DR. W. H. GREGG—*Dear Sir:* I have been suffering for a long time with what physicians call Disease of the PROSTATE GLAND and RETENTION of Urine, and was unable to obtain any relief until I used CONSTITUTION WATER, which began to produce its curative effect after taking one or two doses, and no man can be more grateful than I at the results, having suffered all that a man could suffer, and live; and rather than be deprived of the medicine, I would be willing to pay FIFTY DOLLARS a bottle for it.

It has not only cured me, but several other officers in my district have been cured by it, and I would recommend everybody suffering from any disease of the kidneys to use Constitution Water.

RICHARD LISH,
Sergeant IXth Ward Police.

NEW-YORK, Dec. 30, 1861.

SOMETHING ON BITTERS.—The use of bitters or tinctures has become general among those who are cursed with bad appetites, inactive digestions, and sluggish livers. Experience has shown that this shape of medication is not only the most palatable, but the most efficient mode to produce favorable results. Knowing this demand, and that the regular tinctures of the family are defective in ingredients and the modes of preparation, numerous unskillful pretenders have endeavored to supply the wants of the public. These attempts are puffed into notice, flourish for a while, and then fail. There happens to be, however, a preparation which is compounded by scientific men in such a manner as to develop the full virtues of the ingredients, to make them satisfactory to the palate, and cause their perfect elimination to the human system. This preparation is the GOLDEN TINCTURE of BUSHEL & Co. Unlike the tinctures made with ethereal alcohol, the GOLDEN BITTERS do not unduly excite the minute arteries of the stomach, but give a general stimulus, which is transmitted to the whole system equally, and act both with tonic and alterative effect. Under their action the stomach recovers its tone, the heart its force, the liver its activity, and the muscles their tension. No preparation has attained so firm a popularity, and certainly none have so well deserved it. They are to be found in every public, and in most private houses. They should be used in all.—[N. Y. Courier.

MARRIED.

Schenck's Sea-Weed Tonic.

This great remedy has increased in demand so rapidly that it is impossible for DR. SCHENCK to fill the orders. Every druggist thinks his orders should be filled first. The same way with SCHENCK'S MANDRAKE PILLS. Go where you will, city or country, East or West, you will find a box of SCHENCK'S MANDRAKE PILLS on the mantel-piece.—These medicines are suited to every one, and should be in every family. One dissolves the food in the stomach, the other assists nature in carrying off the morbid matter. The SEA-WEED TONIC brings up the tone of the stomach, and gives at once an appetite. A little taken before breakfast will create an appetite. After eating a hearty dinner, a wine-glass full of it will digest the food and prevent any unpleasant feeling of fullness.

It is perfectly harmless, and very agreeable to the taste. The SEA WEED TONIC and MANDRAKE PILLS have done more to promote the health of the army than any other medicine before the public. In Louisville, Ky., alone, there are thousands of dollars worth shipped weekly. By reading the following, the public may be able to judge of the effects of those medicines.

The SEA-WEED TONIC is a compound extract, carefully distilled from a common weed growing on the sea-shore, possessing all the properties of Iodide of Iron, Iodide of Potassium, Iodine, and nearly every component ingredient of the gastric juice. It converts the food into chyme. It contains no corn-whisky or alcohol, but its stimulating properties are as pure as the best French Brandy.

THE REMARKABLE CASE OF MRS. ELIZABETH WILSON.

This lady resides at No. 1033 Ellsworth-st., Philadelphia. On the 24th of January last she came for advice to Dr. SCHENCK; complained of pains in every part of her body; her stomach was much swollen, her bowels costive; the pain in her right side was excruciating; she was emaciated and unable to go up stairs. According to Dr. SCHENCK'S advice she commenced with the SEA-WEED TONIC and MANDRAKE PILLS. Her bowels were so obstinately costive that it required eight or ten pills every night to produce a passage, though one pill within twenty-four hours is sufficient in ordinary bilious cases.

