THIRTY-FIRST CONGRESS.--Second Session.

WASHINGTON, Jan. 17, 1851.

Mr. Hall moved to lay the bill on the table.

Mr Jones called for the reading of the bill. It provides for a postage of three cents on each letter not weighing over half an ounce —no post-office or postroute to be discontinued, or compensation for Postmasters to be diminished in consequence of the passage of this bill.

On printed matter of no greater weight than two ounces, one cent. Bound books not weighing over two ounces to be deemed mailable matter. Newspapers delivered within the State where they are printed, chargeable with only half of the foregoing rates. No postage on those mailed to actual subscribers in the county where they are printed, or within thirty miles from the place of publication. Fifty per cent, to be deducted from the postage on magazines, when prepaid.

Three cent pieces made three fourths silver, one fourth copper.

Stamps as now, to be provided and sold at the post-offices. Forgery of them to be punished by fine and imprisonment.

One million and a half of dollars to be appropriated to meet the deficiencies in the revenue.

Letters uncalled for within a period of two weeks, to be published once only.

The Postmaster General to establish suitable places of deposit for letters in cities and towns, to be collected and delivered by carriers, at one or two cents each.

A motion to lay the bill on the table was negatived—yeas 61, nays 139.

The question was then taken on agreeing to the first amendment of the original bill, namely substituting three cents uniform for the three and five cents postage rates, and was decided in the affirmative—yeas 121, nays 83.

The other amendments was agreed to.—The one establishing penny posts, by yeas 106, nays 69.

The bill, the synopsis of which is given in the preceding part of this report, was then passed—yeas 130, nays 75.

REPORT

Of the President and Managers to the Stockholders of the Philadelphia and Reading Railroad Company.

The managers submit the following statements of the business of the fiscal year ending November 30, 1850:

Transportation and Income Account for 12 months ending Nov. 30, 1850.

CR.

Travel 22,726, equal to 46,641 through passengers,	$119,578 99

Total interest for '50 on bonded debt,	$600,672 00	
One year's interest on bonds and mortgages $600,000, at 6 per ct.	$12,591 00	
Total interest for the year,	$613,264 00	
RENEWAL FUND.		
Three cents per 100 tons, on 297,148,427 tons transported one mile during 12 months ending Nov. 30, 1850,	$89,122 53	
		$702,386 53
Dividend fund for the year,		$819,948 64
Which has been disposed of as follows:—		
Dividend on preferred stock, 6½, 6th, 30th June 3½ per cent. and 31st Dec. 3½ per cent.,	$112,676 19	
For balance at the Dr. of Renewal Fund, including the cost of ten new locomotives, &c.,	70,718 55	
For cost of land, &c., at Depot at Pottsville,	9,127 88

ADVERTISEMENT
Bounty Land and Pension Agency,
WASHINGTON, D. C.

THE undersigned Attorney and General Agent at the City of Washington, offers his services in procuring Bounty Lands and Pensions for those entitled. Being permanently located at the seat of Government, with a thorough and familiar acquaintance with the necessary forms and routine of business, and having access to Registers and Rolls located in the U. S. War office, he presents a claim for the speedy and satisfactory adjustment of Government claims of every kind.

By a late Act of Congress, Bounty Land is granted to the officers and soldiers of the war of 1812, and of the various Indian wars, since 1790. To those who served nine months 160 acres; to those who served four months 80 acres; and to those who served one month 40 acres.

Arrangements have been made with good men of the Legal profession in different sections of the Country, for the location of warrants, and for selling the patents. When issued, on the most advantageous terms; for the payment of taxes, redemption of lands, sale for taxes; collection of debts; and for the transaction of general Law business, in the different States and Territories.

He begs leave to refer to members of the profession at a distance, and when claims against the Government are prepared by a Local Agent, will name one fair by usual fee.—The necessary forms and instructions, and information on all subjects appertaining to a successful prosecution of this business, will be furnished to regular Correspondents without charge.

Persons sending information of friends in the army or navy, will oblige him all the particulars to cover their services, together with a list of their dates, and their enquiries will be replied to by return mail. All communications to be prepaid and addressed to

TO CAPITALISTS.

