MONDAY, Sept. 18—P. M.

Gold has been steady at 143⅛@143⅞, closing at 143⅞.

The adverse news from London in regard to Government stocks had no effect upon prices. Border State stocks firm and in demand. The miscellaneous Shares were inactive and dealt in moderately. Railway Shares steady with small transactions. The registered sales at the Stock Exchange are the smallest for a long period. Holders are very firm, and no large amount of any stock could be obtained without paying a good deal higher prices. For Pacific Mail Scrip 185 was bid, an advance of 40 per cent since its issue.

At the Second Board the market was generally dull and heavy. Cumberland and Mariposa were very excited and strong, the former selling at 45⅛, and the latter 13. After the call the market improved, and stocks were in fair demand. The closing prices were: New-York Central, 93⅛; Erie, 87⅛; Hudson, 110; Reading, 107⅛; Michigan Southern, 67⅞; Illinois Central, 126⅛; Cleveland and Pittsburgh, 71; Rock Island, 111⅛; North-Western, 47⅞@28; North-Western Preferred, 61⅛; Fort Wayne, 97⅛; Prairie du Chien, 51⅛.

Money continues easy, and at 5@6 per cent borrowers on call supply themselves with great facility. In commercial paper no change of consequence. For first-class bills, 6⅛@7 is the rate, and for second-rate, 8@9½ per cent. The weekly bank statement is as follows:

The Pacific Mail Ship Company is understood to have acquired possession of the Atlantic Mail Ship Company, and will operate the whole line between New-York and China. At the close of the day 200 was bid for Pacific Mail Scrip and 150 for Atlantic Mail. The terms of consolidation are deemed satisfactory by the Atlantic Company, and its stock is held very firmly.

The market for Exchange is quoted firm. The rates by leading houses are now quoted: Bankers' Sterling, 60 days, 109½@110; Bankers' Sterling, 3 days, 110⅛@110¾; Merchants, 108⅛@108¾; France, long date, 5.17⅛@5.16¼; France, short date, 5.15@5.13¾.

The business of the Sub-Treasury was: Receipts, $2,223,623 15—for Customs, $343,000. Payments, $3,465,288 91—on account of Loan, $163,500; Balance, $70,099,109 34.

Freights are firm; the engagements to Liverpool per steamer, 300 bales Cotton at ⅛d.; 1,000 boxes Cheese at 40s.; 100 boxes Bacon at 25s. To Glasgow per steamer, 1,000 boxes Cheese at 40s.

The New-Orleans Price Current of Sept. 8 thus reviews the Cotton market:

Arrived since the 31st ult. of Louisiana and Mississippi, 19,165 bales; Lake, 51; Mobile, 278; Florida, 48; Texas, 151; together, 19,683 bales. Cleared since the 31st ult. for New-York, 6,400 bales; Providence, 341; Philadelphia, 30; Havre, 1,930; Liverpool, 5,420; together, 14,126 bales. Stock in warehouses and on shipboard not cleared on the 7th inst., 88,796 bales.

We left the market at the close of last week ruling at 30@32c. for Ordinary; 35@37c. for Good Ordinary; 39@40c. for Low Middling; 42c. for Middling, and 43c. for Strict Middling, since which prices have materially improved, the closing rates yesterday being 2@3c. higher than last week's figures, as will be seen from the following details:

On Friday, the first day of the commercial week, the market opened with a very good inquiry; but the movement was checked by the stringent pretensions of factors and rainy weather, which confined the business to 1,400 bales, at full prices, without any quotable advance. On Saturday the demand continued active; and, notwithstanding factors were still less willing to meet it unless at extreme prices, 1,650 bales changed hands at figures showing an improvement of nearly or quite 1c. ℔ lb. The receipt of the correspondence by the New-York mail gave an additional impulse to the demand on Monday, when the sales summed up 3,800 bales at still higher rates, Ordinary ruling at 32@34c., Good Ordinary at 37@39c., Low Middling at 40@42c., and Middling at 44@45c. On Tuesday the movement was interrupted by an unusually heavy rain-storm, and by the large business of the previous day having so reduced the supply offering as to leave little scope for buyers, and the business was confined to 500 bales at about previous rates. On Wednesday, with some fresh lists on factors' tables, less unfavorable weather, and the demand stimulated by an increased supply of steam-freight room, and easier rates of freight, buyers came forward with renewed spirit and took 2,600 bales at still fuller prices, Good Ordinary commanding 38@40c., Low Middling 41@43c., Middling 44@45c., and Good Middling 47c.

