WEDNESDAY, July 11—P. M.

Gold closed at 150½ after selling at 149¾@150½. The Sub-Treasury took out $792,826 in specie.

The activity in gold-bearing Government securities continues, and full prices are paid for all the issues. Another line of $1,000,000 of new 5-20s was sold at 105. The 7.30s are firm at 103¾. In Railway mortgages and State stocks the transactions are increasing, and full prices are paid. Fourth National Bank rose two per cent. The small stocks are more active. The Erie speculation continues rampant, and as high as 76½ was paid by frightened bears. The closing rate was 74½. The whole market sympathizes with Erie and is higher with special activity in Michigan Southern and North-Western stocks. After the call Erie was lower, selling down to 74½. At the Second Board, the market was lower in sympathy with Erie, and after call was heavy. The closing prices were: Canton, 51; Quicksilver, 51@52; New-York Central, 99½@99¾; Erie, 74@74½; Hudson River, 114½@114¾; Reading 107@107¼; Michigan Central, 105@106; Michigan Southern, 81@81½; Illinois Central Scrip, 122@122½; Cleveland and Pittsburgh, 85@85½; Cleveland and Toledo, 109½; Rock Island, 96½@96¾; North-Western, 34@34½; do. Preferred, 63½@63¾; Fort Wayne, 98¼@98½.

Money is very irregular, and some brokers of first rate standing pay 6 per cent on call, and other houses have refused loans for 90 days at 4 per cent on ordinary collaterals. In commercial paper no special change.

Freights are firm. The engagements to Liverpool are 60,000 bush. Corn at 4½c. A bark to Cette with staves on private terms.

The business of the Sub-Treasury was: Receipts, $1,770,311 80—for Customs, $566,000; Payments, $917,233 78; Balance, $89,847,020 89—Gold notes, $306,000.

The Niagara Fire Insurance Company have declared a semi-annual dividend of five per cent, free of tax, payable on the 16th inst. Notwithstanding the loss of $90,000 by the Portland fire, the Niagara have contributed $1,000 toward the relief of the sufferers.

The Lafayette Insurance Company of Brooklyn have declared a semi-annual dividend of five per cent, free of Government tax, payable on the 16th of July.

The Mechanics' and Traders' Fire Insurance Company have declared a dividend of five per cent, free of Government tax, payable on demand.

The Lamar Fire Insurance Company has declared a semi-annual dividend of 5 ⅌ cent, free of Government tax, payable on demand.

The following shows the exports (exclusive of specie) from New-York to foreign ports for the week ending July 10 and since the beginning of the year:

	1864.	1865.	1866.
For the week	$4,264,707	$1,757,282	$2,091,882
Prev. reported	87,220,225	78,026,439	107,081,227
Since January 1	$92,747,932	$80,033,722	$109,173,109

The quantity of flour, wheat, corn and barley left at tide-water during the fourth week in June, in the years 1865 and 1866, was as follows:

	Flour, bbls.	Wheat, bush.	Corn, bush.	Barley, bush.
1865	20,000	518,000	424,000	3,500
1866	7,300	92,800	380,400	1,000
Dec	13,500	Dec. 425,700	Inc. 46,100	Dec. 2,500

The aggregate quantity of the same articles left at tide-water from the commencement of navigation to the 30th of July, inclusive, during the years 1866, was as follows:

	Flour, bbls.	Wheat, bu.	Corn, bu.	Barley, bu.
1866	189,600	1,465,300	1,709,200	163,700
1865	57,700	617,900	4,200,600	30,800
Dec	131,900	Dec. 847,900	Inc. 2,490,600	Dec. 99,000

By reducing the wheat to flour, the quantity of the latter left at tide-water this year, compared with the corresponding period last year, shows a deficiency of 301,000 bbls. flour.

The following comparative table shows the quantity of some of the principal articles of produce left at tide-water from the commencement of navigation to and including the 30th of June in the years indicated:

Canal opened.	1864. April 30.	1865. May 1.	1866. May 1.

The Chicago Tribune of Monday says:

The money market during the week has ruled quite stringent, and bankers have generally been under the necessity of restraining borrowers. Owing to the heavy receipts of corn and great activity in the shipment of produce generally, there has been a greater demand for money both by city and country merchants, and currency had to be telegraphed for in New-York to supply the requirements of trade and commerce. To-day the market is, perhaps, easier than in the earlier part of the week, but it is still very close. The rate of discount at the banks is steady at 10 per cent per annum, but street rates are firm at 1@1¼ per cent per month.

