Wilmington Journal.

WILMINGTON, N. C.:

FRIDAY, APRIL 11, 1873.

STATE NEWS.

Eggs down to 16 cents in Newbern.

McDowell, M. G., U. S. A., is in Raleigh.

More Canadians prospecting around Greensboro'.

The pea vines are in blossom in the Newbern section.

Tarboro' votes on the "wet or dry" question in May.

W. W. Holden has assumed charge of the Raleigh postoffice.

Magnolia wants Duplin county to inaugurate a Fair at that place.

Several mad dogs have been killed in Tarboro' during the past week.

Raleigh has raised $8,050 of the $10,000 required for the State Fair Grounds.

Fifty colored and twenty-five white emigrants left Guilford county, Monday, for Indiana.

Otey, a colored barber at the Yorborough House, has contributed $10 to the State Fair Fund.

The census says there are 861 clergymen, 574 lawyers, 50 journalists and 1,143 physicians in North Carolina.

The annual meeting of the stockholders of the Western Railroad was to have been held in Fayetteville yesterday.

The Board of County Commissioners of Johnston county have determined not to grant any retail liquor licenses in that county.

During his stay of two months in this State, Col. Hickman initiated over twelve hundred people into the order of Good Templars.

The son of Mr. William Maxwell, who lives on the North Fork, in Ashe county, fell from a barn loft, on a rail, breaking his neck.

Mr. W. C. Bullock, a prominent and most estimable citizen of Granville county, died a few days ago. He was a leading member of the Presbyterian church.

The Magnolia Monitor says: The Baptist Church in this place was dedicated on Sunday last. Rev. Dr. Pritchard, of Raleigh, preached the dedicatory sermon.

United States Marshal Carrow has received the pardons from the President of the United States for James Sweezy, W. C. Dupree and Lawson Teal, sentenced as Ku-Klux to the Rutherford county jail.

Hon. Asa Biggs, President of the Board of Trustees of the Wilson Collegiate Institute, has been selected to deliver the Annual Address at the next Commencement, which takes place on Friday, the 27th of June.

The Weldon News says: We learn that Judge James F. Simmons, a son of our venerable friend, Captain James Simmons, of this place, has been appointed a Commissioner to the Exposition at Vienna, Austria, from Mississippi.

The Hickory Press says: Paul Anthony, a highly respectable and worthy citizen of this township, died on the 4th of the month, aged 88 years and 2 months. He was an unflinching Democrat—always ready at the polls to vote.

The Goldsboro Messenger says: Our friend, Dr. Daniel Cogdell, left here on yesterday evening for Raleigh, where he goes to place himself under treatment of Dr. Geo. W. Graham, for the recovery of his eyesight, which necessitates an operation.

The Petersburg Index says: A carload of sweet potato plantings, has just arrived from Beaufort, N. C., after a voyage of eight days. They were consigned to Messrs. Geo. W. Scott & Co. The yellow barks are sold at at 25 per bushel and the yams at $1.

The Goldsboro' Messenger says: The present Board of Town Commissioners have refused to grant recommendations for liquor licenses anywhere on East and West Center streets, and there is great commotion in the ranks of liquor sellers just now.

The Washington Express says: Two fires in the lower part of our county on Saturday, the 22d of March. Mr. Warren Ruff, of Blount's Creek, lost his house, and Old Mr. Sam. Cohen his house, furniture, out-houses, and nearly the clothing of his family. Thinking to save the house, scarcely anything was removed.

The Pee Dee Herald says: Two colored men, Thos. Mixon and Lamsh Ingram, in the river country in this county, had a difficulty last Sunday night, in which the latter had a deep gash cut in his head by an axe in the hands of the former. Ingram is now lying in a critical condition. Mixon's wife was at the bottom of the whole affair.

A dispatch to the Raleigh News from Macon Depot, Warren county, under date of yesterday, says:

"The Educational Convention held at Gardner's on Saturday and Sunday, in behalf of the endowment fund for Wake Forest College, was a complete success. A large crowd was present and much interest manifested, the subscriptions being liberal."

The Greensboro' Patriot says: We learn from Mr. W. A. Caldwell, who has just completed the school census, that there are within the corporate limits, children over six and under twenty-one years of age, as follows: white males 134, white females 125—total white 260; colored males 66, colored females 102—total colored 168. Total white and colored 428.

