WEDNESDAY, June 20—P. M.

Gold closed at 152¼, after selling at 153¼ and 151¼. The steamer from Aspinwall brings $911,739 in treasure.

There is less activity in Government stocks, but prices are well supported. In State stocks and Railway mortgages little doing. The small stocks continue to be neglected, and are only dealt in by the brokers specially retained in their behalf. Water Power fell to 41¼. New-York Central and Hudson River were both lower, and Erie was freely offered at 58¼. Reading was barely steady, and sold freely at 108¾@109. The North-Western stocks were steady and Rock Island higher. After the call Reading and Michigan Central were stronger upon the announcement of dividends. At the Second Board the market was dull and steady, with the exception of Erie, which sold at 58¼. After the call, Erie sold at 58¼, closing at that price bid. The balance of the market was dull, and closed heavy at quotations: Ohio Certificates, 27¼@27¾; Canton, 50¼@50¾; Cumberland Coal, 45¼@45¾; Quicksilver, 50¼@51; Mariposa, Preferred, 22@23¼; New-York Central, 98¾@99¼; Erie, 58¼@58¾; Hudson River, 112@112¼; Reading, 108¾@108¾; Michigan Southern, 79¼@79¾; Illinois Central Scrip, 121@122; Cleveland and Pittsburgh, 86¼@86¾; Cleveland and Toledo, 107@107¼; Rock Island, 95¼@95¾; North-Western, 30@30¼; North-Western, Preferred, 59@59¾; Fort Wayne, 97¼@98.

Money continues in large supply on call, at 5 per cent, with loans at 4 upon Governments. Among brokers upon miscellaneous collaterals 6 is the rate. In commercial paper no change.

Exchange is dull, and prime bankers' sterling is quoted at 108¾@108¾ and francs at 5.15.

The President has approved a bill to regulate and secure the safe keeping of public money intrusted to disbursing officers of the United States. It is made their duty to deposit with the Treasurer of Assistant Treasurer money intrusted to them for disbursement, and to draw from the same only as funds are required for payments to be made in pursuance of law, a violation of which and the use of the public money for private advantages are to be punished by fine and imprisonment. The Treasury Department should now turn its attention to all collectors of internal revenue, and see that they make their deposits promptly. The public money, as at present managed, is too easy of access to speculators.

According to Secretary McCulloch, he has sold since January 1, 1866, $50,495,000 in gold—a sum equal to the annual interest on $810,000,000 of six per cent gold-bearing bonds. If instead of "bulling" existing Government stocks, and making one million of dollars, the Department had issued $800,000,000 of 40-year six per cent bonds, and offered them in exchange for legal-tenders, compound certificates and temporary loans, the currency would now be in a sounder condition, the Treasury Department upon an easier footing, gold cheaper, and the industrial pursuits of the country more profitably employed. A great blunder has been made in entertaining the idea that the enormous cost of the Rebellion could be funded into a long five per cent bond in a country where people in active business scramble for capital at 8 to 12 per cent. The sooner this idea is dismissed the better, if specie payments are intended by the Department. The five per cent capitalists being out of the market, the sooner the six per cent people are appealed to the better, if Mr. McCulloch would spare himself the trouble of paying money the maturing compounds and 7-30 notes.

The following shows the aggregate exports of specie from New-York to foreign ports for the week ending June 19, and since the beginning of the year:

	1866.	1865.	1866.
For the week	$[illegible]	$[illegible]	$[illegible]
Prev. reported	[illegible]	[illegible]	[illegible]
Since January 1	$77,508,559	$74,[illegible]	$[illegible]

RAILWAY EARNINGS FOR THE 2D WEEK IN JUNE.

	1865.	1866.	Dec.
Michigan Central	$[illegible]	$[illegible]	$[illegible]
Chicago & Rock Island.	[illegible]	[illegible]	[illegible]
Detroit & Milwaukee ..	[illegible]	[illegible]	[illegible]
Michigan Southern	[illegible]	[illegible]	Inc. [illegible]
Chicago & Ft. Kearsarge	[illegible]	[illegible]	[illegible]
Gt. Western of Canada .	[illegible]	[illegible]	[illegible]

The Michigan Central Road has made a settlement. Dividend of 3 per cent. The books close June 21 and reopen July 3. The gross traffic of the six months was $1,923,196. But for the losses growing out of the Detroit fire the dividend would be larger.

