LAW INTELLIGENCE.

SUPREME COURT—CIRCUIT—MARCH 7—Before Justice CLERKE.

PAYMENT BY NOTE.

Alonzo A. Fox, sen., &c. agt. Bridge & Roberts.—This was a suit brought upon a note for $234 75 made by one Peter Connolly and indorsed by the defendants. The defense was that Connolly the maker had paid this note by a new note of a third party for $200, and giving $34 75 in cash. The Court charged that as such note and cash were given, and the plaintiffs agreed to surrender the old note, this was a payment discharging the indorsers, who were defendants. The jury returned a verdict for defendants.

S. V. R. Cooper for plaintiffs; A. H. Reavey for the defendants.

CRAMERER—MARCH 7—Before Justice LEONARD.

William Patterson agt. William G. Patterson. Andrew Lester, &c., agt. Charles A. Abbott et al—See opinions with Clerk. August Merschall agt. Valentine Barner—Judgment for plaintiff, directing execution of lease with costs of action. Louis F. De Figemier agt. William F. Young—Judgment for defendant.

KING LEAR.

William Patterson agt. William G. Patterson.—This is a suit of a father to recover the property formerly owned by him. The plaintiff is 90 years old, and alleges that his son about ten years since, while charged with the custody of the plaintiff's estate, had procured a transfer to himself of the property at the corner of Bleecker and Christopher-sts., the father's home-stead and only means of support. That by fraudulent pretenses the son retained the property, and finally, in 1862, refused to restore it, reducing the plaintiff and his family to absolute want. The defendant denied all wrongful acts and claimed that he had obtained the property by fair purchase. The case was tried in November but not decided till now, when the plaintiff's right of ownership in the property is sustained in an elaborate opinion.

Fine and Chittenden for plaintiff; Townshend and Galbraith for defendant.

CHAMBERS—MARCH 7—Before Justice MONCRIEF.

ORDER OF ARREST.

Woodruff agt. Valentine.—Motion to vacate an order of arrest. The defendant purchased of the plaintiff 19 head of cattle, and the next day gave his check dated 20 days ahead for the price. The check being unpaid the plaintiff brought suit upon the check. The Court held that it could not grant an order of arrest under such circumstances, though possibly it might have been granted in an action repudiating the contract for fraud.

MARINE COURT—GENERAL TERM—MARCH 4.

James Irwin agt. A. B. Bush and Others.—An attachment was issued in this suit on an affidavit charging the defendant with having *said* that he intended to dispose of his property. A motion having been made to set aside this attachment, it was refused, and judgment entered upon the attachment. From this order and the judgment the defendant appealed. On the appeal the judgment was reversed, the Court holding that an affidavit of witness *said* by the defendant was, without other facts, insufficient to sustain the attachment; and that the issue of an attachment was a jurisdictional matter, and not one of discretion in the Court.

TUESDAY, March 7—P. M.

Gold opened at 198¼, sold up to 198¾, and down to 197¼, closing at 197¼. The market was steady until noon, when the prices broke, and remained dull for the balance of the day.

Government Bonds were all stronger, and the 5-20 bonds advanced from ¼ to ½ per cent on long European orders. At the Second Board, 10-40s sold at 97¼@97¾.

The miscellaneous share list was dull and heavy, with the exception of Cumberland, which advanced to 70¼, and closed on the street after the board at 71¼. Mariposa was weak, and sold as low as 16.

Railway shares were dull and heavy at the First Board, and lower after the call in the street, and a large amount of cash stocks were pressed for sale; but after the Second Board, the market rallied from ¼@¾ per cent. Hudson River rallied to 114¼, after selling at 110¼.

The business at the Sub-Treasury was: Total Receipts, $1,131,974 25; for Customs, $174,000; Payments, $1,263,841 36; on account Loan, $286,500; Balance, $28,806,644 90.

The aggregate amount of exports (exclusive of specie) from the port of New-York to foreign ports for the week ending March 7, 1865, was $3,657,542.

