A. P. STONE & O'HARRA

ARE NOW RECEIVING THEIR WINTER GOODS, and invite the public to inspect them. No such stock of Goods has ever been brought to this market. The South, in consequence of the failure of the grain crop, has not been able to purchase the usual quantity of rich goods, and this fact has forced the Importers to sell them at public auction. Our buyer (Mr. Stone) being in New York at these large sales, took advantage of them, and we can and will sell our goods here, at less than any one who purchased two weeks since, paid for them in New York. Our stock is complete in every department of

ELEGANT DRESS SILKS,

Ayer's Sarsaparilla

A compound remedy, designed to be the most effectual *Alterative* that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PREPARED BY
DR. J. C. AYER & CO.
LOWELL, MASS.
Price, $1 per Bottle; Six Bottles for $5.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price 25 cents per Box; Five boxes for $1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

All our remedies are for sale by

ROBERTS & SAMUEL, Columbus,
And by Druggists and Dealers everywhere.
nov9:1yd,tw&w

TO BUSINESS MEN.

AN EXCELLENT CHANCE FOR a reliable business men to secure a profitable manufacturing business, requiring but a small capital in its establishment and pro ecution.

The manufacture consists in the application of a peculiar composition or enamel to common red bricks, and a variety of other building material, ornamental architectural finishings, ceilings, tiles for floors and for roofing.

This enamel may be tinted of any color, from the purest white to the deepest black, with all the colors and shades between. It imparts to the articles to which it is applied a hardness and durability almost incredible, and a beauty surpassing that of the rarest and most costly of the variegated marbles, and, unlike them, is impervious to moisture, and will never fade stain, or deteriorate, costing but a fractional part of the price of ordinary marble.

It is also valuable for table and stand tops, mantlepieces, monuments, and an endless variety of other articles of staple use. The process of applying the enamel is simple, while the articles enameled will command a ready sale, affording large profits. Responsible parties may procure licenses for manufacturing under the patent for any city or prominent town in the United States by applying to the subscriber. A small tariff on the articles manufactured will be required for the use of the invention. Circulars giving full particulars will be forwarded to all applicants.

The superior merit and beauty of this enameled building material to anything in use has the unqualified endorsement of many of the most eminent architects and scientific men of this and other cities.

For particulars address

JOHNSON & PRALL,
General Agents for Enameled Building Material,
ap9 d3m. 25 NASSAU ST., NEW YORK.

NOTICE.

I HAVE SOLD TO MR. HENRY WILSON my DRUG STORE, which is removed from the corner of High and Gay streets to the Southwest corner of Broad and High streets, Columbus, Ohio.

With many thanks to my former patrons and customers, I respectfully request the continuance of their favors to my successor. HENRY M. NEIL.
Columbus, April 1, 1861.

DRUG STORE.

HAVING PURCHASED THE DRUG STORE of Mr. HENRY M. NEIL, I have opened anew on the Southwest corner of Broad and High streets, Columbus, Ohio—*being the old and reliable stand for that business for many years.*

I have a fresh and well selected stock of *Pure Medicines*, and *Pure Chemicals*, together with *Paints, Oils, Varnishes, &c.* usually kept in such an establishment.

☞ PRESCRIPTIONS carefully and promptly compounded.

Store open at all hours of the *day and night.*

I respectfully solicit the patronage of the public.
HENRY WILSON.

[From the N. Y. Times.]

Our Army and Navy—Strength and Distribution of Every Ship and Regiment in the Service.

It has already been announced that the Army and Navy Registers for 1861 have been published. The interest which the public take at present in military and naval matters justifies us in analyzing, at considerable length, the contents of these annuals. Let us first refer to the statement of the strength and condition of

OUR REGULAR ARMY.

