TUESDAY, June 27—P. M.

Gold opened at 141¾ and sold up to 142¼, closing at 141¾. As much as ¾ per cent was paid for cash gold for delivery, and throughout the day the market was firm in the face of a diminished demand for Sterling at 109@109¼ for leading names.

Government stocks are steady and in good demand for all descriptions. Border State stocks are stronger—Missouri 6s, 74@74¼, Tennessee 6s, 71¼, and North Carolina 6s, 75. In railway bonds little doing. Bank shares are offered sparingly and are held more firmly than any security upon the list. In the miscellaneous stocks more was done at full prices. Railway shares, early in the day, were quite strong, and in many cases an advance was paid. The improvement was not sustained at the public call. At the close of the day the market was steady at an advance over Monday's rates. The closing prices were: New-York Central, 93¾; Erie, 76¼; Hudson River, 108¾; Michigan Southern, 64¼; Reading, 95¼; Rock Island, 101.

Money is abundant at 4@5 per cent on call, and 6@9¼ for commercial bills. The Stock Exchange uses very little money, and lenders have much difficulty in using their balances.

The business of the Sub-Treasury was: Receipts, $3,402,317 21—for Customs, $258,000; Payments, $3,394,858 78—on account of Loan, $401,000; Balance, $45,213,677 97.

Freights are decidedly more active. The engagements to Liverpool are 2,500 bbls. Flour, at 6d.; 14,000 bush. Wheat, at 3¾d.; 100 hhds. Tallow, at 20s.; and, per steamer, 7,000 bush. Corn, at 5d. To London, 3,000 bbls. Flour, at 1s. 10½d.; 25,000 ℔ Tallow, at 17s. 6d.; 200 tuns Oil Cake, at 17s. 6d. To Bristol, 30,000 ℔ Tallow, at 17s. 6d. An American schooner was chartered from Beaufort, N. C., to Barbadoes, with Yellow Pine Lumber at $14 ℗ 1,000 ft.

The Rock Island Road in the third week in June shows a gain of $31,000; for the whole month its increase promises to be $100,000. Mr. C. W. Durant has been reëlected President.

The aggregate amount of exports (exclusive of specie) from the port of New-York to foreign ports, for the week ending June 27, 1865, was $2,023,471.

The disclosures in relation to the composition of Petroleum Companies, just made in the courts, create a good deal of remark among people who did not examine the various schemes offered during the mania for oil. This corporation is not an exceptional case, but represents faithfully a large class, if not a majority, of all the companies in existence.

Letters from Manchester, received here, state that the orders for goods for the American market are very large, and that it will take the mills until the 15th of August to complete orders already received; the indications now are that we shall import much more than we shall export. A sharp, upward turn in gold may be looked for the last of July and August, when importers begin to remit.

The Taunton Gazette says the American Screw Company of that city have declared monthly dividends of 10 per cent through the year. The annual dividend of the Taunton Oil Cloth Company, just declared, is 50 per cent, with 50 per cent surplus reserved. The Taunton Copper Company and Old Colony Iron Company pay 10 per cent. The Locomotive Manufacturing Company has declared several large dividends during the year.

The Grocers' Bank has declared a dividend of 5 per cent, free of Government tax, payable July 1.

Messrs. M. K. Jessup & Co., No. 59 Exchange-place, give notice that the coupons due on the 1st July on the following Railroads will be paid on that day by them, viz: Chicago and Alton first mortgage bonds, Joliet and Chicago first mortgage bonds, Dubuque and Sioux City first mortgage bonds, Dubuque and South-Western first mortgage bonds, Detroit and Milwaukee and Detroit and Pontiac coupons.

The coupons of the Providence, Pawtucket and Central Falls Railroad Company, due July 1, will be paid by Howes & Macy, No. 30 Wall-st.