The Greensboro Patriot says: The passenger cars on the Richmond & Danville Railroad have attached within a patent apparatus showing the station the train is approaching. It is a very simple contrivance, and has attached to it a bell to attract the attention of passengers when the brakemen regulates it, as he does at every station. It is a decided convenience to travelers, and saves conductors the necessity of answering questions.

The Tarboro' Southerner says: A bright little boy, aged about seven years, and bearing the historic and reverred name of Robert Lee, was the first orphan received in the Asylum recently opened at Oxford.

He immediately became the recipient of the most lavish attentions, the Horner boys sending him many useful articles to which the little fellow had, no doubt, been a stranger all his life. The citizens also manifested the greatest interest in the child bearing the name of our dead hero.

The Raleigh News furnishes some statistics concerning the troops of this State during the war, the total of which was 121,897 men, which does not include 3,103 men operating under the command of the militia and home guard officers. Of the troops 61,635 were on the original rolls; 21,608 were recruits to original companies; 18,585 were conscripts; 3,203 were troops in State service; 4,203 junior reserves, and 5,686 senior reserves. They were classified in regiments and battalions. Of the regiments 4 were artillery, 4 cavalry, 60 infantry, 1 junior reserves and 1 senior reserves. Of the battalions 4 were artillery, 4 cavalry, 3 infantry, 5 junior reserves and 4 senior reserves. Besides this there were five North Carolina companies in the 10th Virginia Cavalry, seven in the 7th Confederate Cavalry, and one in each of the 62d Georgia and 61st Virginia Infantry. A good show for the old North State.

From the Frankfort Yeoman.

MAUD MOSELY.

A Floridian Pronounces Her Story False.

I see by a letter to the Chicago Times from Cincinnati, copied into the Courier-Journal of the 26th inst., a statement to the effect that a woman confined in the workhouse at Cincinnati, upon the charge of vagrancy, claims to be the daughter of Governor Mosely, of Florida, and a niece of Hon. Alexander H. Stephens, of Georgia. She calls herself Maud Mosely, and her age is set down at twenty-three. The whole thing is false from beginning to end. Governor Mosely was the first Governor of Florida, from 1845 to 1849. His wife died before he was elected Governor, and he never married again. He had two daughters, one married Mr. T. S. Horton, of North Carolina, in 1852, and the other married a merchant of New York, whose name I have forgotten, prior to that time. He had three sons, all of whom served in the Confederate army, and rose to distinction by their gallantry. Governor Mosely was originally from North Carolina, and came from there direct to Florida about 1828. He never lived in Savannah, Georgia, and was in no way connected with Alexander H. Stephens, by marriage or otherwise. Such articles as the one alluded to are infamous; and newspapers must be hard pressed indeed for reading matter to publish the statements of such a class of wretches and impostors. I am a native of Florida, and knew Governor Mosely and every member of his family intimately—the youngest of whom would, if living, be nearly double the age of the Cincinnati impostor.

Respectfully,

R. C. WILLIAMS.

Last to Vienna.

The President is paying his debts. He is rewarding all those who, in his time of trial, did him service, however disreputable. One of the most effective of his auxiliaries during the last campaign was a weekly newspaper in New York, illustrated, and called, by way of satire, the Journal of Civilization. It was spread broadcast through the land. Every boy and girl in the Union carried a copy, included every one delighted in it. It ridiculed hard-fisted veterans, on which circle the public looks with disgust. The personal peculiarities of prominent men were coarsely sketched. The filed of politicians was ransacked for caricatures. There was no fun. No one laughed. It was all grim, ferocious, and diabolical caricature, and it made a foreigner, regarding the expressive name of Oliver Cromwell, wanted but a final vowel to make it perfect. Mr. Greeley, an aged man, was pounded with a cruelty which sickened the country. Any man who knew the gentle character of Horace Greeley knew that the man who could lend himself to the libelous work which the world received, could lend himself to any kind of villainy, or to any degree of baseness. The time was when the occupant of the capital of one of the greatest States of the Union would have been ashamed to be associated with such a publication. Now it is the road to the Vienna Exposition.

Mobile Register.

AN ENGINE OF DEATH.

One Thousand Shots a Minute from a Tennessee Mitrailleur.

From the N. Y. Times of the 29th ult.

