FRIDAY, May 25—P. M.

Gold is strong and has been much excited, selling as high as 141¼, and closing at 140. The rebound from the low quotations attempted to be maintained by sales from the Government board has attracted fresh buying from the public, and the telegraph brings numerous orders from people who argue that the market, having escaped the control of the Treasury is likely to touch again the rates of the closing months of 1865.

There was a large business in Government stocks at higher prices. 5-20s of 1862 rose ⅛; 10-40s, ⅛, and 7.30s, ⅛@¼. Railway mortgages were sold more freely at full rates. The small stocks were active and higher. Canton rose ¼. Boston Water Power was in demand at 45, cash and seller's option. The Company is in a condition to declare regular dividends, and it is stated, on competent authority, that one will be paid at an early day. Mariposa Preferred was in demand at 23¼@24. New-York Central was strong, and sold at 94¼. There was a large business in Erie, which is heavily oversold, and as high as 68¼ was paid. Hudson River brought 113¼; Reading, 110¼, and Rock Island 93.

There was a general demand for stocks from operators who sold out under the money panic, and the business of the day was larger than for a long time. At the Second Board the market was strong, but reacted, closing steady at quotations: Ohio Certificates, 28¼@28¾; Canton, 58¼@59; Cumberland Coal, 45¼@45¾; Quicksilver, 53@53¼; Mariposa, 11¼@12¼; Mariposa Preferred, 23¼@23¾; New-York Central, 94@94¼; Erie, 67¼@67¾; Hudson River, 112¼@112¾; Reading, 110@110¼; Michigan Southern, 79¼@79¾; Illinois Central Scrip, 117¼@119; Cleveland and Pittsburgh, 86¼@86¾; Cleveland and Toledo, 104¼@104¾; Rock Island, 93¼@93¾; North-Western, 28¼@28¾; North-Western Preferred, 57¼@57¾; Fort Wayne, 96@96¼.

Money has been in sharp demand at 7 per cent, and this rate was allowed readily on loaned stocks. The pressure was not so great as on yesterday, but the market does not yet show signs of returning to low rates, nor can much abatement be expected until further advices are received from Europe. The Secretary of the Treasury has lost the gold which has kept speculation in check, and by its sale has converted a large amount of dormant investments, in the form of certificates, into active circulating money, for which there is no use, except in short enterprises such as are popular in Wall-st. In the absence of further adverse news from abroad, there appears no good reason why capital for speculative purposes should not be very abundant at low rates. In mercantile paper little doing. For best names 6 per cent has been taken. No one in Wall-st. supposes that there can be any protracted "tight money market" until some of the hundreds of millions of currency created for war purposes has been retired. None of this currency, whether in the form of "Greenbacks" or "National Bank Notes," is in danger of being exported, but is sure to remain within the United States, and find employment in some form. The Treasury hopes to borrow it for 30 years on a five per cent bond, but thus far it shows no inclination to take that direction. The Secretary will probably push his five per cent scheme, and, to stimulate funding, pay off enough of floating debt to fill any bank or any avenue of commerce with irredeemable currency. He will give new vigor to many of the speculative schemes so active during the Rebellion, and before much currency goes into a five per cent loan prices of local stocks and property will probably sell a good deal higher than at present.

Exchange is quoted as follows: London, prime bankers', 60 days, 109¼@109¾; London, prime bankers', sight, 110¼@110¾; London, prime commercial, 108¾; Paris, bankers', long, 5.13¾@5.12½; Paris, bankers', short, 5.10@5.08¾; Antwerp, 5.15; Swiss, 5.15; Hamburg, 37; Amsterdam, 41¼@42; Frankfort, 41¼@42¼; Bremen, 79¼@80; Berlin, 73¼@74.

The business of the Sub-Treasury was: Receipts, $5,719,233 49—for Customs, $375,000; Payments, $7,090,629; Balance, $111,635,177 50; Gold Notes, $365,000.

The Assistant Treasurer is prepared to redeem compound interest notes at par and interest.

The Merchants' National Bank has declared a semi-annual dividend of 5 ⅌ cent.

A telegram from San Francisco, dated May 23, quoted stocks as follows: Gould & Curry, $850 per foot; Savage $950 per foot; Chollar-Potosi, $300 per foot; Ophir, $375 per foot; Hale & Norcross, $950 per foot; Crown Point, $1,100 per foot; Yellow Jacket, $650 per foot, Belcher, $200 per foot; Alpha, $175 per foot; Imperial $125 per share; California Steam Navigation Co., 61 per cent; California State Telegraph Co., 34 per cent.