The present strength of the Army is 18,122 men. It consists of 19 regiments—10 regiments of infantry, averaging 10 companies of 70 men each; 4 of artillery, averaging 12 companies of 50 men each; 1 of mounted riflemen, 2 of cavalry, and 2 of dragoons—each of the latter numbering 10 companies of about 60 men; or about 198 companies in all. Of these, notwithstanding the excitement created by the concentration of about half a regiment at the National Capital, over 60 companies are stationed in the distant regions of Key West, Kansas, Nebraska, Utah, Texas, New Mexico, California, Oregon and other places. Regiments serving on these stations have 74 men to a company, instead of 64, so that were the entire army located in them, it would consist of 17,549, "total enlisted," and 1,886 aggregate. It is impossible to estimate accurately the number of officers now in the service, as no official list, deducting the resignations, has been published. There have been, however, some 1,200 commissions gazetted, and there must be over 1,000 epauletted gentlemen now on the roll. Each regiment has a certain number of officers allotted to it, which varies according to circumstances. The dragoons, for instance, of whom we have two regiments, numbering each about 600 men, have 1 colonel, 1 lieutenant-colonel, 2 majors, 10 captains, 11 first lieutenants, and 12 second lieutenants—74 officers all told; the two regiments of cavalry, (600 men) 1 colonel, 1 lieutenant-colonel, 2 majors, 10 captains, and 22 lieutenants—68 in all; the mounted rifle regiment the same number of men and general staff, and 23 lieutenants—37 in all; the 4 regiments of artillery, (each about 700 men) 4 general officers, 12 captains, and 38 lieutenants—216 in all; the ten regiments of infantry, (each about 700 men) 4 general officers, 10 captains and 20 lieutenants, and so on.

THE GEOGRAPHICAL DEPARTMENTS.

Almost every year two or three changes have to be made in the geographical arrangement of the Army departments, in consequence of increase of population, Indian depredations, or to facilitate military administration. The Register just published gives the latest divisions of the Departments, as follows:

DEPARTMENT OF THE EAST.—The country east of the Mississippi river; head-quarters, Troy, N. Y. There are eleven posts in this Department, viz: Fort Mackinac, Michigan; Plattsburg, New York; Fort Independence, Massachusetts; West Point, Governor's Island, and Fort Hamilton, New York; Carlisle, Pennsylvania; Newport, Kentucky; Fort Monroe, Virginia; Fayetteville Arsenal, North Carolina; Fort Sumter, South Carolina, and Key West, Florida. The garrisons at Augusta, Ga., Baton Rouge, La., and Barrancas, Fla., were also in the Department before being seized by the Secessionists. The First, Second, Third and Fourth Artillery, the United States Engineers and recruits, all to the amount of near 10,500 men, are stationed at these places, including the troops at Washington.

DEPARTMENT OF THE WEST.

The country west of the Mississippi river and east of the Rocky Mountains, except those portions of it included within the Departments of Texas and New Mexico; head-quarters St. Louis, Mo. The posts are Forts Abercrombie; Ripley and Ridgely, Minnesota, garrisoned by the Second, Third and Fourth Infantry and Fourth Artillery; Forts Randall, Laramie and Kearney, Nebraska, garrisoned by the Fourth Artillery and Second Dragoons; Jefferson Barracks, Missouri, garrisoned by recruits; Forts Leavenworth and Riley, Kansas, garrisoned by the First and Second Cavalry and Infantry; Forts Leavenworth and Little Rock, Arkansas, garrisoned by the First Cavalry and Second Artillery; Forts Cobb, Arbuckle and Wichita, and Wichita Nations, garrisoned by the First Cavalry and Infantry. There are probably 4,000 men in the Department of the West.

DEPARTMENT OF TEXAS.

The State of Texas; head quarters at San Antonio. Posts—(Forts and Camps)—Cooper, Chadbourne, Colorado, Bliss, Quitman, Mason, Stockton, Lancaster, Davis, Hudson, Verde, Ives, Wood, Clark, San Antonio, Inge, Duncan, McIntosh, Ringgold, Palo Alto and Brown—There were about 2,800 men (300 more than stated in a paragraph that has been going the rounds of the press) in the Department before Gen. Twiggs surrendered, of whom the Daniel Webster and other vessels will bring home, it is hoped, about 1,800, having left some to reinforce the Forts of Florida. The Rio Grande detachments are reported to be in an efficient state, and all Union men.

DEPARTMENT OF NEW MEXICO.

The Territory of New Mexico, exclusive of Fort Mojave; head-quarters at Sante Fe. Posts—(Forts and Camps)—Garland, Union, Defiance, two Navajo camps, Marcy, Hatch's Ranch, Fauntleroy, Albuquerque, Craig, Stanton, Webster, Breckinridge, Fillmore and Buchanan—garrisoned by the Second Dragoons, Mounted Rifles, Fifth, Seventh and Eighth Infantry, to the amount of probably 2,300.

