Naval Intelligence.

ARRIVAL OF THE MONONGAHELA.

The United States steam sloop-of-war Monongahela, commander James H. Strong, arrived at this port on Tuesday morning from Pensacola Bar, making the passage in six days and fourteen hours to Sandy Hook. She had head winds for the first two days. The Monongahela left Philadelphia January 19, 1863, engaged in the first attack on Port Hudson, March 13, 1863, in attempting to run by the batteries, got aground, and remained under the fire of the enemy 45 minutes. Casualties—Capt. McKinstry, wounded; 8 killed and 25 wounded; struck 62 times.

She engaged the batteries several times during the siege of Port Hudson, and patrolled the Mississippi River during the siege of Port Hudson to keep up supplies and communications with Gen. Banks's army. Captain Abner Read was killed July 9, 1863, by a Rebel battery at Winchester Plantation. She rescued the United States steamer New-London from under the guns of the Rebels at College Point. She left New-Orleans for the blockade off Mobile Bay, August 13, 1863, and remained on blockade until December, 1864, when she was ordered as the flagship of the Texas Expedition under Gen. Banks. She silenced a Rebel Battery at Aransas Pass, Texas, causing the white flag to be displayed. Three guns and one hundred men were captured. Returning to blockade duty, May, 1864, August 5, 1864 she took part in the passage of the Mobile forts and capture of the Rebel fleet. She was the first vessel of the fleet to attack the Rebel ram Tennessee, and rammed her twice during action, carrying away six feet of our bows, and killed Lieut. R. Prentice. She had temporary repairs made and went cruising. Left Pensacola for home March 28. Length of cruise twenty-seven months.

LIST OF OFFICERS ON BOARD THE MONONGAHELA.—Commander, James H. Strong; Lieutenants, R. C. Benson, O. A. Batchelder; Acting Ensigns, C. F. H. Wappenhans, F. F. Harrington, D. W. Mullen; Chief-Engineer, Geo. F. Kutz; Surgeon, A. C. Spear; Paymaster, Porter Porter; First Assistant-Engineer, Joseph Trilley; Second Assistant-Engineers, J. J. Sweet, Edward Cheney, P. J. Langan; Third Assistant-Engineer, A. C. Wilcox; Boatswain, Wm. Green; Acting Master's Mate, W. S. Arnold; Captain's Clerk, Wm. T. Price; Paymaster's Clerk, A. J. Earle.

ARRIVAL OF THE NYACK.

The United States steamer Nyack arrived at this port on Monday from Wilmington, N. C., via Beaufort, N. C., 1st inst. The Nyack is one of the new class of gunboats, and has proved herself a perfect success. The hull was designed by the Navy Department, and the engines by Chief-Engineer Isherwood, Chief of Bureau of Steam Engineering. She has two cylinders of 30 inches in diameter and 2 inches stroke, with a screw 11 feet in diameter and 16 feet pitch, and has ample boiler capacity. She can make 100 revolutions per minute, which will give a speed of 12½ to 13 knots. The engines have always worked admirably, thus showing the improvements the Navy Department have made over the old sloops.

In the first attack of Fort Fisher the Nyack took a conspicuous part, and was then ordered to Fort Caswell, where she remained till after the fall of Fisher.

During operations at Fort Anderson and other batteries on the Cape Fear River she was actively engaged, and was present at the capture of Wilmington. Here she remained until ordered North.

The most interesting event in the history of the Nyack is the expedition of Acting-Master H. Walton Grinnell, ex-officer and Acting-Ensign H. Bowditch Colby sailing master, with two men who left Wilmington, N. C., on the 6th of March, with cypher dispatches from Gen. Schofield to Gen. Sherman. They penetrated nearly 200 miles inside the Rebel lines. They were hunted from swamp to swamp, and finally reached Sherman's forces on the 12th of March near Fayetteville, N. C. The party went in naval uniform, and it is a miracle they escaped alive.