The Chicago Tribune of Tuesday afternoon says:

The demand for currency to-day at the various discount houses was more active, but the money market is still well supplied, and it remains easy at 10 per cent per annum for good names. Shipments of produce are active, and shipping bills are increasing. Inferior paper is generally rejected at the banks, but it is taken by private bankers and street brokers at 1⅌¼ per cent per month. Long notes on inside real estate are more active than formerly, and rates are easier. Some important transactions have taken place within a few days at 8 per cent per annum. The supply of Eastern exchange was not very great to-day, and the market was generally reported prime. Round lots were sold in but a few instances at par, but the regular counter notes were 1-10 discount to par buying, and 1-32@1-10 premium selling. Exchange on Buffalo and Oswego was taken at ¼ discount.

The traffic of the Chicago and Great Western Railway for the third week of May, was:

1866	$24,066 05	1865	$18,608 72

Increase.... $6,017 33

The Michigan Southern Road earned the 3d week in May:

1865	$72,320	1866	$97,295

Increase..... $24,776

The executive officers of the trunk railroad companies have been in session at the St. Nicholas Hotel. The freight rates were settled, and a resolution was adopted, after some opposition from the New-York and Erie Company, abolishing all commissions on the sale of passenger tickets from and after the 10th day of June next. This will put a stop to all the ticket-offices in the city where commissions are paid, and will save a large sum of money to the roads. The amount paid out as commission money has been estimated as high as $300,000 a year in this city alone. If this good resolution is adhered to some of the "agents" of the Erie Company will not be obliged to report "incomes" exceeding the salary of the President of the United States.

At the annual meeting of the New York and New Haven Railroad the following directors were chosen: George B. Carhart, George A. Miller, Abraham B. Van Nest, James J. Roosevelt, Wilson G. Hunt, Jonathan Godfrey, F. C. Scranton, E. H. Trowbridge and William W. Boardman. And at a meeting of the directors yesterday, G. B. Carhart declining a reelection, the Hon. E. C. Scranton, of New Haven, was unanimously elected President of the company.

Mr. Birdsall's abstraction of the funds of the Security Fire Insurance Co. amounts to $100,000. Of this he had charged $70,000 by fictitious entries to the account of losses, $60,000 of which had been reported to the Board; so that the Company is only about $40,000 worse than the directors supposed it to be, and has all its capital remaining.

At a meeting of the stockholders of the Shore Line Railroad, held at Tyler's Hall on Tuesday, the following Board of Directors was elected: Charles Langdon, New-York; C. S. Bushnell, Henry Hotchkiss, New-Haven; James M. Townsend, East Haven; Sereno H. Scranton, Madison; Edward Ingraham, Saybrook; A. N. Ramsdell, New-London. It was voted to authorize the sale of $100,000 worth of bonds. At a meeting of the directors, Sereno H. Scranton of Madison was elected President of the road.

A dispatch from Washington says:

In default of any action by Congress providing for the prompt redemption of the National currency by the National Banks, the Secretary of the Treasury contemplates, at an early day, establishing at the Treasury Department a system of sorting and forwarding to the National Banks their National Bank issues.

OR LIVING EXPENSES IN NEW-YORK.

FRIDAY, May 25—P. M.

The following alphabetical list of articles, carefully revised each week, gives a good idea of the expense of living in New York, and is of no little assistance to householders in making their selections and purchases. The figures are the retail prices of good articles, as sold at Washington and Fulton Markets, and by the down-town grocers. Up-town dealers, and those in the fashionable parts of the city, charge higher, while some of the down-town houses, with more of a reputation for *cheapness* than *fine quality*, are below our quotations, as are also the peddlers of stale meats and vegetables, both from the wagons and sidewalks. The range is necessarily great on some articles, due in part to the quality, and in part to the locality where sold. Meats, poultry, vegetables and fruits are usually cheapest in Washington Market, while Vesey and Fulton-sts. are good down-town localities for purchasing groceries.

There are no changes of note in the grocery line this week. Butter remains stationary, while eggs are a little higher. Excepting shad, which are scarce, fresh fish are generally plenty, and prices are declining. The nice, sweet, though sometimes termed the "poor man's fish," viz: porgies, are very cheap; lobsters do, but the latter cannot be eaten by all, and at best are not considered healthful. Among the meats, mutton is lower, veal higher. Poultry is more abundant and lower, though far from cheap yet. Snipe are now coming in freely. Old potatoes are still scarce and high, and new ones are no cheaper. A few have been received from Charleston, but most of the new are from Bermuda. String beans, turnips, carrots, squashes and cucumbers have been received from Savannah, but generally in poor order. We look upon most of these articles, which barely escape decay on the passage—many of them rotting on the way—as unfit to eat, and we will include the Bermuda tomatoes in the list. Unusual caution should be observed the present season regarding our diet, and stale vegetables are very little better than stale meats. Green peas are higher. We quote:
