THE DISPATCH.

THURSDAY MORNING.....FEBRUARY 17, 1859.

LOLA MONTEZ ON THE AMERICANS.—Lola is lecturing in England, her chief theme being America and Americans. In a lecture, at Liverpool, she said of us:

"Volatile and enthusiastic in their feelings, the Americans were easily thrown into a state of universal, feverish excitement, during which they literally worshipped their idols, and as easily relapsed into a state of calm, in which their indifference was as profound as their enthusiasm had been ecstatic. In illustration, she referred to the reception given in America to Kossuth, who was afterwards plunged in such an abyss of infamy and abuse as no man ever rested under before. [Hisses.] They first made a god of him, and then converted him into a demon.

On the laying of the Atlantic cable, the Americans took to themselves all the glory; there was a telegraphic whirlwind, and the people danced with a kind of galvanic delight; the "mighty Cyrus"—[laughter]—was almost deified; but now his three day's glory—[laughter]—was gone. The Americans had more activity and go-ahead-ativeness—[laughter]—and spirit than the English, who, however, had more strength and substance. Indeed, the characteristic of the American was "speed," whilst that of the Englishman was "strength." The American was formidable in attack; the Englishman in defence. The Englishman, though beaten, was still formidable, but a beaten America was good for nothing.

The no capital principle was a peculiarity of America. A broken down tradesman could enter the learned professions of law or medicine with three months' study, and be at the head of his profession in six months afterwards—[laughter]—and these professions are made of broken down merchants, horse jockeys, prize fighters, and adventurers. The element of "speed" entered even into the religion, which, like everything else, went by steam; its professors travelled by an express railway train to glory. There was no place in the world where public opinion was so great a tyrant, and where an unpopular cause was branded with so much infamy.

The time of a woman's gaiety in America was when she was unmarried. "But," said Lola, with suggestive emphasis, "when the choice is made—[roars of laughter]—good bye to her freedom and happiness. She must be submissive to her husband, become a good wife, and so forth. If I were a man—[renewed laughter]—I said if—I would prefer an American girl, to flirt with, but I should choose an English girl to marry. (Applause.)—Courting is a delightful affair in America. I dare say men think it so in this country, but they have not been in America."

CALIFORNIA.—According to the Governor's Message, the State of California has a population of 538,000 persons. There are 756,731 acres under cultivation, and in grazing 1,159,815 acres. The sheep in the State number 650,000; horses, 85,000; cattle, 129,000. The exports of hides alone have half a million of dollars the past year. The crop of wheat for the year 1858 is set down at 3,568,000 bushels, and that of barley at 5,382,717. This is 218,798 more bushels of barley than the amount raised in the whole Union in 1850, according to the census. Three hundred and eighty-five thousand gallons of wine and ten thousand gallons of brandy were manufactured in that State last year. The gold yield in 1857 was 65,550,000, and the total yield since the discovery, 600,000,000. The State debt is 4,150,000.

SINGULAR RESULT OF AN ELOPEMENT.—A very peculiar elopement case is just now a current topic of conversation in Maine. On the 30th ult., an artist named Delavan, who for a long time has been supposed to be a deaf mute, eloped with a young woman of Presque Isle, Aroostook county. They hired a sleigh, and taking, as they supposed, a convenient opportunity, drove away in search of a minister, but the road was long, and the parents of the young woman knew the tendencies of the couple, and the result was that the "angry father" overtook the runaways, and when on the road, to his astonishment, the dumb man spoke, declaring that the girl was his, and he would have her.—How the matter was decided after this revelation the Maine papers have not yet found out.

"HOLD ON, DAR."—The Pequa (S. C.) Register has the following, in a recent issue, describing an incident among the slaves:

"Quite a revival is now in progress at the African Church in this city. We were present a few evenings since, and witnessed, with much gratification, their earnest devotion. Of the incidents we cannot fail to note one. A brother was supplicating the throne eloquently, when another brother called out in stentorian voice:

"Who dat pray'ng ober dar?"

