STANLEY'S EXPLORATIONS.

Character of the Tribes of Central Africa—The Explorer's Plans.

Mr. Henry M. Stanley has written a letter to the New York *Herald*, in which he gives the following sketch of the tribes of Central Africa:

"In East Central Africa the people are gathered under powerful emperors and kings—the great Empire of Uganda, which has an estimated population of 5,000,000; the great Empire of Ruanda, with an equal estimated population; the Empire of Urundi, with about 3,000,000; the kingdoms of Usagara, the two Usuis, Unyoro, Karagwe and Usongora and Ukerewe—all of these empires and kingdoms governed despotically, subject to the will of their respective monarchs. In his worthy efforts for the moral improvement of these benighted races the missionary using a clear judgment can soon secure the good will, assistance and protection of the supreme powers of these countries.

"In West Central Africa, from Lake Tanganyika to the mouth of the Congo River, the peoples are gathered in small, insignificant districts, towns and villages, each governed by its respective chief. As we approach nearer the west coast the explorer dares not begin to classify the people after the usual manner employed in Africa, as the districts are so small, the population so great, the number of villages so confusing, that there are as many kings ruling over a hundred-acre plot as there are officials in Greece, all animated by an intense thirst for trade and distinguished for their idolatry, hostility to each other and foolish pride. The love of trade and barter is, however, universal, as I shall be able to explain in a subsequent letter."

Of his plans the explorer says:

"I reserve myself for the unknown west of Nyangwe, because I shall have then something worth writing about—new, virgin ground, of which not a whisper has reached the world outside, about which even everybody in Nyangwe is is ignorant—a region which Livingstone panted to reach, but could not, and which Cameron promised to explore, but did not. The region is all involved in mystery; the intense superstition of the Africans has folded it with profound gloom. It is peopled by their stories with terribly vicious dwarfs, striped like zebras, who deal certain death with poisoned arrows, who are nomads and live on elephants. A great forest stretches no one knows how far north—certainly no one has seen the end of it—through which one may travel days and days and weeks and months without ever seeing the sun; and the great river Lualaba continues north, ever north; and it is possible, the Arabs and their slaves say, the Lualaba may reach the salt sea."

FEDERAL VS. STATE COURTS.

An Important Case before the United States Circuit Court of Georgia.

From the Savannah News, October 12.

Judge Wm. B. Woods, of the United States Circuit Court, sitting with Judge John Erskine of the United States District Court, in a full bench, Tuesday morning, rendered his decision in the case of Finley, Gaston and others, whose cases were sought to be removed from the Superior Court of Lumpkin County to the United States District Court in this city.

The parties under arrest were United States revenue officials, and were charged with assault upon a citizen of Lumpkin County. After giving the usual bond for their appearance at the Superior Court, the accused appealed to Judge Erskine for a writ of *habeas corpus* to transfer their cases to his court, on the ground that they were acting as Federal officers at the time of the said assault.

Under the provisions of an act of Congress Judge Erskine, at the last session, granted the writ, but Judge Geo. N. Lester, of the Blue Ridge Circuit, declined to accept the service of the same, contending that the cases were strictly within the jurisdiction of the State Courts, and beyond all Federal interference.

Judge Erskine, at the present session of his court, issued a writ of *habeas corpus cum causa* against the sheriff of Lumpkin County, requiring him to make answer why the previous writ had not been complied with.

Attorney-General Ely represented the State and Sheriff Satterfield before Judges Woods and Erskine, and ex-United States Attorney General Akerman argued the legality of the claim set up by the Federal power.

The decision of the court was to the effect that the acts done by the revenue officers were in the regular course of their duty, that the Sheriff held them in custody illegally; that the State Courts had no jurisdiction of the cases and State officers no control over the prisoners.

— An Attempt to Kidnap Commodore Nutt.—It is stated from Omaha that as the Union Pacific west-bound passenger train stopped at Chead, in Western Nebraska, on Thursday night, a bold attempt was made to steal Commodore Nutt, who was on his way to San Francisco with a party of other dwarfs. A couple of stalwart and knavish-appearing men, who took the train at Omaha and had tickets to Cozad, paying the extra charge for riding in the sleeper, are supposed to be the parties to the affair. Just before the train arrived at the station, both of these men, who was a few feet ahead of the other, moved toward the rear of the car, in which out the Commodore was sleeping.

One stopped near the little man's berth, and the other stood near the door. As the train came to a halt, the rear man thrust his arms into Nutt's berth and gathered him up in his arms, and moved hastily toward the door of the car, which had been opened by his confederate. The dwarf shrieked and tried to scream, but the young kidnapper held his hand over the little fellow's mouth in such a way as to stifle almost every sound. The porter, however, screamed for him, which caused several gentlemen to jump out of their berths just as the alighted between the kidnapper and the dwarf. The villain dealt the half-asleep passengers a blow on the head which felled him to the floor. This gave another passenger time to come up, who struck the desperado in the head with a slungshot which stunned him and caused him to drop the Commodore, who by this time was making more lusty noise than all the women in the car, every one of whom, in concert with the men, were making a lively racket. The kidnappers sprang from the train and disappeared in the darkness. Quite a confusion existed on the train for some time, especially in the car where the bold act was committed, and every one shook the Commodore's hand in congratulation over his fortunate escape.

