FRIDAY, Oct. 6—P. M.

Gold has been much excited and sold as high as 149. The lowest point of the day was 146¼. The advance has been created by the purchases of a clique of secesh operators. The closing quotation was 146¾.

Government Stocks are steady, with quite large sales. The 7.30 loan is active at 98¼ for 3d and 99 for 1st series. Tennessee 6s are lower and sold at 84¼. Railroad mortgages are neglected. Delaware and Hudson rose 1 per cent. Cumberland fell ¼ per cent, and was offered freely without finding buyers. Railway shares were much excited and the sales very heavy. The supply of cash stock was abundant, and under pressure to realize profits lower rates were made. Erie sold as high as 93, as low as 89¾, and closed at 89¾. Fort Wayne sold as high as 102, and Cleveland and Pittsburgh at 87. The sales at the Stock Exchange exceed any recorded for many months. At the public board prices were lower, but after the call rallied. At the Second Board the market was very excited, and large amounts of stock was pressed for sale at a decline. In the street the market was irregular and generally lower. Michigan Southern was heavy, and sold down to 79¼; North-Western Preferred, 65¼. The closing prices were: New-York Central, 98¾; Erie, 89¾; Hudson River, 107¾; Reading, 116; Michigan Southern, 79¾; Cleveland and Pittsburgh, 81¾; Cleveland and Toledo, 109¾; Rock Island, 110; North-Western, 30; ditto Preferred, 65¼; Fort Wayne, 98¼; Prairie du Chien, 56¼; Ohio and Mississippi Certificates, 29¼; Canton, 42¼; Cumberland Coal, 47; Quicksilver, 49¼.

Money is dearer and call loans are quoted at 6@7 per cent, with all the new business at the latter rate. There is less disposition to buy commercial paper, and 7@9 is the quotation for best. Second rate sells at 10@12 per cent. The Banks are not disposed to extend their discount line, and in all departments the price of money favors the lender.

For Sterling bills, there is a good demand at the full rates of yesterday: Bankers' Sterling, 60 days, 109¾@110; Bankers' Sterling, 3 days, 110¾; Francs, long date, 5.16¼@5.15; Francs, short date, 6.13¼@5.12¼.

Freights are firm. The engagements to Liverpool are, 700 bales of Cotton at ⅞@¾d.; 4,000 bush. Peas at 4¼@4½d., and 5,000 staves on private terms; a ship to Leghorn with 1,200 hhds. Tobacco at 37s. 6d., and a British vessel to Pernambuco and Bahia at 90@95c. ℔ bbl.

Dry Goods are not so active, and prices as a whole are barely steady.

The following correspondence will be found of interest to dealers in Government stocks:

NEW-YORK, Sept. 27, 1865.

To the Hon. HUGH MCCULLOCH, *Secretary of Treasury of the United States.*

DEAR SIR: Will you please advise me your course in regard to stolen or lost Governments.

Suppose, for instance, that any broker, or banker, buys a bond or any other issue of the Government in good faith, it being negotiable, payable to bearer, and it should prove to have been lost or stolen from a former buyer or owner, do you, as Secretary of the Treasury, protect the original owner, to the prejudice of the innocent buyer?

If so, do you also protect the original owner of a compound interest note in like manner?

I believe under our State Law the innocent holder of like securities is protected under the law. Is there a different law for Government securities? Respectfully,

A. JENKINS, No. 44 Pine-st.

TREASURY LOAN DEPARTMENT, Sept. 28, 1865.

SIR: Your letter of the 27th has been received.

There is no different law for Government than for other negotiable securities. The rights and liabilities of parties purchasing and holding the negotiable bonds and notes of the Government, i. e., those payable to bearer, are not affected by the fact of their being issued by the Government.

Whether, then, your question refers to compound interest notes, or any other form of these securities, a purchaser in good faith, for a valuable consideration, would be protected, notwithstanding that they had before been lost or stolen.

It has, however, been the practice of this Department, at the request of those losing coupon bonds and other securities payable to bearer, to enter their caveat, and, suspending payment of them when presented, to notify the parties respectively, to enable them to furnish the Department evidence touching the questions of ownership, good faith and whether the purchase was for value, so that it may act advisedly in making payments.

