THURSDAY, July 5—P. M.

Gold has been steady all day, opening at 152¾ and closing at 153¾ after selling at 153¾.

Government bonds are strong at 105 for old 5-20s and 104 for the new; 7-30s are in active request at 103¾. The miscellaneous shares were dull. There were quite large sales of Western Union at 51¾, Mariposa Preferred 23, Atlantic Mail 125.

The railway share list opened very firm. Erie was the most active stock, and the dealings were larger than in the entire balance of the list. The opening figure was 65, but it immediately declined to 64¾, but after the call was run up to 68¾ without bringing out much stock. The price was 67¾. Reading, Michigan Southern and the North-Western shares were also in active demand at improving prices. Toledo was sold at 107¼. The great ease in money is stimulating purchasers for an advance, and the bears see but little chance for any decline in prices so long as it continues. At the Second Board, the market was strong, and after the call there was an active market, Erie, Michigan Southern, and Cleveland and Pittsburgh being the favorites. The closing prices were: New-York Central, 99¾@99¾; Erie, 67¼@67¾; Hudson River, 112¾; Reading, 107@107¼; Michigan Central, 105; Michigan Southern, 80¾@80¼; Illinois Central Scrip, 121¼; Cleveland and Pittsburgh, 83¾@84; Cleveland and Toledo, 107¾; Rock Island, 95@95¼; North-Western, 31¼@31¾; North-Western Preferred, 60¾; Fort Wayne, 97¼.

Money is extremely easy, and large amounts are offered at 4@5 per cent to brokers. For prime bills, the most general rate is 5¼@6¼ per cent, with exceptions at 5 and 7 per cent.

Sterling exchange is steady. The leading drawers of sterling quote 60 days' bills 108¾, but the transactions at that rate are quite limited. London, prime bankers', 60 days, 108¼@108¾; London, prime bankers', sight, 110@110¼; London, prime commercial, 107@108; Paris, bankers', long, 5.20@5.13¾; Paris, bankers', short, 5.12¼@5.08¾; Antwerp, 5.20@5.13¾; Swiss, 5.20@5.13¾; Hamburg, 36¼@37¼; Amsterdam, 40¼@41¼; Frankfort, nominal; Bremen, 78@79; Berlin nominal, 72@74.

The following are the quotations of Compound Interest Notes: June, 1864, 112¾; July, do., 112¾; August, do., 111¼; October, do., 110¾; December, do., 109¾; May, 1865, 107¾; August, do., 106¼; September, do., 106; October do., 105.

The business of the Sub-Treasury was: Receipts $1,699,658 14—for Customs, $639,000; Payments, $3,315,272 53; Balance, $83,093,597—Gold notes, $874,000.

The Germania Fire Insurance Company has declared a semi-annual dividend of five per cent. The Mercantile Fire Insurance Company has declared a half yearly dividend of four per cent. The Park Fire Insurance Company has declared a dividend of five per cent.

The Irving Savings Institution will pay on and after the 16th instant, on all sums entitled thereto, the usual semi-annual dividend at the rate of 6 and 5 per cent per annum, free of government tax.

The earnings of the Chicago and North-western Railway Company for the fourth week in June were:

1866.....$86,728 24	1865.....$253,976 96	Inc.....$ 20,851 38	

A Convention of Railway Managers and Delegates was held at Philadelphia on the 4th to discuss the mutual interests of the corporations thus represented. J. Edgar Thomson of the Pennsylvania Central called the meeting to order. Thirty-two railroads were represented, neither the New-York Central nor Erie being included. An organization was effected by the election of Mr. Thomson as President, Mr. Sturgeon as Vice-President, and L. L. Fremont as Secretary. A committee of five was appointed to present a remonstrance to Congress against the present tariff on iron, the committee consisting of Messrs. Sturgeon, Ingle, Smith, Fink and Ramsey. A resolution was submitted recommending the adding of the amount of the revenue tax to railroad fare. No action was had upon this matter on the first day.

William P. Wright's Circular for China says:

The great dullness incident to this period of the year, aided by the weakness displayed by the Liverpool market, has produced a decline of about two cents per pound, business closing nominal, with scarcely anything doing at the annexed quotations. Exporters are still out of the market, and without more encouraging advices from Europe, they are likely to continue out. I estimate the sales at 6,000 bales. The clearances for the week have been—to Liverpool, 216 bales; Spain, 29. Total, 245 bales.