The Racine and Mississippi road earned the third week in June:

1864.....$15,023 | 1865.....$20,379 | Increase.....$5,356

A meeting was held at St. Louis on Thursday last to consider the subject of completing the projected railroad from St. Paul in Minnesota to that city. Resolutions were adopted in favor of the speedy construction of the line, and for the continuation of such roads as would be necessary to perfect commercial intercourse between St. Louis and the different parts of the State of Iowa.

The Boston Evening Traveller reports:

The number sold yesterday and to-day at the principal market, 3,355 head, compares with 2,948 head last week, and with 3,807 head, the average per week last year, and with 4,108 head at market one year ago.

THE OPENING, OR PRINCIPAL DAY, OF THE MARKET.

Monday, June 26.—There are 3,200 bullocks on sale to-day, and at least 1,800 head have been sold at the several markets during the week. The weather has been mild and pleasant for the season, and particularly good all the week for the butchers, and it opened this morning favorably for the cattle trade, being mild for the season, and continuing so, with some rain, throughout the day. We find the general average quality of stock not as good as last week's, and in consequence of a short supply of first-class bullocks, they are a shade higher than last Monday. Medium class are about on a level, and inferior sorts a shade lower, and the average the same except a slight reduction on account of quality. The highest quotations are 17@17½c. ℗ lb; medium, 15@16c.; inferior, 12@14c.; average, 15½c., the great bulk selling at 14@15½c. ℗ lb. By this it will be seen that the anticipated advance has not been realized, although a good many persons "bought for a rise" at Albany, and that class of sellers are apt to think the market lower to-day than a week ago, while several butchers who accident-ally obtained good bullocks at 16c. ℗ lb last week, and have paid 16c. to-day for the same grade, will declare strenuously that the market is higher. Let no one who may be interested flatter himself to his cost into that opinion, for it is erroneous. The state of the market is exactly as above stated. It is no higher, except for a small portion of the early sales of best cattle, and there is no reason why it should be, as the supply of the week will exceed 5,000 head, which is quite ample for this flush season of fruit and new vegetables. And with a continuation of the present rate of supply it will be impossible to keep the price where it is now, as the slaughter yards must be quite full.

CLOSE OF THE MARKET.

Tuesday, June 27.—There was little to close with, only 25 fresh cattle coming in since yesterday, which, with those left over, were mostly sold during the morning at prices current at the opening day, though trade was slow. It is understood that all the cattle will be in and sold on Monday of next week, the yards and other places of business being closed Tuesday for the National holiday, to be made more than ever such this year.

J. H. Williams, 64 for Helton & Bastable, fair 6¾ cwt. Illinois steers at 14@16c.

MILCH COWS—Good prices are obtained for most of the cows sold, but trade is far from lively, scarcely as good as last week, and prices are $10@$15 lower than they were six weeks ago. Most of them sell at $90@$95 each, though extra cows, to chance customers who fancy them, bring $100@$120.

VEAL CALVES are going off slowly and at lower rates. It takes a right good pen of calves to bring 8c. right through; we saw a fair lot which would weigh 200 lb each, offered at that price, though passed animals, choice and fat, will sell for 10c. Poor thin veals are worth 5@6c., "bobs" $2@$3 50 each.

THE SHEEP MARKET.

Receipts this week.....13,529.

QUOTATIONS.—The following reports of sales of sheep and lambs, by several of the street-brokers, who act on commission, will give the average of prices per head this week. They are quoted ℗ lb, live weight, for Sheep, 3@5c.; Lambs, 9@12c.