Freights are dull and lower. The engagements to Liverpool, per steamer, are 60,000 bush. Corn at 1 9-16@1¾d. To London, 1,000 bbls. Spirits at 3s. 9d@5s. 1½d.; a Bark to Penarth Roads, for orders, with Corn, at 3s. 6d., and a ship from St. Johns to London, with 1,200 tuns Deals, on private terms.

The business of the Sub-Treasury was: Receipts, $4,646,195 73; for Customs, $[illegible]; Payments, $1,619,272 [illegible]; Balance, $93,993,312 51; Gold notes, $400,000.

The Reading Railroad has declared a cash dividend of 5 per cent, payable July 10.

The Norwich and Worcester Road has declared a dividend of 5 per cent, payable July 10.

The Tenth National Bank has declared a dividend of 5 per cent, free of tax. The Metropolitan National has increased its semi-annual dividend to 6 per cent, free of tax. The Fifth National also pays a dividend of 5 per cent, and the Union Trust Company a dividend of 4 per cent.

The following is a statement of coal transported on the Delaware and Hudson Canal for the week ending June 16, 1866:

	For the week.	For the season.
Delaware and Hudson Canal Co	45,496	424,886
Pennsylvania Coal Co.	1,293	7,167
Total tons	46,789	432,053

For the same period last year:

	For the week.	For the season.
Delaware and Hudson Canal Co	31,638	231,162
Pennsylvania Coal Co.	236	15,468
Total tons	31,874	246,630

Byron Murray, jr., of the firm of Birch, Murray & Co., has been elected a member of the Stock Exchange.

The Merchants' Exchange National Bank has declared a semi-annual dividend of 5 per cent, payable after July 2.

The Institution for the Savings of Merchants' Clerks has again made its judicious and discriminating extra dividend, in addition to its regular semi-annual dividend of 6 and 5 per cent, payable 16th July next. The extra dividend is apportioned as an act of justice to those depositors whose money having remained undisturbed has contributed most to the surplus, viz.: 3 per cent on deposits three years standing, 2 per cent on those of two years, and 1 per cent on those of one year, making in fact a dividend for the six months on deposits of three years standing equal to the rate of 12 per cent per annum, still leaving in the Institution a surplus as large as the law permits.

Neill Bros. & Co., noticing the growing cotton crop, say:

The rains which were reported down to the date of our last all over the South, have at last ceased, and from all points we hear of the work of taking rivers and warm summer weather. This will enable the planters to cultivate the grass in the uplands and lands which have not been overflowed, and so great an inducement does the high value of cotton present to extensive planting, that, late as it was, we fear that the lands overflowed by the last great freshets was being planted as fast as the waters receded. The success or failure of the crop on such lands depends so late, depends on the lateness of frost and immunity from worms. Our own correspondence this week speaks very favorably of the weather. In Alabama it was warm and sun, although, as evidence of the quantity of rain which had fallen, a correspondent mentions that on the 8th inst. the Alabama River was 3 feet higher than it had been in May, when it reached the highest previous point.

A correspondent writes on 11th inst.:

We have had a good deal of rain and cold weather, quite unfavorable for the plant, but with a good favorable season hereafter, I think we will make a fair cotton crop. The weather is now as favorable as we could desire and my advices from South Western Georgia are satisfactory. My correspondents, men of character, report the freedmen as working well, and crop prospects good. You hear much of the cotton being in the grass; this is always the cause when we have much rain, but it only requires hard work to get rid of this. Two weeks of such weather as we are having now will put the crops in fine order, and as a general thing they will compare favorably with former years as to stands and forwardness of the plant, but not over half the breadth of land, and I don't think more than half the negroes are employed in the cultivation. If I judged of the growing crop from our own State I should say five-eighths to three-fourths for a crop. I think Georgia will produce five-eighths of an average crop, as we are better supplied with labor and the best yielding portion of the State has suffered but little from the war, with the exception of losing the stock. I should make no calculation on less than 2½ millions of bales for the year. You must bear in mind that planters are great croakers.