TWO parties, one of whom owns an interest in nearly 30,000 acres of Timber land on the waters of the West Branch of the Susquehanna; the other owing a Double Steam Sawmill on the main River below Northumberland. These parties are willing to join their property together as a common stock, provided they can obtain the aid of a third party, either as a partner, under the special partnership law, or under the general *incorporation act* passed at the session of 1850; under this arrangement the money required can be supplied by one or many. Said Mill is built in the best manner, is nearly new, and is capable of turning out at least 6,000 feet of lumber every 24 hours—and being on the Pennsylvania Canal; the lumber could be sent to Philadelphia as fast as manufactured. It is the intention of the parties to build two other and larger Mills on water powers connected with the property so as to finally bring the amount manufactured to ten millions feet per annum. There are other parties having an interest in the land who are willing to sell on reasonable and accommodating terms. TWENTY THOUSAND DOLLARS will be required to set the business fairly afloat—and the profits of the business will do the rest. The parties advertising would be willing to assign their interest in the profits of the concern to the party making the advances, for as much as their shares of the advance might be beyond their interest in the property. The person or persons making the advances to have *at his option* either one third or one half of the property acquired or to be acquired. There is no such other opportunity for an investment in Timber lands in this state. For particulars apply to

A. JORDAN,
Attorney at Law, Sunbury.

N. B.—Something more than one half the above stated sum would be required between this time and March next to cut, haul and float timber to the Mill.

The Pennsylvania Enquirer and North American, Philadelphia; and the Baltimore American, are requested to give the above advertisement 6 insertions, *every other day*, and send their papers containing the advertisement, and their bills as above.

Sunbury, Jan. 4, 1851.—6t.

TO PHYSICIANS AND OTHERS.

THE subscribers offer to physicians and druggists, a carefully selected stock of drugs and medicines, which they will guarantee to be of the best quality, pure and unadulterated in all cases. Their facilities for importing foreign drugs and chemicals are such, that they are enabled to sell them upon the best terms, and at the same time to assure their customers of their genuineness.

They have also recently prepared and now offer for sale a superior article of

CALCINED MAGNESIA, &c.,

Resembling Henry's Magnesia, free from carbonic acid and roughness or grittiness, almost entirely tasteless, combining in an equal bulk from three to four times the strength of the common kind, and sold at about one half the price of Henry's Magnesia.

They have also prepared the

Fluid Magnesia,

Which is a new and valuable remedy in acidity of the stomach, heartburn, nausea, &c., at less than half the price of the foreign article.

They also have on hand of their own preparation an assortment of

Pure Drugs in Powder,

Neatly put up in 1, ½ and ¼ pound bottles, such as Aloes, Rhubarb, Senna, Senega, Rhatany, Kino, Gum Arabic, Serpentaria, Ext. Glycyrrh, Ipecac, Potassa Sulph., Potassa Nitras, Borax, Spiglia, Buchu, Orris, Cascarilla, Canella Alba, Uva Ursa, &c.

Great care has been taken to have these prepared from the best selected drugs and in such a way as to preserve the characteristics of each article without injury.

They have also a variety of

Chemical & Pharmaceutical

Preparations of their own manufacture, and add to the list all the valuable new remedies as they become known. Among them may be mentioned the following:

WELLAR'S
PATENT JAPAN BLACKING.
Manufactory, No. 50 CHESTNUT Street,

MEDAL, awarded by the FRANKLIN INSTITUTE of Philadelphia in October,

AND THE

FIRST PREMIUM by the MARYLAND INSTITUTE, at Baltimore, Nov. 1848 and 1849.

Philadelphia, October 26th, 1848.

I have used J. Wellar's Patent Japan Liquid and Paste Blacking for some nine months, and am happy to say that it surpasses any blacking that I have used these twenty odd years. I find it holds the polish and preserves the leather better than any blacking that I have ever tried.

ANOTHER SCIENTIFIC WONDER
PEPSIN!
THE TRUE
DIGESTIVE FLUID,
OR
GASTRIC JUICE!
A GREAT DYSPEPSIA CURER,

Prepared from RENNET, or the fourth Stomach of the calf after directions of BARON LIEBIG, the great Physiological Chemist, by J. S. HOUGHTON, M. D., No. 11, North Eighth Street, Philadelphia, Pa.

This is a truly wonderful remedy for INDIGESTION, DYSPEPSIA, JAUNDICE, LIVER COMPLAINT, CONSTIPATION, and DEBILITY. Curing after Nature's own method, by Nature's own agent, the Gastric Juice.

☞ Half a teaspoonful of this Fluid, infused in water, will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

DIGESTION.

DIGESTION is chiefly performed in the stomach by the aid of a fluid which freely exudes from the inner coat of that organ, when in a state of health, called the Gastric Juice. This fluid is the Great Solvent of the Food, the Purifying, Preserving, and Stimulating Agent of the stomach and intestines. Without it there will be no digestion,—no conversion of food into blood, and no nutrition of the body; but rather a foul, torpid, jaundiced, and destructive condition of the whole digestive apparatus. A weak, half dead, or injured stomach produces no good Gastric Juice, and hence the disease, distress and debility which ensue.

