and which has heretofore been sold too high to reach all classes has now been reduced in price with a view that rich and poor, high and low, and in fact every human being may enjoy its comforts; and all who get it shall have the price returned to them if they are not delighted with its use.—We assert without the possibility of contradiction, that all burns and scalds every external sore, old or fresh, and all external pains and aches, no matter where, shall be reduced to comfort by it in five minutes—saving life, limb, or scar. No burn can be fatal if this is applied, unless the vitals are destroyed by the accident. It is truly magical to appearance, in its effects. Enquire for 'Connel's Magical Pain Extractor Salve," at Comstock and Co's., 21 Courtland Street, New York.

Price 25 cents, or four times as much for 50 cents.

We assure you, on the responsibility of our characters, that sympathy for human suffering induces, at least in part, our earnest solicitation that a simple trial should be made in any affection named below. We think it not imprudent or too much to say that nothing like it or in any degree so effectual, has ever been discovered in medicine.

You will please observe that is no 'sovereign remedy for all complaints,' but External application and will cure the following:—Burns, Scalds, Frosted parts, chilblains, Chafe or gall, chaps, tetter, pimple, blotch, felon, ulcer, sprain, erysipelas, stabs, cuts, bruises, strains, ear and toothache, mumps, sore throat, runrounds, whitlows, piles, ringworm, salt Rheum, Barber's Itch, weak sight, carbuncle, eruption, sore eyes and lids, sore lips, punctures, bites and warts, fever pains, pain in the back and side, tender feet, inflamatory rheumatism, tic doloreux, ague in face and breast, fever sore, old burn scars, prickly head, inflamed skin, broken breast, sore nipples, rough hanes, blistered surfaces, dressing for blisters, white swellings, cold in wounds, sore corns, general sores, small pox marks.

Though we have named numerous affections, experience has taught us that they are not too many. It will be necessary to know that the article called Connel's is the only one we can recommend; but must caution against some imitations which we have reason to believe are of no use but injurious. We will present it to the poor who have actual need of it, and whom you may send for it.—Remember it is CONNEL'S Magical Pain Extractor.

All country merchants are requested to take it to their towns on commission, as the greatest blessing to mankind ever discovered in medicine. This is strong language, but you may depend its power will fully justify it. Call on all the Agents for a pamphlet gratis to all, and very interesting, also the names of all the Clergymen of New York.

CAUTION—Be sure and get Connel's as counterfeits and worthless appear under other names. See that it is direct from Comstock and & Co. or never touch it.

THE SICK-HEADACHE,

EITHER NERVOUS OR BILIOUS

☞An attentive perusal of the following will, it is believed, fully repay all classes of readers:

HEADACHE.—This disease is one from which arises more misery to the human family than is generally supposed; not being directly fatal, it is often neglected, or persons so much to the use of purgatives and other medicines, as to impair their general health, and often induce fatal diseases. The article, DR. SPOHN'S HEADACHE REMEDY, from Comstocks & Co., now offered, seems to have overcome these difficulties. While effects are most powerful and immediate in curing an attack or keeping it off, it is so perfectly mild and innocent as to be used for infants with the greatest effect and safety. This has now been tested by so many of the highest members of this, as to require no further proof.

If taken a few times in as many hours, when there are indications of an approaching attack, it is SURE IN ALL CASES to prevent the attack. If used for a few weeks the premonitory symptoms gradually subside, until they wholly disappear, and NEVER, with some great external or predisposing cause, return. If the person neglects to use it till the heache commences, it sometimes cures instantly, but at others the turns will have their course for two or three times, and then wholly disappear. For sale by S. J. ALLEN. 243-1ycow

Cheeseman's Arabian Balsam

FOR THE CURE of all kinds of wounds, sprains, burns, coughs, sore lungs, the most desperate piles, and rheumatism of all kinds. It will prevent the toothache, restore torpid and perished limbs, stiff joints, numbness, &c., and can be depended upon to relieve sorenes in all cases.

This valuable medicine has been very extensively used for the last ten years, while its increasing demand, the universal satisfaction it has given, and the testimony of a large multitude of individuals of the first standing in the community, who have tested and infallibly proved its efficacy, show that it needs only to be used to prove its invaluable excellence; indeed all who have ever tried the balsam, prize it so highly that they will not be induced under any consideration to do without it. The Balsam has attracted the attention of men of science and Physicians and Surgeons of the greatest scientific acquirements, give it their unqualified approbation while many of them in different sections of the United States now use it in their practice, and have authorized the publication of their certificates.

Also CHEESEMAN'S ARABIAN PILLS, a valuable medicine for all bilious complaints, &c.

