WEDNESDAY, June 27—P. M.

Gold closes at 154¼, after selling at 156¼@154¼.

Government stocks are firm, and the six per cents of the 5-20 issue in more demand. The sales of Railway mortgages and State stocks are small, hardly enough to make quotations. Michigan Central was 104 bid, and no stock offered. The main facts of its annual report will be found in another part of this column. The remainder of the list was neglected, and speculation is being reduced to small limits. At the Second Board the market was stronger, Reading, Michigan Southern and the North-Western shares being very active and higher. Erie, after the call, improved, and sold at 60¾. The market closed steady at quotations: Ohio Certificates, 26¾; Canton, 54¼; Cumberland Coal, 44¼@45¼; Quicksilver, 48¾@49; Mariposa Preferred, 21@22; New-York Central, 98¾@98¾; Erie, 60¾@60¾; Reading, 109¼@109¾; Michigan Southern, 78¾@78¾; Cleveland and Pittsburg, 83¼@83¾; Rock Island, 94¼@94¾; North-Western, 30¾@30¾; North-Western Preferred, 59¾@59¾; Fort Wayne, 98¾@98¾.

Money is unchanged, and the offerings at 5 per cent are in excess of the wants of stock houses. On Government stocks to leading houses 4 is the rate, and 6 upon salted collaterals. Among brokers for commercial paper no change. The supply is small, and first-class names are in demand.

Foreign exchange is dull. Bills at 60 days on London are quoted at 107@108¼ for commercial, 108@109 for bankers; do. at short sight, 110¼@110¾; Paris at 60 days, 5.18¼@5.12¾; Paris at short sight, 5.12¼@5.11¼; Antwerp, 5.20@5.12¾; Swiss, 5.15@5.12¾; Hamburg, 36@36¼; Amsterdam, 40@41¼; Frankfort, 42@42¼; Bremen, 77¼@78; Prussian Thalers, 74@75.

Of specie the Scotia takes out $96,000.

We have had a very dull freight market during the past week. The break in the Erie Canal has completely put a stop to the export movement in Corn, and many vessels are now lying in port. Oats have gradually declined, and were as low as 1d. per bush., though we learn of no engagements at that rate. In heavy goods, very little has gone forward, and rates are nominally unchanged. The business in charters has been only moderate, and rates have declined. The engagements to Liverpool, per steamer, are 7,000 bush. Corn at 4d.; 500 boxes Cheese at 20s., and 60 hhds. Tallow at 12s. 6d. To London, 14,000 bush. Corn at 4d. To Glasgow, 20,000 bush. Corn, at 3s. 6d. per quarter, and per steamer, 14,000 bush. Corn at 4¼d. The charters are a Dutch brig, from Philadelphia to Rotterdam, with Petroleum, at 5s. 6d.; a bark to Bristol Channel, with Deals, on private terms; six ships to load with Deals at St. Johns to ports in England, at 70@75s.; a brig to Cork for orders, at 5s.; a Prussian bark to Cork for orders, at 4s. 6d.; a brig from Philadelphia to Cork for orders, with Petroleum, at 5s. 3d.

The business of the Sub-Treasury was: Receipts, $1,260,230 07—for Customs, $482,000; Payments, $660,688 37; Balance, $99,052,846 84—Gold notes, $421,000.

The chief interest of the stock market continues to be in Erie common. Mr. Evans, the English director and reference for the concern, has written for information as to its affairs, to satisfy inquiries which are increasing in urgency. It is stated that Mr. Drew has offered $200,000 to be released from his obligation to lend money to keep the concern going. The question of dividends has been tabled, the deficiencies in the income accounts being too glaring to allow of dividends being discussed even.

The Hamilton Fire Insurance Company, has declared a dividend of four per cent, ex Government tax, payable July 4.

It is stated that the balance sheets of the Harlem Railroad Company for the year shows seven per cent income upon its entire cost, and that a four per cent dividend will probably be made upon both classes of stock.

The railway earnings are showing a general decrease of receipts for the third week in June.

The Chicago and Rock Island Railroad earned the third week in June:

1865.....$80,899 | 1866.....$77,924 | Decrease.....$2,975

The Terre Haute and Indianapolis Road has declared a dividend of 6 per cent.

