THE AMERICAN HAY AND COTTON PRESS CO. MANUFACTORY, Corner of Grove and North Third-sts., Jersey City. OFFICE, No. 113 Wall-st., New-York. GOVE'S PATENT.

The attention of all parties interested in the pressing or compressing of HAY, COTTON, HEMP, WOOL, RAGS, HOPS, or any other article required to be baled for Transportation, Storage or Consumption, is respectfully solicited, to the PORTABLE or STATIONARY PRESSES, manufactured by this Company, under the superintendence of the Patentee, Mr. JOHN L. GOVE.

The Press is very simple in its construction, requiring but ordinary intelligence to work it, and can be operated by any known power, such as Steam, Water, Horses or Hand. In using Horse power, but one Horse is required, the Press being so mechanically constructed on a well known principle that the power increases in a greater ratio than the increasing resistance.

The advantages of this Press over all others are as follows, viz:

1st. It can press 20 per cent more material in a given space.
2d. It can do the work in 50 per cent less time.
3d. It requires 50 per cent less traking power.
4th. It requires not the best skilled hand for handling or rolling.
5th. The Press will last a life time, the working parts being built of the best of iron, and not liable to get out of order.

The ordinary work of this machine will press in one operation (after once filling the box of the No. 1 Press) a bale of Hay of 450 lbs. weight in TWO MINUTES.

Four men and one Horse can bale 12 tons of Hay a day.

Four men without the aid of a horse, or any power except that contained in the Press, can turn out a bale of Hay 27 inches square by 36 inches long, weighing 250 lbs., or 2½ lbs. to the cubic foot.

No loose joints, screws, cogwheels, heaters or rollers used in this Press.

The attention of Cotton factors and planters, Wool and Hemp pressers, is especially called to this Press, designed as it is to work a complete revolution in the new slow, clumsy and expensive method of baling.

The Company will dispose of Town, County or State rights reserving to themselves only the right to manufacture on reasonable terms.

Mr. N. D. FISHER is the authorized Traveling Agent for the Company in the Eastern and Middle States.

For further particulars send for circulars.