Yesterday the market opened with a moderate inquiry and the prospect of an average business, but owing to the high pretensions of the factors, the expectations of late accounts from New-York, and deliveries being interrupted by the weather, (some lots purchased last week not having been yet delivered,) buyers withdrew, and the sales were confined to 500 bales at full prices. This makes a total for the week of 10,400 bales, against 7,100 last week, and 15,600 the week before.

We now modify our quotations as follows: Ordinary, 33@35c.; Good Ordinary, 38@39c.; Low Middling, 41@42c.; Middling, 44@45c.; Strict Middling, 46c.; Good Middling, 47@48c.

Statement of Cotton—Stock on hand, Sept. 1, 1865, 83,239 bales; arrived past week, 19,683 bales; total, 102,922 bales. Exported past week, 14,126 bales; stock on hand and on shipboard, 88,796 bales.

The following National Banks were authorized during the week ending Saturday, Sept. 16:

Raleigh National Bank of North Carolina, Raleigh, N. C.....	$50,000
First, Lynchburg, Va.....	100,000
Atlanta National Bank, Atlanta, Ga.....	100,000
National Bk. of Huntsville, Huntsville, Ala.	100,000
Capital of New Banks.....	350,000
Previously authorized.....	$394,960,333

The whole number of National Banks now authorized is 1,560, with an aggregate capital of $395,310,333.

Amount of Circulation issued to the National Banks for the week.....	$3,421,350
Previously issued.....	179,981,520
Total.....	$183,402,870

The Pottsville Miners' Journal of Saturday says:

The quantity of coal sent by railroad this week is 82,453 14; by canal, 38,394; for the week, 120,847 14 tuns, against 102,976 for the corresponding week last year.

The trade sums up this week as follows, compared with last year:

	—1864.—		—1865.—	
	Week.	Total.	Week.	Total.
Total....	240,743	7,391,749	219,735	6,070,371
	219,735	6,070,371		
	21,008	1,321,378		

The loss for the week is 21,008 tuns, and for the year 1,321,378 tuns, so far. This is a heavy loss, but hereafter the increase in the supply, we hope, will be sufficient to meet all the demand. It is not the interest of the coal trade that prices should run up too high. Too high prices are just as injurious as too low prices in their effects on all the different branches of the business.

The Cincinnati Commercial of Saturday says:

There is not much of a pressure to borrow money, but there continues to be active use made of deposit balances. Receipts of currency by the merchants are large, and these tend to keep the market in easy condition. But little standard paper is now rated above 10 per cent.

There were transactions in Quartermasters' Vouchers at 95@98c., the latter rates applying to old dates. Some inquiry is made for them for for investment.

The Chicago Tribune of Friday reports on the market of that city:

The demand on the banks for currency continues active, and the money market is close and stringent. The leading discount houses barely manage to supply their best customers at the usual rate, viz., 10 per cent per annum; while outsiders have to go to street brokers and negotiate at 1@2 per cent per month. The demands by speculators are generally discountenanced, but where bank directors and heavy stockholders are the leading operators in gambling transactions, it does but little good to shut off the small dealers. When the officers of our banks combine to block the wheels of trade and commerce, it is useless to attempt to set matters right by refusing accommodations to those who have but little power to do either good or evil.

The supply of Eastern exchange is on the increase, but it is not equal to the demand, and we have to note a firm market at par buying and 1-10 premium selling. Bankers paid 50c. premium for round lots. Some of the heavy houses had to express largely of Treasury notes to meet their drafts. This continued drain on the supply of currency is rendering the money market closer every day.

The Chicago and North-Western Railway Company earned for the second week in September:

1865...$204,885 44 | 1864...$151,635 97 | Inc..$53,249 47