DEPARTMENT OF THE PACIFIC—(NEW ARRANGEMENT.)

The country west of the Rocky Mountains, except those portions of it included in the Departments of New Mexico and Utah; head quarters at San Francisco. Posts—(Forts and Camps)—Coleville, Pickette, (San Juan,) Townshend, Stellacoom, Gray's Harbor, Walla Walla, Cascades, Vancouver, Dalles, Yamhill, Hopkins, Umpqua, Ferwan, Gaston, Crook, Humboldt, Bragg, Churchhill, Benicia, Alacantras, Presidio, Mojave, Tejon, Diego and Yuma.

Gen. Johnston was recently appointed to relieve Col. Beall in command of the Pacific Department, which he has probably done before this time. He will have under his control 1,550 men, distributed as follows: One company (Sixth Infantry) in San Francisco Harbor; field and staff of the Third Artillery, at the Barracks; field and staff of Sixth Infantry at Benicia, which is garrisoned by companies C and K of that regiment; Company L, Third Artillery at Umpqua; D Fourth Infantry at Ferwan; B, Sixth Infantry, at Humboldt; two companies one, of dragoons and one of infantry, at Crook; B, Fourth Infantry, at Gaston; D, Sixth Infantry, at Bragg; B and H, First Dragoons, at Tejon; C, Sixth Infantry, and C and E, Fourth Infantry, at Yuma; F, Sixth Infantry, at New Sandiego; I, Sixth Infantry, and J, Fourth Infantry, at Mojave; one company of dragoons and two companies of Sixth Infantry, Churchhill, and a small company in Honey Lake Valley.

DEPARTMENT OF UTAH.—The Territory of Utah, except that portion of it lying west of the 117th degree of west longitude; head quarters, Camp Floyd. Fort Bridger is the only other post in the Department in which some companies of the Tenth Infantry, Second Dragoons and Fourth Artillery, to the number of 1,000, probably, do garrison duty.

So much for the Departments.

TROOPS NOW AT WASHINGTON.

The United States troops, exclusive of Marines, now at Washington, are as follows: Company I, of the First Artillery, and Companies A, D, E, H, and K, of the Second Artillery; the detachments of Dragoons from Carlisle Barracks and West Point, and the corps of Sappers and Miners from West Point. Companies A, of the Second, I, of the First, and the West Point Dragoons, are accompanied by light batteries. The remainder are all acting as Infantry, with the exception of the Dragoons from Carlisle.

THE NAVY.

The total number of vessels on the Navy Register, for 1861, is 91. They rank as follows:

Ten liners, rated at nearly 3,000 tons each—872 guns.

Ten frigates, averaging 1,800 tons, and 50 guns each.

Twenty sloops of war (leaving out the Levant), each averaging 900 tons and 18 guns. All useless in their present state.

Three brigs, averaging 280 tons and 6 guns each, all sound, but of little value.

One schooner, 95 tons, 3 guns. Good of her kind.

Eight first class propellers, each averaging 3,500 tons, and rated for 40 guns, while only carrying about 28.

Six second class propellers, (five new), averaging 2,000 tons, and 14 guns each.

Seven navy-built steam gunboats, averaging 900 tons and 5 guns each. All in commission.

Old steamers of different rates: Four first-class side-wheel steamers, averaging 2,000 tons and 10 guns each. Three in commission.

Two third class side-wheel steamers, (leaving out the Fulton, now a Florida man-of-war) Both in commission.

One steam tender, (Water-Witch,) and eight harbor and sea going storeships, and seven purchased steam gunboats. All unfit for war purposes.

Of the ten liners, none could be made serviceable in their present shape. Ten of the corvettes are in commission—five of them (the Macedonian, Cumberland, Constellation, Portsmouth and St. Louis) being good ships. The others would be comparatively useless in a modern naval engagement.

All the sea steam corvettes and gunboats are on active duty, as will be seen in our squadron list.

VESSELS THAT COULD BE GOT READY AT ANY MOMENT.