The following shows the exports (exclusive of specie) from New-York to foreign ports for the week ending June 26, and since the beginning of the year:

The foreign imports to New-York compare as follows:

Dry Goods	$1,254,549	$992,825	$2,074,282

The Cincinnati Gazette of Monday remarks:

In our money market there was only a moderate demand for loans, but the supply for currency continued light, and discounts worked close. Rates of interest in the regular way were very firm at 10@12 per cent, and bankers generally had as much as they could do to supply their regular customers. The exchanges are now in favor of the West, checks on New-York being at a discount in all the principal markets. This promises to continue for some time to come, and must lead to a distribution of the currency, which is over abundant, and largely unemployed in New-York. The rates in our market on Saturday were 1-10@50 discount buying and par selling.

The Boston Traveller of last evening reports:

Monetary affairs are without any essential variations either in the supply of currency, the demand for its use, or the rates of interest for loans on collateral security, or for discounts of commercial notes and acceptances. The banks are lending on call quite freely at five and six per cent and they are taking fair business paper, with two names, from their regular customers at six per cent. In the street the best indorsed notes, having a few months to run, are in demand at six and seven per cent, and other good names are wanted at eight and nine.

At a recent meeting of the Boston Clearing House, it was voted not to receive the bills of State banks on deposit after July 1. At a subsequent meeting, however, this action was so far modified as to allow Boston banks to receive such bills for redemption as formerly—that is, they will receive them on deposit and forward them at once to the bank of issue.

The Chicago Tribune of Monday says:

The money market continues active and close, but there is no positive stringency, and good mercantile and commercial paper is readily discounted at ten per cent per annum. The demand from country banks is less urgent than formerly, and this has contributed to an easier money market. The market for Eastern exchange continues steady and active. Round lots were freely sold among bankers at 1-20 discount, and counter rates ranged from 1 10@1-3 discount buying, and at par selling. The supply at present is fully equal to the demand.

A Columbus dispatch states, relative to the debt of the State of Ohio:

The Commissioners of the Sinking Fund have drawn from the Treasury $350,000 to meet the July interest on the State debt, and $400,000 for the reduction of the principal. This sum, with what is already in New-York, will enable them to reduce the debt $615,000 before they return home. By the close of the present fiscal year the reduction will amount to nearly $1,000,000.

The Michigan Central Road has made its report for the year ending June 1, 1866.

The gross receipts, as stated in the Treasurer's Report, have been		$4,451,229 14
Operating expenses (less new grain house and loss by fire)	$2,532,231 61	
Expended on new grain house	32,465 85

The extra expenses of the year were as follows:

Expenses of new grain house	$32,465
New freight-house	76,815
Loss by fire, less insurance	69,788
Surplus of new rails	64,000
Total	$243,068
Add net income	745,572
Real income	$988,640

or 12 per cent on its stock. The Vice-President says:

It is is expected that the third rail will be laid down by the Great Western Railway Company on their road by the month of October. With its aid there will be a uniform gauge of track from the Atlantic to the Mississippi, between which freight may be transported in both directions without those vexatious delays that have hitherto seriously interfered with our Winter business, and without breaking bulk in its transit from point of shipment to place of delivery. Certain investments in cattle-yards and lands in Chicago, lands in Detroit, and second track to connect at Grand Trunk Junction by double line from Detroit Station, amounting in all to $516,946 42, being permanent improvements, have been charged to construction account. By reference to the Superintendent's Report, it will be seen that the road is in excellent condition, and fully equipped for the anticipated increase in the business.

Markets—CAREFULLY REPORTED FOR THE N. Y. TRIBUNE.

WEDNESDAY, June 27, 1866.

The business of the past week in most staple commodities has been extremely limited, the arrivals of grain in prospect and the unsettled market for gold have induced buyers to hold off, and the sales made were entirely of a retail character. In Provisions, however, we have had an excited and very active market, but prices have gradually declined. Cotton, too, has receded and has fluctuated, the business being only to a moderate extent, and confined chiefly to spinners. Petroleum has been very irregular, and at times somewhat unsettled. Our quotations show a decline.

ASHES continues in good demand, and prices are well sustained; we quote at $8 25 for Pots, and $15 25@$16 for Pearls.

BEESWAX—Yellow Western and Southern have been in moderate request at about previous prices; sales at 40@41c., cash.

BRICKS—The business has been extremely limited but full prices have been obtained for all kinds.

CANDLES have been moderately active, but prices have undergone no essential change; sales at 22@23c. for Adamantine, 20c. for Sperm, and 50c. for Patent.

COFFEE—There has been an improvement in the demand for American Ingot since our last; prices have improved and close very firm at 30@33c. for Baltimore and Lake; New Sheathing are firm at 43@45c.; Yellow Metal is selling at 30c.