After a few days, to her great surprise, she began to pass pieces of tape worm, each piece from two to ten inches in length; and she has since passed great numbers of similar pieces, and sometimes long ropes of slime or mucous. She was at Dr. SCHENCK'S office on Saturday last, and could scarcely be recognized as the same person. She says that she feels like a new being; she is free from pain and has perfectly recovered the use of her limbs and all her faculties; in fact she is as healthy and active as she ever was at any former period of her life. She declares that she scarcely knows how to feel grateful enough to Dr. SCHENCK, to whose advice and medicine she ascribes her restoration to health and her deliverance from a state of suffering which human nature could not have sustained. She professes her willingness to give any information relative to her cure to persons similarly afflicted, and they are requested to call on her for that purpose. Dr. SCHENCK is quite certain that if Mrs. Wilson had not speedily obtained relief her case must have terminated in paralysis.

ANOTHER SINGULAR CASE.

A lady came to Dr. SCHENCK, at the Mailboro' Hotel, Boston. She was supposed by her physicians to be afflicted with tape worm. She had severe pains and sensation of something moving and twisting inside of her. These feelings at times almost threw her into convulsions. It would creep up into her throat and appear to bite. The only way to quiet it was to drink milk, when it would settle down and go to sleep. She would have to take a quart to bed with her every night for that purpose. She was very costive, skin yellow and dried up to a mere shadow. Dr. SCHENCK gave her four MANDRAKE PILLS every night for a week, and the SEA WEED TONIC according to direction, which only moved the bowels slightly once a day, and which to ordinary persons would have physicked severely; but it sickened the animal, and she found she did not crave any more milk.

At the end of the week Dr. SCHENCK gave her a double dose, say eight or ten MANDRAKE PILLS, and soon after she passed a large quantity of mucus and slime, in which was imbedded a large lizard. From that time she began to recover, and is now perfectly well. This shows what can be done with proper medicine and proper treatment. Any persons who imagine that they have got tape worm or any other kind of worms, if they will take sufficient MANDRAKE PILLS every day for a week or ten days, to relax the secretions, but not to purge, then take a large dose, enough to physic severely, it will carry off all morbid matter in the system, and if nothing of the kind should be there it will cleanse the system and leave the patient in a healthy condition.

AND STILL ANOTHER.

A gentleman of Camden, N. J., certifies that he had all the most distressing symptoms of liver complaint and dyspepsia. He applied to Dr. SCHENCK, and, after taking the SEA-WEED TONIC and MANDRAKE PILLS for several weeks, he passed a surprising number of worms, some of which were from three to five inches in length. The cause of his disease having been removed, he speedily recovered his health. His appetite now is remarkably good, and his digestion excellent. This gentleman's name may be seen at Dr. SCHENCK'S office, and all who may wish to have a confirmation of the facts from his own lips will be directed to the place of residence.

Purchasers continually present themselves to Dr. SCHENCK. On the last Tuesday a lady came to Dr. SCHENCK, at his rooms, No. 32 Bond-street, New-York, and said she was awakened a few nights before by something creeping her and to her great surprise found a worm crawling out of her throat, about ten inches long. At this season of the year, when almost every one is complaining more or less with torpid liver and disordered stomach, if they would try one bottle of SCHENCK'S SEA-WEED TONIC and one box of SCHENCK'S MANDRAKE PILLS, both together costing only $1 25, it would be sufficient to satisfy any one of their good effects, and that alone may prevent a long intermittent bilious attack, and in many cases pulmonary consumption.

Please read the following certificates:

PHILADELPHIA, Aug. 10, 1864.

DR. SCHENCK—Dear Sir:—I have given personal testimony to you a certificate in addition to many you have already received from suffering humanity. I can scarcely find language sufficiently strong to express my heartfelt gratification of the wonderful cures your MANDRAKE PILLS and SEA WEED TONIC have effected in the entire cure of one of the most stubborn cases of the affection of the liver. For three years I suffered beyond description; all my friends saw it as well as myself; came to the conclusion that my time in this life was short. Such was the terrible condition to which I was reduced, that life to me had become a burden; my whole system was in a state of inflammation. I could not eat, I could not sleep; my whole body was filled with pain; swelling would rise in my wrists and ankles, rendering them totally useless on several occasions. I was attended with a rush of blood to the head, which would lead me to the ground, and I would be carried away for dead. I applied to the most eminent physicians of our city, who administered all the medicine that they thought would reach the case, but of no avail.