The total value of foreign goods imported into the port of Boston for the week ending July 6 was $386,685, against $398,144 for the corresponding week in 1865. Total amount of imports from January 1 to July 6, 1866, $24,712,424.

The Boston Traveller of yesterday reports that

Capitalists do not experience any difficulty in finding borrowers of money on good security at 6 per cent and upward, for short periods; and the same rate was charged by the institutions, both to regular and transient customers. The note market is a little more active than it has been of late, and there is a better supply of prime paper for sale, which is readily disposed of at the legal bank rate, and some instances at a little under. The inferior grades are negotiated in the street at very less facility. The general stock market is a little more lively, and there is an increased disposition manifested to buy at the reduced quotations. The solid investments are rather scarce, and no large amounts could be purchased without causing an advance in prices. There are more orders to buy than to sell dividend-paying securities, but shares in mining companies, with a few exceptions, are somewhat neglected by the operators at present.

The Times says the operating expenses of the Erie Road in 1865 were only 67 per cent. The writer does not believe it, whatever his readers may do, and knows that $1,818,539 more were really operating expenses than were charged as such. The company may be obliged to cook its accounts, but there is no reason why he should adopt these false statements.

Foreign exchange closes firm for the steamer. Bills at 60 days on London are quoted at 107¼@108¾ for commercial; 108¾@109¾ for banker's; do. at short sight, 110¼@110¾; Paris at 60 days, 5.17½@5.08¾; do. at short sight, 5.11¼@5.05; Antwerp, 5.20@5.10; Swiss, 5.12½@5.10; Hamburg, 36¼@37½; Amsterdam; 40¼.

The following shows the specie movements at New-York in June:

Imports from foreign ports	$34,540
Received from California	1,[illegible]1,647
Total receipts	$1,959,923
Exports to foreign ports in April	15,898,956
Loss in June	$13,939,733
Imports since January 1	1,198,168
Receipts from California since January 1	16,483,069
Receipts since January 1	$17,681,195
Exports since January 1	45,782,430
Loss since January 1, 1866	$28,118,235

The earnings of the Chicago and North-Western Railroad Company for the first week in July were:

1866.....$193,702 98 | 1865.....$176,193 18 | Inc.....$14,509 80

The following are the comparative earnings of the Detroit and Milwaukee Railroad for the week ending July 5:

1866.....$35,537 | 1865.....$36,444 | Dec.....$907

The Michigan Southern road shows in the first week of July an increase in earnings of $10,598; the North-Western a gain of $14,000, and the Rock Island a decrease of $18,651.

Markets—CAREFULLY REPORTED FOR THE N. Y. TRIBUNE.

WEDNESDAY, July 11, 1866.

Since our last weekly review we have had a good degree of activity in Breadstuffs, more especially in Indian Corn; this has been taken quite freely for investment, with a good export inquiry, but at lower and irregular prices; we notice a demand for good Extra State Flour for export to London, but the small stock and current high prices have prevented the filling of most orders; Cotton, Petroleum and Naval Stores have declined, and have ruled very heavy.

ASHES—The inquiry for Pots is limited, but with a small supply prices are firmer; sales at $8 25@$8 37½. Pearls, too, are scarce, but in the absence of sales prices are nominal at $16@$17.

BEESWAX—With a large supply on hand and only a moderate inquiry the market is easier, and we note small sales at 40@41c. for Western Yellow.

COFFEE—We notice some inquiry for Rio, but prices have undergone no particular change.

COTTON—The market is dull and heavy; sales of 600 bales at 35@36c. for Middlings, and 37@38c. for Orleans.

COAL—The inquiry for Domestic continues good for the Eastern and local trade, and cargo prices are well maintained; the arrivals are large, but the consumption is equally so, although the stock is larger than last year. Foreign is in fair demand and is firm; the supply is limited; we hear of an sale of a cargo of Little Glace Bay at $8 87½, cash.

CANDLES—We have no change to note since our last. The demand continues moderate, at 23@24c. for Adamantine, 40c. for Sperm, and 50@52c. for Patent.

COPPER—The inquiry for American Ingot has been fair, and prices are well sustained; sales of 470,000 lb. closing at 33½@34c. for Baltimore and Lake, including sales for August, delivery at 33c.; New Sheathing are selling at 45c., and Yellow Metal at 33c.