The following is a list of the officers of the Nyack:

Lieut. Commander, D. C. Newman; Acting Master and ex-officer, H. Walton Grinnell; 1st Asst. Engineer, B. C. Bampton; A. A. Surgeon, Benj. F. Bigelow; A. A. Paymaster, Chas. S. Halladay; Acting Ensigns, Charles Nelson, H. Bowditch Colby, J. Weston Hopkins, James Jordan; 2d Asst. Engineer, John Fottmann; 3d Asst. Engineers, William A. Windsor, William M. Bartrem, James C. Veotch.

From Hayti.

Intelligence from Port au Prince, of the 25th of March, has been received in this city.

The disastrous conflagration in that city was still the absorbing topic in Hayti.

President Geffrard had issued a sympathetic address to the sufferers.

In the various towns and villages throughout the Republic, subscriptions were making for the relief of the sufferers. Cape Haytien alone has contributed over $16,000.

President Geffrard has proposed several important modifications of the Haytien Constitution. One of these declares that any African or Indian or any of their descendants, is eligible to the privilege of becoming Haytien citizens, and the privilege may also be conferred on such foreigners, not Indian or African as may render services to the Republic.

Those only are eligible to the office of President of Hayti who are born in the island, are of African or Indian blood, 35 years old, and holders of real estate.

President Geffrard has ordered the establishing of a Volunteer Fire Department.

Three hundred thousand dollars has been appropriated by the Government to the relief of the sufferers by the Port au Prince fire.

THE UNITARIAN CONVENTION.—The meeting of this body to-day promises to be a very distinguished gathering. Among the delegates who have already arrived in this city are the Rev. James Freeman Clark, D. D., and the Rev. Henry W. Foote; also James P. Walker, esq., of Boston; the Rev. William G. Eliot, D. D., of St. Louis, and his brother, the Hon. Thomas D. Eliot, M. C., of New-Bedford; the Rev. Charles H. Brigham of Taunton, Massachusetts, and the Rev. Robert Collyer of Chicago, Gov. Andrew, the Rev. Dr. Stebbins of Cambridge, Massachusetts, the Rev. James Walker, D. D., the Rev. Dr. Gannett, ex-Gov. Boutwell, and a very large number of influential gentlemen, clerical and lay, are expected to arrive to-morrow morning. The exercises of the Convention will be preceded by the delivery of a sermon in All Soul's Church, this (Tuesday) evening, by the Rev. Dr. Clarke of Boston.

VOLUNTEERING.—It was understood that Mr. Blunt, Chairman of the Committee on Volunteering, would on Tuesday again place funds in the hands of the Provost-Marshals to enable them "to keep busy" mustering in recruits and thus suspend the draft.

The County Committee on Volunteering on Monday evening had a consultation with the State Paymaster. The form of voucher necessary to obtain moneys from the State was agreed upon, and it is understood that the County Committee will at once be placed in funds by the State.

FATAL RAILROAD ACCIDENT.—On Monday evening Jas. Cully, residing at No. 565 West Fourty-fourth-st., while attempting to jump from the upstrain of the Hudson River Railroad at the corner of Fourth-ave. and Eleventh-ave., fell and was run over, causing death almost immediately. He was aged 55 years.

CITY GOVERNMENT.

Board of Councilmen.

STATED SESSION—MONDAY, April 3, 1865.

OFFICIAL.] 2 o'clock p. m.

The Board met, pursuant to adjournment, in their Chamber, No. 16 City Hall.

Present—James Hayes, esq., President, in the chair, and the following members:

Councilmen Keenan, Healy, Robinson, Stacom, Hagerty, Foster, Kenney, Brinkman, Lindy, Patterson, Taylor, Stoughton, Leavy, McGrath, Greef, Lent, Smith, O'Callaghan, Russell, Joyce, Reilly, Fitzgerald and Cook—21.

Conceptions HAGERTY was here called to the chair.

The Reader proceeded to read the minutes.

Pending the reading,

Councilman LENT moved that the further reading of the minutes be suspended.