Yesterday, at Holskie's machine shop, corner of Cherry and Jefferson streets, a trial was made of a new mitrailleur invented by Mr. J. P. Taylor, of Tennessee. This most destructive implement of modern warfare has quite a number of novel features, which distinguish it from the Gatlin or Imperial mitrailleurs. One important one is that the gun-barrels are in a water casing, so that the heating of the barrels is impossible. The other is that the 24 barrels, starting at the breech in a circle, at their muzzles, are grouped in an ellipse. By this means a lateral or horizontal range is given, instead of one in which other guns of a similar character throw the projectiles, up and down, at right angles with the ground. The device for loading is also exceedingly novel. It is self-charging, something like the Henry rifle. Metallic cartridges are placed in hollow tubes, which are fed up to the chambers by the motion of a lever. A most ingenious device is used for firing, and on moving the crank and adjusting a simple mechanism, the mitrailleur may either be used to discharge its load *en fusillade*, the twenty-four shots going off one after another, or the whole may be fired at once. It has four chambers, each one of which can be put instantly in position, fired and cleared of its cartridges. In the fusillade firing, as exhibited yesterday, it discharged about 700 rounds a minute; when fired in a volley about 1,000. The calibre of cartridge used was 44, and at a distance of 300 yards the lateral range spread the balls about 35 feet to the right and left of a given centre. It is intended for the Vienna Exhibition. For use against cavalry and infantry it would be a most terrible arm, and it has excited great interest among our own artillery men.

Pinchback's Tactics.

It appears that before he left Washington, "Governor" Pinchback had his name placed on the roll of the House as Congressman at large from the State of Louisiana. He said that he expected to get into the Senate next winter, but that at any event he was not going to be left out in the cold, and would hold on to his commission as a member of the House until his senatorial claims were passed upon. Such providence and forethought on the part of Mr. Pinchback show that he has drank deeply of the wisdom of his carpet-bag associates.

Just as Expected.

When Erskine delivered his decision putting negroes on juries, it was at once expected that some Radical villany was to follow. And here it is.—The Atlanta Constitution says:

It will not be forgotten that at the election for Governor last year, a number of our citizens, who are Democrats, were arrested on charges of violating the Enforcement act by intimidating coalitional negro voters. The main instigator of the arrests was the United States District Attorney, Henry P. Farrow. The Federal grand jury is now investigating these cases, and several indictments have been found so far, we are informed. The fact has been developed that the present jury, under the new order, is composed mostly of negroes and white soldiers.—*Savannah Advertiser.*

A Startling Exception.

A recent medical writer says: "Sleep whenever you can; in the cars—anywhere when you get a chance—the great want of the age is sleep." This is not always safe advice to follow, as a Lawrence gentleman knows to his sorrow. He was recently afflicted with a bad cold, and to cure himself of it resorted to the method of bathing his feet in warm water and drinking a tumbler full of gin and molasses, prescribed by an amazed and respected friend of the family. Having got everything in order for carrying out the prescription, he sat down by the stove, his cold extremities immersed in hot water, a tumbler of smoking gin and molasses by his side. In this condition a sense of enjoyment stole over him, as he sipped the exhilarating liquid, and he fell asleep. His wife had gone to bed, and on awakening about 3 o'clock in the morning wondered why she was alone. Going down stairs, she was horrified to find her liege lord asleep in his chair, the fire out, his feet still immersed in the water, over which a cake of ice was formed, and an empty tumbler on the chair beside him. His cold isn't a bit better.

The Dome of the Capitol.

The dome of the Capitol at Washington is the most ambitious structure in America. It is 108 feet higher than the Washington Monument at Baltimore, 68 feet higher than Bunker Hill, and 23 feet higher than the Trinity Church tower at New York. It is the only considerable dome of iron in the world. It is a vast hollow sphere of iron, weighing 8,000,000 pounds. How much is that? Nearly 4,000 tons, or about the weight of 70,000 full-grown people, or about equal to 1,000 laden cars, which, holding four tons each, would reach two miles and a half. Directly over your head is a figure in bronze, "America," 14,985 pounds. The pressure of the iron dome upon its piers and pillars is 13,477 pounds to the square foot. St. Peter's presses nearly 20,000 pounds to the square foot, and St. Geneveive, at Paris, 66,000 pounds more. It would require, to crush the supporters of our dome, a pressure of 557,270 pounds to the square foot. The cost was about $1,000,000. The new wings cost about $6,000,000. The architect has a plan for rebuilding the old central park of the Capital and enlarging the park, which will cost about $3,200,000.