PEPSIN AND RENNET.

PEPSIN is the chief element, or great Digesting Principle of the Gastric Juice, it is found in great abundance in the solid parts of the human stomach after death, and sometimes causes the stomach to digest itself, or eat itself up.—It is also found in the stomach of animals, as the ox, calf, &c. It is the material used by farmers in making cheese, called Rennet, the effect of which has long been the special wonder of the dairy. The curdling of milk is the first process of digestion. Rennet possesses astonishing power.—The stomach of a calf will curdle nearly one thousand times its own weight of milk. Baron Liebig states that, "One part of Pepsin dissolved in sixty thousand parts of water, will digest meat and other food." Diseased stomachs produce no good Gastric Juice, Rennet or Pepsin. To show that this want may be perfectly supplied, we quote the following

SCIENTIFIC EVIDENCE!

BARON LIEBIG, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid analogous to the Gastric Juice, may be easily prepared from the mucous membrane of the stomach of animals, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. PEREIRA, in his famous treatise on "Food and Diet," published by Fowlers & Wells, New York, page 35, notes the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. COMBE, in his valuable writings on the "Physiology of Digestion," observed that "a diminished or feeble quantity of the Gastric Juice is a prominent and all-pervading cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding every thing else to fail, had recourse to the Gastric Juice, obtained from the stomach of living animals, which proved completely successful."

Dr. GRAHAM, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomach of animals, immersed in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Dr. SIMONS' great work, the "Chemistry of Man," (Leo & Blanchard, Phila. 1846, pp. 261-2) says: "The discovery of PEPSIN forms a process in the chemistry of Digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Gastric Juice itself."

Professor DUNGLISON of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals are well known. "In all cases," he says, "digestion was carried as perfectly in the artificial as in the natural digestion."

AS A DYSPEPSIA CURER,

Dr. HOUGHTON'S preparation of PEPSIN has produced the most marvellous effects, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the very verge of the grave. It is impossible to give the details of cases in the limits of this advertisement—but authenticated certificates have been given of more than TWO HUNDRED REMARKABLE CURES, in Philadelphia, New York, and Boston alone.—These were merely all desperate cases, and the cures were not only rapid and wonderful, but permanent.

It is a great NERVOUS ANTIDOTE, and particularly useful for tendency to bilious disorder, Liver Complaint, Dyspepsia, Gravel, or Inability to Digest Food. Even the evil effects of Quinine, Mercury, and other drugs upon the Digestive organs, arising from long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost restores Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of OLD STOMACH COMPLAINTS which it does not seem to reach and remove at once. No matter how long you have suffered, yet it PROVES INSTANT RELIEF! A single dose removes all the unpleasant symptoms, and it only needs to be repeated, for a short time, to make these great effects permanent. PURITY OF BLOOD and VIGOR OF BODY, follow at once. It is particularly excellent in cases of Nausea, Vomiting, Cramps, Soreness of the pit of the Stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Price, ONE DOLLAR per bottle. One bottle will often effect a lasting cure.

PEPSIN IN POWDERS.

☞ SENT BY MAIL, FREE OF POSTAGE.

For convenience of sending to all parts of the country, the DIGESTIVE MATTER OF THE PEPSIN is put up in the form of Powders, with directions to be dissolved in water or syrup, by the patient. These powders contain just the same matter as the bottles, but twice the quantity for the same price, and will be sent by mail, FREE OF POSTAGE for ONE DOLLAR sent (postpaid) to Dr. J. S. HOUGHTON, No. 11 North Eighth street, Philadelphia, Pa.

Six packages for five dollars. Every package and bottle bears the written signature of J. S. HOUGHTON, M. D., sole Proprietor.

Sold by agents in every town in the United States, and by responsible dealers in Medicines generally.

NOTICE
TO EDITORS AND OTHERS.

New York, Nov. 25th, 1850.

MR. H. B. MASSER, Sunbury Pa.—Dear Sir:—In some portions of the country where we had advertised our Sarsaparilla, in 1848, the Editors of some of the papers have seen fit to take upon themselves the responsibility of continuing the same after the agreement expired, and in some cases have had the presumption to send us a bill for the amount. Now we have no objection to have all the papers in the United States advertise for us for years, if they are pleased to do so at their own expense, but we cannot afford to pay them unless they have our authority for the work. We write to you for the purpose of informing the Editors, through you, that they are at liberty to advertise as long as they please, but we must not be held responsible without our written authority.