Freights are very dull. The engagements to Liverpool are 50 tuns Heavy Goods at 5s., and per steamer, 500 pkgs. Butter at 20s., and 300 boxes Bacon at 15s.

Foreign Exchange is dull and again lower. The leading drawers are asking 108¼ for sixty days' sterling, but cannot sell at that rate. A large amount was sold this morning by a leading drawer at 107¾ net. The following are the rates asked, but selling rates are a fraction lower:

Bankers' Sterling, sixty days	109 @108¾
Bankers' Sterling, three days	109
Merchants' Sterling	106¾@107¼
Francs	5.20@5.25

At the New-York Petroleum Stock Board to-day, the following sales were made: 100 Rynd Farm, $6; 500 do., $6 20; 2,210 do., $6 10; 1,000 do. b10., $6 25; 100 do., $6 12; 1,400 do., $6 15; 500 Buchanan Farm, $1 80; 100 do., $1 86; 400 Cherry Run, $1; 50 National, $4 75; 1,000 Webster, $1 75; 100 do., $1 80; 100 United States, b15, $25 50; 100 do., $25; 100 do., $24 50; 10 do., $26; 100 Tack Petroleum, $3.

The subscriptions to the 7.3-10 Loan to-day was as follows: Livermore, Clewes & Co., $534,450; First National Bank, $300,000. This Bank paid leading drafts to the amount of $1,200,000, and their total sales of the Loan, for February, amounts to $10,210,000.

Money was very active and the rate must still be quoted at 7 per cent. There was a general shifting of loans in the early part of the day, but at the close of business there was more capital offering.

The Third National Bank advertises to receive subscriptions for the 7-30 Loan.

The rates of discount are about 1 cent higher, and may be quoted 8@10 per cent for good names, with very little business.

Our advices from New-Orleans, by mail, are to Feb. 23. We take the following from *The New-Orleans Picayunes*

Although the 22d of February has been set apart as a day of commemoration, a day of reverence as it were, there was very little regard given to it to-day. With the exception of the closing of the bank, which was followed by two or three private bankers, there was no cessation in commercial circles. Cotton was bought and sold; gold was dealt in, and broken bank notes were regarded as having some value. There would also have been some business done on the Levee had not the elements interfered—a south-east storm of rain prevailed the day through. Among the transactions was a sale of $5,000 gold at 204; the general quotations were 200@203 and 204, and silver at 180@185 to 190 for American coin. There were no transactions in exchange, either domestic or foreign, up to the usual hour of the close of business. We have, therefore, no remarks to make.

The Boston Traveller says:

Money is in good demand at the banks and in the streets, but there is no great stringency, although the supply is less liberal than it was last week, and there is greater difficulty in obtaining loans on collaterals. There are more borrowers than lenders on call, without any important changes in the rates of interest. There are SIX new stocks now offered at the Stock Exchange, and the best four months' names are taken at 8 ⅌ cent. The stock market is heavy, with the exception of the public securities, which are in constant request for investment.

The Chicago Tribune of Saturday says:

To-day being the last business day of the week, and also preceding a holiday, the commercial and financial transactions of three days were crowded into one. Besides this, it was the day on which all paper maturing on the 1st had to be met, all of which rendered it unusually busy. Gold was a shade firmer, but the advance was not sufficient to give much stimulus to the general markets, and no material improvement in prices took place.

The demand for money was very active, and the market was unusually stringent, the bankers discounting only to their customers at the usual rate of discount, viz: 10 ⅌ cent per annum. On the street rates were firm at 1½@2½ ⅌ cent ⅌ month.

Toward the latter end of last month fears were very generally expressed in monetary circles that, owing to the great decline in pork, grain, &c., many of the notes and contracts maturing on the 1st instant, would have to be protested. We are happy to learn, however, that rarely have the bankers had less reason to complain than at present. Although money is very scarce all over the West, and the obligations heavy, they have been generally met to-day with laudable promptness.