The Bee.

In Professor Agassiz's lecture on Friday night in New York he stated as follows a very curious fact concerning the history of the bee:

"There are also cases which exhibit an essential difference in the product of a fecundated egg and one which has not been fecundated. Upon such difference rests, for instance, the whole economy of the bee community. All the eggs laid by the queen bee prior to copulation produce males, and these males are what are called drones. The working bees are undeveloped females, and are the product of the unfecundated eggs. What is called the queen is the result of a special training of one of these imperfect females. The workers choose one of their number, and by peculiar treatment and mode of feeding, etc., develop her into a perfect queen, whose office it is to multiply the community."

Religious Revival in the North West.

The great religious revival which has been in progress in Denver City, Colorado, for the past two weeks, under the direction of Rev. E. P. Hammond, continues with increased interest. Several hundred conversions have been made. At the request of a prominent sporting man two hundred tickets were distributed yesterday among gamblers, saloons keepers and prostitutes. Many attended the meeting last evening, occupying reserved seats. Five or six of this class arose for prayer. The committee are visiting all the saloons, houses of prostitution, etc., to-day, praying with the inmates and inviting them to the meetings. They are received with respectful attention. Six prisoners in jail are said to be under deep conviction. Prayer meetings are held in jail every morning. The influence is extending among professional and business men.

Serious troubles are reported in Porto Rico, growing out of the slavery abolition agitation.

South Carolina Items.

Meningetis is prevailing in Abbeville to a considerable extent.

The Howard School (colored) in Columbia, has 450 scholars and 9 teachers.

Mr. J. M. Davis, of Abbeville, has invented an improved fire extinguisher and applied for a patent.

A large number of colored people who left Newberry county, some time ago for the West, returned last week.

A revival in the Methodist Church, at Chester, has continued seven weeks, and a lively interest is still manifested.

The resignation of Rev. J. E. White, as pastor of the Presbyterian Church of Chester, has been accepted by the Church.

It is estimated that two thousand tons of fertilizers have been disposed of in the Spartanburg market during the present season.

Colonel J. B. Palmer, president of the Charlotte, Columbia and Augusta Railroad, has gone North to make arrangements for buying an improved pattern of rail for his road.

The United States Circuit Court will commence its sittings at Charleston on Monday next. The civil docket will be called and disposed of, after which a few Ku-Klux cases will be tried.

The Times gives currency to the fact that Mrs. Fannie Goss has been appointed postmistress at Union Court House, vice A. A. Hamett appointed mail agent on the Spartanburg and Union Railroad.

Deputy United States Marshal John H. Williams, requests the Union Times to state that the District Attorney desires that it be generally known in Union county, that but few cases are to be tried at the coming term of the United States Court, and no witness will be paid for attendance who is not regularly subpenaed by the Marshal.

"Nix," writing to the Chester Reporter from Columbia says: We have had a visit from Gen. McDowell, the same who commanded the United States forces at first Manassas. He was here on an inspecting tour, and let me whisper something funny into your ear about the inspection. Gen. McDowell invited his "Certificatecy" Moses to join him in the inspection, as a matter of courtesy, I presume, which courtesy he was expected to decline—but "nary" decline. Moses went, and he saw, and—well we don't know whether he conquered or not, but he did carry the negro Adjutant-General Purvis with him, as part of his military family, and Purvis inspected too, went through all the ranks, looked at everything "as big a dog as anybody's dog" with a stump of a cigar in his hand, and it is said that the grumblings and suppressed curses of the subordinate officers and private soldiers, while this "darkey" was "going through them" with Moses and McDowell might have been likened to the rumblings of a threatening volcano. Regulars inspected by a militia officer, and he a "nigger!" What next? Well might the question be asked, and I would like to hear the reply.

A Virginia City man is the happiest man in the State. His wife has eloped.

George Francis Train is a sort of white elephant on the hands of the New York authorities

Thieves break in and steal in the Cincinnati station-houses to such an extent that the police have scarcely any clubs or overcoats left, and the authorities think of engaging a private watchman.

A shrewd old gentleman once said to his daughter: "Be sure, my dear, you never marry a poor man; but remember that the poorest man in the world is one that has got money and nothing else."

A lisping American ultramontane upholds the assertion that "German Protestantsh are more immortal than German Catholicsh," because they are known to be "Loother'an" Christians who hold to the Roman See.