DRUGS AND DYES—The inquiry from the trade for all articles under this heading has been fair, but in the absence of any speculative demand the sales have been limited, and prices are nominally unchanged. We quote:

Alum, ⅌ lb	3½@ 4
Arsenic, Powdered, ⅌ lb	3 @ —

FLOUR AND MEAL—We have had a fair degree of activity in our market for Western and State Flour since the date of our last weekly review, but in prices considerable variableness was noticeable. Common and inferior grades have arrived more freely, and with an increased stock holders were compelled to submit to a decline. Good sound Spring Wheat Extras, however, are comparatively scarce, and with a good demand prices have improved. To-day a more active inquiry prevailed, but with more desire to sell, prices fell off 10@25c. ⅌ bbl., closing unsettled. Fancy brands of State Flour are scarce and in good demand at full prices. New Flour is more plenty and is lower. The sales are 9,800 bbls. at $6 20@$7 25 for Superfine State, $7 60@$8 75 for Extra do., $8 25@$10 25 for Fancy do., $7 90@$8 20 for the four grades of Western Extra, $9 15@$10 20 for Shipping Ohio, $10 20@$13 75 for Trade and Family brands, and $13 50@$16 75 for St. Louis Extras. Canadian Extras are 10@25c. lower on the common grades, but good Club Extras are firm and in good demand; sales of 350 bbls. at $9 50@$10 15 for common to fair Extra, and $10 25@$13 75 for Trade and Family brands. Southern Flour is in moderate supply, but with a limited demand prices are lower; sales of 350 bbls. at $10 35@$12 for common to fair Country and Baltimore, and $12 20@$17 40 for Trade and Family brands. Rye Flour is dull, heavy and lower; sales of 200 bbls. at $6 75@$7 25. Corn Meal is more active; sales of 400 bbls. at $4 75 for Jersey, $5 10 for Marsh's Caloric, and $5 25@$5 30 for Brandywine.

FISH.—The business in Dry Cod during the week has been extremely limited, and prices fell off, but at the close there is more tone to the market, and holders demand an advance. Mackerel are in good demand, and prices have advanced. Pickled and Smoked Herrings are in small supply and firm; the latter are in demand, but the former are quiet. We quote:

Dry Cod, ⅌ cwt	$6 00@$6 25

FEATHERS are without change; sales at 80@85c. for Prime Tennessee; and do. Western, 90@95c.

GRAIN—There has been an improvement in the demand for Spring Wheat since this day week, but with more liberal arrivals both present and prospective holders were compelled to submit to a concession; the inquiry has been entirely from millers but the sales made were just such lots as to supply actual wants. Winter Wheat too, has been extremely dull, and prices favored the purchaser. Yesterday the market was very dull, and prices fell off 5@10c. per bush. To-day (Wednesday) a better milling demand prevailed, and prices improved 2@3c. per bush., closing firm; the sales are 7,000 bush. No. 2 Milwaukee Club at $2 45, 7,000 Prime (No. 1 and No. 2) do. at $2 20, 4,000 No. 1 at $2 22, and 7,000 do. at $2 20. Barley and Barley Malt are both very dull, and prices are nominal. Oats are in fair demand and quite firm; sales of 60,000 bush. at 52@53c. for Chicago, 55@56c. for Milwaukee, 70c. for Iowa, and 90c. for State. Rye is in fair demand, but easier; sales of 14,500 bush. Western at 90c.@$1 05. In Corn we have had a brisk demand, prices have fluctuated considerably, and at times much depression was noticeable; the receipts have been more liberal, and our stock is accumulating. To-day the business was done in part for export, but prices are lower; sales of 224,000 bush. at $1@$1 00c. for Unsound, 86½@87½c. for New Mixed Western, a small lot Choice at 88c., and 90c. for Yellow Western. Since Change, there was less firmness in Wheat, buyers held off for lower prices; Amber Club was freely offered at $2 30. Corn was held firmer, 87½c. being bid and refused, for prime 88c. asked. In Oats a large speculative movement took place; about 200,000 bush Chicago sold at from 53 to 55c.

LEAD—The inquiry for Scotch Pig has been quite active and the market at times very excited. There have been large speculative purchases of foreign; prices have advanced and close firm at $7 37½@$7 50 for Spanish, German Refined and English, all gold. Bar at $11 50, and Sheet and Pipe at $11 44.