Exchanges remain scarce and firm, with a continued good demand at par buying, and ¼ premium selling.

REMARKS ABOUT BEEF CATTLE.

The total number this week, 3,793 head, compares with 6,316 head last week, and with 5,146 head, average per week last year, and with 4,583 for the corresponding week one year ago.

The number sold yesterday and to-day at the principal market is 3,172 head, compares with 4,350 head last week, and with 3,567 head, at market one year ago.

THE OPENING OR PRINCIPAL DAY OF THE MARKET.

Monday, March 6.—There are 3,100 head of bullocks in market to-day, and the smallest proportion of real first class, or even good, fair quality, of all the market days this season. Consequently this class have sold a cent higher than a week ago, ranging 19@22c. per lb. net, and during the first hours after opening, trade was lively for all that would suit the class of butchers who always buy the best to be had, and in some cases they were in such haste to finish business and get off to see or join the procession, that they made very liberal allowances of weight, from which they will undoubtedly declare when the animals are slaughtered that the meat, less the value of offal, cost 25c. per lb. After this run of trade was over and all the best stock sold, business grew dull and the holders of medium and inferior stock received from their demands of the morning to about the rates of last week, that is, 15@18c. per lb. for medium, and 10@15c. for lower grades. Taking the average of the whole business of the day, we estimate the advance of first class at ½@1c. per lb.; medium at ½c. advance, and inferior actually easier for butchers than our quotations of last week, while on the best in some cases the falling off in value of quality will be as much as the advance on price. Though the trade this afternoon is slow, the small supply insures the sale of all that are offered or likely to come in for sale to-morrow. The sales here on Friday and Saturday were only 50 head to Government, and 350 at Bergen to butchers. Government is buying light to-day, and has advertised for a new contract, to be let during the week. The weather to-day is all that drovers could desire, being clear, dry, and so cool that the mud has not thawed in the shade. Still they are not quite satisfied, declaring that with all the advance of price, and better estimate of weight, they are still losing money. The simple fact appears to be, they have bought their stock in anticipation of finding the market ranging from 20@25c. ⅌ lb. instead of 20@23 cents. That is what is at the matter. We find a large stock of Canada cattle again this week, and we find cattle here from Connecticut and Massachusetts, and buyers here taking Western steers to those States for slaughter. This indicates the stock east of here nearly exhausted, and that this market has got to supply a large area during the Spring and Summer, which will tend to keep up the price.

CLOSE OF THE MARKET.

Tuesday, March 7.—A good many of the owners of cattle, not first-rate, think that we have stated the condition of the market yesterday better than it was. Perhaps that may be partly owing to the heavy losses they have suffered. Here is a case: A man bought a car load of Kentucky Oxen at Buffalo; 14 head at $133 each at the time that such stock sold here at 23@25c. ⅌ lb. He was detained fifteen days, and yesterday struck a market when nothing but extras would bring over 20 cents, and as good as his were, at the time he bought them, sold at 17@18 cents. Of course they had fallen off in weight and quality, and only brought $38 each, making a loss of $700 upon one car load. Such men fancy the market a good deal lower than it is, and insist that it is not as good as reported last week. Of fresh stock to-day there is only 75 head, but these, with those left over yesterday, make a full supply, and trade falls off, so that it is not as good at the close as at the opening. Some extra good cattle from Philadelphia sold at 21@22c. ⅌ lb.

The Government contract for furnishing what shipping cattle are called for, usually from 100 to 150 head per week, has just been awarded to Henry Westheimer, at $13 49 per cwt. on the average alive. As the contract call for *good Steers* of 12½@13 cwt., and as such animals will dress 55@56 lbs. to the 100 lbs., live weight, this is about 24c. per lb. net, which is enough to secure first quality cattle, and with the close inspection instituted, we have no doubt the soldiers will get good beef.