Which was carried.

Councilman KEENAN moved that the regular order of business be suspended for the purpose of permitting a report to be presented.

Which was carried.

REPORT.

Report of Special Committee to whom was referred the message from His Honor the Mayor, recommending the Common Council "to apply to the Legislature for authority to issue bonds based on the credit of the Corporation, to the amount of twenty millions of dollars ($20,000,000), for the purpose of raising means to secure volunteers, and thus alleviate the burden of military service now so unequally imposed, and prevent the distress and horrors that must follow the execution of a measure of this nature otherwise inevitable."

Which was adopted.

MOTION.

Councilman KEENAN moved to suspend the present order of business for the purpose of taking up papers from the Board of Aldermen.

Which was carried.

PAPERS FROM BOARD OF ALDERMEN.

Communication from the Chief Engineer of the Fire Department, relative to the "Metropolitan Paid Fire Department Bill," and resolution as follows:

Resolved, If the Councilmen concur, that a Special Committee of three from each Board be and they are hereby appointed to take the matter in consideration included in the communication of the Chief Engineer of the Fire Department, in reference to the Act of the Legislature constituting a new Metropolitan Fire Commission, with full power to take such action as the emergencies and properties of the subject may require.

(By Board of Aldermen, March 31, 1865, resolution adopted, and Aldermen Jeremiah Ryers and Gedney appointed such Committee on the part of that Board.)

Which was concurred in.

The PRESIDENT *pro tem.* subsequently appointed Councilmen Leavy, Patterson and Kenney such Committee on the part of the Board of Councilmen.

Preamble and resolution as follows:

Whereas, The legislature of this State has just passed an Act, which substitutes the paid system in place of the present volunteer organization of the Fire Department in this city, and

Whereas, Some time must necessarily elapse ere this new system can be properly or efficiently placed in a position to meet all that would be required therefrom in respect to the full protection of the lives and property of the citizens, and

Whereas, In the interregnum that must exist between the present time and the arranging of said system in such a way as to be at all equal in efficiency to the present volunteer organization, much suffering, and it may be loss of life, would ensue in case of a disastrous conflagration (nine-tenths of the community living and having their little all in places peculiarly subject thereto), unless the present volunteer organization still continues in active service; therefore

Resolved, That the Common Council of the City of New-York would most earnestly urge upon the officers and members of the New-York Fire Department the public necessity of their still continuing their former energetic and humane efforts in arresting on all occasions, as heretofore, the progress of the devouring element, thereby not only preventing thousands of helpless women and children from being rendered homeless and destitute, but wreathing around the memory of the Volunteer Organization of the New-York Fire Department a record of fame and usefulness of which both themselves and their children in after time may well be proud.

Which was concurred in.

MOTIONS RESUMED.

Councilman LENT—It seems to me, Mr. President, in view of the dispatches that have been received from the front, that this is not a day for us to remain in session. The cheering news that we have received of the fall of Richmond, with the capture of some forty thousand of the Rebel army, strikes the death knell of the Southern Confederacy, and proclaims that our country is now one and indivisible. We owe something to the war and to the officers who have brought about this result, and I am happy to be the mouthpiece of this Board in the motion I am about to make—having been requested thus to act—I move that this Board do now adjourn, to meet to-morrow in this room, at 10 o'clock p. m., for the purpose of making such arrangements as may be deemed expedient in view of the victories that have been achieved. And, not to be behind the Board of Aldermen, I move that we adjourn with three cheers for the glorious results achieved by our National Army.

The PRESIDENT *pro tem.* put the question on the motion of Councilman Lent, and it was decided in the affirmative, the members standing in their places and giving three cheers for the glorious intelligence.

Whereupon the PRESIDENT *pro tem.* declared that the Board stood adjourned to Tuesday, the 4th inst., at 10 o'clock p. m.

JAMES M. SWEENY, Clerk.