LIME—Rockland has been in good demand and prices ruled firm; sales at $1 50 for Common, and $1 10 for Lump.

LATHS—Eastern has been in very good demand, but in prices no particular change has occurred; we quote at $3 75@$3 84.

MOLASSES—The market is scarcely so firm, but a better inquiry prevailed, and we note sales of 450 hhds. Cuba Centrifugal on private terms, and 303 hhds. Muscovado, part at 54c.

NAVAL STORES—Spirits Turpentine has been dull; prices fell off and closed heavy; stock, 4,000 bbls. Crude Turpentine is lower and is dull; stock, 1,000 bbs. Rosins have been rather dull and prices have declined, closing heavy. Tar has ruled quite firm, with a moderate business. We quote:

Turpentine, North County	⅌ 280 lb $ — @$5 25
Tar, Washington and Newberne	⅌ bbl. 2 75 @ 3 25
Pitch, City, No. 1	— 3 50 @ —

OIL CAKE—The demand is moderate and the supply larger; sales of 180 tuns at $48 for City in bbls., gold, and $32 in currency for Western This Obiong is high.

PROVISIONS—The market for Mess Pork has been comparatively quiet during the past week, the speculative demand having in a measure subsided; prices have been without violent fluctuations, though rather favoring the buyer. As usual at this season of the year, there is a fair consumptive inquiry, principally to supply the outswing market and ports in the West Indies. For forward delivery very little has been done. The small stock of prime Mess is held with much firmness at better prices, great confidence being felt by holders in view of an almost certain demand from the European armies now in the field, while our own Government at all times is supplying their wants, give this style of Pork the preference. Prime and Extra Prime Pork are also scarce and are better, owing in a great measure to the ease with which they can be converted into Prime Mess at a fair profit. To-day only a limited demand prevailed for Mess, and prices favored the buyer, the trade only buying for their immediate wants; nothing has been done for forward delivery; the sales, cash and regular, are 2,700 bbls. at $31 87@$31 87½. Beef is dull, but with no increase in the stock prices are well sustained; sales of 200 bbls. at $16@$20 for New Plain Mess, and $18@$20 for New Extra do. Tierce Beef is in small request, but prices are unchanged. Beef Hams are dull, but firm. Cut Meats are scarce, and wanted in part for the West; prices are firm; sales of Shoulders at 10@10½c., and Hams in salt at 19@19½c. Bacon is firm and in fair demand; sales of 150 boxes, reported at 19½c. for Ohio, Ind., and Ill. on t. Lard is dull, and closes heavy at 20½@20¾c. for Kettle Rendered.

AFTERNOON PROVISION MARKET, 4 o'clock.—Pork very dull and prices are nominal at $31 87½@$32 cash and regular for Mess. Other Provisions are dull and nominal.

PETROLEUM—We have had a very dull and depressed market for both Crude and Refined in bond; the receipts have been more liberal and with a decline in gold and only a limited export inquiry prices have gradually declined and closed heavy at 22c. for Crude; 38½@39½c. for Refined in bond, and 55@58c. for do free.

RICE is dull, and prices are nominal.

SUGAR—Raw Sugars are moderately active, but prices are rather in buyers' favor; we quote at 10½@10¾c. for fair to good Refining; sales of 740 hhds. Cuba at 10½@11c., and Demerara on private terms; also, 305 boxes Havana at 10½@12c. Refined are dull, but prices are without change.

SALT—The market for Liverpool is very firm, and with no arrivals and a diminished stock, holders do what little there is on hand and generally demand an advance. West India styles are dull but steady. We quote:

Duty: Sack 24c ⅌ 100 lb; Bulk, 13c. ⅌ 100 lb.

Liverpool, Ground, ⅌ sack	$1 60@$1 70

REMARKS.—Of late the wholesale butchers pay but little attention to the Cambridge trade—their main reliance being on the Western cattle. This is one reason for the comparatively small number of buyers at Cambridge on Tuesday morning. Trade appeared to be rather dull; stock was rather poor, and we thought prices were about the same as last week. Trade were about 250 in all over the Northern roads. We heard of no sale over 13½ cents; 13½c. sent much at 11 to 12 cents per lb. Mr. Campbell of Vermont, Mr. Philbrick of New-Hampshire and Mr. Rice of New-York sold the best of their droves at 13½ cents. At Br