We are inclined to believe that the women are going for the polls in dead earnest, from the fact that a party of nine married men talking politics in a Danbury grocery, on Saturday evening, seven were entirely bald.—*Danbury News.*

An Irishman, fresh from the ould country, found a tree full of green persimmons; climbing to the top of the tree he helped himself to the fruit. A passer-by heard him say: "By the powers and I'm the lad that can knock the socks off the man that poured vinegar on these plums."

That nervous youth in Louisville who recently, by mistake, slipped a nickel five cent piece into the parson's hand, instead of a $5 gold piece, which he had ready in another pocket, after three weeks of wedded bliss, thinks he paid pretty dear for his fun, after all, and regrets that the nickel was not a suspender button.

SPECIAL.

GREAT DISCOVERY!

BRADLEY'S PATENT ENAMEL PAINT,

Made from Pure White Lead, Linseed Oil and Zinc,

And Always Ready for Use.

READ THE FOLLOWING TESTIMONIALS:

THE PLAINS, Fauquier Co., Va., February 6th, 1873.

MR. C. P. KNIGHT—Sir:—The Paint came safely to hand as ordered—two kegs, five gallons each, and three buckets, one gallon each. As practice was slack, I did the job myself. Two weeks, not constant work, completed the house, two coats. The last coat I applied thick, and it is now perfect. I also SATISFIES ($35) per. gal. by the operation, which is an item just now with "Southern People." It should be generally adopted in this State. Any country lad can apply it.

I have never dabbled in such stuff as Testimonials, but I feel so my duty to praise the adaptability of your "Enamel Paint" to the wants of our people to excellency of material, in beauty of color, and in the fact of its being READY MIXED, but I give you free permission (if it is desirable to you) to make what use you think proper of this letter.

Very respectfully and truly,

S. McGILL, M. D.

BALTIMORE, Dec. 10th, 1872.

MR. C. P. KNIGHT—Dear Sir: It affords me much pleasure to say to you that the Bradley Patent Enamel Paint far exceeds my expectation in economy, beauty, and, I have every reason to believe in durability. More than twelve months since I painted the roof of my Hotel (Mansion House) with the Bradley Patent Enamel Paint, and I was so well pleased with it I determined to paint the outside of the Hotel, and am most happy to say it gives me the best satisfaction. In conclusion I will say, if the trial I will be any advantage to you, you are at liberty to use it.

Yours most respectfully,

ISAAC ALBERTSON,

Mansion House Hotel, N. W. corner Fayette and St. Paul Streets, Baltimore.

Always Ready for Use and Easily Applied. Sold by the Gallon.

ONE GALLON COVERS 20 SQUARE YARDS TWO COATS.

GOLDSBORO'

MEDICAL AND SURGICAL INSTITUTE,

FOR THE CURE OF

CANCER,

And all Chronic Diseases.

DRS. GREENE, LINDLEY & BENTLEY,

PROPRIETORS.

J. E. BENTLEY, M. D., Surgeon in Charge.
E. H. GREENE, M. D., Physician in Charge.

Having arranged with Dr. R. H. Kline, Founder and Proprietor of the Philadelphia Bellevue Institute for the establishment of a permanent office at Goldsboro for the cure of Cancers, we take pleasure in informing the Afflicted that we have secured a large, commodious building, and thoroughly furnished it for the exclusive comfort of our many Patients, coming to us from a distance.

Dr. J. E. Bentley, the Surgeon in charge, late Assistant Physician and Surgeon in the "Philadelphia Bellevue Institute," is a gentleman of high professional attainments, a physician of experience, and well skilled in the treatment of cancer by our methods.

Dr. Greene has for years had charge of a branch office, in Dr. Kline's Institute at Charlotte, N. C., and his success in the cure of Cancer and other Chronic Diseases has been unprecedented.

Cancers will as heretofore be treated mainly with Dr. Kline's great Cancer Antidote, so celebrated in their effect and permanent in their results. The truth will warrant us in saying that more PERMANENT CURES have been made by it than by any and all other medicals combined.

We will take pleasure in sending the names and P. O. addresses of persons cured years ago, and who remain perfectly well up to this time, to any who will apply. Let all the afflicted write for a circular, or come and see us. Consultation free. Professional Fees within the reach of all.

Infirmary on Walnut street, second door east of the new Hotel. Board in the Institute low as the market will permit.

