MONDAY, April 17—P. M.

Gold closed at 125¾, and has been scarce for delivery all day.

Government stocks, without exception, are in demand and higher; 5-20s of 1862 rose ¼; 10-40s, ¼, and 7.30s, ⅛, selling as high as 100⅞. [In State bonds no material change. Bank shares strong and offered sparingly. Canton Company was neglected. A sale of Chicago and Great Eastern was made at 41. Mariposa Preferred was in demand and sold up to 23¾. Quicksilver was active, and sold at the 1 o'clock Board at 59, and fell at once to 55. The business in Railway shares was not large, and prices were barely supported for New-York Central at the extreme quotations of Saturday night. Money is offered to brokers in large amounts at low interest, and stocks are carried so readily that the bulls, for the time, have really no opposition. At the Second Board, Cleveland and Pittsburgh was in demand and sold up to 82¼. The Railway list as a whole was not in demand, and speculation is turning toward the small shares. Stocks at the close were firm, and in some cases higher. The last prices were: Ohio Certificates, 25¾@26; Canton, 52@52¼; Cumberland Coal, 44¼@45; Quicksilver, 56¾@56⅞; Mariposa, 13¼@13¾; Mariposa Preferred, 23@23¼; New-York Central, 93¼@93¾; Erie, 73¼@73¾; Hudson River, 108@109; Reading, 104@104¼; Michigan Southern, 79¼@79¾; Cleveland and Pittsburgh, 81¾@82; Rock Island, 120¼@120¾; North-Western, 26¼@26¾; do. Preferred, 55¼@55¾; Fort Wayne, 91¼@91¾.

Call loans are offered in great abundance at 5 per cent, and lower rates would be accepted from leading houses. Best commercial paper sells at 6¼@7 per cent; good at 8@9, and ordinary at 10@15 per cent. The bank statement shows a further large gain in deposits, legal tenders and circulation, with a moderate loss of coin and a small addition to the loans and discounts. It is a long time since money was so cheap and abundant. In ordinary times a general speculative movement in stocks for an advance would be inaugurated, but thus far no symptoms of general speculation are noticed.

It is understood that the Treasury Department has a funding scheme under consideration, and will soon commence operations. It is to be hoped that the Secretary will not repeat the mistakes of his predecessor and break down by offering too low a rate of interest and too short bonds. Six per cent is not a high rate to pay, and the Secretary should not fail of funding his temporary loans, certificates of indebtedness, and compound notes, by reserving the option of paying off six per cent bonds after five, ten, or twenty years even. The Secretary will do his duty if he succeeds, during his term of office, in funding the debt into long six per cent, and retires enough debt to comply with the law, establishing a sinking fund reasonably.

Foreign Exchange is more active, and leading sterling is quoted 107¾@107¾ for 60 days, and Francs 5.25; Commercial Sterling, 106¼@107.

In Freights the engagements to Liverpool are 100 bales Cotton at 5-16d.; 130 boxes Bacon at 12s. 6d., and per steamer, 300 bales Cotton at ¼d.; a bark to London at a round sum, and a brig to Bristol with Petroleum at 5s. 6d.

The business of the Sub-Treasury was: Receipts, $950,548 91—for Customs, $411,000; Payments, $507,672 02—on account of Loan, $2,000; Balance, $90,708,562 29. Gold notes, $347,000.

By the City of New-York, Five-twenties were quoted at London on the 5th of April at 72¼@72¾; Illinois Central, 81@81¼; Erie, 56; Cotton, after declining ⅛@⅛d., recovered ⅛. ⅝ ℔ on the 5th inst.

The following shows the condition of the New-York City banks:

The Times, referring to the singular financiering of the Pittsburgh and Fort Wayne road, as shown by the sale of their stock to the extent of $2,865,800, says:

As to the result of the new capital on the business of the road, our neighbor is entitled to his own opinion. The capacity of the line *without* this capital was about $3,250,000 gross traffic in 1863, and *with* it, including $956,000 added from the improvement, after paying 10 per cent cash dividend, from the surplus net earnings, it was $7,120,000 in 1864, and *with* it, including the further appropriation of $887,000 out of surplus net earnings over 10 per cent cash dividend, it was $8,429,000 in 1865.

The opinion of THE TRIBUNE is, that profits on the sale of $2,865,800 of stock and in the expenditure of $1,843,000 of earnings in new construction, in all, $4,708,800, was greater than was added to the permanent value of the road. After adding all this money since 1863, the road earned, net, in 1865 only..... $2,931,051
Against, in 1864..... 3,058,102
Decrease..... $127,051
In 1864 it paid dividends of $530,782 (7½ per cent.) equal per annum..... $707,709
In 1865 it paid dividends $901,282 (10 per cent.)..... 901,282
Increase of dividends..... $193,573
Increase of dividends on net income..... $66,522

The Rock Island Railroad Company has determined to divide its surplus profits to the extent of $2,080,000 among its shareholders. The exact form in which it is to be done is not yet fully determined.

The property of the Boston Water Power Company consists of about 1,600,000 square feet of filled land in the rear of the Public Garden and near Washington-st., in Boston, and about 11,000,000 feet of flats, on unfilled land adjoining. The land as fast as filled is sold, and makes a portion of the west end of Boston, over which broad avenues and streets are building up parallel with the mill dam and extension of Beacon-st. About 200,000 feet of the filled land has recently been sold at $1 per square foot, and the entire amount of 1,600,000 feet will probably realize that average price. As the land is converted into money, the company divides the proceeds among shareholders, and it is now stated that a dividend of $5 per share will be paid in July. The stock sold at the Board to-day at 38¼@40.