TURKISH BATHS.
TURKISH BATHS.
TURKISH BATHS.
No. 13 LAIGHT-ST., NEW-YORK,
(Near Corner of Canal-st. and West Broadway.)

HOURS—Gentlemen from 6 to 8 a. m. and 2 to 9 p. m. Ladies from 9 a. m. to 1 p. m. (Closed on Sundays.)

If you wish to secure or preserve your HEALTH, STRENGTH and BEAUTY, and enjoy one the "GREATEST OF LUXURIES," try a Turkish Bath. In the East these baths have been made use of for centuries, both as a luxury, and a religious exercise, by those who regard physical cleanliness as an aid to moral purification.

The essential features of the bath are, bathing the entire body in heated air, (not steam) thereby inducing a free perspiration; thorough shampooing of the whole body; and the application of waters of different temperatures. The bath consists of a suite of rooms, the Frigidarium, or Cooling room, with which are connected the dressing-rooms, the Tepidarium, or Warm room, the Ledularium, or Sweating-room, and the Lavatorium, or Water bathing-rooms.

When the cooling is complete, the body has come forth shining like alabaster, fragrant as the clover, sleek as satin, and soft as velvet. The touch of the skin is electric. At the conclusion of the process, the sweetness of the skin returns, the fountains of strength are opened; you seek again the world and its toils; and those who experience these effects for the first time, exclaim—"I feel as if I could pompover the moon." —(From a description of the Turkish Bath by Dr. David Urquhart.)

"The Bath which cleanses the inward as well as the outward man, which is adapted to make health *healthier*, and alleviate disease whatever its stage or severity, deserves to be regarded as a national institution, and merits the advocacy of all men."—(Erastus Wilson, F. R. S.

"No man can be called clean till he has bathed in the East. Let him wash directly from his accustomed bath and self-friction with towels, to the Turkish Bath, and the attendant will exclaim—'Oh Frank, it is a long time since you have been bathed!'"—(Bayard Taylor.

WHAT ONE OWN BATHERS SAY OF THE TURKISH BATHS.

"The Turkish Bath as administered at this establishment is a luxury which once enjoyed, will be sought as often as one's business permits."

"It is truly a religious institution."

"Exceedingly invigorating."

"It is delicious, exquisite."

"It is the NE PLUS ULTRA of baths."

"Very exhilarating and bracing."

"I advise those who wish to be 'born again' to try it."

"The very method which Nature has adopted for its regeneration."

"I feel like a new man."

"I am youth regenerated."

WHAT THE LADIES SAY.

"I have tried the Turkish Bath in other countries, and find that the one here surpasses all others."

"Even ladies afraid of water need not fear to take this bath."

"For beautifying the complexion, nothing can equal it."

"They are delightfully refreshing, and very remedial, promoting and invigorating the whole physical system."

"Most delightful and agreeable."

"I feel ten years younger than before taking this bath."

☞ Strangers visiting New-York should not leave the city without enjoying this greatest of Eastern luxuries—a genuine Turkish Bath.

Proposals.

NAVY DEPARTMENT, BUREAU OF PROVISIONS AND CLOTHING, March 30, 1865.

FRESH BEEF AND VEGETABLES.—SEALED PROPOSALS, indorsed "Proposals for FRESH BEEF AND VEGETABLES," will be received at this bureau until 2 o'clock p. m. on the 10th day of April next, for the supply of 200,000 pounds of Fresh Beef and 200,000 pounds of Fresh Vegetables, at the New-York station, as required. The beef and vegetables must be of good quality and the best the market affords, and each article must be offered for by the pound. The beef to be in equal proportions, fore and hind-quarters. Bond, with approved security, will be required in one-half the estimated amount of the contract, and twenty per cent in addition will be withheld from the amount of each payment to be made, as collateral security for the due performance of the contract, which will on no account be paid until it is fully complied with.

Every offer must be accompanied by a written guarantee, signed by one or more responsible persons, that the bidder or bidders will, if his or their bid be accepted, enter into an obligation within five days, with good and sufficient sureties, to furnish the articles proposed.

