TUESDAY, June 5—P. M.

Gold has been very excited, opening at 145¼, selling as high as 146¼, and closing at 146¾. The market has been strong on large purchases to cover shorts.

Government bonds were very firm, with a moderate business. The miscellaneous shares were irregular. Cumberland Coal sold at 47¼; Western Union, 61; Boston Water-Power, 51; Mariposa Preferred, 24 @ 24¼.

The Railway share list was irregular. New-York Central opened at 98¾, and sold as high as 99¼ closing. Erie opened at 64, and, under strong pressure for cash stock, rose to 65¼, closing at 64¾. The entire interest of the street is centered upon this stock, and deliveries are made with the utmost difficulty; ¼ per cent was freely bid for the use of the stock for one day, and at the Stock Exchange the difference has been fully ¼ per cent between cash and regular stock. Reading rose to 109¾. The North-West stocks were very strong, and in good demand, with large transactions. At Second Board there was some New York Central bought in under the rule. Erie was lower, selling at 64, and freely offered at that after the call. The North-Western shares advanced, and closed strong. In the street the market was dull, with the exception of the North-Western shares, which continue in good demand. Erie sold down to 63¾, and closed strong at 64¼@64¾. Reading, Cleveland and Pittsburgh, and Michigan Southern were dull and neglected. The market closed steady at quotations. Canton, 50@60¼; Cumberland Coal, 46¼@47; Mariposa Mining Co., 24¼@24½; Quicksilver, 51@52; New-York Central, 98¾@99; Erie, 64¼@64¾; Erie Preferred, 74¼@75; Hudson River, 110¼; Reading, 109¼@109¾; Michigan Central, 107 @107¼; Michigan Southern, 79¾@80; Illinois Central, 118 @118¾; Cleveland and Pittsburgh, 83¼@83¾; North-Western, 31@31¼; do., Preferred, 60¼@60¾; Cleveland and Toledo, 105@105¼; Rock Island, 93@93¼; Fort Wayne, 97@97¼.

Money continues easy at 6@7 per cent on call, with the bulk of transactions at 6 per cent. Some loans were done at 5 per cent on Governments, to first-class parties.

The demand for foreign exchange is active, and rates are higher throughout, especially for bills on the Continent. The transactions in short bills are especially large; there is, however, a better currency for long date. Sixty days prime bankers' bills on London have sold at 109¾@110. The following are the current quotations: London, prime bankers', 60 days, 109¾@110; London, prime bankers', sight, 111@111¼; Paris, bankers', long, 5.08¾; Paris, bankers', short, 5.05; Antwerp, 5.10; Swiss, 5.10; Hamburg, 37¼.

Freights have advanced. The engagements to Liverpool are 100 tuns Logwood at 10s., and per steamer, 10,000 bush. Corn at 6¼d. To London: 28,000 bush. Corn at 5@5¼d. To Bremen: 60 hhds. Tobacco at 12s.6d.; 100 tuns Logwood at 15s., and 200 bbls. Shoe Pegs at 1s. Two brigs to Cork and a market with Corn at 5s. A brig to London with Petroleum; one to Liverpool with 1,900 bbls. Petroleum; both at a round sum.

There are at present 1,650 National banks in operation, none having been established for several weeks past. The United States Treasurer at present holds as security for the circulation of National banks, $324,713,450, of which $236,251,400 are 6 per cent bonds, $85,399,050 in 5 per cent, and $3,063,000 United States bonds issued to the Pacific Railroad Company. The amount of National bank note circulation issued last week was $839,150, the total amount issued up to date being $277,379,660.

The following is the official statement showing the condition of the Ohio State Treasury on the 1st day of June, 1866:

The scheme of a railroad west from St. Joseph is being pressed forward. It has now $500,000 from St. Joseph. Nemaha County, Kansas, has given $125,000, and Marshall County has voted to issue $100,000. The name of the road is "The Northern Kansas Railroad."

*The Cincinnati Commercial* of Monday says:

Exchange is more plenty, though the mercantile demand does not diminish. The increase comes mainly from the offerings of banks that are in need of currency; 50c. premium is the most that bankers are disposed to pay over their counters, and many of them are down to par. The demand for money continues good, and the drift of the market is still toward closeness. Desirable paper is readily had at 10 per cent, and 12 per cent is more frequently charged outsiders.