A correspondent writes under date 12th:

From all the section of country lying between Vicksburg and Memphis, the accounts are favorable. The planting was large, the stand good, and though they have suffered from rains, not to the same degree as other districts. From along the Mobile and Ohio Railway, and the New Orleans and Jackson Road, I hear great complaints of grass.

In our circular of 2d ultimo, we alluded to the fact that the actual stocks in the Southern ports were considerably in excess of the figures given in their respective tables and in our estimate of stock we added 30,000 bales for all ports on this ground. In New Orleans, the stock in warehouses has just been counted, and amounts to 149,000 bales. The quantity on shipboard not cleared, is about 21,000, making a total of 170,000, whereas the tables for the week ending 9th June, give the stock on hand and on shipboard at that date as 121,000. A similar count made in Mobile, shows an excess there also of 20,000 bales, the actual stock on hand and on shipboard being about 60,000, instead of 39,000, as shown by the Mobile tables of 8th inst. We assume that the other ports will show a similar excess over their estimates, as the same causes apply to all alike. The addition which we may make to our estimated stock at all ports shown by the tables, would now appear to be at least 75,000 bales, and the total on hand still about 600,000 bales.

The San Francisco Mercantile Gazette of May 29 says:

There is no apparent diminution in the amount of capital offering for loan purposes, and the demand upon such securities as the Bankers are willing to accept is rather lighter than usual. Business requirements are moderate, and good mercantile paper is readily taken at 1 per cent per month. Call loans of some magnitude are reported at 10 per cent per annum on State Bonds, and other transactions have been recently made at terms equally favorable to the borrower. Receipts of bullion from the interior since the date of our last report amounted to $1,100,000, making an aggregate of $1,700,000 thus far during the current month. Currency bills on the Atlantic cities are selling at 30 per cent, premium on gold. Telegraphic Transfers are made at ¼ per cent, premium and sight drafts payable in coin are quotable at 2 per cent, premium. Sterling Exchange may be quoted at 49@48 for best bankers bills. There is a more active demand for bullion, with an improvement in rates. Gold bars are selling to-day at 800, with a prospect of higher figures to-morrow. Silver is ranging at 1 to 1½ per cent, premium for an average grade of bars. Legal Tender Notes declined last week from 77½ to 74½, rallied to 75, and are inactive and dull at the close at about 74 bid. Mexican dollars are to rather more favor, and are selling at 1½@1¾ per cent. The exports of treasure have been as follows: Total since Jan. 1, 1866, $15,096,212 33; corresponding period of 1865, $16,144,814 87; decrease this year $1,048,600 54.

Markets—CAREFULLY REPORTED FOR THE N. Y. TRIBUNE.

WEDNESDAY, June 20, 1866.

We have had a very heavy and excited market for our leading staple products since the date of our last weekly review. Breadstuffs have largely advanced under a break in the canal near Schenectady, and a violent advance in gold, but at the close the demand abated and part of the improvement lost. Provisions have been quite active and have advanced, but not without considerable variableness. Cotton ruled quite firm under very favorable news from Europe, but the business has been only to a moderate extent. In Petroleum there has been but little variation.

ASHES—The market has been somewhat unsettled by the fluctuations in gold. Pots have advanced and a fair business was done—being at $8¼@8¾. Pearls are scarce and nominal at $12@9½.

BEESWAX—Yellow Western and Southern have been in moderate request at about previous prices. We quote at 40@41c.

BRICKS—The market continues firm, but the business has been only to moderate extent.

CANDLES—Have been in moderate demand, but prices have undergone no essential change. We quote Adamantine at 22@23c.; sperm at 35c., and Patent at 30c.

COCOA—Very little has been done and prices are nominal at 15@16c. for Guayaquil and 22@23c. for Caracas, both gold, in bond.

COPPER—We have had a more animated demand for American Ingot since our last, chiefly speculative, owing to the material advance in gold the business has been very large, and the market closes firm but quiet at 31@32c. for Baltimore and Lake. New Sheathing and Yellow Metal too have ruled very firm, and sales have been made to a fair extent at 40c. for the former, and 35c. for the latter.