☞Purchasers should inquire for the true article by using the whole name—Cheeseman's Arabian Balsam—and see that it has my name written in my own handf writing across the printed directions on the wrapper o every bottle. E. CHEESEMAN.

TO ALL THE WORLD WHO USE LEATHER IN ANY FORM.

OIL OF TANNIN, OR, LEATHER *RESTORER.*

A New Chemical Discovery.

Most people know, that *skins* and *hides* are converted into *leather* by the use of Tannin extracted from certain barks, &c.

When the force and strength of the Tannin is worn out, leather becomes *dead, hard, dry, brittle, cracked, covered with a crust, &c. THIS, ALL KNOW.* To restore then is *life, softness, moistness, strength, smoothness*, and remove all crust, fly, or blister—*restore the tannin.* This *substance* the leather never can receive the second time; but the whole *virtues* of it are in this article the OIL OF TANNIN—which penetrates the stiffest and hardest leather, if it has been twenty years in use; and if it tears easily with the fingers, it imparts at once a strength that is utterly incredible until seen. *It becomes like new leather*, in all respects, with a delightful softness and polish, and makes all leather *completely* and *perfectly impervious* to water—particularly boots, shoes, carriage-tops, harness, hose, trunks, and in fact *all things made of leather*, giving a splendid polish, even higher than new leather has, and *at least doubling* its wear and durability, in whatever manner the leather is used.—THESE ARE FACTS.

Those who will may wear old shoes, groan with corns, ride with old carriage-tops—have old harness, and throw them away half used—look filthy themselves, and all about them—expend double what is necessary for articles of leather, to their hearts' content, for what we care, if their prejudices are so strong, that they will not try a new discovery. We have no favors to ask of them, they are the greatest sufferers, and we *beg* for nobody's custom or patronage Now, gentlemen, please yourselves.

SANDS' SARSAPARILLA,

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD, OR HABIT OF THE SYSTEM.

IF we read the history of disorders we are astonished that men live; if of cures, we are still more astonished that they die. And yet in fact nearly all diseases have a common origin viz:—In the organs which prepare and modify the blood, with a remedy, directed to the seat of disease, will remove a host of its phenomena. It is the peculiar characteristic of Sands' Sarsaparilla, that its searching operations reaches the CAUSES of disease, and the cures it performs are therefore radical and thorough The health of the human system depends almost entirely upon the state of the blood. If the vitalizing fluid which pervades every tissue, every membrane, fibre, filament, gland, or other organ primary or subsidiary; if the body be charged with the elements of disease, sickness must be the consequence, and until the causes of disease existing in the blood, are eradicated, no permanent relief can be expected. It is here that the powerful health restoring properties of Sands' Sarsaparilla are manifested; and for this reason, in scrofula, salt rheume, and all eruptive diseases, as well as in all derangements of the secreting organs, it is considered infallible.

The following interesting case is presented, and the reader invited to its careful perusal. Comment on such evidence is unnecessary.

New York, July 25, 1844.

MESSRS SANDS:—Gents—I consider it but an act of justice to you to state the following facts in reference to the great benefit I have received in the cure of an obstinate CANCEROUS ULCER on my breast.

I was attended eighteen months by a regular and skillfull physician, assisted by the advice and counsel of one of our most able and experienced surgeons, without the least benefit whatever. All the various methods of treating cancers were resorted to; for five weeks in succession my breast was burned with caustic three times a day, and for six it was daily syringed with a weak solution of nitric acid, and the cavity or internal ulcer was so large that it held over an ounce of the solution. The Doctor probed the ulcer and examined the bone, and said the disease was advancing rapidly to the lungs, and if I did not get speedy relief by medicine or an operation, the result would be fatal. I was advised to have the breast laid open and the bones examined, but finding no relief from what had been done, and feeling I was rapidly getting worse, I almost despaired of recovery, considered my case nearly hopeless.

Seeing various testimonials and certificates of cure by the use of "Sands' Sarsaparilla," in cases similar to my own, I concluded to try a few bottles, several of which were used, but from the long deep seated character of my disease, produced no very decided change; considering this as the only probable cure for my case, I persevered until the disase was entirely cured. It is now ever eleven months since the cure was completed; there is not the slightest appearance of a return. I therefore pronounce myself WELL, and the cure entirely effected by Sands' Sarsaparilla' as I took no other medicine of any kind during the time I was using it, nor have I taken any since. Please excuse this long deferred acknowledgement, which I think it my duty to make. Your valuable Sarsaparilla cured me, with the blessings of Divine Providence when nothing else could, and I feel myself under lasting obligations to you. I can say many things I cannot write and I respectfully invite ladies afflicted as I have been to call upon me and I will satisfy them fully of the truth as stated above, and many other things in reference to the case. NANCY J. MILLER. 218 Sullivan st.