The Southern Markets show an active business in the early part of the week ending 23d June. By telegraph, I learn that for the week ending 29th June, a very light business was done at a decline of ⅛@¼c. per pound, probably owing to the accounts from Liverpool, the absence of buyers, the difficulty of negotiation, and the rather more favorable accounts of the growing crop. Generally speaking, the season has closed.

The receipts continue to come in at the rate of about 10,000 bales per week at the four chief Southern ports, the most astonishing fact being the unabated arrivals at Savannah. The total since the close of the war now reaches 2,313,000 bales. As far as the foreign export is concerned, the season has virtually closed at the South, and ships are reported sailing with partial cargoes. Last week there was not a single cargo cleared for a foreign port from New-Orleans, and from New-York the exports have been only trifling. Of the disposable stock of cotton remaining in the ports, it is not probable that Great Britain and the continent will get more than a moderate share. What they have got out of the old stocks and out of the last crop, added to what they can possibly get out of the next, is not likely to show a large average supply, and the restoration of the financial equilibrium in Europe would soon force this into view. In anticipation of this, as much cotton as possible will be held over in the South.

The accounts of the growing crop are more favorable upon the whole, but only so far as the weather is concerned. The drawbacks on the other scores, of lack of labor, inferiority of seed and circumspection of area planted are unabated and admit of no more favorable report this season.

Wholesale N. Y. Prices of Country Produce.

FOR THE WEEK ENDING July 5, 1866.

(Expressly for THE N. Y. TRIBUNE by our own Reporter.)

The following are the current rates of articles in good condition, as sold by commission houses at wholesale. Shippers receive 5 to 10 ⅌ cent less, deducted for commissions, beside freight and other charges. Parties receiving produce to sell, often with the request that immediate returns be made, cannot always obtain the prices which transient buyers have to pay. Our figures are intended more for the farmer than the merchant, and we prefer not to disappoint by giving the outside prices of very choice articles.

BEANS AND PEAS.

Beans are quiet with little call, but the light arrivals cause a firm tone in the market. Choice Mediums are held at $2 12½. We quote:

Beans, pea, prime, ⅌ bush	$2 10@$2 25
Beans, medium prime, ⅌ bush	2 00@ 2 10
Beans, kidney ⅌ bush., prime	2 50@ 2 60
Beans, marrow, prime	2 50@ 2 60
Beans, marrow, hand-picked or screened	2 60@ 2 75
Beans, inferior	1 00@ 1 50
Peas, Canadian ⅌ bush	1 15@ 1 25
Peas, Southern blackeyed, ⅌ bush	1 50@ 1 70

BUTTER.

Receipts of Western are light, and with a fair home demand choice lots are firmer. Orange County pails were advanced 5c. this morning, the best bringing 45c. This butter goes up or down 5c. at a time. It may be noted, however, that after the pickils taken at that price the bulk is sold at 38@40c. The best Western Reserve is bringing 32@33c., with single packages, selected, at 35c. About the only demand is for extra trade, the latest accounts from California being adverse to shipping butter there. Choice butter, for family use is really very scarce, and if it does not come in more freely fine Western will advance as soon as the present rise on pails is generally known. We quote:

Half firkins, fine, Yellow, ⅌ lb	38@40
Firkins, State, prime, ⅌ lb	38@40
State medium, ⅌ lb	33@37
Orange Co. and Up-River pails, ⅌ lb	40@45
Western Reserve, Yellow	31@33
Western Reserve, medium	28@30
White and Mixed, store packed	23@26
Chicago, Wisconsin, &c., ⅌ lb	26@29
Pennsylvania tubs and pails	33@35
State tubs, Welsh	28@30

CHEESE.

A few European buyers are operating with the expectation of higher prices in England. The European war will cut off the German cheese, and probably help the sale of American. Still the present accounts from abroad do not warrant paying what many lots now in the city have cost. Prices are a little firmer than last week. A really fine Factory of 600 boxes Herkimer Co., was turned out to day, at 16½c., but this was considered a fancy price. A lot of 800 farm dairy sold with them at 16@17½c, with a few choice at 17½c. The home trade has to pay 18 and 20c. for their cheese. Many soft and poor cheese are sold at 10@12c.—one lot, very soft, at 7c. Several lots fancy Factory are held at 20c., and some new Pineapple is limited at 25c. We quote:

English Dairy, skimmed, ⅌ lb	10@14
English Dairy, fine, ⅌ lb	17@18
Factory, fair to good, ⅌ lb	17@18
Factory, prime, ⅌ lb	19@19½
Farm Dairy, prime State	17@18
Ordinary to good State, ⅌ lb	10@16
White, skimmed, ⅌ lb	6@10

EGGS.

