THURSDAY, Dec. 14—P. M.

Gold opened at 145¾ and closed at 144¼.

Government stocks are all higher and in good demand for investment, with some inquiry for shipment. The old 5-20s have sold as high as 104¼, and the first issue of 7.30s at 98. Under the improved feeling in Governments, the Treasurer will have no trouble in making a new loan for the purpose of clearing off his floating debt now running at 5@6 per cent in currency. At no distant day he will have new borrowing powers, and enough to enable him to fund all the surplus currency, to which he should give his first attention. The Railway share market was lower, and the disposition was to sell freely for cash and on sellers' option. Cleveland and Toledo sold at 109, an advance of 4 per cent. At the Second Board Government stocks were not fully sustained, and the disposition to sell Railway shares continued. The December reports of the roads show a declining traffic, and there is nothing to warrant any improvement for some time to come. On the other hand, the indications are that the earnings will steadily recede. The closing prices were: N. Y. Central, 95¾@96; Erie, 92¼; Hudson River, 108¾@108¾; Reading, 115¾@115¾; Michigan Southern, 74¼@74¼; Cleveland and Pittsburgh, 92¾@92¾; Cleveland and Toledo, 109¾@109¾; Rock Island, 107@107¼; Northwestern, 35¼@35¼; do. Preferred, 61¾@61¾; Fort Wayne, 105¾@105¾; Ohio and Mississippi Certificates, 28¾@28¾; Canton, 45¼@45¾; Cumberland Coal, 44¼@44¾; Mariposa Mining Co., 14¾@14¾; Quicksilver, 47@48.

Money is plenty on call at 7 per cent among stock houses who are able to sell their accumulation of Railway shares with little difficulty. The old commission houses are borrowing comparatively little money, and the chief demand is from new firms. In commercial paper no variation. Best names pass at 7@9; second grade at 10@15 per cent. Bills at 60 days on London are 108¼@109¼ for commercial; 108¾@109¾ for bankers'; do. at short sight, 110@110¾; Paris, at 60 days, 5.18¾@5.13¾; do. at short sight, 5.11¼@5.10; Antwerp, 5.18¾@5.15; Swiss, 5.16¼@5.13¾; Hamburg, 36¾@36¼; Amsterdam, 40¼@41; Frankfort, 40¼@41; Bremen, 79¼@79¾; Prussian thalers, 71¼@71¾.

In Freights the engagements to Liverpool are 4,000 bales Cotton at 5-16d., 30 bales Sea Island do. at 5-8d., 20,000 bush. Corn at 5¼d. in shippers' bags, 100 hhds. Tallow at 17s. 6d., and per steamer, 150 bales Cotton at 5-8d., and 12,000 bush. Corn at 6d.

The business of the Sub-Treasury was: Receipts, $1,394,921 87—for Customs, $379,000; Payments, $2,655,557 80—on account of Loan, $363,000; Balance, $74,598,319 78. Coin Certificates, $412,660.

The shipments of Pittston Coal to Dec. 9 were:

1865	546,648	1864	748,924	Dec.	202,276

Messrs. Eugene Kelly & Co. will pay, 1st proximo, coupons of the Central Pacific Railroad Company s bonds, less Government tax.

The Ninth National Bank has declared its semi-annual dividend of 5 per cent, free of Government tax, out of the six months earnings ending 31st inst.

Mr. Isaac G. Ogden, jr., of the firm of Robinson & Ogden, bankers and dealers in Government securities, was to-day elected a member of the New-York Stock Exchange.

The Collector of Internal Revenue for Montana Territory, in a letter received by the Secretary of the Treasury to-day, says that the product of the gold and silver mines of that Territory for the year 1865 will be upward of $16,000,000. In 1862 the Territory was a wilderness.

The report of the New-York Central has had a depressing effect upon Railway property. To break its force it is argued that legislation is desired and that important facts are concealed. Every one employing labor, and engaged in transportation knows that this argument of concealment is unfounded, and that the statements of its managers are correct. Everything Railways have bought for the past four years has been steadily advancing, and they have been unable to get a corresponding advance upon their fares and freights, both of which are now levied upon by express companies, transportation agencies and ticket agencies to a degree hardly credible, and which calls for immediate reform.

We are asked the nature of the Erie Transportation Company. Its capital, we have been told, is nominally $300,000, and was originally distributed among the leading officials of the Erie Company, and of several Eastern and Western lines, forming what is known in legislation as a "ring." This Company for its "services" was to receive 6 per cent upon all Western bound freight delivered to the road, and 4½ per cent upon Eastern bound, and the chief labors of its officers were to collect the rent and divide it among the shareholders. If its present and past shareholders' names could be given they would include parties fully paid by salaries from the Erie Road, and without any claim in the form of subsidy upon traffic under their charge.

The Pittsburgh, Fort Wayne and Chicago Road earned in November:

1864	$621,556	1865	$712,000	Inc.	$90,444

The Norwich and Worcester Road earned in November:

1864	$53,726 92	1865	$60,098 29	Inc.	$6,371 37

Earnings for the year ending Nov. 30:

1864	$626,872 73	1865	$704,876 49	Inc.	$78,003 76

The Cleveland and Pittsburgh transfers close today (15th) and open on the 3d of January, 1866, and will not be closed again for the dividend payable January 10. The earnings of the road in November were in

1864	$220,062 63	1865	$220,137 81	Increase	$75 18

The Michigan Central has reduced its January dividend to 5 ⅌ cent, and will make no stock dividend.

The Illinois Central Railroad Company will pay 1st of February a dividend of 5 ⅌ cent. The books will close 20th January, and will reopen 3d of February.

The Chicago Tribune of Tuesday says:

The money market opens this week more stringent. The National banks, from this date to the close of the year, will have to contract their discount lines, so as to make a "fair show" in their quarterly reports on the first of January. The effect of this policy was felt to-day in monetary circles, and none but those who were clearly entitled to discounts were accommodated.

The rate of discount is unchanged. The banks are loaning their customers at 10 per cent per annum; but the private bankers generally charge 12@20 per cent. There is a good supply of second class paper on the market, and it sells on the street at 2 per cent per month, and we hear of transactions at even higher rates. The supply of Eastern Exchange is still very light, and the market remains firm at par buying and 1-10 premium, selling. One or two of the banks paid as high as 1-10 premium for round lots. The general produce markets to-day were firm.

With regard to the reported failures in the grain trade, of which we made mention last week, it is proper to state that we have good reason to believe that the total loss in consequence will not exceed $15,000, divided up among three or four firms. It was reported on 'Change to-day that a heavy grain firm at Polo, Ogle County, Illinois, had failed, and that some of our commission houses would suffer in consequence. It is said that the firm has overdrawn its account in this city to the extent of $40,000.

The Cincinnati Commercial of Tuesday says:

Exchange was easier to-day, with par, buying, 1-10c. premium selling, as the uniform rates. Some of the bankers experienced an enlarged demand for loans to-day from the regular customers, but this was rather the exception than the rule in the experience of the most of them. There is manifest caution as to the question of cash, it being much more positively regarded as the best thing to have about than it was.