The following vessels could be prepared at a few weeks' notice for service, being now in the naval "ready" state:

	Officers and Men.	Tons.	Guns.
Steam frigate Colorado	400	3100	12
Steam frigate Merrimack	400	3200	12
Steam frigate Minnesota	400	3200	12
Steam frigate Mississippi	340	1992	10
Frigate St. Lawrence	500	1826	50
Frigate Constitution	500	1607	40
Corvette Germantown	300	949	23
Corvette Jamestown	300	985	24
Corvette Plymouth	200	989	22
Total	3200	15148	203

THE SQUADRONS.

THE HOME FLEET—*Commander-in-Chief, Flag Officer Prendergast.*—This Squadron, theoretically, has for its cruising ground the Atlantic coast from Labrador to Florida, the Gulf of Mexico, the Caribbean Sea, and the shores of South America to the mouth of the Amazon; but since the recent political complications, has been ordered to the coast of Florida exclusively, and more recently to our own seaboard, except the Macedonian and another craft. The present strength of the fleet on the coast is as follows.

	Officers and Men.	Tons.	Guns.
Flagship Cumberland	300	1726	24
Steam frigate Powhattan	320	2415	10
Steam corvette Brooklyn	300	2000	20
Steam gunboat Mohawk	100	450	4
Steam gunboat Crusader	100	400	5
Steam gunboat Pocahontas	90	350	4
Steam gunboat Pawnee	162	1200	9
Steam gunboat Wyandotte	100	420	4
Sailing frigate Sabine	340	1726	50
Sailing corvette St. Louis	240	700	20
Sailing corvette Germantown	260	939	25
Total	2512	12326	172

And two storeships.

THE MEDITERRANEAN FLEET—*Commander-in-Chief, Flag-Officer Bell.*—The ships of this squadron cruise in the Mediterranean sea, and touch at all the chief ports of Southern Europe. They often show the American flag, too, in Egyptian harbors. The depot of the fleet is at Spezzia, where there is a storehouse. Up to last October, the gunboat Iroquois was the only vessel in the straits. Our squadron is now as follows, the three steamers, according to rumor, having been ordered home:

	Officers and men.	Tons.	Guns.
Steam frigate Susquehanna	400	2450	17
Steam gunboat Iroquois	190	1016	6
Razee Savannah	300	1726	24
Total	890	5192	47

THE PACIFIC FLEET.—*Commander in-Chief, Flag-Officer Montgomery.*—The Pacific squadron is employed on the west coast of N. and S. America, the Sandwich, Marquesas and Guano Islands. The head-quarters of the fleet are—north at Panama, and south at Valparaiso. The chief stopping places are Callao, Honolulu, and a few smaller ports. The Levant, Corvette, which left Honolulu in September, not having since been heard of, is supposed to be lost. The fleet is as annexed:

	Officers and Men.	Tons.	Guns.
Flag ship steam-corvette Lancaster	420	2360	22
Steamer Saranac	925	1446	9
Steam gunboat Wyoming	176	997	6
Steam gunboat Narragansett	152	809	6
Sloop St. Mary's	220	958	20
Sloop Cyane	217	702	22
Total	1402	7362	85

And two storeships.

THE AFRICAN FLEET—*Commander-in-Chief, Flag Officer Inman.*—The cruising quarters of the African fleet is within latitude 20 deg. north, and 18 deg south, and the adjacent ocean on the coast of Africa. The stopping places are Fernando Po, Madeira, going out and returning, Porto Grande, St. Helena, Cabenda, Little Fish Bay and St. Paul de Loando. The depots and storehouses used formerly to be at Porto Praya, but that being too far from the slavetraders' track, it was removed 1,500 miles down south, almost to the mouth of the Congo River, at St. Paul's. The fleet, which is said to be ordered home, is as follows:

	Officers and Men.	Tons.	Guns.
Flag-ship corvette Constellation	350	1900	22
Corvette Portsmouth	300	1022	22
Corvette Saratoga	300	882	20
Steam-frigate San Jacinto	300	1446	18
Steam gunboat Monican (new)	160	994	10
Steam gunboat Mystic	90	500	6
Steam gunboat Sumter	85	400	6
Total	1585	6444	104

THE EAST INDIES FLEET—*Commander-in Chief Flag-Officer Stribling.*—The East Indies Fleet cruises in the Seas of China and Japan. The depot is Hong Kong, but provisions and stores are sometimes left at other places. As it takes about six months for a vessel to get out, she seldom remains there more than a year, except when the exigencies of the service at home, as at present, for instance, prevent the authorities from relieving her when the specified term of cruising (two years) expires. The present Commander-in-Chief is a native of South Carolina, but is so intimately allied with Northern families that there is no likelihood of his resigning. His sentiments of duty, too, would hardly admit of such a course on his part. We subjoin a list of the squadron:

	Officers and Men.	Tons.	Guns.
Flag-ship steam-corvette Hartford	360	1,900	14
Steamer Saginaw	120	400	4
Sailing-sloop John Adams	180	900	13
Steam gunboat Pocotah	100	1,085	8
Total	760	4,275	38

And a storeship.