The sheep drovers suffered "a repulse" on Thursday, which no amount of skirmishing since has been sufficient to recover the lost ground. About 2,000 head were left over at Brownings Saturday night, and consequently the trade was not prosperous Monday morning. We believe a few small selected lots were sold at ¼c. ℗ lb, but no drove could be sold entire at 7c., however good, and some that were reported "good fair lots of Western sheep," sold at 6c., and it was difficult at these prices to find buyers for all the sheep offered. This was very different from one week previous, when it was trouble-some dividing the stock among the different applicants, and on Tuesday morning there was not one sheep for sale where twenty were wanted. To-day we find the market only lightly supplied, but there is all-day we find the market only lightly supplied, but there is also most no demand; the wholesale meat market is overstocked, and matters selling at 8@11c. ℗ lb, and some no sale. Butchers are therefore unwilling to buy sheep at 6¾@7¼c. ℗ lb, at which brokers hold them, and therefore the market is very hard for drovers, as there are sheep on sale that have been in the pens since Friday. A good many of them ought never to have left the pastures. Lambs continue in short supply and sell readily at 10@13c. ℗ lb, according to quality. Nearly all the supply is from Jersey and great numbers are sold that we get no account of, as they come in by market boats and go direct to butchers. A few small lots of sheep have been taken out of the city this week. One lot of over 100, selected for shipping to the West Indies, sold at 7¼c. ℗ lb, but no drover need expect to realize over 7c. ℗ lb upon a drove of first-rate Western sheep unless we have a very unexpected change in the market.

The best age and quality of sheep for mutton is something yet to be studied by American farmers, to make the business of sheep-feeding profitable. As a general rule, the sheep are sent to market in a condition far more fit for a knacker's yard than for a respectable butcher's shop. Such sheep are unprofitable to producer and consumer. We see sheep sold for slaughter every week at less than half the price per head that they would bring if in only decent order for the shambles. The meat of many of them will not weigh 7 lb per quarter. It should never weigh less than 12 lb, and rarely less than 15, and should be made to weigh 20 or 25 very often. Then farmers would find sheep-keeping profitable. Sheep are rarely kept to a sufficient age in this country to make first-class mutton. In England a sheep is not considered to be in its best condition at less than five years old, when, if well fatted, the meat is juicy, and cooks of a fine dark rich color, and makes a nutritious gravy, and is really worth double that of a sheep one to two years old, whose meat is pale-colored, flabby, flavorless, innutritious and often is actually tougher than the meat of the aged sheep, which has been fed with rich grass, hay and grain, as we would feed an ox to make stall-fed beef. The principal cause of the prejudice against mutton is because it has not come from sheep of mature age, fed with rich food to make rich meat. We sometimes have stall-fed sheep from Canada, and a few from this State, and of late years we have had some lots from the West, sold in this market that would dress 25 lb per quarter, and compare favorably with the best English mutton. It is a lamentable fact that the sheep raisers of this country, as a general thing, do not understand the art of making good mutton, and that the better it is the more profitable to the maker, and the more it is used the greater the demand will be, and consequently an increased profit to the producer.

Robert H. Hume sold, at Browning's, 2,331 sheep at $6 98 each. Many of them were thin, but a few were sold last week at 8½c., or nearly $9 per head, being large and fat.

Capt. R. McGraw gives sales of 2,304 sheep and lambs at $6 70 average per head.

Chamberlin gives through salesmen Kase & McPherson, John Kase, jr., Judd & Buckingham, A. Van Wert, and owners, the following sales: 386 sheep, $8 52; 379 sheep, $8 25; 350 sheep, $7 50; 260 sheep, $6 60; 194 sheep, $6 50; 187 sheep, $6 33; 186 sheep, $6 25; 190 sheep, $6; 226 sheep, $5 87; 170 sheep, $5 75; 340 sheep, $5 50; 370 sheep, $5; 225 sheep, $4 82; 322 sheep, $4 50; 31 lambs, $8 25; 142 lambs, $7 50; 61 lambs, $7 25; 189 lambs, $7 12; 100 lambs, $7; 119 lambs, $6 75; 108 lambs, $6 50; 50 lambs, $6 33; 197 lambs, $6 25; 94 lambs, $6; 200 lambs, $5 75; 35 lambs, $5 50; 56 lambs, $5 37; 67 lambs, $5 25; 74 lambs, $5; 54 lambs, $4 50; 113 lambs, $3 50.