"The response was, 'Dat's brudder Mose.'

"Hold on dar, brudder Mose!" was the dictum of the former, 'you let brudder Ryan pray, he's better 'quanted wid de Lord dan you am.' Brudder Mose dried up, and brudder Ryan prayed."

PROF. MORSE IN PORTO RICO.—Prof. Morse, who is making a tour of the island of Porto Rico, has built a short telegraph line in the town of Arroyo, between the Hacienda and the counting-house of his son-in-law, Mr. Lind. The Boletin, of Porto Rico, says that it has seen a dispatch sent by that telegraph and adds: "The government of the island has sent Mr. Morse a passport, by virtue of which he can travel all over the Island. Prof Morse has also offered his services to the government in case the latter should design to establish any lines of telegraph. It is understood that, in the opinion of Mr. Morse, it would not be very expensive to establish a general telegraph line thoughout the Island."

THE NEW PRESIDENT OF HAYTI.—Geffrad, the new President of the Republic of Hayti, is a man somewhat advanced in years. His hairs are gray, and he has the appearance of having seen a good deal of life. He is at least 50 years old. He is nearly black, but still has some white blood in his veins.

SHIP BUILDING "DOWN EAST."—In the district of Bath, Maine, during the year 1858, there were built 16 ships, 2 barks, 1 brig and 5 schooners, the aggregate tonnage of which amounted to 15,826 68-95 tons.

NIGHT CAPS.—A divorce case is now on the legal taps in Cincinnati between two parties, both of whom are young, and married but three years, whose disagreement arises out of a night-cap, which the wife insisted upon wearing in spite of her husband's wishes, petitions, tears, threats, oaths, and commands.—*Albany Evening Standard.*

GALLANTRY REWARDED.—The New Haven (Ct.) Palladium states that Government has increased the Salary of Mr. Brooks, the brave keeper of the Faulkner Island lighthouse, who so nobly perled his life last summer to save a shipwrecked crew.

PROVISIONS AT PIKES PEAK.—A correspondent of a paper at Council Bluffs gives the following as the prices current of provisions at Pikes Peak:—"Flour, 30 cents per pound; coffee, 55 cents; sugar, 35 cents; bacon, 40 cents; salt, 20 cents; rice, 40 cents; beans, 25 cents; molasses, per gallon, $4; whiskey, $8!"

THE HUDSON'S BAY COMPANY.—The Toronto Colonist says that on Thursday night the Inspector General, Mr. Galt, answered that the government had reason to infer that the exclusive right of trade enjoyed by the Hudson's Bay Company in their extensive territories would be abrogated by the home government on the 1st June next.

EDITORIAL CHANGE.—T. S. King retires from the editorial chair of the San Francisco *Bulletin*, and is to be succeeded by JAMES W. SIMONTON, formerly connected with the press in California, but for several years past the vigilant Washington correspondent of the *New York Times*.

THE NIECES OF BURNS.—The treasurer of the Toronto Burns Club sent on Monday last the sum of $80 to the Provost of Ayr, Scotland, for the Misses Begg, daughters of the late Mrs Begg, the poet's sister. Upwards of $700 have already been subscribed in New York.

The celebrated Holland remedy for
DYSPEPSIA, DISEASE OF THE KIDNEYS, LIVER COMPLAINT, WEAKNESS OF ANY KIND, FEVER AND AGUE,
And the various affections consequent upon a disordered STOMACH OR LIVER.
Such as Indigestion, Acidity of the Stomach Quicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic, and Neuralgic Affections it has in numerous instances proved highly beneficial, and in others effected a decided cure.
This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Because of its great success in most of the European States, its introduction into the U. States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.
It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.
NOTICE.—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a grateful aromatic cordial, possessed of singular remedial properties.
CAUTION!
The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given BOERHAVE'S HOLLAND BITTERS a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.
