WATCHES! JEWELRY!!

ROMAINE GOLD,

so extensively worn in Paris, was first discovered in 1870 by the celebrated French chemist, Mons. D. Be Lainge, who manufactured it into jewelry, and for five years sold it to the leading jewellers of Paris for SOLID GOLD. In 1875, when his secret became known, ten of the manufacturing jewellers established a stock company, with a capital of $10,000,000, for the purpose of manufacturing

ROMAINE GOLD JEWELRY AND WATCHES.

With this immense capital, and the aid of improved machinery, they are enabled to produce all the latest patterns of jewelry at less than one tenth the cost of solid gold, and of a quality and color which makes it impossible even for experts to detect it from the genuine.

We have secured the