Our Office at Charlotte is in charge of Dr. Lindley, who is treating large numbers at that place. All Chronic Diseases treated with unprecedented success.

ESTABLISHED 1844.

The Wilmington Journal

WEEKLY

THE LARGEST, BESTAND CHEAPEST PAPER PUBLISHED IN NORTH CAROLINA.

The Wilmington JOURNAL (Weekly) on entering upon its twenty-ninth annual volume, has been greatly enlarged and improved. It is the only thirty-column paper in this State.

AS A FIRST-CLASS NEWS AND LITERARY JOURNAL, IT IS UNEXCELLED.

It is issued in its columns is a more complete compact, yet comprehensive history of the world doings, from week to week, than can possibly be found in any other journal.

It is just the paper for the home and fireside, full of good reading; all the best editorials of the daily; all the Congressional, Legislative and Political news of the day.

Its Market Reports

are always full and accurate. The Review of the Markets is accepted by the mercantile community as the true index of the commerce of the city, while its reports of other markets are full and reliable.

INTERESTING

Stories, Tales, &c.

are given in every week, making it the best family paper published in the country.

ITS CIRCULATION

is very large throughout the State and the whole South. In New Hanover, Edgecombe, Onslow, Duplin, Sampson, Brunswick, Bladen and Columbus it is especially large, while in Halifax, Wilson, Wayne, Carteret, Robeson, Richmond, Anson, Cumberland and Moore, and in several counties of South Carolina, its circulation is very good.

It is published every Friday on the following

GEORGE ALLEN & CO'S

The Cheapest and most Effective Steel Plow in use.

It Does the Work of Two Plows with One Man and One Horse.

It runs shallow, is easily guided, and is light to the Horse.

It is made of Wrought Steel, and will outlast two ordinary Plows.

It weeds Potatoes, and replaces the earth on the hill at the same time.

It can be used in any well prepared soil, and is equally good for cotton, corn and Potatoes.

All who have used it are pleased with it.

It is the best for plowing young cotton I have ever used."—Col. A. M. Parsons.

"It saves the labor of one horse and two hoes and two hands."—Elder G. W. Hyde.

J. D. Carroll, Esq., says: "So far as I have used it, it excels all others."

Harper Williams, Esq., says: "It saves the labor of one horse and hand."

A. B. Farquhar says: "I know of no Cultivator embracing so many good points, i. e., so well adapted to working the plant in the several stages of its growth."

Price $10.

Liberal Discount to the Trade.

ALSO—

CHAMPION COTTON and CORN PLOW,

CHAMPION DICKSON SWEEP,

And a great variety of Turning Plows.

Plow Castings of Every Kind.

MARRIAGE GUIDE.

EVERY ONE HIS OWN DOCTOR—Being a private instructor for married persons, or those about to be married, both male and female, in everything concerning the physiology and relation of our sexual system, and the production and prevention of offspring, including all the new discoveries never before given in the English language. By WM. YOUNG, M. D. This is really a valuable and interesting work. It is written in plain language for the general reader, and is illustrated with numerous Engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be acquainted with; yet it is a book that must be locked up and not left in the house. It will be sent to any address on receipt of 50 cents. Address Dr. WM. YOUNG, No. 416 Spruce street, Philadelphia, Pennsylvania.

AFFLICTED AND UNFORTUNATE.—No matter what may be your disease, before you place yourself under the care of any of the QUACKS—native and foreign—who advertise in this or any other paper, get a copy of Dr. Young's Book and read it carefully. It will be the means of saving you many a dollar, your health, and possibly your life. Dr. Young can be consulted on any of the diseases described in his publications, by mail or at his office, No. 416 Spruce street, above Fourth, Philadelphia.

THE BROWN

COTTON GIN

PLANTERS should examine the above named old and reliable Gin before buying any other. It combines the required qualities of Simplicity, Strength and Durability. It gins fast and clean, makes excellent lint (often bringing 1-4c. to 1-2c. per lb. above market) and is universally admitted to be the lightest running gin made. We have had thirty years' experience in the business, and warrant every gin perfect. Gins constantly in the hands of our agents, to which we invite inspection.

Circulars, with testimonials and full particulars, may be had by addressing

ISRAEL P. BROWN, President,

Brown Cotton Gin Co.,

New London, Conn.

DAWSON, TEEL & BENNING, Agents, Wilmington, N. C.