— Apropos of the report left by Andrew Johnson is his original letter to Governor Morton, requesting that Jefferson Davis be arrested in Indiana for treason. A single sentence will show the tone: "There will be no difficulty in securing a jury in this district to find a verdict against Jeff Davis for treason against the United States." Johnson's reply was very guarded, and raised a question of jurisdiction of the Indiana courts to try the Confederate President.

We have tried Dr. Bull's Cough Syrup in our family, and can recommend it as the best we ever used for a cough or cold ever introduced. Price 25 cents.

witnessed in a railway carriage, between an Irish gentleman and a clergyman, on the atrocities question. He says the fun grew fast and furious; the Irishman was working himself up to a pitch of feverheat, when suddenly, to the horror of everybody, while emphasizing some statement, he whipped a formidable looking knife out of his pocket, brandished it about wildly for a second, and then stuck it into the very thick of the thigh of his right leg. It must have gone in at least an inch, and there it stood vibrating, he sitting perfectly still, calmly looking at it. Every body was afraid to move, lest the blade should be transferred from the gentleman's own flesh to our bodies. The parson was the first to venture a word of expostulation.

"Goodness gracious, sir," said he, "for Heaven's sake take it out at once, sir; think what a mess the carriage will be in; besides, you will seriously injure yourself."

"Not a bit of it," mildly repeated the son of Erin, all his excitement having apparently subsided; "I positively like it. It doesn't hurt me; I have accustomed my muscles to it. I assure you I don't feel it the least."

"Accustomed your muscles to it!" exclaimed the person; "impossible! Do take it out, and oblige me; it makes me shudder to look at you."

"Well, of course, if it pains you at all to see it, I will oblige you;" but, as I tell you I don't feel it, it does me a great deal more pleasure than otherwise, so far as I am concerned," said the stranger. And having pulled it out with an apparent effort, he carefully wiped the instrument with his handkerchief, shut it up, and put it in his pocket, to our great relief.

"Do you often do such a silly thing as that?" inquired the reverend gentleman.

"Oh yes, frequently," was the reply.

"Have you ever tried it on your arm?"

"No, never on my arm; the muscles aren't yet accustomed to it."

"Really?"

And the eccentric individual got out at the next station. We called the guard.

"Is that man mad?" we asked. "He has just horrified us by running a large knife an inch and a half into his leg."

"Mad, no; he ain't mad," observed the official. "It's a very old game of his, that. He has a cork leg, and likes to frighten people!"

— How far may a widow go in providing for her children? If left to the widow, she would probably think it right to go one step—father.

— It seems as if gold had sympathy with gold. Riches pass past the poor man's gate, and enter in at the door of the wealthy. How constantly does an opulent man receive an enormous addition to his substance, while the poor remain always poor.

— All the official and private information received in Washington relative to the El Paso, Texas, uprising shows that it is not of any international character, but is participated in wholly by Americans of Mexican origin, residents in El Paso County. The salt lakes, which have been entered upon by northern people, have been for two hundred years, under old Spanish and Mexican land grants, exempt from entry, and were always considered to a part of the State domain for public use, which could never be appropriated for private use; but Northern speculators, having secured some Texas scrip, have seized the lands and are endeavoring to make their title to them clear. The Mexicans, following the traditions of two hundred years, are disposed to fight, and hence the trouble.

For Ulcers and Eruptive Diseases of the Skin, Scrofula, Pimples, Blotches, Boils, Tetter, Salt-rheum and Ringworm, Dyspepsia, Liver Complaint, Dropsy, Female Weakness, Leucorrhea, arising from internal ulceration, and such diseases and General Debility, VEGETINE acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cures ulceration and regulates the bowels.

For Costiveness, Dyspepsia, Habitual Constipation, Palpitation of the Heart, Headache, Piles, Nervousness and General Prostration of the Nervous System, no medicine has given such perfect satisfaction as is VEGETINE. It purifies the blood, cleanses all of the organs, and possesses a controlling power over the nervous system.

The remarkable cures effected by VEGETINE have induced many physicians and apothecaries whom we know to prescribe and use it in their own families.

In fact, VEGETINE is the best remedy yet discovered for the above diseases, and is the only reliable BLOOD PURIFIER yet placed before the public.

TUTT'S PILLS

A Noted Divine says:

They are worth their weight in gold.

READ WHAT HE SAYS:

DR. TUTT:—Dear Sir: For ten years I have been a martyr to Dyspepsia, Constipation, and Piles. Last spring your pills were recommended to me; I used them (but with little faith). I am now a well man, have good appetite, digestion perfect, regular stools, plenty of sleep, and I have gained forty pounds solid flesh. They are worth their weight in gold.

REV. R. L. SIMPSON, Louisville, Ky.

TUTT'S PILLS CURE SICK HEADACHE.

TUTT'S PILLS CURE DYSPEPSIA.

TUTT'S PILLS CURE CONSTIPATION.

TUTT'S PILLS CURE PILES.