COTTON—The market is in a very dull and unsettled condition. The demand is moderate, and only for small parcels, to supply immediate wants, buyers in every case insisting upon a concession, which holders find it necessary to make, in order to effect sales, though, as a general thing, there is no disposition manifested to force business, for the sake of working off stock. The transactions to-day foot up about 500 bales, at 37c. for Middling Uplands and Gulfs, and 40c. for do. New Orleans and Texas.

COAL—The inquiry for domestic has been only limited, but prices are very firm at $7@8 by the companies, and $6@8 50 from dealers' hands. In Foreign we have but little change to note.

COFFEE—The market for all kinds is very dull, and in the absence of sales quotations are to some extent nominal: really prime grades of Rio are still very scarce, and when offered are easily disposed of at the ruling rates, but the bulk of the stock is composed of poor qualities, which cannot be sold except at very low figures. We quote Rio, prime, at 19½@20c.; good, 18@19½c.; fair, 16@16½c.; ordinary, 14½@15c.; fair to good cargoes, 16@17½c.; Laguayra, 17@19c.; Maracaibo, 17@18c.; Java, 24@26½c.; Ceylon, 20@22½c., and St. Domingo, 17@17½c., all net cash, gold, duty paid. We are permitted to copy the following extract from a letter dated Rio de Janeiro, May 8, which may be of interest to many of our readers: "Coffee generally is scarce, and good grades, which constitute such a small proportion of our small daily receipts, hold their ground with increased firmness. There is no fear of their becoming cheaper, even with bad news. We except, however, any collapse through European war. Receipts will be small for two months, and I believe that for some time shipments will be on a very moderate scale. Although the next crop will be more abundant than last year, we are of opinion that we would be mistaken to put it down at over 2,500,000 bags. The quantity, in our opinion, is not large enough to warrant any considerable decline in prices."

DRUGS AND DYES—We have had a very quiet and unsettled market for the leading articles under this heading since our last occasioned by the violent fluctuations in gold, prices remain nominally the same as last quoted. We quote

Fustic, Maracaibo (gold)	25 @ 26 —
Lima Wood	110 00@ — —
Sapanwood, Manilla, (gold)	85 @ 90 —

FLOUR AND MEAL—Since the date of our last week's review we have had a more active demand for State and Western Flour, but in prices we have had some irregularity. Early in the week inferior and unsound Flour arrived quite freely, and the stock was growing large. The market for this description was much depressed in consequence, and holders were compelled to submit to a decline in order to work off the stock. Good Sound Spring Wheat Extras, however, were inquired after and sold very readily at full and advancing prices. Friday and Saturday all grades ruled very firm, and advanced under a brisk demand. On Monday the market was somewhat excited under the rapid advance in gold and the very favorable news, and prices improved 10@15c. ₩ bbl, but yesterday good Sound Spring Wheat Extras ruled very firm. The business for the week has been entirely of a speculative nature, there being no European shippers in the market and the home trade is well supplied. The inquiry for South America, West Indies and the Provinces has been only moderate. To-day (Wednesday), the market was moderately active, but prices were somewhat irregular. Common grades fell off about 10c. ₩ bbl. White good sound flour ruled very firm; the sales are 6,500 bbls. at $6 75@$7 30 for Superfine State, $7 75@$8 50 for Extra do., $9@$10 for Fancy do., $8 40@$9 40 for the low grades of Western Extra, $9@$10 25 for Shipping Ohio, $10 30@$14 for Trade and Family brands, and $14 50@$17 for St. Louis Extra.