Very respectfully,

W. E. CHANDLER, Asst.-Secretary.

A new Express Company has been formed under the title of the National Bankers Express Company, with a capital of $10,000,000, subscribed by the leading bankers, railroad and other substantial business men of the country. They propose to make immediate arrangements for carrying on a general express business, which will be begun at an early day, and extended as rapidly as circumstances will permit. There is a public necessity for some competition in this vast business, and the names and character of the gentlemen engaged in this company are a sufficient guaranty for the safe and honorable conduct of its affairs.

The Trustees of the National Bankers' Express Company met at the St. Nicholas yesterday, and completed their organization. The following gentlemen are the trustees and officers of the Company:

Trustees—Edward B. Judson, Thomas B. Fitch, Alfred Wilkinson, George Barnes, Alfred A. Howlett, George N. Kennedy, Orin Pallard, Jacob Crouse, Wm. W. Teall, Alex Monroe and Daniel P. The officers are:

The Inspectors of Election are:

John E. William, C. P. Leverick and H. F. Vail of New-York.

The Executive Committee are:

This competition will enable railroad managers to sell the privileges now enjoyed by a monopoly for a sum in a reasonable degree proportionate to its value, to the advantage of their stockholders, who are defrauded of the most profitable part of their traffic. Railroad managers should now go a step farther and organize an "express" department on their routes and supersede all outside organizations. If this were done railway property would have new value. As they are at present managed, some (corporation within a corporation) manages to get the cream of the profits, and nothing is left for the shareholders but the poorer part.

The earnings of the Chicago and North-Western Railway Company for the month of September were:

1865...$930,315 33 | 1864...$669,604 75 | Inc. $260,710 58

The Michigan Central Railroad earned for the month of September:

1865...$469,661 28 | 1864...$408,444 58 | Inc...$52,216 66

The earnings of the Marietta and Cincinnati Railroad for the fourth week of September, 1865, were:

1865.....$35,581 22 | 1864.....$31,600 57

	1865.	1864.

The Boston Traveller says:

The conversion of compound interest notes into five-twenty bonds is taking place with a good deal of rapidity. Call loans 6 per cent. Indorsed notes of the first class 7 to 9 per cent.

The Cincinnati Commercial of Wednesday says:

Money is esteemed as worth 10 per cent, and rates below that are looked upon as a favor, having a consideration in some other shape. The showing made by the National Banks reveals the fact that money has not been idle on the discount side of banking and a claim that mercantile indebtedness is light would not be justified.

The Chicago Tribune says:

The money market continues stringent and close. There is a very active demand, and the banks are discriminating largely in favor of the best quality of paper. The rate of discount is steady at 10 per cent per annum. Eastern Exchange was in limited request and the market was dull at 1-10 discount buying, and par to 1-10 premium selling. Round lots were sold by the banks to each other at 50c. per thousand discount.

The New-Orleans Picayune thus reports on business on the 25th September:

We have no material variation to notice in foreign exchange. The sales of sterling included about £15,000 at 152¼@153¼ for bill of lading bills; 154 for good clear bills, and 155 for first class; £6,000 bill of lading and clear (1,000, 2,000, 2,000) at 153¼, and £2,500 clear at 154. Nothing was reported in francs. We continue to quote sterling at 152@155¼ for private bills, and 156@157 for bank; and francs at 3.65@3.70 for the former, and 3.60@3.62½ for the latter. There being no mail for the North, there was but little remittance demanded for domestic exchange. The banks and dealers generally checked on New-York at ¼ discount, but we are aware of $88,000 in two bank checks passed at 1¼.

The market for Cotton opened this morning with a fair demand, and although the movement was checked by the stringent pretensions of factors, the sales summed up 2,100 bales, embracing 800 to one party, and 300, 250, 160, 150, 150, 150 and 60 to others. We have no quotable change to note in prices. The good effect of a reported improvement at New-York and Liverpool 46c. being said to be the quotation in the one market, and 19d. in the other—was neutralized by a scant supply of steam freight room for New-York and a further improvement in rates. We consequently continue to quote Ordinary at 33@35c.; good Ordinary at 38@40c.; low Middling at 41@43c.; and Middling at 44@45c.