COAL—The business in Domestic has been fair at improving rates. Foreign remains dull and prices are nominal. The Delaware and Lackawanna Western Railroad Company offered at auction to day 25,000 tons Scranton Coal; the sale was well attended, the bidding was spirited, and better prices were realized. Mr. J. H. Draper officiated as auctioneer. Annexed are the particulars of this and the last sale;

COTTON—Spinners have been operating rather more freely to-day, but the market is unaffected thereby, and still remains heavy at 37c. for Middling Uplands, and 39@40c. for New-Orleans and Texas; sales of 1,200 bales.

COFFEE—The market for Rio is dull, heavy and nominal at the late concession; we have only to report 262 bags ex Skimmer of the Sea, at 13c. gold, in bond. Other kinds are neglected, and we omit all figures this week as they afford but little idea of the market.

DRUGS AND DYES—We have had a fair demand from the trade for the leading articles under this heading since our last; prices have advanced and are very firm at the close. We quote:

DYEWOODS—With more liberal arrivals and an accumulation of stock our market for both Logwood and Fustic has been very dull, and in the absence of sales prices are entirely nominal. We quote:

FLOUR AND MEAL—Since the date of our last weekly review we have had a very dull and depressed market for the low and medium grades of Western and State Flour. Prices have been very irregular, and have gradually declined. The receipts have been fair, and the stock is accumulating. Good sound Spring Wheat Extras, however, have ruled quite firm, and with only limited arrivals and a small supply on hand holders generally demanded an improvement. The business of the week has been of a retail character. European shippers are entirely out of the market, and we have only to note a moderate demand for South America, West Indies, and the Provinces. To-day (Wednesday) the market was less active, and rather irregular. Common grades were quite heavy, while good sound Spring Wheat Extras and Indiana and Wisconsin grades ruled quite firm. Our annexed quotations show no particular variation from those of yesterday; the sales are: 6,700 bbls., at $6 40@$7 25 for Superfine State; $7 50@$8 60 for Extra do.; $8 90@$9 80 for Fancy do.; $8@$9 10 for the low grades of Western Extra; $9 10@$10 15 for Shipping Ohio; $10 25@$14 for Trade and Family do., and $10 25@$17 for St. Louis Extras. In Canadian Flour there has been no change to note in prices, the business being to a fair extent; sales of 300 bbls. at $9 50@$10 15 for common to good Extra,, and $10 25@$13 50 for Trade and Family do. Southern Flour is in moderate request at yesterday's prices; sales of 275 bbls. at $10 50@$12 for Mixed to good Superfine Baltimore and Country, and $12 15@$17 25 for Trade and Family do. Rye Flour continues firm, with a moderate business; sales of 175 bbls. at $6 75@$7 50. Corn Meal is inactive and nominal.

FISH—Dry Cod has been in fair request, but prices had declined. Mackerel are in small supply, and very firm. Smoked Herrings are fairly active and firm; Pickled Herrings are dull and nominal. We quote:

Dry Cod, ₩ cwt	$6 00 @$6 50
Dry Scale, ₩ cwt	4 50 @ 5 00
Pickled Cod, ₩ bbl	7 00 @ 7 50

FRUIT—Raisins are quiet, and prices more or less nominal. Other descriptions have been in fair demand at about previous prices. We quote:

Raisins, bunch, new do	4 00 @4 10

Brazil Nuts, ₩ lb	15 @ 15½
Filberts, Sicily, do	11½@ 12
Walnuts, French, do	11 @ 12

FIRE CRACKERS have been in more active demand, and prices have improved, closing firm at $3 75 for No. 1 Canton.

GRAIN—In the early part of the week our market for Spring Wheat was very dull, buyers and sellers being wide apart in their views; the break in the canal and the very small supply of choice qualities on hand induced considerable firmness, but with large arrivals in prospect, and no disposition to purchase beyond the immediate wants of millers, buyers generally held off in anticipation of lower prices. On Friday Prime No. 2 and No. 1 Milwaukee were offered at a decrease of 10c. ₩ bush., without leading to sales. On Saturday and Monday the market was inactive and prices nominal. Yesterday a firm feeling prevailed, but no sales were made. To-day (Wednesday) nothing of moment was done, buyers and sellers being apart in their views. Barley and Barley Malt are both dull and nominal. Oats have met with a fair trade demand, but prices have been irregular; to-day the market is inactive; no Wisconsin Oats on the market; we quote New Chicago at 55@57c. Rye has been in good demand and has advanced, but the market closes dull at $1@$1 10 for Western, $1 10@$1 15 for Wisconsin, $1 25@$1 30 for State, and $1 35@$1 38 for Canadian.