FISH—We have had a further advance in the price of Dry Cod since our last, owing to the improvement in gold and the very small supply on hand, but the business has been only of a retail character. Mackerel have also ruled very firm, but the demand has been quite limited, the supply of Old is small and there is no New on the market. Smoked herrings are dull, with large arrivals prices are nominal. Pickled do. are dull. We quote:

Dry Cod, ₩ cwt	$5 50@ $5 75
Dry Scaled, ₩ cwt	4 75@ 5 00
Pickled Cod, ₩ bbl	7 00@ 7 50
Mackerel, No. 1 Mass. small, ₩ bbl	23 00@ 23 50
Salmon, Pickled, No. 1, ₩ tce	40 00@ — —
Herring, Scaled, ₩ box	62½@ 65
Herring, No. 1, ₩ box	50@ 55

FRUIT—Our market for all descriptions of Foreign and Domestic Fruits has been very dull and unsettled since the day week. Raisins have improved and close firm. We quote:

Raisins, layer, new, ₩ box	4 40@ 4 60
Raisins, buncl, new do	4 10@ 4 15
Currants, ₩ lb	14@ 15c.
Citron, Leghorn, do	28@ 30
Almonds, Tarragona, do	22@ 24
Almonds, Shelled, do	70@ 80
Almonds, Soft Shell, do	40@ 50
Filberts, do	16@ 18
Walnuts, French, do	16@ 18
Walnuts, Sicily, do	14@ 16
Cocoanuts, ₩ M	85@ 90
Sardines, ₩ half box	38@ 4
Sardines, ₩ qr box	25@ 30
Brazil Nuts, ₩ lb	15@ 16½
Filberts, Sicily, do	12@ 13
Walnuts, Sicily, do	11@ 12

GRAIN—We have had a very excited and buoyant market for spring Wheat since our last weekly review; the demand has been very active, and prices under the rapid advance in gold, more favorable news from Europe, and the break in the canal, have steadily advanced the value, and prices show an advance of fully 15@20c. on Inferior and Common Spring, 10@15c. on Nos. 2 and 3 Milwaukee Club and Winter Red Western. Fresh arrivals of Prime and Choice Spring have been very limited, and with a much reduced stock in the hands of consumers, in obtaining a full supply advance, as we stated in the Tribune, and to be more certain to the mark first anticipated. In Winter Wheat we have had but a quiet and steady business of Amber Winter and Red Winter are in good demand for the class of goods adapted to the trade, and the stock is not excessive for spring. Buyers and sellers differ in their views. We note a sale of 4,000 bush. New Amber Michigan at $2 [illegible]. Barley and Barley Malt are both very dull and in the absence of sales prices are nominal. Oats have been in good demand from the trade, and prices have gradually advanced, to-day the market is fully active and firm, from the influence of the advance in Chicago and Toledo for Milwaukee. Rye has again advanced, and a more active demand prevailed, closing quite active and decidedly brisk, sales of 30,000 bush. at $1 [illegible]@$1 24 for Western, and $1 35 for Canadian. Corn has been in more active demand, and with a break in the canal and a gradual decline in foreign, prices have advanced, the inquiry being in part speculative, but mainly for export, to-day the market is quite active and buyers and sellers of Western Mixed, at [illegible] for Unsound, Yellow for New Mixed Western, and $1 [illegible] for Southern Yellow, in store. Nothing of moment was done in Wheat since the change, holders of choice Spring generally refuse to sell, some at full prices, while inferior and common grades are dull and drooping. In Corn we note sales of 21,000 bush. New Mixed at $1 [illegible], and the market closes buoyant, with prices two days advanced, sales the last eight days of 200,000 bush. New Mixed Western, and the extreme range of prices for Western Mixed, New Western were made at $1 [illegible] for common, and $1 [illegible] for prime. Rye is said to be sold at a further improvement, but we are unable to trace any actual sales.

EXPORTS OF BREADSTUFFS.

	Flour. bbls.	Wheat. bush.	Corn. bush.
Total to Great Britain and the Continent for the week ending June 16, 1866	300	[illegible]	[illegible]
Since Sept. 1, 1865	102,195	155,734	[illegible]
Same time, 1864	84,877	229,921	[illegible]

RECEIPTS OF PRODUCE.

For the week ending June 16, 1866	60,574	10,300	[illegible]	[illegible]	[illegible]
Since Sept. 1, 1865	[illegible]	[illegible]	616,916	[illegible]	[illegible]
Same time, 1864	2,947,400	847,931	702,453	[illegible]	[illegible]

GUNNIES—Holders of both Bags and Cloth have been very firm in their views, and generally demanded an advance, but the business in consequence has been limited, and we quote nominally at 22½@24c. for the former, and 29@30c. for the latter.