TUTT'S PILLS CURE FEVER AND AGUE.

TUTT'S PILLS CURE BILIOUS COLIC.

TUTT'S PILLS CURE KIDNEY COMPLAINT.

TUTT'S PILLS CURE TORPID LIVER.

Dr. Tutt has been engaged in the practice of medicine thirty years, and for a long time was demonstrator of anatomy in the Medical College of Georgia, hence persons using his Pills have the guarantee that they are prepared on scientific principles and are free from quackery.

He has succeeded in combining in them the heretofore antagonistic qualities of a *strengthening, purgative, and purifying tonic.*

Their first apparent effect is to increase the appetite by causing the food to properly assimilate. Thus the system is nourished, and by their tonic action on the digestive organs, regular and healthy evacuations are produced.

The rapidity with which *persons take on flesh*, while under the influence of these pills, of itself indicates their adaptability to nourish the body, and hence their efficacy in curing nervous debility, melancholy, dyspepsia, wasting of the muscles, sluggishness of the liver, chronic constipation, and imparting health and strength to the system. Sold everywhere. Office, 35 Murray Street, New York.

TRIUMPH OF SCIENCE.

Gray Hair can be changed to a glossy black by a single application of DR. TUTT'S HAIR DYE. It acts like magic, and is warranted as harmless as water. Price $1.00. Office, 35 Murray St., N. Y.

WHAT IS QUEEN'S DELIGHT?

Read the Answer

It is a plant that grows in the South, and is specially adapted to the cure of diseases of that climate. It is

NATURE'S OWN REMEDY,

Entering at once into the blood, expelling all scrofulous, syphilitic, and rheumatic affections. Alone, it is a searching alterative, but when combined with Sarsaparilla, Yellow Dock, and other herbs, it forms

Dr. Tutt's Sarsaparilla and Queen's Delight,

The most powerful blood purifier known to medical science for the cure of old ulcers, diseased joints, foul discharges from the ears and nostrils, abscesses, skin diseases, dropsy, kidney complaint, evil effects of secret practices, disordered liver and pimples. Its use strengthens the nervous system, imparts a fair complexion, and builds up the body with

HEALTHY, SOLID FLESH.

As an antidote to syphilitic poison it is strongly recommended. Hundreds of cases of the worst type have been radically cured by it. Being purely vegetable its continued use will do no harm. The best time to take it is during the summer and fall; and instead of debility, headache, fever and ague, you will enjoy robust health. Sold by all druggists. Price, $1.00. WATCHES! JEWELRY!

ROMAINE GOLD, so extensively worn in Paris, was first discovered in 1870, by the celebrated Mr. Frenon chemist, Mons. D. De Lamps, who manufactured it into jewelry, and for five years sold it to the leading jewelers of Paris for SOLID GOLD. In 1875, when his secret became known, ten of the manufacturing jewelers established a stock company, with a capital of $100,000, for the purpose of manufacturing ROMAINE GOLD JEWELRY AND WATCHES. With this immense capital, and the aid of improved machinery they are enabled to produce all the latest patterns of jewelry, and so close an imitation, that it is impossible even for experts to detect it from the genuine article.

We have secured the exclusive agency of the United States and Canada, for the sale of all goods manufactured from this metal, and in order to introduce them in the most speedy manner, have put up assorted sample lots as given below, which we will sell at one-tenth the retail value until January 1st, 1878. A SOLID ROMAINE GOLD HUNTING-CASE WATCH FREE.

To any one sending us an order for the above lots by express to the amount of $25.00, we will send free of charge a Solid Romaine Gold Hunting-Case Watch, Gents' or Ladies' size, warranted to keep perfect time and look exactly like a $100 gold watch. By mail postpaid, $15.50. This is our best offer to AGENTS, and is worth a trial, as the watch alone is worth the money. Watches from $2.00 to $50.00. Gents' or Ladies' Watch alone, $7.00 to $10, with a Heavy Gents' Gold Chain, $12. Gold Chains and Charms, or Ladies' Fancy Chain with slide and tassel, $2.50.

REMEMBER this offer only holds good until Jan. 1st, 1878. After that date we shall sell exclusively to Jobbers and Wholesale dealers, and any one who has secured a watch from us can pay the retail price. Romaine Gold is the best, and, in fact, the only imitation of genuine gold made, being gold plated on a fine white metal and finish, and all our goods are warranted to give satisfactory wear in every instance, or refund money.

IN THE MIDST OF LIFE IS DEATH!

With such a warning before us, let us at least be prepared to contest the point before we "shuffle off this mortal coil," and we can only be strengthened in our defence by full supply of this invaluable medicine, which, while moving the bowels very gently, *purges the whole system.* The bowels form but one of the natural outlets for the removal of waste matter and impurities; the kidneys draw away one species of waste matter in the form of water, and the skin another species in the form of vapor and perspiration.

All the organs must be stimulated to increased *but natural action*, and thus the whole system, even to the blood, the very life of the body, *is cleansed and made healthy.* Be it remembered that SIMMONS' HEPATIC COMPOUND or LIVER CURE never fails.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. In occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.