The election of officers of the New-York Commercial Association, held to-day at the Providence Exchange, resulted in the choice of the ticket headed A. E. Masters for President, as follows: For President, Augustus E. Masters; for Vice-President, William H. Harris; for Treasurer, Benjamin C. Bogert; for Managers, William H. Newman, John H. Boynton, Robert P. Getty, Edgar Hyatt, Erastus S. Brown, Williams Howland, Carlos Cobb, Alfred M. Hoyt, William A. Brown, George W. Kendall, William W. Wickes, Edward Martin; for Inspectors of election, Robert S. Holt, Charles H. Cadwell, Benjamin R. Sage.

The exports (exclusive of specie) from the Port of New-York to foreign ports for the week ending June 5, 1866, were $1,634,555.

We learn that work has been commenced on the new line of road between Union City and Logansport, Indiana, and that it is expected the work will be completed by January next, when the through line will be opened for traffic. The route is as follows: From Pittsburgh over the Pan-handle Road to Steubenville, the Steubenville Railroad to Columbus, the Columbus and Indiana Central to Union City, then over *the new link now building* to Logansport, and thence over the Chicago and Great Eastern Railway 117 miles to Chicago. From Pittsburgh to Logansport the different links are controlled by the same parties, some of whom are said to be in the interest of the Pennsylvania Central; the grades are reputed to be more favorable than over the Pittsburgh, Fort Wayne and Chicago Railroad, and as the Pan-handle Road has much the best entrance into the City of Pittsburgh, and the trains can be run through in as short a time as by the other route, making the same connections at Pittsburgh for the East and West, this new line cannot fail to be a popular one, and to command a large share of the through traffic.

REMARKS ABOUT BEEF CATTLE.

The total number this week, 5,177 head, compares with 5,019 head last week, and with 5,255 head, average per week last year, and with 5,436 for the corresponding week one year ago.

The number sold yesterday and to-day at the principal market, 2,328 head, compares with 2,600 head last week, and with 3,659 head, the average per week last year, and with 3,287 head, at market one year ago.

THE OPENING, OR PRINCIPAL DAY, OF THE MARKET.

*Monday*, June 4.—There is a short supply of beef cattle at Forty-fourth-st. this morning, and consequently an advance of price, upon all the first sales, of full half a cent a pound upon the high quotations in our last week's report. Nearly all the sales before noon were at 16¼@18½c. ℔, and butchers say still higher. Only 2,081 are on sale, out of 2,726 varded since last week, and this looks like such a small stock that buyers have "pitched in" to get first choice, at whatever price was asked, not knowing that some 200 or 300 head were to arrive to-morrow, which may reduce prices so much below last week as they were above this morning. The supply of the week so far numbers less than 5,000 head, and while the drovers can keep the supply down to that figure, or below 6,000 head, there is no chance for a decline, as the demand continues strong for the city trade and all the surrounding country, not only by butchers, but many graziers, who have not yet stocked their farms and are beginning to be somewhat anxious. It is therefore not at all surprising that prices advanced this morning, although they were lower at Albany. It seems that a much smaller number was taken for this market than was expected, and a smaller number came by the Erie road than was calculated upon, and these were nearly all sold at Bergen Friday and Saturday at considerably lower prices than are current here to-day. At least we notice sales of several lots of Illinois steers at 15@16c., and very few, even what are called poor, sell for such prices to-day. There are really no poor cattle in market; nearly the whole stock is now, as it has been for several weeks, composed of nice, smooth, corn-fed Illinois steers, of about 7 cwt. average. The quality never was better, although the weight has been greater in former years. The weather continues cool for the season, and the day's business closes no less promising for drovers than it opened.

CLOSE OF THE MARKET.

*Tuesday*, June 5.—The owners of the 228 head of fresh stock in to-day made a hard set at the butchers this morning for yesterday's prices, but they held back hard for a time, but had to submit. Very few, except the wholesale butchers, were in market, and they seemed determined not to buy except at lower rates than were current yesterday. In this mood the parties spent the morning, neither yielding. Most of the cattle were in the hands of "the Jews," who had bought them at Albany, &c., and they appeared determined to make "a commission" out of this chance, and held on until they brought buyers to terms, and got full as much as cattle sold for any time yesterday. We therefore report the market closing very strong upon a short supply for the week.