The stock on hand was pretty well run down for the Fourth, and with moderate receipts to-day we quote an advance of about 1c, though the market is in an unsettled state and Western eggs vary so much in quality. Buyers insist on loss off, and rather than sell Ohio eggs at 21c., letting the purchaser make his own returns, as the dealer cannot possibly examine them himself, holders prefer selling at an agreed loss, or at 20@21c. at the mark. Fresh New-Jersey and other near by eggs will bring 22c to-day by the single barrel. We quote:

New-Jersey and Pennsylvania fresh, ⅌ doz	25@26
State, good marks	24@25
Southern and Western, ⅌ doz., good order	22@24
Duck Eggs, ⅌ doz	30@32
Egg Oats, ⅌ bush, good	45@50

FRUITS AND BERRIES.

Berries are crowding each other, not in quantity, but in variety. We still have a few strawberries—small baskets of very small berries brought 7c. to-day—both red and black raspberries, whortleberries, and now we find the wild blackberry or dewberry on sale from Maryland and Delaware. Beach plums are also coming from Delaware and bring $2 per peach basket. One firm received 200 boxes peaches from the South to-day, but coming in propellers, and being so long on the way, they were generally in bad order and sold all the way from 50c. to $6 per crate. If in fine order they would have been worth $10@$12. Some pears came with them, but they are not in quoting or salable condition. We quote:

Apples, new, Norfolk, ⅌ bbl	$4 00@$5 00
Blackberries, wild, ⅌ qt	15@ 25
Cherries, good, ⅌ lb	12@ 14

Raspberries, Doolittle, black, ⅌ ½ quart	10@ 12
Whortleberries, ⅌ bush	6 00@ 8 00

FRUITS AND NUTS DRIED.

Dried Apples are firmer on account of scarcity; in a small way they bring 20c. We quote:

Apples, sliced, ⅌ lb	20@21
Apples, prime State, ⅌ lb	18@19
Apples, Southern & Western, ⅌ lb	14@17
Blackberries, ⅌ lb	35@40

VEGETABLES.

New potatoes have declined suddenly and heavily, and carried old down with them. Present quotations are of little value for other than the day of date. Cucumbers and squashes sell very slowly. They are now coming from Long Island and New-Jersey. Tomatoes are lower. South Carolina muskmelons came in in poor condition—a lot was sold to wagon peddlers at $5 per 100. We quote:

ROMAN LOAN.

AMERICAN ISSUE—FOUR MILLION DOLLARS.

To insure the Treasury of the States of the Holy See complete independence during the negotiations pending between the Governments of France and Italy for the liquidation of the Papal State debt, His Holiness, Pope Pius IX., by Pontifical Act of the 11th of April, 1866, decreed the emission by subscription of the loan now offered to the public.

Although former loans have commanded nearly par, His Holiness, in view of the present condition of monetary matters, not wishing to impose a burdensome sacrifice upon those willing to assist him in surmounting his present temporary embarrassments, as well as to present inducements to capital, has decided to issue this loan at sixty-six (66) dollars gold for the one hundred dollar gold bond.

The Bonds, payable to bearer, are of 500 francs, or $100 (gold), each bearing 5 per cent interest per annum in gold, the coupons payable semi-annually, on the 1st of April and the 1st of October, in Paris, or in New-York, Philadelphia and New-Orleans, at the current rate of exchange. The issue being at $66 (gold), will give more than 7½ per cent interest on the investment.

From 1870, $12,000 will be annually appropriated for the purchase of the Bonds. The amount of interest of those canceled will be applied to the further reduction of the debt.

It is believed this loan will commend itself to capitalists generally, and undoubtedly will to all good Catholics having at heart a desire to prove that his Holiness never addresses himself to them in vain.

No investment can present greater security than one guaranteed, as this is, by the pledged faith of a State which has always punctually fulfilled every engagement of its Pontifical Head.