ON SPECIAL SERVICE.—The ships, the names of which are subjoined, are employed on special service:

	Officers and Men.	Tons.	Guns.
Steam frigate Niagara	400	4580	12
Frigate Constitution	400	1607	30
Steamer Michigan	150	400	1
Total	950	6587	63

The Niagara has gone home with the Japanese; the Constitution, (old Ironsides,) having been thoroughly overhauled, at Portsmouth, N. H., has been turned into the midshipmen's school ship, and is now anchored in the stream of the [Annapolis Academy; and the Michigan has just been commissioned for service on the Lakes.

OUR NEW STEAM NAVY.

Now that Congress has passed an act authorizing the construction of seven new steamers, it may not be amiss to state how the last ones added to the Navy turned out. In order to take up as little room as possible, we will describe the peculiarities in tabular form, as follows:

Name.	Where built.	How turned out.
Brooklyn	New York	A complete success.
*Iroquois	New York	The crack ship in the Straits.
Richmond	Norfolk	Rolls heavily—partial succes.
*Dacotah	Norfolk	Rolls terrifically—a failure.
Lancaster	Philadelphia	A partial failure.
Pawnee	Philadelphia	A complete failure.
Wyoming	Philadelphia	Comparatively successful.
Hartford	Boston	A first class ship.
Narragansett	Boston	Fire-class.
Pensacola	Penss'la & N'folk	Supposed to be a failure.
Seminole	Penss'la & N'folk	A failure.
Mohican	Portsmouth	The second best ship of class
Saginaw	San Francisco	A failure for war purposes.

*Gunboats.

REVENUE AND SURVEYING VESSELS.

We have not alluded in this article to any vessels but those belonging to the regular navy. There is quite a respectable fleet, so far as numbers are concerned, of light-draft brigs, schooners, and steamers, connected with the revenue and surveying service, lying at the different navy-yards, which would, no doubt, be found useful and efficient as tenders.

THE
ONLY PREPARATION
THAT HAS
STOOD THE TEST OF YEARS,
And grows more and more popular every day!

And testimonials, new, and almost without number, might be given from ladies and gentlemen in all grade of society, whose united testimony none could resist, that proof, Wood's Hair Restorative will restore the bald and gray, and preserve the hair of the youth to old age, in all its youthful beauty.

Battle Creek, Mich., Dec 21st, 1858.

PROF. WOOD: Thee will please accept a line to inform thee that the hair on my head all fell off over twenty years ago, caused by a complicated chronic disease, attended with an eruption on the head. A continual course of suffering through life having reduced me to a state of dependence, I have not been able to obtain stuff for caps, neither have I been able to do them up, in consequence of which my head has suffered extremely from cold. This induced me to pay Briggs & Hodges almost the last cent I had on earth for a two dollar bottle of thy Hair Restorative, about the first of August last. I have faithfully followed the directions, and the bald spot is now covered with hair thick and black, though short. It is also coming in all over my head. Feeling confident that another large bottle would restore it entirely and permanently, I feel anxious to persevere in its use, and being destitute of means to purchase any more, I would ask thee if thee wouldst not be willing to send me an order on thine agents for a bottle, and receive to thyself the scripture declaration—"the reward is to those that are kind to the widow and the fatherless."

Thy friend, SUSANNAH KIRBY.

Ligonier, Noble County, Indiana, Feb. 5th, 1859

PROF. O. J. WOOD: *Dear Sir:*—In the latter part of the year 1852, while attending the State and National Law School of the State of New York, my hair, from a cause unknown to me, commenced falling off very rapidly, so that in the short space of six months, the whole upper part of my scalp was almost entirely bereft of its covering, and much of the remaining portion upon the side and back part of my head shortly after