No proposals will be considered unless accompanied by such guarantee and by satisfactory evidence that the bidder is a regular dealer in the article proposed, and has the license required by law.

The department reserves the right to reject any proposal not considered advantageous to the Government.

CHIEF QUARTERMASTER'S OFFICE, No. 1,139 GIRARD-ST., PHILADELPHIA DEPOT, March 31, 1865.

SEALED PROPOSALS will be received at this office until MONDAY, April 10, 1865, at 12 o'clock m., for delivering at the Schuylkill Arsenal, in merchantable packages, (cases to be made to conform to specifications at this office):

3-4 Canton Flannel for Drawers, army standard.
Stockings, army standard.
Pegged Boots for Cavalry, army standard.
Pegged Bootees for Infantry, army standard.
Hospital Tents and Flies, army standard.
Forage Caps, army standard.

Samples of the standard articles required may be seen at this office.

Parties offering goods should make separate proposals for each article offered, and must distinctly state in their bids when they will commence their deliveries, the quantity they propose to furnish each week, the price (*which should be written both in words and figures*), and conform to the terms of this advertisement, *a copy of which should accompany each proposal.*

Bids will be opened on Monday, April 10, 1865, at 12 o'clock m., and bidders are requested to be present.

Each bid must be guaranteed by two responsible persons, whose signature must be appended to the guarantee, and certified to as being good and sufficient security for the amount involved, by some public functionary of the United States.

All proposals should be made out on the regular forms, which will be furnished on application at this office.

The right is reserved to reject any bid deemed unreasonable, and no bid from a defaulting contractor will be received.

Indorse envelope, "Proposals for (here insert the name of the article offered.)" and address,

Colonel WILLIAM W. McKIM,
Chief Quartermaster Philadelphia Depot.

THE AMERICAN HAY AND COTTON PRESS CO. MANUFACTORY,
Corner of Grove and North Third-sts., Jersey City.
OFFICE,
No. 113 Wall-st., New-York.
GOVE'S PATENT.

The attention of all parties interested in the pressing or compressing of HAY, COTTON, HEMP, WOOL, RAGS, HOPS, or any other article required to be baled for Transportation, Storage or Consumption, is respectfully solicited, to the PORTABLE or STATIONARY PRESSES, manufactured by this Company, under the superintendence of the Patentee, Mr. JOHN H. GOVE.

The Press is very simple in its construction, requiring but ordinary intelligence to work it, and can be operated by any known power, such as Steam, Water, Horse, or Hand. In using Horse-power, but one Horse is required, the Press being so mechanically constructed on a well-known principle that the *power increases in a greater ratio than the increasing resistance.*

The advantages of this Press over all others are as follows, viz:

1st. It can press 20 per cent more material in a given space.
2d. It can do the work in 33 per cent less time.
3d. It requires 50 per cent less driving power.
4th. It turns out the best shaped bale for handling or rolling.
5th. The Press will last a life-time, the working parts being built of the best of iron, and not liable to get out of order.

The ordinary work of this machine will press in one operation (after once filling the box of the No. 1 Press) a bale of Hay of 450 lbs. weight in TWO MINUTES.

Four men and one horse can bale 12 tuns of Hay a day.

Four men without the aid of a horse, or any power except that contained in the Press, can turn out a bale of Hay 27 inches square by 46 inches long, weighing 460 lbs., or 2½ lbs. to the cubic foot.

No toggle joints, screws, cog-wheels, beaters or rollers used in this Press.

The attention of Cotton factors and planters, Wool and Hemp raisers, is especially called to this Press, destined as it is to work a complete revolution in the now slow, clumsy and expensive method of baling.

The Company will dispose of Town, County or State rights (reserving to themselves only the right to manufacture) on reasonable terms.

Mr. N. D. FISHER is the authorized Traveling Agent for the Company in the Eastern and Middle States.

For further particulars send for circulars.
