Board adjourned over until Thursday morning.

MONDAY, July 2—P. M.

Gold opened at 154¾, sold down to 153¾, and, in the face of an abundant supply, rose to 154¾ and finally closed at 153 on receipt of the Cuba's news.

Government stocks continue strong, but the sales are not large. In State stocks business is moderate at former rates. The small stocks are neglected, but money is so abundant that holders are not disposed to sell. The interest of the Railway share market centers in Erie, which was forced up to 63¼, with purchases of 10,000 shares by a single broker at the Regular Board. The stock has been held very firmly all day, and closed at 63¾. The Western share list was neglected, but after the call was rather stronger. At the Second Board the market was firm, and afterward in the street closed strong. Reading sold at 105 and closed steadily. The closing prices were: Water Power, 33¾@35; Ohio Certificates, 26¾@26¾; Canton, 54¾@55; New-York Central, 98¾@98¾; Erie, 63¾@64; Reading, 105¾@105¾; Michigan Southern, 77¾@78¾; Cleveland and Pittsburg, 83¾@83¾; Rock Island, 94¾@94¾; North-Western, 34¾@34¾; North-Western Preferred, 59¾@59¾; Fort Wayne, 95¾@96¾.

Exchange is dull and nominal at the following quotations: London, prime bankers, 60 days, 108¾@108¾; London, prime commercial, 108 @108¾; Paris, bankers, long, 5.13¾@5.10; Paris, bankers, short, 5.11¾@5.07¾.

The Cuba brings advices to the 24th. U. S. 5-20s, 65¾@66; Erie, 61¾@61; Illinois, 73¾@74; Canada, 80¾@83.

Money is abundant at 4@5 per cent on call, and in the absence of a funding loan promises to be 3 per cent at an early day. The Sub-Treasury balance on Saturday was reduced $21,555,482, putting at the command of borrowers this additional amount of money, for which there is no employment, except such as can be made by offering capital at extremely low rates. The statement of the public debt for July 1 is expected to be very favorable, and indicates the ability of the Treasury to commence the payment of the temporary loans at an early day. When this is begun, if it is not attended by a loan to absorb the currency thus added to the active capital of the commercial centers, an upward movement may reasonably be expected in gold, stocks and commodities. It is intimated that Congress will the present week take up the funding scheme, and give the Secretary ample powers. He will not be master of the situation until he is authorized to retire legal tenders at discretion. There is still a lingering feling that a 5 per cent loan can be negotiated, but an attempt in that direction will soon convince 5 per cent people of their error. If the Secretary is restricted to 5 per cent, money will remain cheap and abundant enough to stimulate rampant speculation.

TABLE of the Loans, Specie, Circulation, and Deposits in the Banks of the City of New-York, for the week ending Saturday, June 23, 1866.

Names of Banks.	Average Amount of Loans & Discounts.	Average Amount of Specie.	Average Amount of Circulation.	Average Amount of Deposits.	Legal Tenders.