One of them said he could do no more for me, and advised me, as the last resort, to drink cod liver oil. Not relishing the horrid trash, I determined to take it. Accident put your advertisement in my hands. I called on you, you examined me and told me the nature of my disease; you then ordered me the Pills and Tonic with an abstemious diet, pledging your word that in one week I would find myself another man. I followed your advice, and as you predicted an astonishing cure was effected. I continued your Pills and Tonic for some time, and now, thank God for his great goodness, and your valuable medicine, I am once more restored to perfect health. I conscientiously recommend all those who are suffering from affection of the liver to give your Pills and Tonic a fair trial and a cure will be effected. I have sent many persons to you, and they have all been cured. Any information my fellow-citizens may require will be freely given by the subscriber, at his residence, No. 812 Federal-st., between Eighteenth and Twenty-second.
CHARLES JOHNSON, or
Formerly Printers' Ink Manufacturer.

LYNN, MASS., Jan. 19, 1864.

DR. SCHENCK—Dear Sir:—I meant to call on you when you were in Boston, to make an acknowledgment to you for the great good I have derived from the use of your SEA-WEED TONIC AND MANDRAKE PILLS. I called on you in May last. I thought I had consumption, but you said it was liver complaint and dyspepsia, and I prescribed the SEA-WEED TONIC AND MANDRAKE PILLS. I suppose you have forgotten me, but I will try to exhibit the case, and I think you will remember me. I had to wait some time for my turn. Your rooms were full. I got to sleep on the sofa. I felt so dull that when I would sit down in the day time I would fall asleep, but could not sleep at night. I think if I had not come to you I would have been in my grave by this time. Now I want you to write back how I was then, and how I am now, and if it can be of use to you, you may publish it. For three years before I came to you I had a pain in my right side and shoulder blades, dyspepsia, bowels costive, skin yellow, tongue coated, breath bad, appetite all gone, and what I would eat would lay in my stomach for days, and give the most excruciating pains. My bowels were costive. One doctor put a seton in my arm, which I wore for several years, until I commenced with your medicines. I commenced with the SEA-WEED TONIC and MANDRAKE PILLS, and took them as directed, and now I suppose what I am going to say can hardly be believed. I am an old woman, and wish to tell nothing but the truth. About nine days after I commenced taking the medicine a great change came over my whole body; my liver began to relax, and it is true for several days I was frightened and was afraid I would physic myself to death, but fortunately you came to Washington just at this time, and told me to keep on taking the Tonic and Pills, as it was not a regular diarrhœa, but the morbid matter passing from my system; and so it turned out. They cured me, and I feel better to-day, while I am writing this certificate, than I have for ten years. My appetite is good, my food digests well, my bowels are regular, and my skin looks clear; I sleep well; in fact, I feel as though I had fallen asleep and awoke up twenty-five years back. I want every one that feels like I did to come and see me, for I talk better than I can write. I reside at 375 West Third-st., Washington city.
JANE HARDER.

BOSTON, Mass., Jan. 23, 1864.

DR. J. H. SCHENCK, Philadelphia, Pa.

DEAR SIR:—I wish to add to your list of certificates my name; it may induce some sufferers to try your SEA-WEED TONIC and MANDRAKE PILLS. I have been for several years complaining with a dull, heavy, languid feeling, not sick enough to lay by, and yet hardly able to attend to my household duties. I had pains all over me, sick headache, low spirits, bowels costive, skin yellow, no appetite, belching up wind, and throwing of bile continually; nothing would digest, but lay on my stomach, giving me pain and filling me full of wind. I was all this time taking medicines, but nothing seemed to reach my case until I commenced with your SEA-WEED TONIC and MANDRAKE PILLS. I have taken five bottles of the Tonic and three boxes of the Pills, and feel like a new being. I live at No. 447 Harrison-ave., Boston, and if any one will take the trouble to call on me I will explain more explicitly.
Mrs. JANE HUNTER.

DR. SCHENCK can only be found at his rooms, No. 32 Bond-st., New-York, every Tuesday, from 9 a.m. to 3 p. m. for consultation and advice; but he always has a full supply of his medicines at his Rooms, which can be had at all times. Price of the PULMONIC SYRUP and SEA-WEED TONIC, each $1 25 per bottle or $9 the half dozen; MANDRAKE PILLS, 25cts. per box. DEMAS BARNES & CO., No. 21 Park Row, Wholesale Agents for New-York City.