HAY—The inquiry has been good and the market ruled very firm, sales at 60@65c. for Shipping, and 70@75c. for retail lots.

HEMP—The business in all descriptions has been limited, but in prices there has been no particular variation, we quote in gold, at [illegible] for Hemp, and $190@$195 for Jute, and, in currency, at 9@10c. for Sisal, $350@$360 for Russia Clean, $250 for American Undressed, $200@$250 for dea Dressed.

HOPS—Under small receipts and a steady decreasing stock, our market has been very firm, and a good inquiry prevailed; we quote at from 50 and 60c. lb. as to growth and quality.

HONEY—The market is dull but steady, at [illegible] for Cuba, gold, duty paid, and 60c. for do. gold, in bond.

INDIGO—The inquiry continues limited, but prices are without change; we quote at [illegible] for Caracoas, [illegible] $1 85 for Guatemala, both gold, 85c.@$1 35 for Manila, 70@$1 [illegible] for Madras, 90c.@$1 25 for Crude and $1 [illegible] for Bengal, all currency.

IRON—With a material advance in gold, holders of Scotch Pig have been very firm in their views, and generally demanded an advance, but buyers purchased only such lots as would supply pressing wants, and the market closes dull with the fall in gold. American Pig is in small supply, has advanced, and closes very firm. Bar Iron has been in fair demand at full prices. We quote:

Pig, No. 1 American, per ton	$46 00@ 47 00
Pig, No. 1 Scotch, per ton	46 50@ 48 00
Bar, Common E. & A., per ton	110 00@ — —
Bar, Refined E. & A., per ton	120 00@ — —
Scroll, per ton	150 00@ 200 00
Band, per ton	150 00@ — —
Hoop, per ton	135 00@ 150 00
Rods (3-8@16 inch), per ton	122 50@ 130 00
Horse Shoe, per ton	115 00@ 150 00
Oval, half round, per ton	110 00@ 135 00

LATHS—Have been in good demand and prices are well sustained; we quote at $4.

LEAD—There has been less doing in Pig, but prices have improved and close firm; we quote at $6 [illegible]@$6 [illegible] for Spanish and German Refined and 6c. [illegible] for English. Bar Lead, and Sheet and Pipe do., which is an advance.

LIME—Rockland is in good demand and firm, at $1 60 for Common and $2 10 for Lump.

MOLASSES—We have heard of no important sales to-day, but the market remains extremely firm at full former quotations; we quote Centrifugal and [illegible] at [illegible], Clayed [illegible], Muscovado, [illegible], Porto Rico, [illegible], and New Orleans, [illegible] per gallon.

NAVAL STORES—Spirits Turpentine is in less active demand, and, with more liberal arrivals, prices are easier. Stock, 2,500 bbls. Crude Turpentine is dull, stock 1,000 bbls. Rosins have advanced, and a fair business was done. Tar has been in moderate request, at full prices; stock, 5,000 bbls. We quote:

Turpentine, North County	₩ gal. 90@ $2 25
Tar, Washington and Newbern	₩ bbl. 2 [illegible]@ 2 50
Pitch, City, No. 1	2 75@ 4 00
Rosin, Common	₩ 280 lb 3 [illegible]@ —
Rosin, Strained and No. 2	₩ 280 lb 3 [illegible]@ 6 00
Rosin, No. 1 and Pale and White	6 50@ 7 50
Spirits Turpentine, Ash	₩ gal. 87@ 92

OILS—Linseed has advanced and a fair business was done. Fish Oils have been only in moderate demand, and prices have been irregular. Crude Whale is lower, while Crude Sperm is firm. Lard Oil is dull and lower. City Distilled Refined is scarce and better. We quote:

Linseed, City, in casks	₩ gal. $1 65@ — —
Whale, Fair to Prime	1 [illegible]@ — —
Whale, Bleached Winter	1 45@ 1 50
Sperm, Crude	₩ gal. 2 [illegible]@ 2 50
Sperm, Winter, Unbleached	2 70@ 2 75
Lard Oil, F
